GARY N. CALKINS, Ph.D.....	Professor of Invertebrate Zoölogy
PHILIP HANSON HISS, Jr., M.D., Ph.D.....	Adjunct Professor of Bacteriology
MARGARET E. MALTBY, Ph.D.....	Adjunct Professor of Physics in Barnard College
CASSIUS JACKSON KEYSER, Ph.D....	Adrain Professor of Mathematics
HERSCHEL C. PARKER, Ph.B.....	Adjunct Professor of Physics
CHARLES AUGUSTUS STRONG, A.B.....	Professor of Psychology
HARLAN FISKE STONE, A.M., LL.B.....	Adjunct Professor of Law

¹ Absent on leave

MARSHALL H. SAVILLE	Loubat Professor of American Archæology
GEORGE L. MEYLAN, A.M., M.D.	Adjunct Professor of Physical Education and Medical Director of the Gymnasium
¹ ERNEST F. NICHOLS, Sc.D.	Professor of Experimental Physics
CHRISTIAN A. HERTER, M.D.	Professor of Pharmacology and Thera- peutics
JAMES B. SCOTT, A.M., J.U.D.	Professor of Law
AMASA TROWBRIDGE, Ph.B.	Adjunct Professor of Mechanical Engineering
ELIJAH WILLIAM BAGSTER-COLLINS, M.A.	Adjunct Professor of German in Teachers College
LOUIS ROUILLION, M.A.	Adjunct Professor of Manual Training in Teachers College
MAURICE A. BIGELOW, Ph.D.	Adjunct Professor of Biology in Teachers College
FREDERICK H. SYKES, Ph.D.	Director of Extension Teaching
JOSEPH A. BLAKE, M.D.	Professor of Surgery
SAMUEL W. LAMBERT, M.D.	Professor of Applied Therapeutics
GEORGE H. FOX, M.D.	Professor of Dermatology
VIRGIL P. GIBNEY, M.D., LL.D.	Professor of Orthopædic Surgery
WILLIAM K. SIMPSON, M.D.	Professor of Laryngology
ARNOLD H. KNAPP, M.D.	Professor of Ophthalmology
GORHAM BACON, M.D.	Professor of Otology
JAMES R. HAYDEN, M.D.	Professor of Genito-Urinary Diseases
EUGENE HODENPYL, M.D.	Adjunct Professor of Pathological Anatomy
HERMAN T. VULTÉ, Ph.D.	Adjunct Professor of Domestic Science in Teachers College
HERBERT VAUGHAN ABBOTT, A.B.	Adjunct Professor of English in Teachers College
FRANCIS CARTER WOOD, M.D.	Adjunct Professor of Clinical Pathology
LEA McILVAINE LUQUER, Ph.D.	Adjunct Professor of Mineralogy
¹ LOUIS AUGUSTE LOISEAUX, B.S.	Adjunct Professor of the Romance Languages and Literatures
WILLIAM ADDISON HERVEY, A.M.	Adjunct Professor of the Germanic Languages and Literatures
FREDERICK R. BAILEY, M.D.	Adjunct Professor of Normal Histology
RUDOLF TOMBO, JR., Ph.D.	Adjunct Professor of the Germanic Languages and Literatures
BRADLEY STOUGHTON, B.S.	Adjunct Professor of Metallurgy
JOHN ANGUS MAC VANNEL, Ph.D.	Adjunct Professor of the History of Education in Teachers College
RUSSELL BURTON-OPITZ, M.D.	Adjunct Professor of Physiology
LEONARD BEECHER MCWHOOD, A.B.	Adjunct Professor of Music
JOEL ELIAS SPINGARN, Ph.D.	Adjunct Professor of Comparative Literature
MAXIMILIAN K. KRESS, A.M.	Adjunct Professor of Architecture

¹ Absent on leave

LUCIUS W. HOTCHKISS, M.D. Clinical Lecturer and Instructor in
Surgery

JOHN B. WALKER, M.D. Clinical Lecturer in Surgery
(17)

Instructors

Note—For the Instructors and other Officers not of Professorial Grade in Teachers College, in the College of Pharmacy, and in the Summer Session, see the Table of Contents.

JAMES S. C. WELLS, Ph.D. Instructor in Analytical Chemistry

CHARLES A. HARRIMAN Instructor in Architectural Drawing

GRENVILLE TEMPLE SNELLING, B.S. Instructor in Architectural
Engineering

EDWARD LEAMING, M.D. Instructor in Photography

WILLIAM S. STONE, M.D. Chief of Clinic and Instructor in Gynecology

GEORGE R. LOCKWOOD, M.D. Instructor in Medical Diagnosis

WILLIAM K. DRAPER, M.D. Instructor in Medical Diagnosis

HORNE VAN NORRIE, M.D. Instructor in Physical Diagnosis

ROYAL WHITMAN, M.D. Instructor in Orthopædic Surgery

ROBERT LEWIS, Jr., M.D. Chief of Clinic and Instructor in Otolaryngology

FRANK W. JACKSON, M.D. Instructor in Medical Diagnosis

GEORGE T. JACKSON, M.D. Chief of Clinic and Instructor in
Dermatology

CHARLES PRENTICE BENNS, M.E. Instructor in Shop-work in Teachers
College

CHARLES NORTH DOWD, M.D. Instructor in Surgery

GEORGE MONTAGUE SWIFT, M.D. Instructor in Medicine

RICHARD FROTHINGHAM, M.D. Instructor in Laryngology

CHARLES CONRAD SLEFFEL Instructor in Forging in Teachers College

CHARLES W. WEICK, B.S. Instructor in Wood-working and Pattern-
making in Teachers College

WALTON MARTIN, M.D. Instructor in Surgery

ALBERT E. SUMNER, M.D. Chief of Clinic and Instructor in
Physical Diagnosis

E. MILTON FOOTE, M.D. Instructor in Surgery

CHARLES H. PECK, M.D. Instructor in Surgery

WARREN S. BICKHAM, M.D. Assistant Instructor in Operative Surgery

ALFRED S. TAYLOR, M.D. Assistant Instructor in Operative Surgery

JOSEPH C. PFISTER, A.M. Instructor in Mechanics

ADOLPH BLACK, C.E. Instructor in Civil Engineering

EDWARD LAWRENCE KURTZ, E.M. Instructor in Mining

HENRY CLAPP SHERMAN, Ph.D. Instructor in Analytical Chemistry

PEARCE BAILEY, M.D. Chief of Clinic and Instructor in Neurology

ARTHUR M. SHRADY, M.D. Instructor in Physical Diagnosis

JOHN HENRY LARKIN, M.D. Instructor in Pathology and Curator of
the Museum

WILLIAM ROBERT SHEPHERD, Ph.D. Instructor in History

RICHARD H. CUNNINGHAM, M.D.....	Instructor in Electro-Physiology and in Neurology
HENRY WOOLFE BERG, M.D.....	Instructor in Infectious Diseases
LINNAEUS EDFORD LA FETRA, M.D....	Chief of Clinic and Instructor in Pediatrics
CHARLES C. TROWBRIDGE, M.S.....	Instructor in Physics
FRANK LEO TUFTS, Ph.D.....	Instructor in Physics
DANIEL JORDAN, B.S., Pd.B....	Instructor in the Romance Languages and Literatures
ARTHUR F. J. REMY, Ph.D.....	Instructor in the Germanic Languages and Literatures
¹ JAMES T. SHOTWELL, Ph.D.....	Instructor in History
GEORGE W. BOTSFORD, Ph.D.....	Instructor in History
CHARLES EDWARD LUCKE, M.S., Ph.D.....	Instructor in Mechanical Engineering
NORMAN E. DITMAN, M.D.....	Instructor in Pathology
A. EMIL SCHMITT, M.D....	Assistant Instructor in Operative Surgery
WARD A. HOLDEN, M.D..	Chief of Clinic and Instructor in Ophthalmology
FRANK S. MATHEWS, M.D.....	Instructor in Gynecology
FRANK R. OASTLER, M.D.....	Instructor in Gynecology
HOWARD C. TAYLOR, M.D.....	Instructor in Gynecology
HENRY H. TYSON, M.D.....	Instructor in Ophthalmology
ALBERT P. WILLS, Ph.D.....	Instructor in Mechanics
ROBERT SESSIONS WOODWORTH, Ph.D.....	Instructor in Psychology
ALFRED H. GUMAER, B.S.....	Instructor in Architectural Design
FORBES HAWKES, M.D.....	Instructor in Surgery
CLARENCE A. McWILLIAMS, M.D.....	Instructor in Surgery
A. M. MILLER, A.M.....	Instructor in Normal Histology
MYRON SAMUEL FALK, Ph.D.....	Instructor in Civil Engineering
ADRIAN VAN SINDEREN LAMBERT, M.D.....	Instructor in Surgery
CARLETON P. FLINT, M.D.....	Instructor in Minor Surgery
EUGENE HILLHOUSE POOL, M.D.....	Instructor in Surgery
OLIVER S. STRONG, Ph.D.....	Instructor in Normal Histology
ALFRED NEWTON RICHARDS, Ph.D.....	Instructor in Pharmacology
ALVIN S. JOHNSON, Ph.D..	Instructor in Economics and Social Science
JAMES FARLEY McCLELLAND, E.M.....	Instructor in Mining
MARIE REIMER, Ph.D....	Instructor in Chemistry in Barnard College
AUGUSTUS B. WADSWORTH, M.D.....	Instructor in Bacteriology
JAMES C. AYER, M.D.....	Assistant Instructor in Operative Surgery
WILLIAM CAMPBELL, Ph.D., M.Sc.....	Instructor in Metallurgy
GEORGE SLOAN DIXON, M.D.....	Instructor in Otology
T. STUART HART, M.D.....	Instructor in Physical Diagnosis
WILLIAM P. HEALY, M.D.....	Instructor in Gynecology
JOHN HOWLAND, M.D.....	Instructor in Contagious Diseases
JAMES A. MILLER, M.D.....	Instructor in Physical Diagnosis
CHARLES J. PROBEN, M.D.....	Instructor in Gynecology

¹ Absent on leave

(79)

BERN B. GALLAUDET, M.D..Demonstrator of Anatomy and Instructor
in Surgery
CHURCHILL CARMALT, M.D.....Assistant Demonstrator of Anatomy
ARTHUR SEYMOUR VOSBURGH, M.D.....Assistant Demonstrator of
Anatomy
HENRY E. HALE, M.D.....Assistant Demonstrator of Anatomy
HAVEN EMERSON, M.D.....Demonstrator of Physiology
EDMUND L. DOW, M.D...Demonstrator in Pathological Anatomy and
Tutor in Medicine
WILLIAM DARRACH, M.D.....Assistant Demonstrator of Anatomy
LEANDER H. SHEARER, M.D....Assistant Demonstrator of Physiology
GEORGE A. TUTTLE, M.D.....Demonstrator in Pathological
Anatomy
ARTHUR WALKER BINGHAM, A.B., M.D....Assistant Demonstrator of
Physiology
CHARLES RUSSELL LOWELL PUTNAM, M.D....Assistant Demonstrator
of Anatomy
HERMANN VON W. SCHULTE, M.D.....Assistant Demonstrator of
Anatomy
EDWARD A. SPITZKA, M.D.....Assistant Demonstrator of Anatomy
HARRY M. KEATOR, M.D..... Assistant Demonstrator of Physiology
HORST OERTEL, M.D.....Demonstrator in Pathological Anatomy

(15)

LOUIS H. LAUDY, Ph.D.....Tutor in General Chemistry
CHARLES P. WARREN, A.M.....Tutor in Architectural Construction
CARLTON CLARENCE CURTIS, Ph.D.....Tutor in Botany
SAMUEL A. TUCKER, Ph.B.....Tutor in Industrial Chemistry
RUDOLF TOMBO, Sr., Ph.D.....Tutor in the Germanic Languages and
Literatures
S. ALFRED MITCHELL, Ph.D.....Tutor in Astronomy
FITZHUGH TOWNSEND, A.B., E.E....Tutor in Electrical Engineering
HENRY BEDINGER MITCHELL, A.M.....Tutor in Mathematics
EDWARD KASNER, Ph.D.....Tutor in Mathematics
SAMUEL OSGOOD MILLER, C.E.....Tutor in Drawing

HENRY BARGY, A.M.....	Tutor in the Romance Languages and Literatures
CAVALIER HARGRAVE JOÛET, Ph.D.....	Tutor in Analytical Chemistry
GEORGE H. LING, Ph.D.....	Tutor in Mathematics
DAVID BOVAIRD, M.D.....	Tutor in Medicine
NATHANIEL B. POTTER, M.D.....	Tutor in Medicine
FRED. P. SOLLEY, M.D.....	Tutor in Medicine
WILLIAM FINDLAY, Ph.D.....	Tutor in Mathematics
GEORGE BRAXTON PEGRAM, Ph.D.....	Tutor in Physics
ADAM LEROY JONES, Ph.D.....	Tutor in Philosophy
EVAN M. EVANS, M.D.....	Tutor in Medicine
WILHELM ALFRED BRAUN, Ph.D.....	Tutor in the Germanic Languages and Literatures

	S. W. FOWLER, M.D.

In Applied Therapeutics

F. G. GOODRIDGE, M.D.	N. B. FOSTER, M.D.
-----------------------	--------------------

Columbia University in the City of New York

GENERAL STATEMENT

On October 31, 1754, during the reign of George II., His Majesty's Letters Patent under the Great Seal of the Province were issued, incorporating THE GOVERNORS OF THE COLLEGE OF THE PROVINCE OF NEW YORK IN THE CITY OF NEW YORK IN AMERICA, and providing for the establishment of a College to be known as "Kings College," "for the Instruction and Education of Youth in the Learned Languages and in the Liberal Arts and Sciences." The interpretation placed upon this clause of the charter, at the time, is shown by the original announcement of Kings College in 1754, which, in part, reads as follows: "Vth and Lastly, A serious, virtuous, and industrious Course of Life being first provided for, it is further the Design of this College, to instruct and perfect the Youth in the learned Languages, and in the Arts of Reasoning exactly, of Writing correctly, and Speaking eloquently: And in the Arts of Numbering and Measuring, of Surveying and Navigation, of Geography and History, of Husbandry, Commerce, and Government; and in the Knowledge of all Nature in the Heavens above us, and in the Air, Water, and Earth around us, and the various Kinds of Meteors, Stones, Mines and Minerals, Plants and Animals, and of every Thing useful for the Comfort, the Convenience, and Elegance of Life, in the chief Manufactures relating to any of these things: And finally, to lead them from the Study of Nature, to the Knowledge of themselves, and of the God of Nature, and their Duty to Him, themselves, and one another; and every Thing that can contribute to their true Happiness both here and hereafter."

The charter named as Governors the Archbishop of Canterbury, the Governor of the Province, certain officers of the Crown, ex-officio, the Rector of Trinity Church, and the Ministers of the Reformed Dutch, Lutheran, French, and Presbyterian Churches, for the time being, and twenty-four residents of the city. Under this charter, Kings College was founded. An additional charter was granted May 30, 1755, authorizing the appointment of a Professor of Divinity by the Reformed Protestant Dutch Church.

Upon the convening of the Legislature of the State of New York in 1784, an act was passed incorporating the "REGENTS OF THE

UNIVERSITY OF THE STATE OF NEW YORK," vesting the property of Kings College in the Regents, and changing the name of the College to Columbia College.

In 1787, this was repealed, and a statute passed enacting "that the Charter heretofore granted to the Governors of the College of the Province of New York in the City of New York in America, dated the thirty-first day of October, in the year of our Lord one thousand seven hundred and fifty-four, shall be and hereby is fully and absolutely ratified and confirmed, in all respects, except that the College thereby established shall be henceforth called Columbia College"; and "that the style of the said corporation shall be, The Trustees of Columbia College in the City of New York." Certain other amendments also were made to conform to the new conditions.

In 1810, the charter was again amended in certain particulars at the request of the Trustees, and re-enacted, but the corporate title remained and still continues unchanged. The title to all corporate property is vested in a board of twenty-four Trustees, whose term of office is for life, and who form a self-perpetuating body, exercising the power of appointment as to all officers of instruction and administration.

In 1896, the Trustees approved the use of the title, Columbia University in the City of New York, to designate all the departments of instruction and research maintained and managed by the corporation, and in 1897 the work of the University was begun at Morningside Heights.

The President has charge of the educational administration of the University and is Chairman of the University Council and of every faculty established by the Trustees. The principal administrative officers, other than the President, are the Deans of the several faculties, the Secretary of the University, the Librarian, the Registrar, the Bursar, and the Superintendent of Buildings and Grounds.

The University Council is a representative body consisting of the President, the Dean, and the Secretary of the College, ex-officio, and the Dean and one elected member from each of the faculties of the University. Subject to the reserved power of control by the Trustees the University Council has charge of the general educational interests of the University and of all matters affecting more than one faculty.

All regulations as to fees and rules governing students, as herein set forth, are subject to change by the Trustees at their discretion.

I. THE COLLEGES

a. COLUMBIA COLLEGE offers a course of four years, leading to the degree of Bachelor of Arts, conferred upon the recommendation of the Faculty of Columbia College. Candidates for admission must be at least fifteen years of age, and pass an examination on prescribed subjects. The curriculum offers a wide range of electives, both literary and scientific, making it possible for the student to elect such

courses during his first three years as will fit him either for the professional course he may intend to pursue, or for advanced work in non-professional subjects. During the senior year the student may study under any of the professional faculties.

b. **BARNARD COLLEGE**, founded in 1889, is an independent corporation whose grounds adjoin those of the University. As an undergraduate college for women, however, it bears the same relation ¹ to the educational system of Columbia University as does Columbia College as an undergraduate college for men. The requirements for admission and the standard of scholarship are of the same grade. The students receive their instruction in the Barnard College buildings, except that for the time being members of the senior class may attend certain advanced courses in the University. The degree of Bachelor of Arts is conferred upon its graduates by the University upon the recommendation of the Faculty of Barnard College, of which the President of the University is, ex-officio, chairman.

II. THE UNIVERSITY

In a technical sense, the Faculties of Law, Medicine, Philosophy, Political Science, Pure Science, and Applied Science, and the School of Architecture and Department of Music (temporarily set apart from the Faculties of Applied Science and Philosophy, respectively, pending the development in the University of a Faculty of Fine Arts), taken together constitute the University. These faculties offer advanced courses of study and investigation, respectively, in (a) private or municipal law, (b) medicine, (c) philosophy, education, philology, and letters, (d) history, economics, and public law, (e) mathematics and natural science, (f) applied science, and (g) architecture and music. These courses lead to the University degrees of Master of Arts and Doctor of Philosophy.

A. The Non-Professional Schools

THE FACULTY OF PHILOSOPHY offers advanced courses and opportunities for original research in philosophy and education (through Teachers College), psychology and anthropology, Greek and Latin (including archæology and epigraphy), English, comparative literature, and the Germanic, the Romance, and the Oriental languages.

THE FACULTY OF POLITICAL SCIENCE offers advanced courses and opportunities for original research in political and social science, including history, economics, and public law.

THE FACULTY OF PURE SCIENCE offers advanced courses and opportunities for original research in mathematics, mechanics and electro-mechanics, astronomy, physics, chemistry, mineralogy, geology, zoölogy, botany, physiology, anatomy, bacteriology, and physiological

¹ By virtue of the agreement between the Trustees of Columbia College in the City of New York and the Trustees of Barnard College, dated January 19, 1900.

chemistry, and in mining, metallurgy, and engineering (civil, electrical, mechanical, and sanitary).

In the School of Architecture and the Department of Music, students may pursue advanced courses, and are given opportunities for original research in these subjects.

B. The Professional Schools

THE FACULTIES OF LAW, MEDICINE, AND APPLIED SCIENCE conduct, respectively, the professional schools of Law, Medicine, and Mines, Chemistry, and Engineering, to which students are admitted as candidates for professional degrees on terms prescribed by the faculties concerned.

TEACHERS COLLEGE and the COLLEGE OF PHARMACY, while independent financial corporations are educationally included among the professional schools of the University. Under the general regulations of the University, students registered in other departments may pursue certain of their courses without charge, and their students are granted similar privileges.

THE SCHOOL OF LAW, established in 1858, offers a course of three years in the principles and practice of private and public law, leading to the degree of Bachelor of Laws.

THE COLLEGE OF PHYSICIANS AND SURGEONS, founded in 1807, offers a course of four years in the principles and practice of medicine and surgery, leading to the degree of Doctor of Medicine.

THE SCHOOL OF MINES, founded in 1863, offers courses of study, each of four years, leading to a professional degree, in mining engineering and in metallurgy.

THE SCHOOLS OF CHEMISTRY AND ENGINEERING, set off from the School of Mines in 1896, offer, respectively, courses of study, each of four years, leading to an appropriate professional degree in analytical, organic, and industrial chemistry; in civil, sanitary, electrical, and mechanical engineering.

THE SCHOOL OF ARCHITECTURE, set apart from the Faculty of Applied Science in 1902, offers a course of study of indeterminate length leading to the degree of Bachelor of Science in Architecture.

TEACHERS COLLEGE, founded in 1888 and chartered in 1889, was included in the University in 1898. It is still an independent corporation, its trustees continuing to assume the entire financial responsibility for its maintenance. It offers instruction in the History and Philosophy of Education and the Theory and Practice of Teaching, and takes academic rank in the University system as a professional school for teachers. It offers the following courses of study: (a) Graduate courses leading to the Doctor's diploma or to the Master's diploma; (b) Professional courses, each of two years, based upon two years of collegiate study leading to the Bachelor's diploma for teachers and supervisors in kindergartens or elementary schools, or for spe-

cialists in Domestic Art, Domestic Science, Fine Arts, Manual Training, Music, and Physical Education; and to the degree of Bachelor of Science in Education.

THE COLLEGE OF PHARMACY is, similarly, an independent corporation. It offers a two-year course leading to a certificate of Graduate in Pharmacy and a graduate course leading to an appropriate certificate or degree.

By agreement with Mr. Joseph Pulitzer of New York, executed July 20, 1903, Columbia University will establish in the immediate future a SCHOOL OF JOURNALISM, for which purpose Mr. Pulitzer has given to the University the sum of one million dollars. More detailed information will be contained in an announcement to be issued hereafter.

C. Summer Session

The University maintains a SUMMER SESSION of six weeks' duration, in which are offered courses that are accepted in partial fulfilment of the requirements of the degrees of A.B., B.S., A.M., and Ph.D., and for the professional degrees in the Schools of Applied Science and Medicine and the diplomas of Teachers College.

D. Extension Teaching

Through its system of EXTENSION TEACHING the University offers to men and women, especially to those engaged in teaching, who can give only a portion of their time to study, an opportunity to pursue some subjects included in a liberal education and to make progress, if they so desire, toward a diploma in teaching or an academic degree.

DIVISIONAL ORGANIZATION

In order to present clearly a summary statement of the equipment and the instruction offered in any given group of subjects by the entire University, including Barnard College, Teachers College, and the College of Pharmacy; and to unify the work of each department of the University, and secure the interest of each officer of instruction in the entire work of his department, the several departments of the University are, with the exception of the professional courses in law and medicine, grouped together in divisions, as follows:

DIVISION OF BIOLOGY: Anatomy, Bacteriology, Botany, Physiology, Physiological Chemistry, and Zoölogy.

DIVISION OF CHEMISTRY: Chemistry and Physiological Chemistry.

DIVISION OF CLASSICAL PHILOLOGY: Greek and Latin.

DIVISION OF EDUCATION (FACULTY OF TEACHERS COLLEGE).

DIVISION OF ENGINEERING: Civil Engineering, Electrical Engineering, and Mechanical Engineering.

DIVISION OF FINE ARTS: Architecture, Comparative Literature, Fine Arts, and Music.

DIVISION OF GEOLOGY, GEOGRAPHY, AND MINERALOGY: Geology, Geography, and Mineralogy.

DIVISION OF HISTORY, ECONOMICS, and PUBLIC LAW (FACULTY OF POLITICAL SCIENCE): Economics and Social Science, History, and Public Law and Jurisprudence.

DIVISION OF MATHEMATICAL AND PHYSICAL SCIENCE: Astronomy, Mathematics, Mechanics, and Physics.

DIVISION OF MINING AND METALLURGY: Metallurgy and Mining.

DIVISION OF MODERN LANGUAGES AND LITERATURES: Comparative Literature, English, Germanic Languages, and Romance Languages.

DIVISION OF ORIENTAL LANGUAGES: Chinese, Indo-Iranian Languages, and Semitic Languages.

DIVISION OF PHILOSOPHY, PSYCHOLOGY, AND ANTHROPOLOGY: Anthropology, Philosophy, and Psychology.

DIVISION OF PHYSICAL EDUCATION: Physical Education.

The objects of the divisional organization are primarily to present clearly a summary statement of the equipment and the instruction offered in any given group of subjects by the entire University, including Barnard College and Teachers College; and to unify the work of each department of the University and secure the interest of each officer of instruction in the entire work of his department.

The Announcements of each College or School, of the Summer Session, of Extension Teaching, and of the several Divisions, are issued in the form of Bulletins of Information, and may be obtained without charge from the Secretary of the University.

DEGREES

The division of the University into faculties and schools neither controls nor limits the student in his freedom of electing, under one or several of the faculties, courses that lead to the University degrees of Master of Arts and Doctor of Philosophy. These degrees are granted upon the recommendation of the University Council.

The professional degrees are Bachelor of Laws, Doctor of Medicine, Bachelor of Science,¹ Engineer of Mines, Metallurgical Engineer, Civil Engineer, Electrical Engineer, and Mechanical Engineer. These degrees are conferred upon the recommendation of the Faculties of Law, Medicine, and Applied Science, respectively. Appropriate degrees in Pharmacy will also be conferred upon recommendation of the Faculty of Pharmacy.

All Teachers College diplomas and the degree of Bachelor of Science in Education are conferred by the University upon the recommenda-

¹ The degree of Bachelor of Science in Architecture is for the present conferred upon the recommendation of the Department of Architecture.

tion of the Faculty of Teachers College, of which the President of the University is, ex-officio, chairman.

Terminology

No degrees are granted by the University for work done *in absentia*, and a minimum residence of one complete academic year (or in the case of the degree of Master of Arts attendance at four Summer Sessions) is required of each candidate for a degree.

For the sake of clearness the terminology used in this Catalogue, and hereafter in the official publications of the University, will follow the recommendations of the *Report of the Committee on College Entrance Requirements*, July, 1899, of the National Educational Association (published by the Association, 1899), as follows:

"Three distinct terms seem to be needed: (1) *Program of studies*, which includes all of the studies offered in a given school; (2) *curriculum*, which means the group of studies schematically arranged for any pupil or set of pupils; (3) *course of study*, which means the quantity, quality, and method of the work in any given subject of instruction.

"Thus the program of studies includes the curriculum, and may, indeed, furnish the material for the construction of an indefinite number of curriculums. The course of study is the unit, or element from which both the program and the curriculum are constructed " (p. 42).

ADMISSION

Entrance Examinations

(For information as to entrance examinations see Table of Contents.)

Academic Discipline

By the terms of the statutes of the University every student is admitted subject to the disciplinary powers of the University authorities. The President is empowered to administer discipline in such cases as he deems proper, and to authorize the Deans of the several faculties to administer discipline in such manner and under such regulations as he may prescribe.

Attendance

The University requires of all students regular attendance upon all stated Academic exercises. Students who find that stated academic exercises are fixed for days set apart for religious observance by the church to which they belong, and who are prevented by conscientious scruples from performing their University duties on those days, are requested to make application to the appropriate University authority for equitable relief. It should be noted, however, that in case two opportunities for taking a given examination are statedly offered, as for instance the June and September entrance examinations, such

students are expected to present themselves on the day which is not set apart as a holy day. In other cases, candidates for admission should make application to the Chairman of the Committee on Admissions of the department of the University which they propose to enter, and students already matriculated should apply to the Dean of the faculty in which they are primarily registered.

Admission of Women

Barnard College is the undergraduate College for women. Unless otherwise stated in the appropriate Announcement, the courses offered by the non-professional Faculties of Political Science, Philosophy, and Pure Science, as well as the courses in the Department of Music, are open to men and women on equal terms. So also are the professional courses offered by Teachers College and the College of Pharmacy and all Summer Session and Extension courses. None of the other professional schools of the University corporation is open to women.

Auditors

Certain courses of lectures are at present open to the public, men and women alike, on payment of an auditor's fee. Auditors will not be admitted to any course without the written consent of the instructor, previously obtained, which must be presented to the Registrar of the University and approved by him before attendance upon the courses is begun. Auditors do not have, and cannot receive, any University recognition whatever.

REGISTRATION

No student is permitted to attend any academic exercise until he has complied with the regulations in regard to registration and fees.

Every student will be required, as a condition of admission to the College or to any School, to register on a blank prepared for the purpose, upon which he shall state his name, place of abode, and post-office address (if he be under twenty-one years of age, also the name, place of abode, and post-office address of his father or guardian), the courses which he is authorized to pursue, and such other information as may be from time to time required.

Students entering the College of Physicians and Surgeons should register and pay their fees at the offices of the Assistant Registrar and Assistant Bursar, College of Physicians and Surgeons, 437 West 59th Street.

Students entering Barnard College, Teachers College, and the College of Pharmacy should register and pay their fees at the offices of these institutions. Information as to fees and the like will be found in the appropriate *Bulletin of Information*.

All other students must register in person at the office of the Regis-

trar, Room 109, Library Building, or at one of the registration centers assigned by him, and pay their fees to the Bursar, Room 108, Library Building. All students failing to register within the time limits fixed by the regulations of the University are allowed to register only by the payment of an additional fee of \$5.00. A circular concerning registration regulations and information with reference to the time limits may be obtained from the Registrar.

Withdrawal

Students are requested, in case of withdrawal from the University during the academic year, to notify the Registrar in writing without delay. No application for a return of fees can be considered unless such notice be given at the time of withdrawal.

FEES

The regulations of the Corporation of Columbia College in the City of New York in regard to fees are as follows:

For Matriculation: Required of all students entering the University, payable but once \$5

For Tuition:

For candidates for a degree:

In the College ¹	per annum	\$150
In the School of Law	" "	150
In the College of Physicians and Surgeons	" "	250
In the Schools of Applied Science ²	" "	250
In the School of Architecture	" "	200

For candidates for the degrees of Master of Arts and Doctor of Philosophy ³ 150

With a maximum fee of \$150 and \$300, respectively, when the course does not exceed, for the Master's degree, three, and for the Doctor's degree five years. Students paying by instalments may take only such courses as count toward the degree; any other courses must be paid for separately at the rates charged to special students.⁴

For students not candidates for a degree, at the rate of \$15 per annum for each hour of attendance a week on lectures or recitations, with a maximum fee of \$150, except

¹ Seniors taking the first year in the Medical School pay the fee required in that school, \$250. For the extra fees required of Juniors and Seniors electing courses in the Schools of Applied Science and Architecture see pages 24-25.

² For the fees required for the Summer Courses in Surveying, Mining, and Geodesy, see page 27.

³ For the laboratory fees required of graduate students in the Faculty of Pure Science, see page 25.

⁴ If a student has paid tuition fees to the University as a candidate for A.M., and later registers as a candidate for Ph.D., the amount of such payment will be credited toward the maximum fee for the latter degree, provided there is no change in the choice of major and minor subjects.

that in the schools of Medicine and Applied Science, the rate is \$25 for each hour, with a maximum fee of \$250. For auditors the rate is \$20 per hour, up to a maximum of \$200. For the fees for special students in architecture, see page 26.

For all students in the Summer Session \$30

For Examinations, payable in each case before the examination is held :

At unusual times \$ 5

In Columbia College and in the Schools of Law, Medicine, Applied Science, and Architecture, any examination other than those offered at the mid-year or final examination periods in a given course or courses will be held to be an examination at an "unusual time" and the statutory fee of \$5 will be charged therefor. A single fee of \$5 shall cover any single series of examinations which a student by a single certificate of the appropriate administrative officer is authorized to take.

For the degree of Bachelor of Arts 15

For any professional or technical degree 25

For the degree of Master of Arts 25

For the degree of Doctor of Philosophy 35

For Use of the Gymnasium¹ :

All men students registered for 8 hours or more a week except those of the College of Physicians and Surgeons are required to pay an annual gymnasium fee of 7

This entitles them to a locker and to the use of the Gymnasium and the baths.

Fees for Students in the College Electing Subjects in Applied Science and Architecture

Juniors and Seniors in Columbia College who are permitted by the Dean to elect courses in Applied Science and Architecture are required to pay an annual fee of \$150, payable by all candidates for the degree of A.B., and an additional fee for each course so taken up to a maximum tuition fee for such courses of \$100 a year for Applied Science, \$50 a year for Architecture. The additional fee for each course which may be so taken is as follows:

Architecture	15, 91, each.....	\$30
"	2, 3, ".....	25
"	1.....	15
"	5, 8, 93, 10, 15, 16, 4, 6, 7, 11, each.....	10
Chemistry	12, 9, each.....	50
"	17.....	45
"	11.....	30
"	3.....	25

¹ Women students may enjoy the privileges of the Thompson Physical Education Building upon payment of an annual fee of \$7.00.

Chemistry 2, 26, each.....	\$ 20
“ 24.....	15
“ 27.....	10
Civil Engineering 1, 2, 3, each.....	10
For the Summer Courses see page 27.	
Electrical Engineering 7.....	10
Geology 4.....	10
Mechanical Engineering 6, 7, each	30
“ “ 5, 8, “	25
“ “ 103-104, 3, 4, each.....	15
“ “ 2, 11, 110, each.....	10
“ “ 36 or 37.....	1
Mineralogy 12.....	25
“ 5, 6, 8, each.....	10

Special Laboratory Fees

Students who are not candidates for a degree, as well as all candidates for the higher degrees registered under the Faculty of Pure Science, shall be charged, in addition to the prescribed tuition fee, a fee for laboratory courses and for the use of laboratories in accordance with the following schedule, up to a maximum fee of \$250 including tuition:

Pure and Applied Science

DEPARTMENT	UNIT OF TIME	RATE
Botany	Year	\$10 for use of laboratories
Chemistry	Year	\$50 for use of laboratories, or any of them
Engineering:		
Civil	Two weeks	Course 11. Cement Testing laboratory, \$15
	One month	Course 5. Laboratory for testing materials, \$30
Electrical	Year	Course 11, \$50; Course 10 or 12, \$40; Course 27 or 105, \$15; Course 28, \$10
Mechanical	Year	\$50 for use of laboratories, or any of them
Metallurgy	Year or Half-year	\$50 for use of laboratories, or any of them. \$25 for Course 6a. \$20 for Course 7
Mining	Year	2d half-year, Course 5, \$50 1st half-year, Course 8, \$25 for use of draughting room and laboratory instruction
Physics	Year	\$25 for use of laboratories by those not taking other instruction from department and by students in the Faculty of Pure Science; \$5 for special students taking other than undergraduate lecture courses
Zoölogy	Year	\$25 for 1 day per week; each additional day, \$15
	Half-year	\$15 for 1 day per week; each additional day, \$7.50

Architecture

Special students in architecture taking not less than four hours per week of lectures are permitted to register and pay for periods of two months at the rate of \$5 per hour weekly of lectures taken. They are charged a fee of \$25 for the use of the draughting rooms for the academic year, or \$10 for a single period of two months, but in no case are the total fees to exceed \$50 for the two months.

Medicine

Laboratory and Tuition Fees for the Summer Courses in Surveying

The following laboratory fees are required of all students:

Civil Engineering	Five weeks	Course 15, \$25, or \$7 per survey for students with advanced standing
	Five weeks	Course 16, \$15, or \$5 per survey for students with advanced standing
	Two weeks	Course 16a, \$5
	Four weeks	Course 17, \$10

In addition to the above laboratory fees, all students not candidates for a degree, all candidates for admission with advanced standing to the Schools of Applied Science, and all students who, having previously entered with advanced standing, may be required subsequently to attend any of these courses, must pay therefor tuition fees as follows:

Civil Engineering,	15	\$35
"	16	25
"	16a	10
"	17	25

This applies also to students in the College who pursue these courses, with the provision that any such student who later completes one of the regular courses in Applied Science will be credited at graduation with the difference, if any, between the fees actually paid by him and the fees which would have been charged had he been registered in Applied Science throughout the regular four-year course.

The regulations provide further that every student who fails to attend and complete any one of these courses regularly with his class will be permitted to do so later only upon payment of the above specified fee.

For further details as to the administration of these fees, see the special *Announcement of the Summer Courses in Surveying*.

. Fees for the Summer Courses in Mining and in Geodesy

Candidates for admission to advanced standing who attend the Summer Course in Practical Mining are required to pay therefor a fee of \$50. All students attending the Summer Course in Geodesy must pay a fee of \$20 for the course, to the Bursar at the University.

Payment of Fees

The matriculation fee shall be paid before entrance if not covered by the entrance examination fee. Examination fees shall be paid in all cases before examination. Every student failing to register within the limits of time fixed by the regulations of the University shall be allowed to register only upon the payment of an additional fee of \$5.

Annual tuition fees (see p. 23) shall be paid in equal instalments on or before the third Saturday of the academic year, and on or before the second Wednesday of the second half-year in each academic year, except that whenever the total amount of a student's tuition fees

shall not exceed one hundred dollars, the full amount shall be paid on or before the second Saturday in October. Tuition and laboratory fees for the Summer Courses in Practical Mining, Surveying, and Geodesy shall be paid on or before the last Saturday in May.

Deposits for Apparatus Supplies and for Keys to Desks and Lockers

A deposit for the use of apparatus, material, and the like shall be charged when prescribed by the head of the department supplying the same, with the approval of the President and Treasurer.

The University undertakes, on account of the following deposits, to lend apparatus and keys to regular students in the following courses in the Schools of Applied Science:

	Mining Engineering	Civil Engineering	Sanitary Engineering	Electrical Engineering	Mechanical Engineering	Metallurgy	Chemistry	Architec- ture
First Class.....	\$20	\$20	\$20	\$20	\$20	\$20	\$20	\$1
Second "	40	10	10	40	10	40	40	1
Third "	40	10	10	10	10	40	40	1
Fourth "	1	1	1	10	10	40	40	1

For details in regard to laboratory and other work covered by the above deposits, see the departmental circulars. The deposit of \$1 as above entitles the student to receive the required key to a drawing-room desk or to a laboratory desk or table.

For other students, pursuing the following subjects, extra deposits are required as follows:

Chemistry 5	\$10
" 6, 7, each	20
" 9, 11, and 12 or 13, each	40
" 17, 26 or 27, 30 or 33, each	40
Mineralogy 6	10

A deposit of \$10 or more, as above, entitles the student to draw all required keys, including a key to a hat locker.

A student, receiving a key to a hat locker or to a drawer in the Seminar Room, not making a deposit of at least \$10, will be required to make a deposit of \$1 for each such key desired.

Each student shall be entitled, on presenting his receipt at the apparatus room, to draw the regular set of apparatus which will be charged to him. At the end of the year he will be credited with those articles which he returns in good order, and the value of those he has injured or broken will be deducted from his deposit.

Students who furnish their own apparatus are required to make a deposit of \$10 to cover the use of reagent bottles, keys, etc.

Miscellaneous Regulations

The amount of fees to be paid in special cases for partial attendance shall be determined by the President and Treasurer.

Students who have taken the degree of Doctor of Philosophy in this University may, with the consent of the University Council, continue their researches in the laboratories or library of the University without the payment of tuition fees.

No candidate for a degree in any school shall be entitled to receive the same until he shall have discharged all his duties to the University.

COMMITTEE ON EMPLOYMENT FOR STUDENTS

JAMES F. KEMP.....	<i>Faculty of Pure Science, Chairman</i>
THOMAS S. FISKE.....	<i>Faculty of the College</i>
GEORGE S. HUNTINGTON.....	<i>Faculty of Medicine</i>
FRANCIS M. BURDICK.....	<i>Faculty of Law</i>
FREDERICK R. HUTTON.....	<i>Faculty of Applied Science</i>
FRANKLIN H. GIDDINGS.....	<i>Faculty of Political Science</i>
HENRY A. TODD.....	<i>Faculty of Philosophy</i>
F. P. KEPPEL.....	<i>Secretary of the University</i>
RUDOLF TOMBO, Jr.....	<i>Registrar of the University</i>
GILBERT A. BEAVER.....	<i>Secretary of Earl Hall</i>
REUBEN A. MEYERS.....	<i>Secretary of the Committee</i>

It is the design of the Committee to put students desiring to work their way through college, especially those coming from elsewhere than New York or the immediate vicinity, in the way of earning enough for their partial or complete support, or if possible to extend

¹ For Medicine and Applied Science add \$100, and for Architecture add \$50

assistance to them in other ways, while they are pursuing their studies here. Many opportunities may be offered to students of this class if the fact of their desire to obtain employment is made known. Some of the openings available are: private tutoring, translating, copying of various sorts, teaching in evening schools, travelling companions, stenography, and typewriting. Communications should be addressed to the Committee.

The Committee hesitates to advise Medical and Engineering Students not to undertake outside work of any kind during the academic year. The demands of these courses in lectures and laboratory work are so exacting and inflexible as to make additional responsibilities a greater burden than can, in the great majority of instances, be wisely assumed. It would even be better for such students to withdraw from the University for a year in order to earn the money necessary to enable them to give undivided attention to their work while in attendance.

While much work is found for students each year, preference is naturally given, in case of a choice of applicants for a position, to those who have spent at least a portion of a year at Columbia, and thus have become personally known to members of this Committee or to other officers. No prospective student should come to Columbia depending entirely or even largely upon the assistance of the Committee, but should be prepared to meet at least the expenses of the first half-year—say two hundred and fifty dollars.

All the heads of clinics in the Medical School have consented to give advice without charge to students who are on the lists of the Committee, and who present cards of introduction from its Secretary. Such visitors are received, as a general rule, during office hours at private offices. This insures to students who need it the best medical advice in the city.

APPOINTMENT COMMITTEES

The duty of these Committees is to recommend graduates of the College or University for teaching or other positions in colleges and universities and to assist competent graduates to obtain such positions.

The Committees keep classified lists of those who wish employment and will be glad to be informed promptly of present or prospective vacancies in positions for which college-trained men or women are eligible.

No fees are charged for any service rendered by either Committee.

University Appointment Committee

For positions in colleges and universities, except in the Department of Education

JAMES HULME CANFIELD.....*Librarian of the University, Chairman*
 FREDERICK R. HUTTON.....*Professor of Mechanical Engineering*
 EDWIN R. A. SELIGMAN.....*McVickar Professor of Political Economy*
 JAMES MCKEEN CATTELL.....*Professor of Psychology*
 HENRY ALFRED TODD.....*Professor of Romance Philology*

GEORGE W. KIRCHWEY.....*Professor of Law*
GEORGE RICE CARPENTER.*Professor of Rhetoric and English Composition*
JAMES RIGNALL WHEELER.....*Professor of Greek*
CALVIN THOMAS.....*Gebhard Professor of the Germanic Languages
and Literatures*

Communications in regard to vacancies and recommendations of suitable candidates for the same should be addressed to the Chairman, Library, Columbia University, New York.

University Appointment Committee

For college and university positions in Education, and for Administrative, Supervisory, and Teaching positions in Normal, Secondary, and Elementary Schools and Kindergartens.

JAMES E. RUSSELL.....*Dean of Teachers College, Chairman*
SAMUEL T. DUTTON.....*Professor of School Administration*
JAMES F. KEMP.....*Professor of Geology*
FRANK M. MCMURRY.....*Professor of the Theory and Practice of Teaching*
DAVID EUGENE SMITH.....*Professor of Mathematics*
WILLIAM P. TRENT.....*Professor of English Literature*

Communications should be addressed to the Chairman of the Committee, or to its secretary, Miss I. L. Pratt, Teachers College, Columbia University, New York.

COMMITTEE ON SOCIAL SETTLEMENTS AND ALLIED WORK

The object of this Committee is to serve as a medium of communication between the students and the several settlements and allied organizations. It supervises the courses given under the auspices of the University, destined for settlement workers and for students interested in settlement work. It posts on the bulletin notices affecting the settlements that are of interest to students. It recommends to the settlements such students as are qualified to enter upon the work. It supervises the fellowships and scholarships that are granted to the settlements so far as the incumbents desire, or are obligated, to study at the University. The committee is composed as follows:

EDWIN R. A. SELIGMAN. *McVickar Professor of Political Economy,*
Chairman
 FRANKLIN H. GIDDINGS. *Professor of Sociology*
 FREDERICK J. E. WOODBRIDGE. *Johnsonian Professor of Philosophy*
 FELIX ADLER. *Professor of Social and Political Ethics*
 JAMES H. CANFIELD. *Librarian of the University*
 MISS LAURA D. GILL. *Dean of Barnard College*
 FRANK M. MCMURRY. *Professor of the Theory and Practice of Teaching*
 MRS. ELSIE CLEWS PARSONS. *Lecturer in Sociology*
 WM. ADAMS BROWN. *Union Theological Seminary*
 GILBERT A. BEAVER. *Secretary of Earl Hall, Secretary*
 JOHN B. ELLIOTT. *Representing the Union of Settlement Workers*

FELLOWSHIPS, SCHOLARSHIPS, AND OTHER PROVISION FOR THE ASSISTANCE AND REWARD OF STUDENTS

NOTE.—Unless otherwise provided, all stipends of Fellows and Scholars shall be paid in equal semi-annual instalments on the third Saturday of each academic year and the second Wednesday of the second half-year. Before being entitled to receive either instalment of his stipend, each Fellow and Scholar is required to report himself in writing to the Registrar as in residence, on or before the second Wednesday in October and February of the year of his incumbency, in 1904-05, October 12 and February 8.

Fellows and Scholars are required to pay all fees for matriculation, tuition, graduation, and for the use of the Gymnasium. The provisions regarding the maximum fee for the higher degrees do not apply to them.

General Fellowship Regulations

No Fellow shall be allowed to accept remunerative employment except by permission of the President, and the acceptance of any such employment, without such permission, shall operate to vacate the fellowship.

All Fellows, except as hereinafter provided, shall be required to pursue their studies during the term of their fellowship at the University, residing in New York City or its vicinity during the academic year, unless permission be granted by the President to study elsewhere.

In order that all documents, submitted in support of an application for a fellowship, may be referred to the proper authorities when they reach the University, the envelopes or packages containing such should be distinctly marked, "Submitted by ——— in support of an application for a fellowship in Columbia University." As there is considerable danger that graduation diplomas sent through the mails may be lost or injured, it is suggested that duplicate certificates be submitted in their stead.

UNIVERSITY FELLOWSHIPS

Eighteen fellowships, annual, of the value of \$650 each, known as "University Fellowships," are awarded by the Council to those graduates of colleges and scientific schools, who give evidence of special fitness to pursue courses of higher study and original investigation. To be eligible to candidacy, the applicant must not be over thirty years of age. Vacancies shall be filled in the same manner in which original appointments are made.

A Fellow may be reappointed at the end of a year for reasons of weight. No Fellow may be reappointed for more than two terms of one year each.

Additional University Fellows may be appointed in cases where the original appointee waives the emolument of the fellowship while accepting the honor of the appointment, and in cases where a University Fellow desires reappointment without emolument.

Application should be made prior to March 1, in writing, on blanks that will be furnished for the purpose, and addressed to the Secretary of Columbia University. Applications and documents submitted in

support thereof received later than March 1, or not distinctly indicating the name of the candidate, may fail of consideration.

The candidate must give evidence:

(a) of a liberal education, such as a diploma from a college or scientific school of good repute;

(b) of decided fitness for a special line of study, such as an example of some scientific or literary work already performed;

(c) of upright character, such as a testimonial from some instructor.

Every Fellow will be expected to take up his residence at the opening of the academic year, and to perform such duties as may be allotted to him in connection with a course of study leading to the degree of Doctor of Philosophy. He will be expected to devote his time to the prosecution of special studies under the direction of the head of the department in which his major subject lies, and before the close of the academic year to give evidence of progress by the preparation of a thesis, the completion of a research, the delivery of a lecture, or by some other method.

No Fellow may pursue a professional or technical course of study during his term. With the written approval of the President, but not otherwise, he may give instruction or assistance in any department of the University.

As these fellowships are awarded as honors, those who are disposed, for the benefit of others or for any other reason, to waive the pecuniary emolument, may do so, and still have their names retained on the list of Fellows.

SPECIAL FELLOWSHIPS

Unless otherwise specified, the regulations as to the mode of application for the following fellowships, and the conditions governing their award and tenure, are the same as those for University fellowships (see ante). Candidates should indicate clearly upon their application blanks the fellowship for which they are applicants.

Tyndall and Barnard Fellowships

The Tyndall Fellowship for the Encouragement of Research in Physics, endowed by Professor John Tyndall, and of an annual value of \$648, and the Barnard Fellowship for Encouraging Scientific Research, endowed by the bequest of the late President Barnard, annual value \$500, are awarded annually by the University Council under the following conditions: The Tyndall Fellowship is available for one or more American pupils who may have shown decided talent in physics, and preferably such as shall express the determination to devote their lives to the advancement of theoretic science and original investigations in that department of learning, and is awarded either to a graduate of the University or to a student in it (not necessarily a candidate for a degree) upon the recommendation of the head of the

Department of Physics. The Barnard Fellowship is awarded upon the joint recommendation of the Faculties of Columbia College, Applied Science, and Pure Science to a graduate of any one of them who, having shown decided aptness for physical investigation, is disposed to devote himself thereto for some years continuously. The recommendation must in each case be made to the President on or before April 1. The appointment is for the term of one year, but the incumbent shall be eligible to reappointment.

It is the duty of a John Tyndall or Barnard Fellow to devote himself faithfully to the investigation of some subject in physical science at this University, or at some other in this country or abroad, under the supervision of some known physicist approved by the President and the head of the Department of Physics. He shall make a report, certified to by the physicist superintending and directing him, quarterly to the President, giving an account of the work in which he has been engaged during the three months preceding.

Class of '70 Fellowship

There is a fellowship known as the "Class of '70 Fellowship," of the annual value of \$500, which, after the expiration of the term of the present incumbent, shall be filled by the University Council, subject to such regulations as may be prescribed.

George William Curtis Fellowship

The George William Curtis Fellowship is awarded by the University Council for a term of two years upon the recommendation of the Faculty of Political Science in every third year, the next award being July 1, 1907. The Curtis Fellow shall be entitled to receive during his incumbency the net income of the endowment of \$10,000 (in 1903-04, \$400 annually), accruing during a period of three years, and proportionately for any part of the term.

Candidates shall submit an essay or address on the "Immediate Duty of the American Citizen," in addition to complying with the requirements of candidates for University fellowships.

The Fellow shall devote himself to the study of the science of government, with a special view to its application to the then existing condition of the United States or to the State or City of New York; and at or before the conclusion of his second year he shall publish a monograph satisfactory to the Faculty of Political Science on some subject relating thereto. He shall also prepare and publish a brief sketch of George William Curtis as a citizen and orator, showing that he has familiarized himself with the life and character of the man whose memory is to be perpetuated by the fellowship which he has enjoyed.

Drisler Fellowship

The Henry Drisler Fellowship in Classical Philology, established in 1894 in commemoration of the semi-centennial in the service of the

University of Professor Henry Drisler, A.B., 1839, is of the annual value of \$650, and is open to Bachelors of Arts of this University, or some other institution of equivalent standing, who have studied Greek and Latin throughout their undergraduate course, and who have an adequate knowledge of French and German. They must present testimonials from their instructors in Greek and Latin as to the quality of their work, and give evidence of fitness for advanced study and research, either by a special examination, or by an essay embodying the results of research in some department of classical study.

The appointment is made by the University Council on the joint recommendation of the professors of Greek and Latin. Recommendations should reach the President on or before April 1, and reappointments may be made for not more than two terms of one year each.

The Fellow must study at this University under the direction of the professors of Greek and Latin, unless permitted by the Council to spend a year in some foreign university, or in the American School of Classical Studies at Athens, or in the American School of Classical Studies in Rome.

Garth Fellowship

The Granville W. Garth Fellowship in Political Economy is awarded each year by the University Council in the same manner as University fellowships are awarded and subject to the same regulations. The successful applicant for the fellowship shall be entitled to receive the net annual income of the capital sum of the Granville W. Garth Memorial Fund of \$16,250.

Mosenthal Fellowship

The Mosenthal Fellowship, value \$600, in memory of the late Joseph Mosenthal, is designed to aid talented students of musical composition in the study of their art either here or abroad.

It is open both to men and women, not necessarily holders of an academic degree, and is awarded in every even-numbered year by the Council on the recommendation of the Professor of Music.

The Fellow must pursue his or her studies either at Columbia University or under the direction of some master approved by the President and Professor of Music. Applicants are required to have a thorough knowledge of harmony and the elements of counterpoint. Upon request, the Secretary of the University will furnish the special blank form of application for the fellowship.

Proudfit Fellowship in Letters

The Alexander Moncrief Proudfit Fellowship in Letters for the encouragement of the study of English Literature, founded by the bequest of Alexander Moncrief Proudfit, is open to any son of native-born American parents who shall have taken the degree of Bachelor of Arts after a three years' residence in Columbia College, and who

shall, while enjoying such fellowship, remain unmarried. The appointment is made by the Council upon the joint recommendation of the professors in the Department of English. Such appointment shall be for the term of one year, and may be renewed, for reasons of weight, for two terms of one year each, and no more. The Fellow shall be entitled to receive during his incumbency the net income of the sum of \$13,875 (in 1903-04, \$555). He shall carry on his studies and research at Columbia University, or elsewhere, under the direction of the professors in the department named.

Schiff Fellowship

The Schiff Fellowship in Political Science, the gift of Mr. Jacob H. Schiff, is of an annual value of \$600. The appointment is made each year by the Council upon the recommendation of the Faculty of Political Science, which recommendation is based upon the nomination following: On or before April 1 of each academic year the Faculty of Political Science shall propose to Mr. Jacob H. Schiff while living the name of a suitable person for nomination by him. The conditions to govern the nomination after Mr. Schiff's death will be found in the University Statutes.

Carl Schurz Fellowship

The Carl Schurz Fellowship for the Study of the German Language and Literature is awarded, in every even-numbered year, by the Council, upon the recommendation of the professors of the Department of Germanic Languages and Literatures. The Fellow shall be entitled to receive the net income for two years of the capital sum of \$10,000, constituting the endowment contributed by citizens of New York, in commemoration of the seventieth birthday of Carl Schurz. The appointment may be renewed for reasons of weight for a further term of one year, but without additional stipend.

Candidates must present testimonials as to their zeal and success in the study of German, and must by an essay or published treatise give evidence of their fitness for a wider and more profound study of the language and literature and for independent research. They must also have a sufficient knowledge of Latin and French to use these languages readily in the prosecution of their studies. The holder must study at Columbia University under the direction of the Department of Germanic Languages and Literatures, unless permitted by the Council to study at some German university.

Annual Fellowships

The Treasurer may receive gifts of money for fellowships for one year or more, provided that no fellowship shall be created for less than \$500 per annum. Such fellowship shall be filled by the University Council, subject to such regulations as may be prescribed.

UNIVERSITY SCHOLARSHIPS

Thirty University scholarships, of an annual value of \$150, are awarded annually to students under the Faculties of Political Science, Philosophy, and Pure Science, not over thirty years of age, under the following regulations:

1. They are open to all graduates of colleges and scientific schools whose course of study has been such as to entitle them to be enrolled at Columbia as candidates for one of the higher degrees.

2. They are tenable for one academic year, with a possibility of renewal for one year longer.

3. Applications should be filed in writing, not later than May 1, on blanks that will be furnished for the purpose, and addressed to the Secretary of Columbia University.¹

4. They will be awarded by the University Council at its regular meeting in May, upon the recommendation of the Committee on University Scholarships. The Committee will give preference to those candidates for University fellowships who have failed of appointment after having been recommended therefor by any faculty or department.

5. University scholars will be required to enroll themselves as candidates for one of the higher degrees and to pursue a regular course of study leading thereto.

6. Additional scholars may be appointed by the Committee to fill any vacancies occurring otherwise than by the graduation of an incumbent.

7. A University scholar may, with the consent of the President, assign the income thereof to any properly qualified candidate without waiving his right to be designated as a University scholar.

8. University scholars may be held liable to serve as proctors at the autumn entrance examinations and at the semi-annual and concluding examinations without fee. They will not be called upon for service at times that interfere with their own academic work. Due notice of their assignments will be sent to them.

President's University Scholarships

In addition to the University scholarships, eight scholarships, known as the President's University Scholarships, are awarded by the University Council, governed by the regulations attached to the University scholarships, and by such further regulations as may from time to time be adopted by the Trustees.

University Scholarships for Women

Four University scholarships, known as the Curtis University Scholarships, will be awarded annually to women students under the

¹ See also the last paragraph under Fellowship Regulations, page 32.

Faculties of Philosophy, Political Science, and Pure Science. These scholarships are awarded under the same regulations as those governing the University scholarships.

SPECIAL SCHOLARSHIPS

Richard Butler Scholarship

The Richard Butler Scholarship, tenable for one academic year, with the possibility of renewal for each of two years more, for the benefit of male students born in the State of Ohio, is open for competition to qualified candidates who propose to enter Columbia College, or one of the non-professional Schools of Political Science, Philosophy, or Pure Science, or the professional Schools of Law, Medicine, Applied Science, or Architecture. The annual value is the income of a fund of \$5000, given for the establishment of the scholarship.

Applications should be made under the same regulations as those for University Scholarships.

The Committee on University Scholarships will recommend to the University Council the appointment of that candidate who in the opinion of the Committee is best qualified to receive it.

Pulitzer Scholarships

Through the generosity of Mr. Joseph Pulitzer, male graduates of the public high-schools of Manhattan and the Bronx, not to exceed forty at any time, are awarded scholarships upon competitive examination. Each scholarship so awarded may be held for a period of four years in the College or in any department of the University except the Medical School. The scholarship will be withdrawn if at any time the holder fails to maintain a satisfactory standard in his academic work. During his term the scholar receives from Mr. Pulitzer the sum of \$250 a year over and above the cost of his tuition. Full information regarding the conditions under which these scholarships are awarded will be furnished, upon application, by the Secretary of the University.

John D. Jones Scholarship

The Wawepex Society makes annual provision for a scholarship amounting to \$200 and including the use of a table at the biological laboratory at Cold Spring Harbor, L. I. The award is made by the University Council upon the recommendation of the Department of Zoölogy.

Annual Scholarships

The Treasurer may receive gifts of money for scholarships for one or more years, provided that no such scholarship shall be for a less sum than the annual tuition fee of the College or of the school in which it is provided.

MEDALS AND PRIZES

Essays submitted in competition for any of the following should, unless otherwise indicated, be submitted to the Secretary of the University not later than May 1, in the year of award. The awards are announced at Commencement.

National Society of the Sons of the American Revolution Medal

This Society offers a silver medal:

Competition by members of the senior class in the College, and to first-year students, not graduates of the College, studying under any of the faculties of the University. Each candidate must submit a typewritten essay of not less than 1600 and not more than 2000 words upon "The Principles Fought for in the War of the Revolution." The Committee of Award shall consist of the professors giving instruction in American History. The prize shall in no case be awarded for an essay defective in English composition.

A similar tender has been made to the principal colleges of the country, and the essays receiving the silver medals will be submitted to a committee of the National Society in competition for a gold medal to be awarded to the writer of the essay deemed most meritorious.

Barnard Medal

A gold medal of the value of \$200 established by the provisions of the will of President Barnard and endowed by him, known as the "Barnard Medal for Meritorious Service to Science," is awarded quinquennially to such person, if any, whether a citizen of the United States or any other country, as shall within the five years next preceding have made such discovery in physical or astronomical science, or such novel application of science to purposes beneficial to the human race, as in the judgment of the National Academy of Sciences of the United States shall be esteemed most worthy of such honor. The award of 1895 was to Lord Rayleigh, F.R.S., and Professor William Ramsay, F.R.S., and that of 1900 to Professor Wilhelm Conrad von Röntgen.

Bennett Prize

A prize of \$40 established by Mr. James Gordon Bennett, may be awarded by the Faculty of Political Science for the best essay upon some subject of contemporaneous interest in the domestic or foreign policy of the United States, the subject for 1904-05 being "The Immigration Problem in the United States." The competition is open to seniors in the College and to other students not holding a baccalaureate degree, who pursue courses amounting to six hours a week in the School of Political Science.

Bunner Medal

The H. C. Bunner Gold Medal, established by the friends of the late Henry Cuyler Bunner, is awarded annually at Commencement to the

candidate for a Columbia degree who shall present the best essay on an assigned subject in American literature. The award will be made by a committee to be appointed by the President. The subject for the essays to be handed in on May 1, 1905, is "American Tragedy"; for 1906, "Thomas Jefferson as a Man of Letters"; for 1907, "The Hartford Wits."

Loubat Prizes

Mr. Joseph F. Loubat has endowed two prizes of \$1000 and \$400, respectively, for the best works published in the English language upon the history, geography, archæology, ethnology, philology, or numismatics of North America. Competition is open, under the deed of gift, to all persons, whether connected with Columbia University or not, and whether citizens of the United States or of any other country. No treatises shall be eligible for the purposes of the competition except such as relate to the topics involving antiquarian research, or that refer to events prior to 1776. In order to insure consideration of their works, authors are invited to send copies to the President of Columbia University not later than April 1 of the year in which the prize is to be awarded; but the competition will not be restricted to works thus submitted. Copies of the regulations adopted by the Trustees can be obtained from the Secretary of the University.

The list of subjects given above is divided into two groups, in which the award will be made alternately. These groups consist, respectively, of history, geography, and numismatics; and of archæology, ethnology, and philology.

The foundation shall be employed to stimulate research and not simply to reward the authors of meritorious works published without reference to these prizes; the University may call for the investigation of certain questions and the publication of the results, and the best works produced in answer to this call, if of sufficient value, will receive the prizes. The awards to be made in 1908 shall be conferred for works relative to subjects in the first group. One or more special topics of investigation may be recommended, and the awards limited primarily to works upon such topic or topics.

For names of the Committee of Award for 1908, and for further details, address the Secretary of the University.

Award of 1893

First Prize, HENRY ADAMS, for his "History of the United States of America during the Administrations of Jefferson and Madison."

Second Prize, A. F. BANDELIER, for his "Report of Investigations among the Indians of the Southwestern States."

Award of 1898

First Prize, WILLIAM HENRY HOLMES, for his work entitled "Stone Implements of the Potomac—Chesapeake Tidewater Province."

Second Prize, FRANZ BOAS, Ph.D., for his monograph entitled "The Social Organization and the Secret Societies of the Kwakiutl Indians."

In 1903, no award

Grant Squires Prize

A prize known as the Grant Squires Prize, the income for five years of a fund of \$1000, established by Grant Squires, A.B. '85, LL.B. '87, is awarded at Commencement at the close of every quinquennial period, to such graduate conducting an original investigation of a sociological character as shall be adjudged most worthy by a Committee of Award, consisting of the President, the Professor of Sociology, and one of the professors of Political Economy, appointed by the Faculty of Political Science. The next award will be in 1905. Such award shall be deemed to be a recognition of scientific ability and achievement, as well as an encouragement of research.

Toppan Prize

A prize known as the Robert Noxon Toppan Prize, of \$150, endowed in memory of Robert Noxon Toppan, LL.B. '61, is awarded annually to the member of the School of Law or of Political Science who shall pass the best written examination upon a paper prepared by the professor in charge of the department of Constitutional Law.

Prize of the Dante Society

The Dante Society of Cambridge, Mass., offers an annual prize of \$100 for an essay on a subject drawn from the life or works of Dante. This prize is open to competition by students of Columbia University and by graduates of not more than three years' standing. For particulars, see the announcement of the Division of Modern Languages.

Scholarships and Prizes in Columbia College

Seventy-two scholarships, of the annual value of \$150 each, are offered specifically in the College. These scholarships are intended to be academic honors, and the holders are divided into three groups. The first group contains only those whose work entitles them to high academic distinction. The second consists of students of marked excellence who have not attained a position in the first group. The third comprises meritorious students to whom scholarships have been awarded on grounds of special claim. The names of holders of scholarships in groups 1 and 2 are published in the University catalogue.

The enjoyment of a scholarship for one year does not constitute a title to a second nomination, and no student may hold more than one scholarship at a time. No student who has incurred serious academic censure in the course of the year will be considered as a candidate.

The payment of one or both instalments of the scholarships may be withheld if a student proves undeserving.

Section I. Scholarships awarded to freshmen on the basis of competitive entrance examinations, tenable for one year. The Committee on Admissions awards these scholarships in the order given annually to those qualified competitors who pass the best entrance examinations in subjects aggregating the fifteen points requisite for admission, in June of the entering year. The examination may be taken at any point in the Greater New York where examinations are held by the College Entrance Examination Board. A grade below C in any department will forfeit the scholarship. No applications need be filed by candidates for these scholarships. Reappointment may be made by the Committee on Scholarships under certain conditions for succeeding years.

Awarded not later than July 15:

Competitive

Alumni Competitive Scholarships.	4
Founded by the Trustees in 1890, one awarded annually.	
Hewitt and Harper Scholarships (2 each).....	4
Endowed by Abram S. Hewitt, LL.D., Class of '42, and Joseph W. Harper, A.M., Class of '48. One scholarship is open annually for competition to graduates of New York City high schools.	
Brooklyn Scholarships.	12
Founded by the Trustees in 1895, in recognition of President Low's gift of a memorial building for the University Library. Three of these scholarships are open for competition annually to residents of Brooklyn who have received their training either in the public or the private schools of that borough.	

—20

Section II. Scholarships awarded to applicants by the Committee on Scholarships:

Faculty, Beck, Campbell, and Class of '48

Six Faculty Scholarships established by the Trustees for award by the Faculty to students whose record for ability and scholarship, obtained either before or after matriculation, gives evidence of special fitness for the course of study which they propose to pursue, and who need pecuniary aid to obtain an education. Open to students of any class. 6

The following scholarships are also awarded by the Faculty of the College in the same manner and subject to the same conditions as the Faculty Scholarships:

Carried forward. 6—20

Brought forward.....	6—20
Beck Scholarship.....	1
Established in recognition of the liberality of Charles Bathgate Beck, LL.B., Class of '77.	
Campbell Scholarships.....	2
In memory of Robert B. Campbell of the Class of '44, and Henry P. Campbell of the Class of '47, established by Miss Maria L. Campbell and Miss Catharine B. Campbell.	
Class of '48 Scholarships.....	2
Established through the liberality of a member of the Class of '48.	

—11

Endowed

Schermerhorn Scholarships.....	5
Endowed by John Jones Schermerhorn, A.B., of the Class of '25. Open to freshmen only.	
Moffat Scholarships.....	2
Endowed by William B. Moffat, A.B., of the Class of '38; M.D., '42. Open to freshmen only.	
Stuart Scholarships.....	2
Endowed in memory of Sidney Barculo Stuart, Class of '80, and Eugene Talman Stuart, Class of '81, by their grandmother, Cornelia A. Atwill. Open to freshmen only.	
Alumni Association Scholarships.....	4
Established by the Trustees in recognition of the interest that the Alumni Association has always shown in the affairs of the College. Open to freshmen only.	
Society for Promoting Religion and Learning Scholarships....	8
Founded by the Society for Promoting Religion and Learning, and awarded upon the nomination of that Society.	
Two students in each class.

Benefactors

Morgan Scholarships.....	5
Vanderbilt Scholarships.....	5
A. A. Low Scholarships.....	3
Cutting Scholarships.....	2
Clark Scholarships.....	2
Sloan Scholarship.....	1
Parish Scholarship.....	1
Schiff Scholarship.....	1

—20

Established by the Trustees in 1899 in recognition of the liberal gifts for the purchase of the site on Morningside Heights received from J. Pierpont Morgan, Cornelius Vanderbilt, A. A. Low, R. Fulton Cutting, Alfred Corning Clark, Samuel Sloan, Henry Parish, Jacob H. Schiff, and others, designated collectively as "Benefactors Scholarships," of which the above have been assigned to the College. Open to students who have been not less than one year in the College.

Total—72

Scholarships under Section II are awarded under the following conditions:

Applications for scholarships must be made to the Committee, on blanks provided for the purpose, that may be obtained of the Secretary of the University.

The term of all scholarships is one year only. Should a renewal be desired by any scholar he must make formal application for the same as in the first instance.

Students not in need of aid cannot be considered as applicants, nor will scholarships be assigned to candidates who through physical, mental, or moral weakness give little promise of future usefulness. Scholarships falling vacant may be filled at the discretion of the Committee.

In addition to the scholarships named above the Richard Butler Scholarship is open to students of the College. See page 38.

A summary of the scholarships, showing those available to students in each class of the College, will be found in the *Announcement of Columbia College*.

Prize of the Alumni Association

A prize of fifty dollars in money or its equivalent, at the option of the receiver, established by the Association of the Alumni of Columbia College, was first awarded at Commencement in June, 1858. It is given "to the most faithful and deserving student of the graduating class."

Three names are selected by the Faculty and submitted to the class, who from these three designate one to receive the prize. Should the class at any time fail to make the selection, and give notice thereof to the President of the University at least ten days prior to the day appointed for Commencement, the selection of the student to receive the prize may be made by the Faculty.

Chanler Historical Prize

By the bequest of J. Winthrop Chanler, A.B. '47, the income of \$1000 is awarded annually, on Commencement Day, to the member of the senior class of Columbia College who, in the judgment of the Faculty, shall be the author of the best original manuscript essay on the history of civil government in America, or some other historical subject.

Curtis Medals

Through the generosity of an associate of the late George William Curtis in the work of Civil Service Reform, an endowment fund of \$1000 has been established for the award of two medals of gold and silver for excellence in public delivery of English orations to students in Columbia College. Competitors must be either juniors or seniors in regular standing, or in exceptional cases, and with permission of the

Dean, special students taking junior or senior courses amounting to not less than 12 hours a week. The Department of English publishes about November 1 a list of subjects for the competition. Subjects not on the list may be chosen with the consent of the department provided that application be made not later than December 1. The contestants will be selected by the department at a preliminary competition which will not be open to the public. The final public competition will be held not less than two weeks later. The award will be made by judges appointed by the President.

General Theological Seminary Prizes

Regulations as to the Seminary prizes adopted by the Protestant Episcopal Society for Promoting Religion and Learning in the State of New York, at a stated meeting held on April 25, 1900:

1. Notice shall be given every year of the conditions of the prizes under the old regulations (see Announcement of the College for 1900-01, page 72), and applications invited. Wherever the conditions of the preceding competition show that one or both of the prizes have not been taken for lack of applicants, notice shall at the same time be given of the competition for the prize or prizes thus open under the new regulations set forth each year in the *Announcement of Columbia College*.

The Society's Greek Seminary Prize amounts to \$30 and the Society's English Prize to \$20.

Scholarship in the General Theological Seminary

The scholarship in the General Theological Seminary of the Protestant Episcopal Church (heretofore placed at the disposal of the Trustees of Columbia University by the Society for Promoting Religion and Learning in the State of New York) is awarded upon the following conditions:

All candidates shall comply with the requirements for admission to the General Theological Seminary as candidates for the ministry of the Protestant Episcopal Church, and must have taken the degree of Bachelor of Arts and have graduated with honors.

All candidates shall report themselves to the Educational Committee of such Society at least three months previous to the examination to be held by the Faculty for the purpose of awarding such scholarship.

Scholarships and Prizes in the School of Law

Twenty-one scholarships of the annual value of \$150 each are available annually for award to candidates for the degree of Bachelor of Laws standing in need of pecuniary aid and whose record for ability and scholarship gives evidence of special fitness for the work of the school.

The scholarships will be awarded by the Faculty at its meeting in June, immediately preceding Commencement. Scholarships not allotted at the June meeting, or becoming vacant, may be filled by the Faculty at its discretion. The awards will be made public not later than July 1.

Applications should be made in writing, not later than May 1, on blanks which will be furnished for the purpose by the Secretary of the University.

Benefactors Scholarships.—Eight Morgan and eight Vanderbilt Scholarships, known as Benefactors Scholarships, may be awarded to students who have been in the school for at least one year.

Faculty Scholarships.—Four Faculty Scholarships of the annual value of \$150 each may be awarded to members of any class who are college graduates.

Beck Prize Scholarship.—The Charles Bathgate Beck Prize Scholarship is awarded to the member of the first-year class in the Law School who, having reported himself in writing to the Dean as a candidate for this scholarship, shall pass the best examination in the subjects of the Law School course relating to Real-Estate Law. The holder shall, provided he remains a member of the school, receive one year's income of the prize fund established by the will of Charles Bathgate Beck in equal semi-annual instalments, during the two years following the award. If two or more students pass examinations of equal merit, the income of the fund may be subdivided.

Fellowships, Scholarships, and Prizes in the College of Physicians and Surgeons

Alumni Association Fellowships

Three Fellowships of the Alumni Association of the College of Physicians and Surgeons, maintained by the Association, were established in 1891.

These fellowships are open to graduates of the College of Physicians and Surgeons who have shown special aptitude for scientific research in the Departments of Anatomy, Physiology, and Pathology. They are held for a period of one year, and have an annual value of \$500 each. Appointments are made by the Executive Committee of the Alumni Association from candidates presented to them by the professors of Anatomy, Physiology, and Pathology.

Incumbents are expected to devote themselves to scientific research in the department which they may elect, either in Columbia University, where they enjoy free tuition and the privileges of the laboratories, or in other institutions either here or abroad at their own expense, and at the end of the year's work to present to the Association a thesis containing evidence of independent or original work in their special department.

Proudfit Fellowship in Medicine

The Maria McLean Proudfit Fellowship, the net income of \$15,000, endowed by the late Alexander Moncrief Proudfit, A.B. '92, for the encouragement of advanced studies in medicine, is open to any son of native-born American parents, a graduate in medicine, who shall pursue advanced studies in internal medicine under the direction of the Medical Faculty of the University, and who shall, while enjoying such fellowship, remain unmarried, and shall be appointed by the University Council upon the recommendation of the Faculty of Medicine. Appointment shall be made every four years, beginning in 1904, upon terms to be designated by the Faculty. A vacancy may be filled for any unexpired term. The Fellow shall carry on his studies and research under the direction of the Faculty of Medicine.

Alonzo Clark Scholarship

By the will of the late Alonzo Clark, M.D., LL.D., for many years President of the College of Physicians and Surgeons, and Professor of Pathology and Practical Medicine, it has been placed in the power of the Medical Faculty to bestow a scholarship, with an income of about \$600 a year, for the purpose of promoting the discovery of new facts in medical science.

Harsen Scholarships

The income of a fund established by the late Jacob Harsen, M.D., in 1859, for the purpose of "promoting the study of Medical and Surgical Practice," has, under an order of the Supreme Court, been made available for the award of scholarships to students in the College of Physicians and Surgeons, in lieu of the Harsen prizes heretofore awarded. These scholarships, which are known as the Harsen Scholarships, are of the annual value of \$250 each, and are available annually, and tenable for one year. Two each may be awarded to students in the second, third, and fourth year of the course, provided that the aggregate of the stipends of such scholarships shall not exceed the income earned by the fund during the preceding year. The award of these scholarships is made under regulations established by the Faculty of Medicine only to students whose record for ability and scholarship gives evidence of special fitness and who need pecuniary aid to obtain an education.

Faculty and Vanderbilt Scholarships

Four Faculty and four Vanderbilt Scholarships (the latter established in recognition of the liberal gifts of the late William H. Vanderbilt) are open to students in any class who are in need of pecuniary assistance and whose record for ability and scholarship gives evidence of special fitness.

Alumni Association Prize

The Alumni Association Prize of \$500 is awarded biennially (next award, Commencement, 1906) to an alumnus of the College of Physicians and Surgeons for the best medical essay submitted upon any

subject that the writer may select. If, however, no essay should be deemed sufficiently meritorious, the prize will not be awarded. Essays should be sent to the Secretary of the Alumni Association of the College of Physicians and Surgeons on or before April 1 of the year of award.

Cartwright Prize of the Alumni Association

The Cartwright Prize of \$500 was endowed by a bequest of \$10,000 left by Benjamin Cartwright, and is offered for competition in alternate years with the Alumni Association Prize.

It is awarded on the same terms as the latter, except that it is open to universal competition. Essays in competition for the prize to be awarded at Commencement, 1905, must be sent to the Secretary of the Alumni Association on or before April 1, 1905.

Joseph Mather Smith Prize

The fund for the Joseph Mather Smith Prize was given by the relatives, friends, and pupils of the late Dr. Smith, as a memorial of his services as Professor of Materia Medica in the College of Physicians and Surgeons from 1826 to 1866. Under the provisions of the trust an annual prize of \$100 is awarded for the best essay (if sufficiently meritorious) on the subject of the year, presented by an alumnus of the College of Physicians and Surgeons. The competing essays should be sent to the Dean of the College of Physicians and Surgeons on or before March 10.

Stevens Triennial Prize

The Stevens Triennial Prize, value \$200, established by the late Alexander Hodgdon Stevens, M.D., formerly President of the College of Physicians and Surgeons, is open for universal competition.

The Dean of the Medical Faculty, the President of the Alumni Association of the College of Physicians and Surgeons, and the Professor of Physiology, are, ex-officio, the administrators of the prize. Essays must be in the hands of the first-named on or before January 1, 1906.

Scholarships and Prizes in the Schools of Mines, Chemistry, Engineering, and Architecture

Applications for scholarships should be made in writing on blanks, which will be furnished for the purpose by the Secretary, and addressed to the Committee on Scholarships. They should be made on or before May 1, as any received later than this date may fail to receive consideration.

The award of scholarships will be made not later than July 1. Scholarships not allotted at this time, or becoming vacant, may be filled by the Committee at its discretion.

Scholarships granted in the first year of a student's connection with the University shall be for a half-year only, and shall be continued to

those candidates only who have maintained a satisfactory academic standing during that period.

In awarding scholarships, preference will be given always to students of good academic standing and free from entrance conditions or other deficiencies. Scholarships will be awarded only to applicants who intend to complete one of the regular courses.

Benefactors Scholarships

In recognition of the liberal gifts for the purchase of the site on Morningside Heights which have been received from J. Pierpont Morgan, Cornelius Vanderbilt, D. Willis James, Morris K. Jesup, Samuel D. Babcock, Oswald Ottendorfer, and others, the Trustees have established a number of scholarships, known collectively as "Benefactors Scholarships," twenty-seven of which, of the annual value of \$250 each, are open to students in the Schools under the Faculty of Applied Science, as follows: seven Morgan, seven Vanderbilt, ten James, one Jesup, one Babcock, and one Ottendorfer. These scholarships may be awarded to students who have been in the University for at least one year, and whose record for ability and scholarship gives evidence of special fitness for the course of study which they propose to pursue.

Marcus Daly Scholarships in Mining Engineering

The Marcus Daly Scholarship of the annual value of \$1000, maintained by Mrs. James W. Gerard in memory of her father, is open to those candidates who work or have worked in the Montana mines, or to their descendants, and who pass the best competitive entrance examinations upon the requirements for admission to the Schools of Applied Science. Reappointment for succeeding years in the course of Mining Engineering is upon the same conditions as those imposed upon the holders of competitive scholarships in Columbia College, see page 42. For particulars as to certificates of eligibility and place and date of the entrance examinations see the separate Announcement of the Schools of Applied Science.

Faculty Scholarships

In addition to the above, eight Faculty Scholarships of the annual value of \$250 each may be awarded to members of any class whose records for ability and scholarship, obtained either before or after matriculation, give evidence of special fitness for the course of study which they propose to pursue.

Lawrence Scholarship

Through the generosity of Mr. Benjamin B. Lawrence of the Class of '78, Applied Science, a Scholarship in Mining Engineering of the value of \$250 has been available annually for a deserving student in the course in mining engineering.

Illig Medals

A bequest of \$2000 left by William C. Illig, E.M. '82, provides for the annual award at Commencement to the student or students in the graduating class of one of the Schools of Applied Science, who shall, in the judgment of the Faculty, have merited the same by commendable proficiency in their regular studies.

Darling Prize

A prize to be known as the Edward A. Darling Prize in Mechanical Engineering shall be awarded annually to the most faithful and deserving student of the graduating class in mechanical engineering, the recipient of the prize to be chosen each year by ballot by members of the graduating class in the Course in Mechanical Engineering from among three names to be chosen by the Faculty of Applied Science; the amount of the prize to be the annual income of the sum of \$1000, bequeathed to the University by Edward A. Darling, formerly Superintendent of Buildings and Grounds.

Fellowships in the School of Architecture**Columbia Fellowship**

The Columbia Fellowship in Architecture, the net income for two years of \$13,000, established in recognition of the gifts of F. Augustus Schermerhorn, E.M. '68, to the department of Architecture, is open to all graduates of the School of Architecture less than thirty years of age. It is awarded at Commencement in every even-numbered year under such rules and regulations as shall from time to time be determined by the President and the Professor of Architecture. Holders of such fellowships shall devote the income thereof to foreign study and travel in accordance with plans prepared by themselves and approved by the President and such professor, and shall upon return present a written report and exhibit drawings in the School of Architecture.

McKim Fellowships

Two fellowships, known as the McKim Fellowships in Architecture, endowed by gift of Charles F. McKim of \$20,000, are awarded in every uneven-numbered year, upon like conditions and for like purposes as are specified for the Columbia Fellowship.

Perkins Fellowship

A travelling fellowship, the net income from a fund of \$5700, from the bequest of the late Willard B. Perkins, is awarded every fourth year, the next award being in 1906. The conditions of award and the purposes of the fellowship are the same as for the Columbia and McKim Fellowships.

For the regulations as to Scholarships in the School of Architecture, see page 48.

For the Fellowships, Scholarships and Prizes in Barnard College, Teachers College, and the College of Pharmacy, see the Table of Contents.

SPECIAL FUNDS

The following funds have been given to the Trustees from time to time and are held by them for the purposes specified:

GEBHARD FUND:

Bequest of Frederick Gebhard of \$20,000, for the endowment of a professorship in the German Language and Literature. 1843

FUND OF THE SOCIETY FOR PROMOTING RELIGION AND LEARNING:

Gift (through Professor McVickar) of \$1000, for the endowment of two prizes. "The Society's Greek Seminary Prize," and "The Society's English Seminary Prize." 1852

HARSEN PRIZE FUND:

Bequest of Jacob Harsen, M.D., Class of 1825, of \$31,114.10, for the endowment of prizes to be awarded to students in the College of Physicians and Surgeons. 1859

MOFFAT SCHOLARSHIP FUND:

Bequest of William B. Moffat, M.D., Class of 1838, of \$2000, for the endowment of scholarships. 1862

STEVENS PRIZE FUND:

Gift of Dr. A. H. Stevens, Professor of Surgery, 1860-1867, of \$1899.88, for the endowment of a prize. 1866

JOSEPH MATHER SMITH PRIZE FUND:

Subscription fund of \$2337.81, as a memorial of Dr. Smith, for the endowment of a prize in the College of Physicians and Surgeons. 1874

CHANLER PRIZE FUND:

Bequest of John Winthrop Chanler, Class of 1847, of \$1000, for the endowment of an essay prize. 1877

SCHERMERHORN SCHOLARSHIP FUND:

Bequest of John Jones Schermerhorn, Class of 1825, of \$5000, for the endowment of scholarships. 1877

TYNDALL FELLOWSHIP FUND:

Gift of John Tyndall, LL.D., Professor of Natural History in the Royal Institution of Great Britain, of \$10,945.50, for the endowment of a fellowship in Physics. 1885

ALONZO CLARK SCHOLARSHIP FUND:

Gift of \$14,000 as a memorial of Alonzo Clark, President of the College of Physicians and Surgeons, 1875-1884, for the endowment of a scholarship. 1887

McKIM FUND:

Gift of Charles F. McKim of \$20,000, for the endowment of travelling fellowships in Architecture. 1889

COLUMBIA FELLOWSHIP IN ARCHITECTURE FUND:

Gift of F. Augustus Schermerhorn, Class of 1868, of \$13,000, to the School of Architecture, applied to the endowment of a travelling fellowship in Architecture. 1889

BARNARD FUND FOR THE INCREASE OF THE LIBRARY:

Bequest by President Barnard of \$59,501.64, and augmented by a bequest by his widow, Margaret M. Barnard, of \$16,231.67, to endow a fund for the purchase of books, especially those relating to physical or astronomical science, and for the award of a medal for discovery in Physics or Astronomy. 1889 and 1892

BARNARD FELLOWSHIP FUND:

Bequest by President Barnard of \$10,000, for the endowment of a fellowship for encouraging scientific research. 1889

DACOSTA FUND:

Bequest of Charles M. DaCosta, Class of 1855, Trustee 1886-1890, of \$100,000, has provided \$86,576.83, applied to the endowment of the DaCosta Professorship of Zoölogy; and of \$20,000 used for fitting up the DaCosta Laboratory of Zoölogy. 1890

SLOANE MATERNITY HOSPITAL FUND:

Gift of William D. Sloane and Emily Thorn Vanderbilt Sloane, of \$475,000, for the endowment of the Hospital. 1890 }
1904 }

VANDERBILT CLINIC ENDOWMENT FUND:

Gift of Cornelius Vanderbilt, William K. Vanderbilt, Frederick W. Vanderbilt, and George W. Vanderbilt, of \$115,000, for the endowment of the Clinic. 1890

AVERY ARCHITECTURAL FUND:

Gift of Samuel P. Avery and Mary Ogden Avery of \$30,000, in memory of their deceased son, Henry Ogden Avery. The income to be applied to the purchase of books relating to architecture, decorations, and allied arts. 1890

LOUBAT FUND:

Gift of Joseph F. Loubat of \$7000, for the endowment of two prizes of \$1000 and \$400 to be awarded once in every five years. See page 40. 1892

TROWBRIDGE FUND:

Gift of \$10,000, for the endowment of a fellowship in Engineering as a memorial of William P. Trowbridge, Ph.D., LL.D., Professor of Mining Engineering, 1877-1892, subject at present to a life interest. \$50,448.75 on hand. 1893

PULITZER SCHOLARSHIP FUND:

Gift of Joseph Pulitzer of \$100,000, for the endowment of scholarships. 1893

BENNETT PRIZE FUND:

Gift of James Gordon Bennett of \$1000 for the endowment of an essay prize. 1893

HENRY DRISLER CLASSICAL FUND:

Gift of \$10,000, presented by Seth Low, LL.D., Class of 1870, in commemoration of the semi-centennial of Professor Drisler in the service of the College, for the endowment of a fund for the purchase of books and works of art for the Greek and Latin departments. 1894

GRANT SQUIRES FUND:

Gift of Grant Squires, Class of 1885, of \$1050, for the endowment of an essay prize. 1895

STUART SCHOLARSHIP FUND:

Gift of Mrs. Cornelia A. Atwill of \$6000, for the endowment of the "Stuart Scholarships" in memory of her grandsons, Sidney Barculo Stuart, Class of 1880, and Eugene Talman Stuart, Class of 1881. 1896

ALEXANDER I. COTHEAL FUND FOR THE INCREASE OF THE LIBRARY:

Gift of Mrs. Samuel R. Lawrence and Mrs. James R. Swords of \$6000, in memory of their brother, Alexander I. Cotheal, for the endowment of a fund for the purchase of books in the Oriental languages, or relating to Oriental subjects. 1896

ROBERT CENTER FUND FOR INSTRUCTION IN MUSIC:

Gift of Mrs. Mary Elizabeth Ludlow of real estate and securities valued at \$178,046.50, for the endowment of a fund for instruction in music as a memorial of her son, Robert Center, applied to the maintenance of a professorship. 1896

STUDENTS' LOAN FUND:

Gift of Jacob H. Schiff of \$5000, for the aid of needy students. 1896

H. C. BUNNER PRIZE FUND:

Gift of \$1000, for the endowment of an essay prize. 1896

ILLIG FUND:

Bequest of William C. Illig, Class of 1882 (S. of M.), of \$2000, for the endowment of scholarship medals. 1897

MOSENTHAL FELLOWSHIP FUND:

Gift of friends of the late Joseph Mosenthal of \$7500, to found a fellowship in Music. 1898

PERKINS FELLOWSHIP FUND:

Bequest of Willard B. Perkins of \$5700, for a travelling fellowship in Architecture, awarded quadrennially. 1898

SCHIFF FELLOWSHIP FUND:

Gift of Jacob H. Schiff of \$15,000, to found a fellowship to be awarded by the Faculty of Political Science on the nomination of the donor or his eldest living male descendant. 1898

SEIDL FUND:

The proceeds, amounting to \$12,000, of a memorial performance (March 23, 1899), in honor of the late Anton Seidl. The income to be paid to Mrs. Seidl during her lifetime, and thereafter "to be applied to a Fellowship in Music in Columbia University." 1899

WARING MUNICIPAL FUND:

The Chamber of Commerce of the State of New York, in 1898, raised by public subscription the sum of \$100,000, to perpetuate the memory of the late Col. George E. Waring. The income thereof to be paid to the widow and daughter of Colonel Waring during their lifetime, and thereafter to be devoted to instruction in municipal affairs. 1899

FUND FOR THE ENDOWMENT OF THE ABRAHAM JACOBI WARD FOR CHILDREN IN ROOSEVELT HOSPITAL:

Gift of an anonymous donor of \$50,000, "to endow a ward for children in the Roosevelt Hospital." 1899

BECK FUNDS:

The late Charles Bathgate Beck, A.B. Class of 1877, LL.B. Class of 1879 (who died in 1894), bequeathed the sum of \$10,000: \$2000 to found one scholarship in Columbia College; \$8000 to endow a prize in the Law School. 1899

CURTIS FUND:

Gift of the George William Curtis Memorial Committee of \$10,000, to establish the George William Curtis Fellowship in the School of Political Science. 1899

DYCKMAN FUND:

Gift of Isaac Michael Dyckman of \$10,000, in memory of his uncles, Dr. Jacob Dyckman and Dr. James Dyckman, both of the College of Physicians and Surgeons, to establish the "Dyckman Fund for the Encouragement of Biological Research." 1899

ALEXANDER MONCRIEF PROUDFIT FELLOWSHIP FUND:

Legacy of \$15,000 from the late Alexander Moncrief Proudfit, to found The Alexander Moncrief Proudfit Fellowship in Letters. 1899

MARIA McLEAN PROUDFIT FELLOWSHIP FUND, SCHOOL OF MEDICINE :
Legacy of \$15,000 from the late Alexander Moncrief Proudfit, to
found The Maria McLean Proudfit Fellowship in Medicine.

1899

TRUST FUND FOR PSYCHOLOGY:

Gift of \$100,000 from John D. Rockefeller, as an endowment of the
head professorship of the Psychological Department of Columbia
University.

1899

CARL SCHURZ FELLOWSHIP FUND:

Fund of \$10,000 from the Carl Schurz Fund Committee, to estab-
lish a fellowship in honor of Carl Schurz.

1900

CARL SCHURZ LIBRARY FUND:

Fund of \$10,000 from the Carl Schurz Fund Committee, established
in honor of Carl Schurz, the income to strengthen the Library
in the field of the German Language and Literature.

1900

LAW BOOK TRUST FUND:

Created by act of the Trustees on March 5, 1900, by the consoli-
dation of the Alexander Cole Gift (\$1500); John Jay Jenkins
Legacy (\$500); John McKeon Fund (\$1000); Sampson Simpson
Fund (\$1000); and the Edgar J. Nathan Gift (\$250); total, \$4250,
the income to be applied to the purchase of law books.

1900

CAMPBELL SCHOLARSHIP FUND:

Gifts of \$3000 each from Miss Maria L. Campbell and Miss Cath-
arine B. Campbell, for the establishment of two scholarships in
the College, in memory of Robert B. Campbell of the Class of
1844, and Henry P. Campbell of the Class of 1847.

1901

GERMAN LECTURE FUND:

Gifts to the sum of \$1000 for an endowment of Public Lectures in
German at the University.

1901

EATON PROFESSORSHIP FUND:

Bequest of the late Dorman B. Eaton of \$100,000, to endow and
maintain a Professorship of Administrative Law and Muni-
cipal Science.

1901

DEAN LUNG PROFESSORSHIP IN CHINESE FUND:

Gift of anonymous friends, of \$213,000 towards the founding of a
Department of Chinese Languages, Literatures, Religion, and
Law, and especially for the establishment of the Dean Lung
Professorship of Chinese.

1901

CLASS OF 1848 SCHOLARSHIP FUND:

Gift of \$10,000 of an anonymous friend to found two scholarships
in the College.

1902

GEORGE WILLIAM CURTIS MEDALS FUND:

Gift of \$1000 from an associate of George William Curtis in the Civil Service Reform work to establish this fund. 1902

PHILOLEXIAN CENTENNIAL WASHINGTON PRIZE FUND:

Gift to the Philolexian Society from J. Ackerman Coles, Class of 1864. The accumulated interest is to be expended every four years for a duplicate of the life-size bronze bust of George Washington, modelled from life at Mount Vernon, by Jean Antoine Houdon, to be cast at the Barbedienne Foundry, Paris, France. The bust will be given to that member of the Philolexian Society, who, in the opinion of the President of the University, the President of the Society, and a third man of their choosing, shall be deemed most worthy, upon his delivery of an original patriotic address. 1902

PHŒNIX LEGACY:

Amounting at present to \$146,305.19, being one-third part of the residuary estate of the late Stephen Whitney Phoenix, bequeathed to Columbia College in 1881. 1902

JULIUS BEER LECTURE FUND:

Legacy of the late Julius Beer of \$10,000 to establish this fund. 1903

JAMES S. CARPENTIER FUND:

Gift of \$100,000 from General Horace W. Carpentier of the Class of 1848, in memory of his brother, James S. Carpentier, for the benefit of the Law School. 1903

GUSTAV GOTTHEIL FELLOWSHIP FUND:

Gift of \$10,000 from Temple Emanu-El to establish a Fellowship, the holder to be nominated by the Professors in the Semitic Languages. 1903

LOUBAT PROFESSORSHIP FUND:

Gift of \$100,000 from Joseph F. Loubat to establish the Loubat Professorship in American Archæology. 1903

RICHARD BUTLER SCHOLARSHIP FUND:

Gift of \$5000 from Mrs. Richard Butler in memory of her deceased husband, Richard Butler, open to students born in the State of Ohio. 1903

DARLING PRIZE FUND:

Bequest of the late Edward A. Darling, formerly Superintendent of Buildings and Grounds of \$1000 to endow an annual prize in the School of Engineering. 1903

JOSEPH PULITZER FUND FOR SCHOOL OF JOURNALISM:

Gift of \$1,000,000 from Joseph Pulitzer to establish and endow a School of Journalism in Columbia University. 1903

CARPENTIER PROFESSORSHIP OF PEDIATRICS FUND:

Gift of \$60,000 from General H. W. Carpentier towards a professorship in the Medical School, in memory of Reuben S. Carpentier. 1904

CORNELIUS HEENEY GOTTSBERGER SCHOLARSHIP FUND:

Bequest of Ellen Josephine Banker of \$9500 to establish a scholarship in memory of her deceased brother, Cornelius Heeney Gottsberger. 1904

PHILOLEXIAN PRIZE FUND:

Fund of \$1,326.80 from the Philolexian Society, the income to be paid to the Society for prizes. 1904

TOPPAN PRIZE FUND:

Gift of \$4000 from Mrs. Sarah M. Toppan to endow in memory of her late husband, Robert Noxon Toppan, a prize in the School of Law. 1904

PRIVILEGES IN OTHER INSTITUTIONS OPEN TO STUDENTS OF COLUMBIA UNIVERSITY

American Museum of Natural History

The American Museum of Natural History places its collection at the service of advanced students of Columbia University for the purposes of study and research, and provides them with the necessary facilities for work.

Metropolitan Museum of Art

The Metropolitan Museum of Art admits students of Columbia University on presentation of cards of introduction, and gives them permission to draw, sketch, or copy objects in the Museum. Qualified applicants may obtain these cards from the Secretary of the University.

Objects may be removed temporarily from exhibition for the purpose of special study, and students are allowed to study these objects in rooms specified for the purpose.

Theological Seminaries

The Union Theological Seminary and the General Theological Seminary admit, without tuition fee, such students of high standing in the senior year of Columbia College and in the graduate schools of the University as may be recommended by the President, to such lectures in their regular or special courses as may be mutually agreed upon. The privileges of the Libraries of the Seminaries, for reference, are open to all students of Columbia University on recommendation of

the President. Reciprocal advantages are offered by the University to students of the Seminaries.

The University enjoys similar reciprocal arrangements with the other theological seminaries in the vicinity of New York—the Jewish Theological Seminary (New York), Drew Theological Seminary (Madison, N. J.), and St. Joseph's Theological Seminary (Yonkers, N. Y.).

Botanical Garden

Columbia University has the right to conduct university courses in botany at the New York Botanical Garden and to use the laboratories and floral material of the same, and all courses of instruction given there are open to officers and students of the University without charge. For a description of the equipment of the Botanical Garden, see the statement of the Department of Botany in this volume.

Hospitals

Besides the Vanderbilt Clinic, the general and special hospitals of New York afford most important fields for clinical teaching. The College of Physicians and Surgeons is strongly represented on the staff of these institutions, and regular clinical instruction at hospitals is made a prominent feature of the curriculum. Admission is free to all matriculated students of the College of Physicians and Surgeons.

PUBLIC LECTURES

The University conducts annually a single course of public lectures by some eminent authority at the Cooper Union, and, beginning with the year 1904-05, will conduct similar courses in alternate years at the American Museum of Natural History and the Metropolitan Museum of Art. During the year many public lectures are also delivered at the University, several of the departments of instruction presenting courses each year. Information as to all public lectures under the auspices of the University will be furnished by the Secretary.

THE LIBRARY

JAMES H. CANFIELD.....	<i>Librarian</i>
CHARLES A. NELSON.....	<i>Head Reference Librarian and Editor of Library Publications</i>
EDWARD R. SMITH.....	<i>Reference Librarian, of the Avery Library</i>
WILLIAM C. ADAMS.....	<i>Reference Librarian of the Law Library</i>
VLADIMIR GR. SIMKHOVITCH.....	<i>Bibliographer</i>
MARGARET VAN ZANDT.....	<i>Supervisor, of the Order Department</i>
HARRIET B. PRESCOTT.....	<i>Supervisor, of the Catalogue Department</i>
FREDERIC W. ERB.....	<i>Supervisor, Loan Division of Readers' Department</i>
FRANK C. ERB.....	<i>Supervisor, of the Shelf Department</i>

The Library is open each week day (except Thanksgiving, Christmas, Good Friday, and Independence Day) from 8.30 A.M. until 11

P.M., October–June; and until 10 P.M., July–September. All officers, students, and graduates of the University have free access to the Library and may draw books for home use.

Officers of the New York University and of the College of the City of New York are granted the same Library privileges as are extended to graduates of Columbia University.

Persons of mature years desiring to engage in definite research which cannot be successfully conducted in the public or other libraries of this city will be given the privilege of using this Library in the building, upon filing a satisfactory application, responsibly endorsed. Blank applications will be furnished by the Librarian on request.

About 10,000 carefully selected reference books and the most important works on all subjects, in standard editions, representing the leading authors in all literatures, are placed in the general reading-room, directly accessible to all readers.

Connected with the stacks in which are stored the books relating especially to Philosophy, Education, Literature, Philology, the Sociological and Economic Sciences, Public Law, and History, are twenty special study rooms, open only to authorized readers: thus affording advanced students and investigators in these fields the fullest opportunity to carry on their work in quiet rooms in the immediate vicinity of the literature of the subjects under consideration.

The Library contains about 365,000 volumes; exclusive of unbound pamphlets and duplicates, and some 30,000 German dissertations.

Among the notable special collections may be mentioned the Columbian, 2000 titles; the Phoenix Library, consisting of 7000 volumes, the gift of Stephen Whitney Phoenix, of the Class of 1859; the Avery Architectural Library, a collection of about 17,000 volumes relating to architecture and decorative art; the Mary Queen of Scots Library, containing 550 volumes, collected and given by General J. Watts de Peyster; the collection of over 1200 volumes by and about Goethe; the Immanuel Kant collection of about 700 volumes; the valuable Townsend Library of National, State, and Individual War Records; the Garden Library, deposited by the Southern Society of New York; the large and valuable library of the Holland Society of New York, 600 volumes, including the remarkable collection of works of Grotius; and the Library of the American Mathematical Society, 1200 volumes. The Library is also the depository for the American Association for the Advancement of Science.

The entire Library is carefully and accurately catalogued both by authors and subjects. The catalogue is on cards accessible to readers.

THE GYMNASIUM

GEORGE LOUIS MEYLAN, A.M., M.D.....	<i>Medical Director</i>
WILLIAM SKARSTROM, M.D.....	<i>Instructor</i>
JOHN A. DAVIS.....	<i>Assistant</i>

DUDLEY BILLINGS REID, A.B.....	<i>Assistant</i>
JOHN SLACK KEITH, A.B.....	<i>Assistant</i>
CHARLES HOLROYD.....	<i>Teacher of Swimming</i>
WILLIAM L. ESSEX.....	<i>Secretary</i>

The Gymnasium is open daily during the academic year, except on Sundays and legal holidays, from 9.30 A.M. to 7 P.M., Saturdays to 6 P.M. The Gymnasium is closed for the entire day only on Thanksgiving, Christmas, New Year's, and Good Friday. On all other holidays it is open from 2 to 6 P.M.

The main exercising room is semicircular in shape, and has an area of 16,000 square feet. The ceiling is 35 feet high, and the room is well lighted and well ventilated, both naturally and artificially. The running track is 11 feet wide, with ends raised, and measures 10 laps to the mile. On the same floor as the running track are the Gymnasium and Director's offices, rooms for fencing, boxing, and handball, two large dressing-rooms with 1804 steel lockers, and 32 shower-baths. Below the exercising room is the swimming pool, semicircular in shape; it measures 100 by 50 feet on its axes, and contains 200,000 gallons of water. The depth is from 4 to 10 feet. Around the pool are the dressing-rooms, and 20 shower-, needle-, and tub-baths. On this floor is also a large room and two dressing-rooms equipped with shower-baths and lavatories, for the use of the various athletic teams.

Every student, other than students of the College of Physicians and Surgeons, and the College of Pharmacy, must pay annually a Gymnasium fee of \$7.00. This covers the free use of the Gymnasium, a locker, and the baths. Officers, students in the College of Physicians and Surgeons, and alumni, may use the Gymnasium upon the same terms.

Two hours a week of work in the Gymnasium is prescribed for all members of the two lower classes in the College and the Schools of Applied Science, and Architecture, except special students, and students holding degrees from other colleges. A physical examination is required of each student in these classes upon entrance and at the end of the second year, and of all other students taking part in athletics.

The work prescribed for these classes is arranged with a view to securing three definite ends: First, health; secondly, organic vigor, control, efficiency, and endurance; third, erect carriage and correct position of the head, shoulders, and chest.

In the prescribed courses students are marked upon the basis of attendance, effort, and knowledge of the subjects taught, and a passing mark is necessary for a degree.

In addition to the class work, as much individual instruction and assistance as may be possible will be given to those who need special training for self-improvement.

Optional classes, open to every member of the University, are held every afternoon.

One or more of the instructors are on the floor at all times when the Gymnasium is open.

Every student is entitled to a physical examination by the Medical Director. On the basis of this examination advice is given as to the kind and amount of exercise best adapted to his needs.

The Medical Director has an office hour daily for consultation.

STUDENT ORGANIZATIONS

The various student organizations, athletic and other, are self-governing, but all budgets for expenditures must be approved by the Comptroller of Student Organizations, an officer appointed by the President: and each organization is required to keep an accurate record of its financial operations in the office of the Director. The schedules of each athletic team, and all questions of eligibility for participation in athletic contests, are under the supervision of the Faculty Committee on Athletics. The President has also appointed a University Committee on Athletics, consisting of three graduates and two students, and empowered it to adopt and administer rules of eligibility, not involving questions of scholarship, and to govern the participation of students of Columbia University in intercollegiate athletics in accordance therewith. A pamphlet giving full information regarding the organization and administration of athletic sports at the University may be obtained from the Secretary of the University.

UNIVERSITY COMMONS

A University Commons is maintained in the Alumni Dining Hall of University Hall for the convenience of officers and students. It is open daily except Sunday, from 8 A.M. to 7 P.M.

RESIDENCE HALLS

For Men

Hartley Hall, a memorial to the late Marcellus Hartley, and Livingston Hall, University dormitories with accommodations for 500 men, are in course of erection on South Field, and will, it is hoped, be ready for occupancy in September, 1905. These buildings will be of stone and over-burned brick, harmonizing in style with the present buildings. The floors and partitions will be of re-enforced concrete construction. They are each to be 10 stories in height exclusive of basement, and 137 feet long by 60 feet wide. They will be lighted throughout by electricity and heated by steam, and there will be telephone connection on each floor. The electric current for the buildings will be brought from the main power plant of the University. There will be four electric passenger elevators, with freight compartments. Trunks and supplies will be brought in at the street

side of the connecting building, where an electric elevator will take them to the basement for storage or for distribution to the several elevators. In the basement will be a low-pressure heating plant, filters, coal storage, trunk storage, and lockers, for employees.

The two dormitories will contain 600 rooms, both single and double, all being outside rooms; their arrangement permits of flexibility in renting the rooms in suites. The average size of the bedrooms is about 8 feet by 14.6. The studies will average 10 by 14.6 feet. There will be a number of double rooms. All rooms are nine feet high. Each bedroom will have a clothes-closet and an enameled basin with hot and cold water, and will be provided with heavy oak furniture. There will be four shower-baths on each floor.

The only entrance to each building for students will be on the side facing the campus, and it will lead directly into an assembly room 60 feet square. This room runs up through two stories and has a large open fireplace opposite the entrance.

The charges for rooms have not yet been determined upon but it is expected that the average rent of a single room for the academic year will not exceed \$125.

While Hartley Hall and Livingstone Hall will be open to all male students of the University, students in Columbia College, in accordance with the desire of the donors, Mrs. Helen Hartley Jenkins and Mr. Marcellus Hartley Dodge, will be given the preference in the assignment of rooms in Hartley Hall should the number of applications exceed the capacity of the building.

Rooms will be assigned in the order of receipt of applications therefor. All such applications should be made in writing and addressed to the Superintendent of Buildings and Grounds.

For Women

Whittier Hall, a dormitory building under the supervision of the authorities of Teachers College, is situated on Amsterdam Avenue, between 120th and 121st Streets, and has accommodations for 350 women. Inquiries regarding rooms, board, and the like, should be addressed to *The Secretary*, Whittier Hall, 1230 Amsterdam Avenue.

OTHER LIVING ACCOMMODATIONS

Besides these dormitories, there are many good boarding-houses and apartments near the University. The careful selection, inspection, and registration of such lodgings etc., have been undertaken, and a card-catalogue of apartments, rooms, etc., is kept at Earl Hall. Preliminary correspondence, during the summer, concerning location and prices should be addressed to "Board and Room Directory, Earl Hall."

Groups of four or five students can arrange to live inexpensively by co-operating in the expenses of a furnished or unfurnished apartment.

The following memorandum will show the accommodations obtained by such a group of five men and their actual expenses for the academic year 1903-04.

Accommodations.—Rear apartment in a building (with steam heat and a passenger elevator), containing two large front rooms used as studies, two sleeping rooms large enough for two men each and one for one person. A kitchen furnished with gas range, cupboards, tubs, refrigerator, etc., and a bathroom of good size. The front rooms had unobstructed view and light and the others were lighted from wells open at the sides as well as from above.

<i>Expenses.</i> —Lease for one year at \$40 per month, minus the sum received by sub-letting in the summer	\$370
Service, including washing of linen, etc., but not daily care of apartment (which the men attended to themselves)	60
Furniture, initial cost	150
Gas	20
	<hr/>
	\$600
Expense per man	120

EARL HALL

Earl Hall, erected and equipped as a gift of a friend of the University, is entirely devoted to the religious, philanthropic, and social life of the University. On the ground floor are large and inviting rooms for the women students, a suite of living rooms for the Secretary of Earl Hall, a large room for Bible classes and other similar organizations, and a committee room. The first floor, reached by a fine approach through a heavily columned portico, contains a general reception and social room, the office of the Secretary, two class rooms or committee rooms, a small auditorium, and a large and well-equipped reading-room. On the second floor is a special reference library for students of mission work, a small social room, and the large auditorium. The Hall is open, without expense, to all students of the University, and its occupancy and work are under the general control of a Committee of Officers and Alumni, and under the direct management of the Secretary of Earl Hall, who is also Secretary of the University Young Men's Christian Association.

Mr. Gilbert A. Beaver is the Secretary, and the Committee is constituted as follows:

JAMES H. CANFIELD, *Chairman*,

T. LUDLOW CHRYSTIE,	WILLIAM G. LOW, Jr..
CLEVELAND H. DODGE,	V. EVERIT MACY,
MARCELLUS H. DODGE,	WM. FELLOWES MORGAN,
JAMES ALEXANDER EDWARDS,	WILLIAM H. SAGE,
THOMAS EWING, Jr.,	HERBERT L. SATTERLEE,
LAURA D. GILL,	Professor WM. M. SLOANE,
Rev. SHEPHERD KNAPP, Jr.,	ALEXANDER H. SMITH.

MEDICAL VISITOR

For the benefit of those members of the University who are without family physicians in New York City the Trustees have designated a Medical Visitor of the University, whose duties are to render medical assistance to such officers and students as may desire it, either at their homes or elsewhere, at a remuneration to be arranged between himself and individual patients. The Medical Visitor is Dr. D. S. D. Jessup, whose office is at No. 410 West End Avenue (telephone 1753 Riverside). His office hours are from 5 to 6 P.M. daily, or by appointment at his office, and from 2 to 2:30 P.M. on Tuesdays, Thursdays, and Saturdays at the office of the Director of the Gymnasium, University Hall.

PUBLIC WORSHIP AND RELIGIOUS WORK

A University Chapel, for which provision has been made through the generosity of anonymous donors, is now in course of erection, and will probably be completed before the beginning of the academic year 1905-06. It will be cruciform in shape, the greatest length being 122 feet and the width at the transepts 77 feet. In all nearly 1000 sittings will be provided, of which 120 are in the choir, which, in accordance with the practice in the English cathedrals, can itself be used for a religious service at which the attendance is small.

At present service is held every week day, except Saturday, in the auditorium of Earl Hall, at 9.10 A.M. The service lasts fifteen minutes, in which time there are singing, reading the Scriptures, prayers and an address by the Chaplain or some other officer of the University. Attendance is wholly voluntary. All officers and students of the University are invited to attend, and those who profess and call themselves Christians are expected to give support to the services by their occasional presence.

The Chaplain spends his morning hours in his office, where at stated times he is glad to welcome any student who may wish to confer with him.

DEPARTMENTS OF INSTRUCTION

When an announced course has not been applied for by at least three students, candidates for a degree, the instructor shall be at liberty to withdraw the course.

The number of hours, unless otherwise specified, indicates the number of hours a week for the entire year.

Consult the index for any subject of study not appearing in its alphabetical order.

In addition to the following, Extension Courses are offered in a large number of subjects. For a summary of these see the Table of Contents, and for more detailed information consult the separately printed *Announcement of Extension Teaching*.

Anatomy

GEORGE SUMNER HUNTINGTON, M.D., Sc.D.....	<i>Professor</i>
BERN BUDD GALLAUDET, M.D.....	<i>Demonstrator</i>
CHURCHILL CARMALT, M.D.....	<i>Assistant Demonstrator</i>
ARTHUR S. VOSBURGH, M.D.....	<i>Assistant Demonstrator</i>
HENRY E. HALE, M.D.....	<i>Assistant Demonstrator</i>
WILLIAM DARRACH, M.D.....	<i>Assistant Demonstrator</i>
E. A. SPITZKA, M.D.....	<i>Assistant Demonstrator</i>
H. VON W. SCHULTE, M.D.....	<i>Assistant Demonstrator</i>
C. R. L. PUTNAM, M.D.....	<i>Assistant Demonstrator</i>
ROLFE FLOYD, M.D.....	<i>Lecturer</i>

Courses 2, 3, 4, 5, and 10 are required in the first year of candidates for the degree of M.D. The five courses together may be elected by seniors in Columbia College.

Courses 1, 6, 7, 8, and 9 are required in the second year of candidates for the degree of M.D.

Course 11 may be offered as a major or minor for the degree of A.M. or Ph.D. according to special arrangement with the head of the department. It is optional for qualified candidates for the degree of M.D.

Courses 12-23 may be offered each as a minor for the degree of A.M. They are optional for candidates for the degree of M.D., and are open to post-graduate students in medicine.

Course 24 cannot be counted for a degree. It is open to teachers and qualified graduate students.

Course 25 is open to students of the first and second years.

None of the courses of the Department of Anatomy are open to women.

Courses

1—Vertebrate morphology—Anatomy of the body cavities—Visceral and topographical course—Thorax and abdomen. Lectures combined with demonstrations. 3 hours. Professor HUNTINGTON

2—Demonstrations to sections of the class—Cranial osteology; syndesmolgy, myology, peripheral nervous system, and angeiology of the head and neck. 1 hour. Dr. SCHULTE

3—Demonstrations to sections of the class—Osteology, syndesmolgy, myology, peripheral nervous system, and angeiology of the extremities. 2 hours. Drs. CARMALT and VOSBURGH

These courses are so arranged as to maintain, with reference to the subjects treated, a direct connection with the laboratory course in dissection, 5.

5—Laboratory course—Dissection of the human body. 18 to 20 hours a week, at various hours, for from 3 to 5 periods of 4 weeks each. Professor HUNTINGTON, Dr. GALLAUDET, and the ASSISTANT DEMONSTRATORS OF ANATOMY

6—Laboratory course—Dissection of the human body. 10 to 12 hours a week for from 6 to 11 weeks. Professor HUNTINGTON, Dr. GALLAUDET, and the ASSISTANT DEMONSTRATORS OF ANATOMY

7—Demonstrations to sections of the class—Anatomy of the mouth, pharynx, and larynx—The auditory apparatus—The central nervous system. 3 hours. Dr. GALLAUDET

8—Demonstrations to sections of the class—Visceral anatomy. This course preserves an organic connection with Course 1, and presents for direct examination and demonstration the preparations serving to illustrate that course. 2 hours. Dr. DARRACH

9—Demonstrations to sections of the class—Anatomy of the cranial nerves. 1 hour for one half-year. Dr. SCHULTE

10—Course in mammalian morphology—Introductory to Physiology. 2 hours a week for one half-year. Professor HUNTINGTON and Dr. DARRACH

Research

11—The laboratory of animal morphology is open for research, under the direction of the professor, to advanced workers. Professor HUNTINGTON

12—Comparative morphology of the carpus—A comparative study of the carpus in vertebrates above fishes, with especial reference to the homologies of the components, their evolution and significance, and their mutual relations in amphibia, reptiles, birds, and mammals. Professor HUNTINGTON and Dr. DARRACH

13—Comparative morphology of the respiratory apparatus in *mammalia*, *sauropsida*, and *batrachia*—Evolution of the composite mammalian lung from the air-sac—Morphology of mammalian bronchial tree—Construction of terminal branches and end spaces—Skeletal and other modifications of the respiratory apparatus in birds. Professor HUNTINGTON and Dr. DARRACH

14—Comparative morphology of the central nervous system—Demonstration and laboratory course—Detailed work in brain of cod, frog, turtle, bird, and mammal. Professor HUNTINGTON and Dr. DARRACH

15—Comparative myology. (a) Appendicular muscles. (b) Vento-appendicular muscles. (c) Muscles of the foot. Professor HUNTINGTON and Dr. DARRACH

16—Human and comparative morphology of the auditory apparatus. Professor HUNTINGTON and Dr. DARRACH

17—Comparative morphology of the upper respiratory passages nares, larynx, epiglottis, syrinx. Professor HUNTINGTON and Dr. DARRACH

18—Comparative morphology of the uro-genital system. Professor HUNTINGTON and Dr. DARRACH

19—Cranial topography. Professor HUNTINGTON and Dr. DARRACH
This course is designed for advanced students possessing a knowledge of the gross morphology of the human brain.

Pre-requisite: Course 7 or its equivalent.

20—Comparative morphology of the heart and vascular system—Development and modification of the venous system in vertebrates. Professor HUNTINGTON and Dr. DARRACH

21—Comparative morphology of the alimentary tract and digestive glands—Anatomy of the peritoneum. Professor HUNTINGTON and Dr. DARRACH

22—Comparative morphology of the cæcum and ileo-colic junction in vertebrates—Detailed study of the modification of the structures and their vascular and serous relations. Professor HUNTINGTON and Dr. DARRACH

23—Topography of the pelvic viscera, muscles, and fasciæ. Professor HUNTINGTON and Dr. DARRACH

24—Anatomical technology and museum methods. Professor HUNTINGTON and Dr. DARRACH

25—Course of lectures on variation and heredity given at the beginning of the year. Dr. FLOYD

In all courses offered in morphology the work is designed to be laboratory exercises of at least two continuous hours' duration, at any one exercise, supplemented in certain courses by demonstration and study

of material contained in the Museum of Human and Comparative Anatomy and in the study collections of the department.

The time required for the above courses, if offered as minors for the degree of A.M. or Ph.D., or if taken as optionals, is half a day per week from October to April.

The demands on laboratory space and teaching force render it necessary to limit the number of candidates admitted to these courses.

A series of university lectures and demonstrations based on the material contained in the morphological museum is given annually.

These lectures are incorporated in Course 1 and deal with the comparative anatomy of the circulatory, respiratory, alimentary, and uro-genital systems of vertebrates, together with certain portions of the skeletons, as the pectoral and pelvic girdles. The lectures are open to students under the Faculty of Pure Science. Details of subjects and dates will be furnished on application to the department.

Anatomical Laboratories

The laboratory facilities of the Department of Anatomy are very complete. The large general dissecting-room accommodates from 390 to 546 students at a time, working in groups of five or seven, respectively, at one table.

The plant for the production of artificial cold by the anhydrous-ammonia process has enabled the department, through the means offered for the indefinite preservation of fresh subjects by the cold-storage system, greatly to increase the amount of material available for laboratory work, and has also rendered it possible so to regulate the temperature of the general laboratory that the work can be carried on without difficulty during the warmer months at the beginning and close of the academic year.

The laboratory for advanced morphological research occupies the third story of the anatomical building. Every facility for advanced and research work in morphology is here extended. The established connections of the department furnish abundant human and comparative material, both mature and embryonal. The private library of the Professor of Anatomy is at the disposal of advanced workers.

Museum of Human and Comparative Anatomy

Much work has been done in the formation of a Museum of Human and Comparative Anatomy, the ultimate design of which is to present, in as complete a manner as possible, a view of the evolution of the forms of animal life, and of their natural relations, both in series of natural groups, and in the comparative and relative position of organs and systems. Even the approximate attainment of this aim will require much time and work, but sufficient progress has been made to enable the department to offer great facilities for study and research. The collection, both as regards groups and the individual preparations, is

designed for the illustration of both elementary and advanced courses, and is largely used in the instruction of the medical undergraduates and in advanced study and research. The anatomical building provides the opportunity for the further development of this invaluable portion of the departmental equipment. The first and second stories of the building are devoted to the morphological museum, and it is hoped that in the space thus provided the continued development of scientific anatomy, both for purposes of undergraduate instruction and of advanced research, will steadily proceed.

In addition to the museum collection proper the department is constantly adding to a large collection for advanced study and research.

A study-collection of human osteological preparations is so administered as to enable every student to take out the different osteological series and retain them for private study as long as required.

Anthropology

FRANZ BOAS, Ph.D.....	<i>Professor</i>
LIVINGSTON FARRAND, A.M., M.D.....	<i>Professor</i>
MARSHALL H. SAVILLE.....	<i>Loubat Professor of American Archaeology</i>
CLARK WISSLER, Ph.D.....	<i>Lecturer</i>
ADOLPH F. BANDELIER.....	<i>Lecturer</i>
BERTHOLD LAUFER, Ph.D.....	<i>Lecturer</i>

Courses 1 and 7 are open to juniors; and 2, 4, 5, and 8 are open to seniors in Columbia College and in Barnard College. All courses except 1 and 7 may be counted towards the degree of A.M. and Ph.D., and all except 3 are open to women and auditors.

Courses

1—Anthropology, general introductory course—Lectures, essays, and discussions. 2 hours. Professor FARRAND

7—General ethnography—Lectures, essays, and discussions. 2 hours. Professors BOAS and FARRAND

8—Ethnography of Asia—Lectures, essays, and discussions. 2 hours. Professors BOAS, HIRTH, PRINCE and Dr. LAUFER

2—The statistical study of variation, introductory course—Lectures essays, and discussions. 2 hours lectures, 2 hours laboratory, first half-year. Professor BOAS and Dr. WISSLER

9—The statistical study of variation, advanced course—Lectures, essays, and discussions. 2 hours lectures, 2 hours laboratory, second half-year. Professor BOAS and Dr. WISSLER

3—Ethnology—Primitive culture—Lectures, papers, and discussions. 2 hours. Professor FARRAND

4—Physical anthropology—Lectures and laboratory work. 2 hours. Professor BOAS and Dr. WISSLER

5—American languages—Lectures and discussions. 2 hours. Professor BOAS

6—Anthropological research. Professors BOAS and FARRAND

10—Archæology of Mexico and Central America—Lectures and discussions. 2 hours. Professor SAVILLE

11—Early Spanish sources for American ethnography. 2 hours. Mr. BANDELIER

The collections and apparatus of the American Museum of Natural History may be used by students of Anthropology. An Anthropological Laboratory has been fitted up in the Museum in which practical work may be carried on by students. The extensive collection of crania and skeletons and the ethnological and archæological material in the Museum are utilized in connection with the lectures given in the department and are available for research work.

Architecture

ALFRED D. F. HAMLIN, A.M....*Professor of the History of Architecture*

FRANK DEMPSTER SHERMAN, Ph.B.....*Professor of Graphics*

MAXIMILIAN K. KRESS, A.M.....*Adjunct Professor of Architecture*

GRENVILLE T. SNELLING, B.S...*Instructor in Architectural Engineering*

CHARLES A. HARRIMAN.....*Instructor in Architectural Drawing*

ALFRED H. GUMAER, B.S.....*Instructor in Architectural Design*

CHARLES P. WARREN, A.M.....*Tutor in Architectural Construction*

WILLIAM A. DELANO, A.B...*Tutor in Architectural Drawing and Design*

WILLIAM R. WARE, LL.D.....*Emeritus Professor of Architecture*

For information as to the course of study leading to the degree of Bachelor of Science in Architecture see page 316.

More advanced courses both in design and in construction are offered to graduates of schools of science and schools of architecture, and professional draughtsmen of mature age are received as special students, not candidates for a degree, into such courses as they are qualified to pursue.

Courses 1, 2, 3, 4, 5, 6, 8, 10, 11, 13, 20, 21, 22, and 23 are open as electives to seniors in the College.

Courses 109, 114, and 121 may be counted toward the higher degrees.

For a detailed description of the work in Architecture, consult the Fine Arts Announcement.

Courses

1—Ancient architectural history. 3 hours. Professor KRESS

2—Mediæval architectural history—Byzantine, Romanesque, Gothic. 2 hours, with reading of French and German text-books (see 7), and 13 hours original research in library and drawing-room during 6 weeks of

second half-year (see 9). Exercises in historical design (see 21). Professors HAMLIN and KRESS

[3—Modern architectural history—The Renaissance, modern revivals. Oriental and American architecture. 2 hours, with 13 hours research in library and drawing-room during 6 weeks of second half-year. Exercises in historical design. Professors HAMLIN and KRESS

Not given in 1904-05]

Courses 1, 2, and 3 are intended to be taken in successive years, in the order of their numbering

4—History of ancient ornament—The decorative forms of Egyptian, Assyrian, Greek, and Roman art. 1 hour, first year. Professor HAMLIN

5—History of mediæval ornament—Early Christian, Byzantine, and Gothic ornament. 1 hour. Professor HAMLIN

[6—History of modern ornament—Renaissance, Oriental, and modern ornament. 1 hour. Professor HAMLIN

Not given in 1904-05]

Courses 4, 5, and 6 are intended to be taken in successive years, in the order of their numbering

7—Archæology—(7.1) 2 hours, first year, in French. (7.2; for students having completed 7.1) 2 hours, reference work in French and German (see 2 and 3). Professor KRESS

8—Theory of architecture—(8.1) Elements of planning and composition, in connection with 21.2. 1 hour first half-year. Mr. GUMAER (8.2) Theory of design: planning and composition; scale; proportion, expression, and decoration. 1 hour, second half-year. (8.3) The decorative arts and theory of color. 1 hour. Professor HAMLIN (8.4) Theory of professional practice. 1 hour, first half-year, for advanced students. Professor HAMLIN

9—Architectural essays—4 to 6 essays in connection with historical research, second term, (see 2 and 3). Occasional written exercises in connection with lectures of Courses 1 to 6 inclusive. One essay and thesis dissertation preparatory to graduation. Professors HAMLIN and KRESS

10—Graphics—Projections, intersections, and shades and shadows. 2 hours lectures, 2 hours draughting-room, first half-year, for beginners. Professor SHERMAN

11—Perspective. 2 hours lectures, 2 hours practice, second half-year, for students having completed 10. Twelve plates required. Professor SHERMAN

12—Descriptive geometry. 2 hours, for students having completed 10. Twelve plates required. Professor SHERMAN

13—Specifications—(13.1) Masonry; woodwork; iron-work; plumbing; electric installation; heating, lighting, and ventilation. 2 hours

lectures, 1 hour practice. 6 hours in the draughting-room every other week. (13.2) Building materials—Growth and preservation of wood; paints, glass; metals, fire-proofing. 2 hours. (13.3) Advanced practice—The study of building processes. 2 hours, and 15 hours practice (for advanced students electing 14.6). Mr. WARREN

14—Mathematics and Engineering—(14.3) The integral calculus. (14.4) Analytical mechanics; statics, elementary dynamics. 3 hours, Professor SHERMAN. (14.5) Graphical statics; applied mechanics. 6 hours lectures, and 6 hours draughting-room every other week, for students having completed 14.3 and 14.4. Mr. SNELLING. (14.6) Advanced architectural engineering. 15 hours, for advanced students. Mr. SNELLING, in collaboration with Department of Civil Engineering

The mathematical subjects preparatory to course 14 are given in the Department of Mathematics as stated below.

20—The Elements of Architecture—Mouldings, the orders, intercolumniation and superposition, balustrades, arcades, doors, windows, roofs, spires, vaults, domes. 1 hour, first half-year. Mr. GUMAER

21—Architectural Design—(21.1) Elementary Design. 12½ hours, second half-year. (21.2, 21.3) 14½ hours first half-year and for 8 weeks of second half-year, for students having completed 21.1. (21.4) 25 hours, for students having completed 21.2 and 21.3. Problems in design; plans, elevations, sections, and details. Mr. GUMAER and Mr. DELANO (see 121)

In 21.1 the problems involve special drill in the use of the orders; in 21.2 and 21.3 special emphasis is given to planning and composition.

For advanced students, taking 21.4, problems of an advanced character alternate with sketch-designs or exercises in rapid invention and delineation; the greater part of the second term being devoted to the graduation thesis (see 25)

22—Architectural Drawing—Drawing and rendering of plans, elevations, sections, and details. 14½ hours, first half-year. Mr. HARRIMAN

23—Freehand Drawing—Sketching and drawing with pencil, charcoal, and brush; modelling; from 4 to 6 hours throughout four years. (21.1, 23.2, 23.3, 23.4). Professor HAMLIN, Mr. HARRIMAN, Mr. DELANO, and Mr. SMITH

24—Summer Work—Memoir, office drawings, and sketches, made during vacations. Three successive seasons' summer work required (24.1, 24.2, 24.3)

25—Thesis—A problem in advanced design or in original research, with written dissertation and drawings—25 hours; all except first six weeks of second half-year. Professor HAMLIN and Mr. DELANO

109—Post-Graduate Architectural Essays—Advanced research and criticism; written exercises and conferences. Professor HAMLIN and Mr. SNELLING

114—Post-Graduate Course in Architectural Engineering and Practice—32 hours. Mr. SNELLING and Mr. WARREN, in collaboration with Department of Civil Engineering

121—Post-Graduate Course in Architectural Design—30 hours. Four special problems, occupying two months each. Professor HAMLIN and Mr. DELANO

Equipment

The equipment of the department consists of about 18,000 photographs, about 800 books, a classified library of prints and plates, the Avery Architectural Library of about 17,000 volumes, a collection of MS. drawings from the *École des Beaux-Arts*, a collection of casts of architectural details from ancient and modern Roman buildings, a collection of building-stones, tools, and materials, and about 9,000 lantern slides of architectural subjects. The Willard collection of architectural casts at the Metropolitan Museum is open to students every day and two evenings every week.

Astronomy

JOHN KROM REES, E.M., Ph.D.¹ *Rutherford Professor*
 HAROLD JACOBY, Ph.D. *Professor, and acting head of Department*
 CHARLES LANE POOR, Ph.D. *Professor*
 S. ALFRED MITCHELL, Ph.D. *Tutor*

Preliminary Statement

For a more detailed statement see *Announcement of the Division of Mathematical and Physical Science*

Courses 1, 2, 30, 31, are open to properly qualified seniors in Columbia College

Courses 1 and 2 are open to seniors in Barnard College; no courses at present are given separately at Barnard College

All courses may be counted towards the degree of Master of Arts or Doctor of Philosophy; all, except 30, 31, 32, 33, are open to graduate women students upon the same terms as to men. For details see the above-mentioned *Announcement*.

All courses are open to auditors.

The following courses, or their equivalents, are required as pre-requisites.

For Course 1, Physics 1 or 4, and Mathematics A; for Course 2, Astronomy 1, Physics 1 or 4, and Mathematics 3a; for Course 30, Physics 1 or 4, Mathematics 6, and Civil Engineering 15 and 16; for Course 31, Astronomy 30; for Course 32, Astronomy 31; for Course 33, Astronomy 32; for Courses 4, 5, 6, and 8, Astronomy 2 and Mathematics 6; for Course 7, Mathematics 6; for Course 9, Astronomy 8; for Course 10, Astronomy 1, and Mathematics 6.

¹ Absent on Leave

Courses 30, 31, are required of students in the Civil and Sanitary Engineering courses during the third year, 32 between the third and fourth years, 33 in the fourth year.

Courses

1—General Astronomy—Historical and descriptive. 2 hours. Professor POOR

2—Spherical and practical astronomy—Mainly the study and use of the sextant for time and latitude determinations, and the transit instrument. 2 hours lectures and 2 hours observatory work. Professor JACOBY

30—Geodesy—Brief history of geodetic operations and description of instruments, including their adjustment and use. 2 hours first half-year. Dr. MITCHELL

31—Geodesy—Applications of practical astronomy to geodetic surveying. 2 hours second half-year. Dr. MITCHELL

32—Geodesy—Summer course in practical geodesy. Given in the field, each student making his own observations and calculations

Six weeks of practical work from June 1, at Osterville, Mass. Professor JACOBY and Dr. MITCHELL with assistants

33—Geodesy—Derivation of formulæ used in summer-course work, adjustment of observations, followed by several lectures on descriptive astronomy. 2 hours first half-year. Dr. MITCHELL

4—Advanced spherical and practical astronomy—Deals with the subjects of time, latitude, and longitude. 2 hours lectures and 4 hours observatory work for two years. Professor JACOBY

5—Theoretical astronomy—Theory of comet orbits with practical applications. 1 hour, supplemented by computation, for two years. Professor POOR

6—Theory and method of reduction of photographic star plates—Determination of star places. 1 hour, with practical work, for two years. Professor JACOBY

7—Method of least squares, with applications to astronomy and geodesy. 1 hour for one year. Professor JACOBY

8—Celestial mechanics—Elementary course. 1 hour for one year. Professor POOR

[9—Advanced course in celestial mechanics. 1 hour for one or two years

Not given in 1904-05]

10—Astronomical spectroscopy. 1 hour supplemented by laboratory work. Dr. MITCHELL

Astronomical and Geodetic Equipment

The University has a very complete collection of instruments for the application of astronomy to geodesy, such as are employed in deter-

mining latitude and longitude at primary geodetic stations of the first importance.

1. A Bamberg universal combined prismatic transit and zenith telescope of 10-cm. aperture. It is one of the newest, and probably finest instruments of its class yet constructed. 2. A Wanschaff zenith telescope of 8-cm. aperture, suitable for latitude measures of the highest precision. 3. Three microscope theodolites. 4. A U. S. Coast Survey pattern secondary bar base apparatus. 5. A tape base apparatus. 6. Complete outfit of engineer's instruments, sextants, apparatus for barometric hypsometry, clocks, chronometers, chronographs, etc. 7. Five computing machines.

For the advanced study of astronomy proper, two Repsold measuring machines of the latest type are mounted for use, and the department has a large collection of original astronomical photographs made by Gill at the Cape of Good Hope, Rutherford at New York, Donner at Helsingfors, Henry at Paris, Campbell at Mt. Hamilton, etc. Ample funds are provided for the publication of researches in astronomical photography.

For research work in astrophysics (Course 10) students are limited to laboratory experiments, for which purpose they have access to the well-equipped laboratories of the Department of Physics.

In addition to the above, the University possesses a number of unmounted instruments; among them the late Lewis Morris Rutherford's famous 13-inch equatorial, with its attachments.

The Department of Astronomy has a good working library; and the University Library is especially strong in astronomy. Among other important collections, it contains the private library of Dr. Otto Struve, formerly director of the Pulkowa Observatory.

Bacteriology and Hygiene

(See page 160)

Botany

LUCIEN MARCUS UNDERWOOD, Ph.D.....	<i>Torrey Professor</i>
NATHANIEL LORD BRITTON, Ph.D., Sc.D.....	<i>Emeritus Professor</i>
FRANCIS ERNEST LLOYD, A.M.....	<i>Adjunct Professor in Teachers College</i>
HERBERT MAULE RICHARDS, Sc.D..	<i>Adjunct Professor in Barnard College</i>
CARLTON CLARENCE CURTIS, Ph.D.....	<i>Tutor</i>
ADA WATTERSON, A.M.....	<i>Tutor in Teachers College</i>
TRACY ELLIOT HAZEN, Ph.D.....	<i>Tutor in Barnard College</i>
IRA DETRICH CARDIFF, B.S.....	<i>Assistant</i>
ALICE ADELAIDE KNOX, A.B.....	<i>Assistant in Barnard College</i>

Certain graduate courses at the New York Botanical Garden are also given, either wholly or in part, by the following members of the Garden Staff:

DANIEL TREMBLY MACDOUGAL, Ph.D.....	<i>Assistant Director</i>
JOHN KUNKEL SMALL, Ph.D.....	<i>Curator of the Museums</i>

PER AXEL RYDBERG, Ph.D.....	<i>Assistant Curator</i>
ARTHUR HOLLICK, Ph.D.....	<i>Assistant Curator</i>
MARSHALL AVERY HOWE, Ph.D.....	<i>Assistant Curator</i>
WILLIAM ALPHONSO MURRILL, Ph.D.....	<i>Assistant Curator</i>
GEORGE VALENTINE NASH.....	<i>Curator of the Plantations</i>
HENRY HURD RUSBY, M.D.....	<i>Dean of the College of Pharmacy and Curator of Economic Collections</i>

Partial courses are also given by:

ELIZABETH GERTRUDE BRITTON

EDWARD SANDFORD BURGESS, Ph.D.

The undergraduate courses in Botany are arranged with the intention of giving a broad general knowledge of the subject during the first year, and permitting some degree of choice during the latter years; for those who continue the work as a graduate subject, the widest possible range of courses is open to the student's choice. Course 1 can be elected by any student who has reached the sophomore year, and if the subject be pursued consecutively for three years, the candidate will be ready to enter upon research work as a major subject. Two years would be sufficient for this preparation if the candidate elected two courses in Botany during the second year. Courses 1-4, or their equivalent, together with Course 5 or Course 7, according as the trend is toward morphology or physiology, form the necessary preparation for commencing a major subject in Botany. Course 1, with any two additional courses or an equivalent, will be required as the necessary preparation for commencing a minor subject in Botany. Minor graduate courses will be arranged after conference with the head of the department.

Courses 9-31 are research courses, primarily for graduate students; all are open to women. Each consists of field or laboratory work, or both, for not less than ten hours a week for one year. 14 and 15 require at least two years, including summer work in the field, and 12, 13, 27, 28, 29, three years each.

Courses 51-58 are given at Barnard College, and are primarily undergraduate courses for women.

Courses 9-11, 16-26, and 31 may be taken as major work for A.M.

Course 3 combined with Course 7, or a proportionate amount of work in Courses 9, 10, 16, 18, 19-25, may be taken as minor work for A.M.

Courses 12-15, 27-30 may be taken as major work for Ph.D.

Any two of the Courses 9, 10, 11, 16-25, 31, or a proportionate amount of work in Courses 12, 13, 14, 27, 28, 29, 30, may be taken as minor for Ph.D. In some cases the accomplishment of an approved piece of research may be offered as a minor for Ph.D.

Course 1 or its equivalent is pre-requisite for all succeeding courses, except Course 8.

Course 2 is pre-requisite for Courses 5, 9, 14, 21, 26, 30, 31.

Course 3 is pre-requisite for Courses 11, 12, 16, 17, 27, 28, 30.

Course 4 or its equivalent is pre-requisite for Courses 9 (if offered as a major for A.M.), 10, 14 (if subject chosen is a group of cryptogams), 18, 19, 20, 22, 23, 24, 25, 30.

Course 5 is a pre-requisite for Courses 9 (if offered as a major for A.M.), 11, 13, 18, 19, 20, 21, 30.

Course 7 is a pre-requisite for Courses 12, 16, 17, 27, 28, 30.

Course 8 is required of first-year students in Civil Engineering.

Graduate students preparing for the profession of teaching are expected to take Education 12 at some time during their course of study.

Courses

1—Elementary botany—The general biological features of plants and the outlines of the evolution of plant types are considered; special attention being given to the significance of morphological characters and the forces operative in their development. 2 lectures and 4 hours laboratory work a week, counting as a 4-hour course. Dr. CURTIS

2—Comparative morphology of plants—Involving field work on adaptation of structure to physical conditions. 2 laboratory sessions a week, first half-year. Dr. CURTIS

3—Plant physiology—A course in experimental physiology supplemented by selected readings and conferences. 2 laboratory sessions a week, first half-year. Dr. CURTIS

NOTE.—In this and other courses in plant physiology the nature of the work occasionally requires attendance at the laboratory at unusual times.

4—General morphology of cryptogams—Detailed study of some group or groups of the lower plants. 2 laboratory sessions a week, second half-year. This course naturally follows Course 2, to complete an elective for the year. Mr. CARDIFF

5—Botanical problems—Illustrating advanced methods of fixing imbedding, sectioning, and staining. 2 laboratory sessions a week, second half-year. Dr. CURTIS

6—Economic botany—Study of plants useful to man as food, medicine, timber, and fibre. 2 hours lecture, or the equivalent in the laboratory. Professor UNDERWOOD

7—Plant physiology—A continuation of Course 3. 2 laboratory sessions a week, second half-year. Dr. CURTIS

8—Lectures on general botany—A brief review of plant structure and function, and the characters and relations of the leading groups of plants, with special attention to the study of timber trees and their identification. 1 lecture, assigned reading, field and laboratory work, first half-year. Professor UNDERWOOD and Mr. CARDIFF

9—Taxonomy of spermatophyta—Study of the principal families. Professor BRITTON, Dr. SMALL, Dr. RYDBERG

10—Morphology of fungi—Study of the structure, polymorphism, and development of the fungi, including culture methods. Dr. MURRILL

11—Experimental morphology—A study of the variation of form and structure, and the determination of the causes. Dr. MACDOUGAL, Professor LLOYD, Dr. CURTIS

12—General physiology—Problems in absorption, excretion, nutrition, and transformation of energy, growth, the general irritable organization of the plant, and the mechanism of its movements. Laboratory. Dr. CURTIS, Dr. MACDOUGAL, Professor RICHARDS

13—Embryology of spermatophyta—Comparative embryology of special groups. Special embryological problems. Technique. Professor LLOYD

14—Special taxonomy—Critical study of a family or genus of plants of not less than fifty species. The group may be chosen from the entire range of the plant world. Field, herbarium, laboratory, and garden work. Directed, according to the group chosen, by Professor UNDERWOOD, Professor BRITTON, Dr. SMALL, Dr. RYDBERG, Dr. HOWE, Dr. MURRILL, Mr. NASH, Professor BURGESS

15—Regional botany—Collection, determination, and comparative study of the plants of some restricted area. Professor UNDERWOOD, Professor BRITTON. This course requires a previous experience of not less than three years in botany

16—Physiology of the cell—Problems in the chemical and the physical properties, movements, and irritability of unicellular and other generalized organisms. Dr. MACDOUGAL

17—Plant geography—Occurrence, characters, and arrangement of groups and formations. Relations of plant societies to one another, and to topographic, climatic, and other conditions. Factors governing distribution. Professor BRITTON, Dr. MACDOUGAL, Professor LLOYD, Dr. CURTIS

18—Morphology of algæ—Study of the structure and development of algæ. Dr. HOWE, Professor RICHARDS, Dr. HAZEN

19—Morphology of bryophyta—Study of the structure and development of the musci and hepaticæ. Professor UNDERWOOD, Dr. HOWE, Mrs. BRITTON

20—Morphology of pteridophyta—Study of the structure and development of the ferns and fern-allies. Professor UNDERWOOD

21—Morphology of spermatophyta—Study of the structure and development of the flowering plants. Professor LLOYD, Dr. CURTIS, Dr. RYDBERG

22—Taxonomy of algæ—Study of the diagnostic characters and relationships of the principal families and genera. Dr. HOWE, Dr. HAZEN

23—Taxonomy of fungi. Professor UNDERWOOD, Dr. MURRILL

24—Taxonomy of bryophyta. Professor UNDERWOOD, Dr. HOWE, Mrs. BRITTON

25—Taxonomy of pteridophyta. Professor UNDERWOOD

26—Taxonomy of gramineæ. Mr. NASH

27—Physiology of nutrition—Treated from a chemical standpoint. Professor RICHARDS

28—Ecological physiology—Problems in adaptive reactions in form, structure, and movements to external energy and environmental factors. Dr. MACDOUGAL, Dr. CURTIS

29—Physiological anatomy—Problems in the relationships of tissues and functions. Dr. CURTIS

30—Mycological pathology—Study of diseases caused by parasitic fungi, with special attention to the morphology of the pathological organism. Also problems in immunity, and effects of unfavorable environment. Dr. MURRILL

31—Developmental taxonomy—Fossil ancestors of some family of plants. Comparative study of form and structure. Dr. HOLLICK

51—Elementary botany. 3 hours. Professor RICHARDS

52—General morphology and development of plants. 4 hours. Dr. HAZEN

53—Morphology and ecology of spermatophytes. 2 hours. Dr. HAZEN

54—Anatomy of vascular plants. 2½ hours, first half-year. Professor RICHARDS

55a—Physiology of plants from standpoint of nutrition. 2½ hours, alternate second half-years. Professor RICHARDS

55b—Physiology of plants from standpoint of growth. 2½ hours, alternate second half-years. Professor RICHARDS

56—Structure and development of algæ. 2 hours, one half-year. Professor RICHARDS

57—Structure and development of fungi. Advanced course. 2 hours, one half-year. Professor RICHARDS

58—Developmental anatomy—Practice in methods of technique. 2 hours, one half-year. Professor RICHARDS and Dr. HAZEN

59—Advanced physiology and morphology. Hours to be arranged. Professor RICHARDS and Dr. HAZEN

Equipment

The Department of Botany occupies the third floor of Schermerhorn, and the laboratories and lecture-rooms are thoroughly equipped for undergraduate work. A large general laboratory, lecture-room, and morphological and physiological laboratories are supplied with modern instruments for instruction and experiment. A sufficient number of standard botanical works and serials on the subject are reserved for students' use in the general laboratory.

Graduate courses are conducted at the Museum of the New York Botanical Garden. By the agreement entered into between the University and the Garden, all the botanical collections and library of the University (except such works as are needed in the undergraduate courses) have been deposited in the Museum of the Botanical Garden at Bronx Park; the Garden on its part supplies all needed facilities for research for members of the staff and for properly accredited students. This combination of forces not only places the Department of Botany within reach of material equipment and collections not otherwise available, but opens up facilities for research work under conditions that are not excelled.

The Museum of the New York Botanical Garden is located in Bronx Park, and its entire upper floor is devoted to research. The physiological and morphological laboratories occupy the western end, and the taxonomic laboratories and herbarium the eastern end. The present floor space is more than 19,000 square feet. Among the special features provided are to be mentioned the dark rooms, photographic, operating, and balance room, laboratory for physiological chemistry, constant-temperature chambers, and sky-lighted apartment for living plants which is furnished with a suitable aquarium. Ample opportunity for experimental work is afforded by the open-air plantations and extensive horticultural houses.

The Columbia herbarium and the equally extensive collections of the New York Botanical Garden are housed in the large room in the east wing of the Botanical Museum. The cryptogamic collections are arranged in special rooms. The entire aggregation of collections available for students is exceptionally full in every group of plants, from slime moulds to composites.

The portion of the University Library classified under Botany is deposited in the library stack-room of the Museum building, where it can be consulted in connection with the extensive supplementary collection now owned by the New York Botanical Garden. There are about 5000 bound volumes and 4000 pamphlets and extracts; the Garden library supplements this by over 10,000 volumes. All the regularly published journals devoted to Botany proper (over one hundred) are received, and the sets of all are complete.

Two series of publications are issued from the department: a quarto series known as the *Memoirs of the Department of Botany*, of which two volumes have been published; and the *Contributions from the Department of Botany*, in octavo, which have commenced the ninth volume.

Chemistry

CHARLES F. CHANDLER, M.D., Ph.D., LL.D., D.Sc. . . . *Mitchell Professor of Chemistry*

JOHN FRANCIS WOODHULL, A.B., Ph.D. . . . *Professor of Physical Science (Teachers College)*

CHARLES E. PELLEW, E.M. *Adjunct Professor of Chemistry*

EDMUND H. MILLER, Ph.D. *Professor of Analytical Chemistry*

MARSTON TAYLOR BOGERT, A.B., Ph.B. *Professor of Organic Chemistry*

J. LIVINGSTON RUTGERS MORGAN, Ph.D. *Adjunct Professor of Physical Chemistry*

MARGARET E. MALTBY, Ph.D. *Adjunct Professor of Physics (Physical Chemistry) (Barnard)*

JAMES S. C. WELLS, Ph.D. . . . *Instructor in Analytical Chemistry (Qual.)*

HERMANN T. VULTÉ, Ph.D. *Adjunct Professor of Domestic Science (Teachers College)*

HENRY C. SHERMAN, Ph.D. *Instructor in Analytical Chemistry*

MARIE REIMER, Ph.D. *Instructor in Chemistry (Barnard)*

LOUIS H. LAUDY, Ph.D. *Tutor in Chemistry*

SAMUEL A. TUCKER, Ph.B. *Tutor in Industrial Chemistry*

CAVALIER HARGRAVE JOÛET, Ph.D. *Tutor in Analytical Chemistry*

VICTOR J. CHAMBERS, Ph.D. *Tutor in Organic Chemistry*

EVERETT J. HALL. *Tutor in Analytical Chemistry and Assaying*

ARTHUR C. NEISH, Ph.D. *Tutor in Chemistry*

CHARLES H. ELLARD, A.M. *Tutor in Analytical Chemistry (Qual.)*

HAL T. BEANS, Ph.D. *Tutor in Analytical Chemistry (Qual.)*

ELEANOR KELLER, A.B. *Tutor in Chemistry (Barnard)*

MAY BELLE VAN ARSDALE. . . . *Assistant in Physical Science (Teachers College)*

WILLIAM C. UHLIG, Ph.D. . . . *Assistant in Analytical Chemistry (Qual.)*

HENRY A. JACKSON, A.M. *Assistant in Physical Chemistry*

FREDERICK VAN DYKE CRUSER, B.S. *Assistant in Analytical Chemistry (Quant.)*

FLOYD J. METZGER, Ph.D. *Assistant in Chemistry*

MILTON J. FALK, B.S. *Assistant in Analytical Chemistry (Quant.)*

For the officers in the Department of Physiological Chemistry and in the College of Pharmacy, see Table of Contents.

For all detailed information in regard to the courses, subjects discussed, pre-requisites, etc., refer to the special Announcement of the Division of Chemistry.

Courses 4, 17, 18, 19, 21, 26, 28, 38, are open as minors for A.M.

Courses 4, 9, 13, 15, 16, 21, 22, 36, 38, are open as majors for A.M.

Courses 4, 13, 14, 15, 16, 17, 18, 22, 28, 38, are open as minors for Ph.D.

Courses 5, 14, 15, 23, 29, 36, and Physiological Chemistry 2, 3, 4, 5, 6, are open as majors for Ph.D.

All courses except 5, 13, 14, 15, 16, 18, 22, 23, 25, 28, 29, 33, 35, 36, are open to properly qualified students of Columbia College.

Courses

6—General elementary chemistry. 2 lectures, 1 recitation, and 2 afternoons laboratory practice, one half-year. Given both half-years. Dr. NEISH

1—General inorganic chemistry. 3 lectures and 1 recitation. Professor CHANDLER, Dr. LAUDY, Mr. TUCKER, Dr. NEISH, and Dr. METZGER

10—Advanced inorganic chemistry. 2 lectures. Professor PELLEW

3—Elementary physical chemistry. 3 hours a week in lectures and recitations, and 4 hours a week in the laboratory. Professor MORGAN and Mr. JACKSON

4—Physical chemistry. 3 hours a week in lectures and recitations throughout the year, and 1 afternoon a week in the laboratory, first half-year. Professor MORGAN and Mr. JACKSON

37—Theoretical electrochemistry—A course of two lectures a week throughout the first half-year. Professor MORGAN

5—Physical chemistry, advanced course. 2 lectures, and at least 12 hours a week in the laboratory. Professor MORGAN

7—Qualitative analysis. 2 lectures or conferences a week during the first half-year, 3 lectures or conferences for chemists during second half-year, 2 lectures or conferences for other courses, and laboratory practice. Dr. WELLS, Mr. ELLARD, Dr. BEANS, and Dr. UHLIG

9—Quantitative analysis for chemists. 4 hours lectures and recitations a week, and 15 hours laboratory practice. Professor MILLER and Dr. JOÛET

11—Quantitative analysis, inorganic, short course for electric engineers. 2 hours lectures and recitations a week, and 6 hours laboratory practice during the first half-year. Professor MILLER, Dr. JOÛET, and Mr. FALK

12—Quantitative analysis, inorganic, for mining engineers. 3 lectures and recitations a week during the second half-year, with laboratory practice, 18 hours a week in the second half-year. Professor MILLER, Dr. JOÛET, Dr. SHERMAN, and Mr. FALK

13—Quantitative analysis—Proximate organic and sanitary analysis for chemists. 2 lectures, 2 recitations, and laboratory practice 18 hours a week, first half-year. Dr. SHERMAN

14—Advanced inorganic analysis. 2 lectures a week. Laboratory practice 3 afternoons during the first half-year for students taking the course in Metallurgy, and 6 afternoons the second half-year for students in the course of Analytical Chemistry, who elect this course in place of Course 15. Professor MILLER

15—Advanced proximate organic analysis for chemists. 2 lectures a week. Laboratory practice during the second half-year, 6 after-

noons for students in the course of Analytical Chemistry, who elect this course in place of Course 14. Dr. SHERMAN

19—Quantitative analysis, short course. 9 hours, conferences and laboratory work. Professor MILLER and Mr. FALK

16—Quantitative analysis—Special methods, gravimetric, volumetric, and electrolytic. Conferences and laboratory work at least 16 hours a week. Professor MILLER

17—Assaying—Ores and metallurgical products. 2 lectures or recitations, and laboratory practice 10 hours a week during the first half-year for mining engineers and metallurgists; during the second half-year for chemists. Professor MILLER and Mr. HALL

18—Special methods of assaying ores, alloys, and furnace products—Comparison of methods and determination of losses. Conferences and laboratory work at least 8 hours a week for one half-year. Professor MILLER and Mr. HALL

20—Organic chemistry, elementary lecture course. 2 lectures a week. Dr. CHAMBERS

30—Organic chemistry, elementary laboratory course. 8 hours a week. Dr. CHAMBERS

21—Organic chemistry. Comprehensive treatment of the subject—4 lectures and 1 recitation. Laboratory work for analytical or industrial options, 12 hours, first half-year; for organic option, 9 hours first half-year and 18 hours second half-year. Professor BOGERT and Dr. CHAMBERS

36—Organic chemistry. Conferences. 2 hours a week. Professor BOGERT

22—Advanced organic chemistry, laboratory course. 12 hours per week. Professor BOGERT

23—Advanced organic chemistry, research. Professor BOGERT

24—Industrial chemistry, general course—3 lectures a week. Professor CHANDLER, Dr. LAUDY, and Dr. METZGER

25—Industrial chemistry, special course for chemists. 3 lectures for two years, one half the subject being discussed each year. Professor CHANDLER, Dr. LAUDY, and Dr. METZGER

26—Industrial chemistry, laboratory practice for chemists. 2 afternoons a week during the second half-year. Mr. TUCKER

27—Industrial chemistry, laboratory practice for chemists. Special applications. 2 afternoons a week during the first half-year. Professor PELLEW

28—Industrial chemistry, laboratory practice for chemists. Special applications. 5 afternoons a week during the second half-year. Mr. TUCKER

29—Industrial chemistry, advanced course for higher degrees

Original research. Personal instruction and laboratory work for one year. Professor PELLEW and Mr. TUCKER

39—Practical electrochemistry, laboratory course. 1 afternoon for part of second term. Mr. TUCKER

34—Chemical microscopy. 2 hours laboratory practice a week. Professor PELLEW

Courses Given at Barnard College

The following courses are given separately at Barnard College: 1, by Miss REIMER and Miss KELLER; 4, by Professor MALTBY; 7, by Miss KELLER; 19, by Miss REIMER; 20, by Miss REIMER; 30, by Miss REIMER; 38, an advanced course in Organic Chemistry open as a minor for A.M. and Ph.D., by Miss REIMER.

Other Courses

For courses in Chemistry given at Teachers College and for courses in Chemistry and Physiological Chemistry given at the College of Physicians and Surgeons and at the College of Pharmacy, see the Table of Contents and the special announcements of these Schools.

Equipment

Havemeyer Hall

In Havemeyer Hall the Chemical Department is provided with ample space for its museum, lecture-rooms, and laboratories, and every convenience has been provided for both the instructors and students working in the general or special courses.

There are five chemical lecture-rooms, all fully supplied with apparatus and instruments, the desks being equipped with pneumatic troughs, gas, pressure, exhaust, and electricity. The large chemical lecture-room on the ground floor contains 316 seats.

The museum of General Inorganic and Organic Chemistry and of the Chemical Arts, a large room occupying the whole left wing of the ground floor, contains the elements and all their more important compounds, inorganic and organic; materials and products illustrating the chemical arts, and numerous models, pictures, and diagrams.

The Qualitative Laboratory has one hundred and eighteen desks, each divided into two sections, and each thoroughly equipped.

The Quantitative Laboratory has eighty-eight desks. Attached to the main laboratory is a large and well-equipped balance room, containing accurate balances, and special rooms, provided with the latest and most improved apparatus for gas, water, food, and electrolytic analysis.

The Organic Laboratory has forty large desks. The laboratory is provided with high- and low-pressure steam, and with special rooms for balances, pressure ovens, glass-blowing, combustions, and for advanced work in various directions, including the determination of boiling-points, melting-points, specific gravities, vapor densities, and the synthetic preparation of organic compounds.

The Laboratory of Industrial Chemistry for the instruction of students in practical operations and the solution of problems in sanitary chemistry and hygiene is equipped for the manufacture of pure chemicals from their raw materials on an industrial scale, with fine batteries of steam evaporators, and with steam stills, centrifugals, filter presses, crushers, and the like. It includes a dyeing laboratory with a large stock of dye-stuffs, and with the regular equipment for the practical testing of dyes, including a calico-printing machine. Connected with it is a photometer room, containing a new and complete outfit for the practical testing of illuminants. Practical instruction is given in this laboratory in the filtration and purification of water and sewage, fermentation and distillation, the use of the electric furnace, and the manufacture of sugar, petroleum products, and leather.

A laboratory has been fitted up for the study of electrochemistry provided with an electric furnace and other appliances.

The Laboratory of Physical Chemistry is well equipped with the most recent apparatus adapted to a wide range of experimental work in the branches of heat, light, and electricity as applied to chemical problems.

The Assay Laboratory is provided with crucible and muffle furnaces, both gas and coal, for the fire assay of ores; also with crushing, pulverizing, and sampling machinery, balance room, storeroom, and thirty-six well-equipped working desks. It also contains all the apparatus necessary for the wet assay of silver bullion and for laboratory tests of ores.

The Chemical Library in Havemeyer Hall is supplied with an extensive collection of chemical books and journals, and is open from 9.00 A.M. to 5.00 P.M., and during the session of the University from 8.00 to 11.00 P.M.

Barnard College

The Department of Chemistry at Barnard College has laboratories well equipped with hoods and every facility for the proper study of the subjects offered. The desks have water, gas, and electricity.

There is a small library of useful reference books in chemistry to which the students have free access during the entire day.

Teachers College

The laboratories and lecture-room of Teachers College are well equipped for illustrating the teaching of chemistry in Secondary and Normal Schools. In these the chemistry classes of the Horace Mann School receive their instruction, and by observation and practical work in connection with the classes the students in Education 92 are enabled to become familiar with the duties of a teacher of Chemistry.

Civil Engineering

WILLIAM HUBERT BURR, C.E.....	Professor
EARL BRINK LOVELL, C.E.....	Adjunct Professor
ADOLPH BLACK, C.E.	Instructor
MYRON SAMUEL FALK, C.E., Ph.D.....	Instructor
WILLIAM HENRY YATES, C.E.....	Tutor
WALTER TAUBERT DERLETH, C.E., A.M.	Assistant
JULES AUGUSTE COELOS, C.E.....	Assistant

A complete, detailed statement of all the subjects covered by the course of study leading to the degree of Civil Engineer, both those given in the Department of Civil Engineering and in other departments of the University, will be found in the Announcement of the Courses in Civil Engineering, which will be supplied, without cost, on application to the Secretary of the University.

Courses

1—Surveying—2 hours, second half, first year. Professor LOVELL and Mr. DERLETH

2—Road engineering—2 hours, first half, second year. Mr. YATES

3—Water supply and irrigation—2 hours, second half, fourth year. Mr. BLACK

4—Masonry structures—2 hours, third year. Professor LOVELL and Mr. YATES

5—Resistance of materials—3 hours, first half, third year; 2 hours, second half, third year. Professor BURR, Dr. FALK, Mr. YATES, and Mr. DERLETH

6—Graphic statics—2 hours, second half, third year. Mr. YATES

6a—Graphic statics for mining engineers—1 hour, second half, third year. Mr. YATES

7—Theory of trusses—2 hours, first half, third year. Mr. YATES

8—Sanitary treatment of water supplies and sewage—2 hours, first half, third year. Mr. BLACK

9—Railroad engineering—3 hours, fourth year. Professor LOVELL

10—Design of bridges and buildings—2 hours, fourth year. Professor BURR and Dr. FALK

11—Foundations—2 hours, first half of fourth year. Professor BURR and Dr. FALK

12—Hydraulics—3 hours, first half of fourth year. Mr. BLACK

12b—Theory of mechanism—1 hour, first half, fourth year. Mr. YATES

13—Sewers and harbors—2 hours, second half of fourth year. Mr. BLACK

14—Theory of railroad surveying—3 hours, third year. Professor LOVELL

14a—Theory of railroad surveying—for mining engineers. 1 hour, first half, second year. Professor LOVELL

The Summer Courses in Surveying

These courses are conducted during sixteen weeks each summer vacation at a point in the country near Litchfield, Conn., where ample facilities are provided for all requisite operations, and where the topography is admirably adapted to the practical work of surveying. The operations at the summer school include the entire actual surveying of the Department of Civil Engineering, together with such lectures, computations, and mapping as pertain to it. About six weeks' continuous attendance is required of each class between the first and second, and the second and third years, and four weeks between the third and fourth years. The school possesses an unusually full equipment of engineers' and solar transits, levels, plane tables, compasses, and all accessories and smaller instruments. A corps of special assistants for each session aid the regular officers of the school. At each session the following courses are given:

15—Surveying between the first and second years—Pacing, chaining, and ranging—Farm survey—Adjustment of instruments—Angle reading by repetition—Repetition traverse—Azimuth traverse. Daily lectures, field and office work. Professor LOVELL, Mr. YATES, and Assistants

16—Surveying between the second and third years—Levelling—Topographical survey with plane table—City surveys—Mine surveying above ground—Use of solar attachment. Daily lectures, field and office work. Professor LOVELL, Mr. YATES, and Assistants

16a—Hydrographic surveying — Triangulation — Topography on shore—Soundings—Current meter work—Computation of river or tidal discharge — Preparation of map. Professor LOVELL and Mr. YATES

17—Surveying between the third and fourth years—Railroad surveying—Reconnaissance—Preliminary survey—Location—Cross-sectioning—Computations—A complete survey and location of a line two to five miles long are made, with all the attendant computations requisite for placing the work under contract. Daily lectures, field and office work. Professor LOVELL

Graduation Thesis—A satisfactory project or thesis is required of every candidate for the degree of Civil Engineer at graduation.

Courses in Sanitary Engineering

18—Sanitary engineering of buildings—2 hours, first half, second year. Mr. BLACK

19—General principles of hygiene and sanitary science—2 hours, second half, second year. Mr. BLACK

20—Heating and ventilation—2 hours, fourth year. Dr. FALK

21—Drainage of country districts and towns—2 hours, second half, fourth year. Mr. BLACK

University Courses

The minor subjects in the Department of Civil Engineering for the university degrees of Master of Arts and Doctor of Philosophy are the following:

5—Elasticity and resistance of materials.

22—Foundations, including theory of earth pressure (Civil Engineering 11 with additional reading).

23—Hydraulics (Civil Engineering 12 with additional reading).

24—Long-span bridges. Conferences, with reading and design work, as required.

Pre-requisite: Course 10.

25—Elastic and masonry arches. Conferences, with reading and design work, as required.

Pre-requisite: Course 4.

The major subjects for the same university degrees are the following:

26—Sanitary engineering.

27—Hydraulic engineering, including the hydraulics of rivers and power plants and municipal water-works.

28—Municipal engineering, including water-works, sewers and sewage works, streets and other public works and their administration.

29—The engineering of structures, including long-span bridges and deep foundations, with methods of building them, and advanced work in elasticity and resistance of materials.

Equipment

The department possesses an unusually full equipment of engineers and solar transits, levels, plane tables, compasses, and all accessories, as well as smaller instruments. Current meters, hook gauges, and floats of various types are also used in making observations on the flow in and discharge of rivers and canals. A complete set of sections of iron and steel shapes, models and photographs of engineering works, together with working plans of the latter, are in the department for the use of students. The hydraulic laboratory affords opportunity for the practical operations of measuring the discharge through weirs and other orifices, the flow through open channels and closed pipes, frictional and other resistances in pipes and open channels, as well as for meter gaugings, and for general hydraulic investigations. The testing work in the mechanical laboratory includes the complete tests of various structural

materials in tension, compression, bending, and torsion, including the observation and digesting of all corresponding data.

A cement-testing laboratory is fully equipped with testing machines, briquette moulds, tanks, and other apparatus requisite for all classes of investigations in the nature and physical properties of cements and cement mortars. All students are required to make and test briquettes of cement and cement mortar as well as to ascertain the weight, fineness, and other physical properties of such cement, sand, and mortar as may be assigned to them for examination.

Students taking the course of Civil Engineering enjoy the use of the laboratories in all of the departments of the University in which they pursue courses of study, and their laboratory work in those departments is identical with that of students taking courses of engineering study in the same departments.

The workshops used by the students in Civil Engineering are located in the Macy Manual Arts Building of Teachers College. The other laboratories used by students in the Department of Civil Engineering, and in which extended courses of work are given, are those of the Departments of Physics, Mechanical Engineering, and Electrical Engineering. Complete descriptions of these laboratories will be found in the circulars of their respective departments.

In addition to the actual equipment of the school, a great variety of large engineering works is continually in process of construction in New York City and vicinity, and the requisite steps are always taken to render them accessible to the students of the department for examination and study.

The library facilities consist of an extensive collection of foreign and domestic engineering books and periodicals, to which additions are being constantly made. The collection of engineering literature forms a part of the general Library of the University, and is constantly available for both undergraduate and post-graduate study.

Clinical Instruction

in Dermatology, Genito-Urinary Diseases, Laryngology, Ophthalmology, Orthopedic Surgery, and Otology. For Clinical Instruction in Medicine, Surgery, Gynecology, Neurology, and Pediatrics details will be found under the general heading of these departments.

GEORGE HENRY FOX, A.M., M.D.....	Professor of Dermatology
VIRGIL P. GIBNEY, M.D., LL.D.....	Professor of Orthopedic Surgery
WM. K. SIMPSON, M.D., M.Sc.	Professor of Laryngology
JAMES R. HAYDEN, M.D.....	Professor of Genito-Urinary Diseases
ARNOLD KNAPP, M.D.....	Professor of Ophthalmology
GORHAM BACON, M.D.....	Professor of Otology
ROYAL WHITMAN, M.D....	Chief of Clinic and Instructor in Orthopedic Surgery

JAMES R. WHITING, M.D.	Chief of Clinic and Instructor in Genito-Urinary Diseases
ROBERT LEWIS, JR., M.D.	Chief of Clinic and Instructor in Otology
FRANKLIN M. STEPHENS, M.D.	Instructor in Otology
GEORGE SLOAN DIXON, M.D.	Instructor in Otology
GEORGE THOMAS JACKSON, M.D.	Chief of Clinic and Instructor in Dermatology
RICHARD FROTHINGHAM, M.D.	Instructor in Laryngology
WARD A. HOLDEN, M.D.	Chief of Clinic and Instructor in Ophthalmology
HENRY H. TYSON, M.D.	Instructor in Ophthalmology
SAMUEL W. THURBER, M.D.	Chief of Clinic and Instructor in Laryngology

Clinical Assistants

In Orthopedic Surgery

CHARLTON WALLACE, M.D.	DANIEL B. BRINSMADE, M.D.
CHARLES H. JAEGER, M.D.	NEWTON B. WALLER, M.D.
SHIRLEY E. SPRAGUE, M.D.	CARL R. KEPPLER, M.D.
ARTHUR H. CILLEY, M.D.	

In Otology

FRANKLIN M. STEPHENS, M.D.	FRANK J. BLODGETT, M.D.
GEORGE SLOAN DIXON, M.D.	MATHEW L. CARR, M.D.
ALFRED MICHAELIS, M.D.	

In Dermatology

JOHN H. P. HODGSON, M.D.	CHARLES T. DADE, M.D.
JOHN ALDRICH, M.D.	S. DANA HUBBARD, M.D.

In Ophthalmology

JOHN A. JACKSON, M.D.	D. H. LEVY, M.D.
-----------------------	------------------

In Laryngology

ARTHUR P. COLL, M.D.	F. CONGER SMITH, M.D.
JOHN J. MCCOY, M.D.	C. D. VAN WAGENEN, M.D.
JOHN LESHURE, M.D.	F. A. SCHNEIDER, M.D.

In Genito-Urinary Diseases

WALTER B. BROUNER, M.D.	W. S. REYNOLDS, M.D.
S. W. FOWLER, M.D.	

The following courses are required of candidates for the degree of M.D.:

In the third year, Genito-Urinary Diseases 1, 2, 3; Ophthalmology 1, 2; Otology 1, 2.

In the fourth year, Dermatology 1, 2; Laryngology 1, 2, 3; Orthopedic Surgery 1, 2.

The following is optional:

In the fourth year, Orthopedic Surgery 3.

Full information regarding these courses and the equipment of the University for this work will be found in the Announcement of the College of Physicians and Surgeons for 1904-05. All communications regarding them should be addressed to the Secretary of the Faculty of Medicine, 437 W. 59th Street.

Courses

In Dermatology

1—Clinical lectures at the Vanderbilt Clinic upon the diseases of the skin. 1 hour. Monday, 2 P.M. First half of the year. Professor FOX

2—Practical instruction at the Vanderbilt Clinic in the diagnosis and treatment of the diseases of the skin. 10 lessons for each student. Dr. JACKSON

In Genito-Urinary Diseases

1—Genito-urinary diseases—Clinical lectures at the Vanderbilt Clinic. 3 P.M., Monday. 1 hour, throughout the academic year. Professor HAYDEN

2—Practical instruction at the Vanderbilt Clinic in the diagnosis and treatment of genito-urinary diseases—10 lessons for each student. Dr. WHITING

3—Hospital clinics in genito-urinary diseases—Bellevue Hospital, Tu. at 3.30 P.M. throughout the academic year. Professor HAYDEN

In Laryngology

Instruction in the Department of Laryngology (including diseases of the larynx, pharynx, and nasal passages) is both didactic and clinical. It comprises:

1—A systematic course of didactic lectures, which for convenience in teaching and economy of time is given to the fourth-year students collectively in the amphitheatre of the Vanderbilt Clinic.

1 hour. M. at 2 P.M., second half of the year. Professor SIMPSON

2—Practical clinical instruction in the Laryngological Hall of the Vanderbilt Clinic to sections of the class in the use of the laryngoscope, rhinoscope, and tongue spatula, and in the laryngoscopic and posterior rhinoscopic examination of both normal and pathological cases, all under the direct and personal supervision of the Instructor. Dr. THURBER

3—Individual clinical demonstrations, at which, during his course of "section" teaching, each student has demonstrated to him, by the Instructor, a certain number of pathological cases, special attention being given to the questions of general diagnosis, differential and bacteriological diagnosis, and treatment. Dr. FROTHINGHAM

In Ophthalmology

1—Clinical lectures, at the Vanderbilt Clinic, upon the diseases of the eye. In selected cases the diagnosis is made, treatment applied, and minor operations are performed before the class.

Before and after the lectures, as opportunity offers, microscopic demonstrations of the pathological histology of the eye are made by Dr. HOLDEN. 1 hour, Tu. at 2 P.M. Professor KNAPP

2—Practical instruction, at the Vanderbilt Clinic. 10 lessons for each student. Drs. HOLDEN and TYSON

In Orthopedic Surgery

1—Clinic in orthopedic surgery and diseases of the joints at the Vanderbilt Clinic. 1 hour a week. F. at 12. Professor GIBNEY

2—Practical instruction. 10 lessons for each student, at the Hospital for Ruptured and Crippled. Dr. WHITMAN

3—Operations at the Hospital for Ruptured and Crippled. Tu. at 8.30 A.M. Professor GIBNEY

In Otology

1—Didactic lectures with lantern demonstration on diseases of the ear. 1 hour, Th. 2 P.M., first half of the year. Professor BACON

2—Practical instruction in the diagnosis of the diseases of the ear at the Vanderbilt Clinic. 10-12 lessons for each student. Drs. LEWIS, STEPHENS, and DIXON

Comparative Literature

JEFFERSON BUTLER FLETCHER, A.M. *Professor*
JOEL ELIAS SPINGARN, Ph.D. *Adjunct Professor*

All the courses given below are open to graduate students only, both men and women, and may all be counted towards the higher degrees. Any two of the five courses offered are pre-requisite for admission to the Seminars.

Courses 1, 2, 6, 7, and 11 may be offered as a full minor, and Seminars A, B, and C as a partial minor or major for Ph.D.

Courses

[1—The comparative study of literature: its methods and its history. 2 hours. Professor FLETCHER

Not given in 1904-05]

2—History of literary criticism in modern Europe. 3 hours. Professor SPINGARN

6—European literature in the full Renaissance. 3 hours. Professor FLETCHER

7—The literary relations of England and the Continent in the time of the Tudors. 2 hours. Professor FLETCHER

11—European literature during the later Renaissance and the Catholic reaction. 3 hours. Professor SPINGARN

Seminar A—The mediæval and modern pastoral. 2 hours. Professor FLETCHER

Seminar B—Classicism in modern literature. 2 hours. Professor SPINGARN

Seminar C—The tradition of chivalry in modern literature. 2 hours. Professor SPINGARN

Equipment

The officers of the department have given much attention to the requirements of their courses in the matter of learned publications, the books of specialists in literary topics, the particular collections grouped about great authors, and the rarer literature of the world of letters. The general subject of literary history and criticism and the latest phases of literary scholarship are well represented in the Library, and those subjects with which the courses directly deal are represented with unusual fulness. A special effort has been made to gather beforehand the literature of subjects for research, so that there may be no delay in providing such material. In the last few years several thousand volumes have been purchased by the department with a particular view to the needs of students, and it is believed that, within the limits of study, the collections are ample; and whatever books prove to be required will be at once obtained. Substantially all periodicals of the literary or learned world are currently received, and in files of such publications, transactions of societies, and the like the Library is uncommonly rich, as well as in foreign dissertations. These are the treasures of information for minute research. In the Library a special study room is provided for the department, in immediate communication with the books relating to its specific subject.

Diseases of Children

(See Pediatrics)

Domestic Art

Eight courses in Domestic Art are offered under the auspices of Teachers College. For details see the *Announcement of Teachers College* and the special circular of the Department, which will be sent, without charge, upon application to the Secretary of the University.

Domestic Science

Nine courses in Domestic Science are offered under the auspices of Teachers College. For details see the *Announcement of Teachers College* and the special circular of the Department, which will be sent, without charge, upon application to the Secretary of the University.

Economics and Social Science

EDWIN R. A. SELIGMAN, Ph.D., LL.D.....	<i>McVickar Professor</i>
FRANKLIN HENRY GIDDINGS, Ph.D., LL.D.....	<i>Professor</i>
JOHN BATES CLARK, Ph.D., LL.D.....	<i>Professor</i>
HENRY ROGERS SEAGER, Ph.D.....	<i>Adjunct Professor</i>
HENRY LUDWELL MOORE, Ph.D.....	<i>Adjunct Professor</i>
ALVIN SAUNDERS JOHNSON, Ph.D.....	<i>Instructor</i>
GEORGE J. BAYLES, Ph.D.....	<i>Lecturer in Ecclesiology</i>
ELSIE CLEWS PARSONS, Ph.D.....	<i>Lecturer (Barnard College)</i>

For more detailed statement of the scope of each course see the Announcement of the Faculty of Political Science (Division of History, Economics, and Public Law).

The courses offered fall into two divisions: Political Economy and Finance, and Sociology and Statistics. Economics A and 1 are the general introductory courses primarily intended for juniors in Columbia and Barnard Colleges. Economics 3 to 8 and 11 to 13 will be found of especial value to law students seeking to supplement their purely legal studies. Sociology 15 is a general introductory course. Sociology 16 is a special course at Barnard College, on the evolution of family institutions. Sociology 15 to 24, together with Economics 6, 8, 11, and 12, will be of value to students of theology who wish to extend their knowledge of the social problems of the day.

In addition to the regular courses, there are several seminars, organized to furnish students opportunity for special investigation and original research. Every candidate for the degree of Master of Arts or Doctor of Philosophy, taking his major subject in this department, must work in at least one of the seminars.

The allied courses in history and public law will be found extremely useful for the students of social science, because of the close interrelations of history, law, and economics. Taken together, these courses constitute a complete scheme of political science.

Economics A is required of juniors in Columbia and Barnard Colleges, and open to sophomores who have taken Economics 1. Economics 1 is open to juniors and qualified sophomores. Economics 2, 3, 4, 6, 11, 12, and 13 and Sociology 15 and 16 are open to seniors and other candidates for the degree of Bachelor of Arts. The remaining courses are intended for university students. Courses corresponding to Economics A, 1, 2, 3, 6, 11, and 12 and Sociology 15 are given separately at Barnard College, and by the same instructors unless otherwise noted. Sociology 16 is given only at Barnard.

Economics 5, 7, 8, 9, 10, 13, 14 and Sociology 17, 18, 19, 20, 21, 22, 24, and 30 are open to graduate women students upon the same terms as to men.

Economics 2, 3, 4, 6, 11, 12 and Sociology 15 may be counted toward the degree of Master of Arts or Doctor of Philosophy only

when such additional work is taken in connection with them as may be prescribed by the instructor in charge.

All the courses are open to male auditors. Women holding the first degree may register as auditors in Economics 5, 7, 8, 9, 10, 14, and Sociology 17, 18, 19, 20, 21, 22, 24, and 30.

Courses in Political Economy and Finance

A—Outlines of economics—Recitations, lectures, and essays. 3 hours, second half-year. Professors SELIGMAN and SEAGER and Dr. JOHNSON

Given at Barnard the first half-year by Professor MOORE and Dr. JOHNSON.

1—Economic history of England and America—Selected text-books, recitations, essays, and lectures. 3 hours, first half-year. Professor SELIGMAN and Dr. JOHNSON

Given at Barnard the second half-year by Professor MOORE and Dr. JOHNSON.

2—Economic readings—Reading, discussions, lectures, and essays. 2 hours. Professors SEAGER and MOORE

Given at Barnard by Professor MOORE under the name of:

2b.—Economic theory.

2c.—English social reformers.

3—Money and Banking—Lectures, discussions, and reading. 2 hours, second half-year. Professor MOORE

4—Science of finance—Lectures and private reading. 2 hours. Professor SELIGMAN

Courses 3 and 4 are combined at Barnard under the name of Practical Economics, and are given as a 2-hour course during the second half-year by Professor SEAGER.

[5—Fiscal and industrial history of the United States—Lectures and private reading. 2 hours, first half-year. Professor SELIGMAN
Not given in 1904-05]

6—The labor problem—Lectures and private reading. 2 hours, first half-year. Professor SEAGER

[7—Railroad problems, economic, social, and legal—Lectures and private reading. 2 hours, second half-year. Professor SELIGMAN
Not given in 1904-05]

8—History of economics—Lectures, discussions, and readings. 2 hours. Professor SELIGMAN

9—Economic theory I—The static laws of distribution—Lectures and private reading. 2 hours, first half-year. Professor CLARK

10—Economic theory II—The dynamic laws of distribution—Lectures and private reading. 2 hours, second half-year. Professor CLARK

11—Communitistic and socialistic theories—Lectures and private reading. 2 hours, first half-year. Professor CLARK

12—Theories of social reform—Lectures and private reading. 2 hours, second half-year. Professor CLARK

13—Commerce and commercial policy—Lectures and private reading. 2 hours, second half-year. Dr. JOHNSON

31—Problems of industrial organization—Lectures and private reading. 2 hours, second half-year. Professor SEAGER

14—Seminar in political economy and finance. 2 hours. Professors SELIGMAN and CLARK

Courses in Sociology and Statistics

15—Principles of sociology—Recitations, lectures, and collateral reading. 2 hours. Professor GIDDINGS

16—Family organization—Lectures and house-to-house observation. Bi-weekly, 1 hour. Dr. ELSIE CLEWS PARSONS
At Barnard College only.

17—Theory of statistics—Lectures and laboratory. 2 hours, first half-year. Professor H. L. MOORE

18—Social statistics—Lectures and laboratory. 2 hours, second half-year. Professor GIDDINGS

[19—Economic statistics—Lectures and laboratory. 2 hours, second half-year. Professor SEAGER
Not given in 1904-05]

20—Social evolution, ethnic and civil origins—Lectures and private reading. 2 hours, first half-year. Professor GIDDINGS

21—Social evolution—Civilization, progress, and democracy—Lectures and private reading. 2 hours, second half-year. Professor GIDDINGS

22a—Pauperism, poor laws, and charities—Lectures and private reading. 2 hours, first half-year. Professor SEAGER

22b—Crime and penology—Lectures as in 22a and private reading with Professor GIDDINGS

24—Civil aspects of ecclesiastical organization—Lectures and private reading. 1 hour. Dr. BAYLES

30—Seminar in sociology—2 hours, bi-weekly. Professor GIDDINGS

Equipment

The Library facilities are unexcelled. Every journal of importance, American or foreign, dealing with economics or social science, is taken regularly by the Library. Any book needed by advanced students can usually be bought at once. The special library of history and political science alone comprises more than seventy thousand volumes.

Students of economics and social science will find New York to be a centre of library facilities unrivalled elsewhere in this country. In

addition to the University Library, there are rich treasures at the New York Public Library on the Astor, Lenox, and Tilden foundation, New York Historical Library, Long Island Historical Library, Library of the Charity Organization Society, the Bar Association Library, and the Law Institute Library, to each of which students have access under favorable conditions. Advanced students also have at their disposal the library of the McVickar Professor of Political Economy, which contains the most complete collection of works on economics to be found in the United States.

The facilities offered to students of sociology include a large library of general and special works, and unusual opportunities for field work. A generous gift for works on sociology has provided a very complete equipment of publications on sociological theory, the history of the family, pauperism, crime, and penology. Arrangements have been made with the Charity Organization Society, the State Charities Aid Association, the University Settlement, the East-Side House, and the Brooklyn Bureau of Charities by which students can become fully acquainted with actual work among the people and with the most perfect methods.

The Statistical Laboratory, conducted by Professors GIDDINGS and MOORE, is equipped with the Hollerith tabulating machines, computers, and all other modern facilities.

Education

Teachers College is the Department of Education of Columbia University. In the section of the Catalogue devoted to Teachers College (see Table of Contents) will be found a list of its officers and a statement of its equipment for instruction and research in education.

The following courses are open to students of Columbia College and Barnard College, and to University students. All courses are open to men and women on equal terms.

1. Courses in the several departments open to all undergraduate students are designated by the numbers 1-9 inclusive.

2. Courses open to juniors and seniors only are designated by the numbers 10-49 inclusive. All courses in this group must be preceded or paralleled by Psychology A and Education 10.

3. Courses open to seniors and graduates only are designated by the numbers 50-99 inclusive. All courses in this group must be preceded or paralleled by Psychology A, Education 10, and Education 50, none of which may be counted toward the higher degrees. Courses 52-99 inclusive may be counted toward the higher degrees as minor subjects, or, when combined with a practicum in the same field, as major subjects. Education 50 G and 51, together, may be counted as a minor by students whose major is not in Education.

4. Courses open to graduate students only are designated by the number 100 and above.

A full statement of the nature of each course, the work pre-requisite to it, and the credit which may be received for it in partial fulfilment of the requirements for the several degrees and diplomas, will be found in the current edition of the Announcement of Teachers College, which may be had, without charge, upon application to the Secretary of Teachers College.

History and Philosophy of Education

11—Logic as applied to education—Lectures, readings, and discussions. 2 hours, second half-year. Professor DEWEY

50—History and principles of education—Lectures, required readings, reports, and discussions. 3 hours. Professor MONROE and assistant

50G—History and principles of education—Special graduate section of the course described above. 2 hours. Professor MONROE

50a—History of education to modern times—First third of Education 50, described above. 1 hour. Professor MONROE

50c—Principles of education—Last third of Education 50, described above. 1 hour. Professor MACVANNEL

51—Contemporary educational problems—Lectures and discussions. 1 hour. Dean RUSSELL and Professor MONROE, in coöperation with President BUTLER and special lecturers

52—Modern educational theory—Lectures, reading, and discussion. 2 hours. Professor MACVANNEL

100—Practicum—Sources in the history of education. 2 hours. Professor MONROE

101—Seminar—History of education. Professor MONROE

102—Practicum—Philosophy of education. Lectures, reports, and discussions. 2 hours. Professor MACVANNEL

103—Seminar—Philosophy of education. Professor MACVANNEL

Educational Administration

54—School administration—Lectures, essays, and discussions. 2 hours. Professor DUTTON

104—Practicum—Administration of public education in the United States. 2 hours. Professor DUTTON

105—Seminar—Educational administration. Dean RUSSELL and Professor DUTTON

106—Practicum—Foreign school systems. 2 hours. Dean RUSSELL

Educational Psychology

A—Elements of psychology. First half-year. }

10—Educational psychology. Second half-year. }

Lectures, practical exercises, and recitations. 3 hours. Professor THORNDIKE and Dr. NORSWORTHY

12—Child study—Observation, experiments, private reading, and conferences. 2 hours. Dr. NORSWORTHY

59—Genetic psychology—Advanced course. 2 hours. Professor THORNDIKE

108—Practicum—The application of psychological and statistical methods to education. 2 hours. Professor THORNDIKE

109—Seminar—Genetic and comparative psychology. Professor THORNDIKE

Elementary Education

15—General method and practice teaching—Observation, conferences, and practical work. 3 hours. Mr. SUZZALLO in coöperation with Professor McMURRY

16—Primary and kindergarten teaching—Lectures, observation, and practical work. 2 hours, first half-year. Miss O'GRADY and Professor McMURRY

55—Supervision, critic work, and experimental teaching. 3 hours. Mr. SUZZALLO in coöperation with Professor McMURRY

114—Practicum—The curriculum of the elementary school. 2 hours. Mr. SUZZALLO in coöperation with Professor McMURRY

115—Seminar—Problems in the theory and practice of elementary teaching. Professor McMURRY

14—Religious education—Lectures, discussions, reports, observation, and practice. 1 hour. Dr. HODGE

62—Theory and practice of teaching domestic art—Lectures, conferences, and practical work. 3 hours. Professor WOOLMAN

63—Domestic art—Supervision and critic teaching in domestic art. Conferences and practical work. 2 hours. Professor WOOLMAN

64—Theory and practice of teaching domestic science—Lectures, conferences, and practical work. 2 hours. Professor KINNE

26—Theory and practice of teaching English in elementary schools—Lectures, recitations, and private reading. 2 hours. Professor BAKER

68—Theory and practice of teaching art—Lectures, conferences, observation, and practical work. 3 hours. Professor Dow and Miss CORNELL

70—Theory and practice of teaching French—The same as French 17. 2 hours. Professor COHN

32—Theory and practice of teaching geography in elementary schools—Lectures, discussions, and practical work. 2 hours. Professor DODGE and Miss KIRCHWEY

32a—First half of Education 32. 1 hour. Professor DODGE and Miss KIRCHWEY

38—Theory and practice of teaching history in elementary schools—Lectures, conferences, reference and practical work. 2 hours. Professor CASTLE

38a—First half of Education 38. 1 hour. Professor CASTLE

16—Primary and kindergarten methods—Observation, discussions, written reports and lectures. 2 hours, first half-year. Miss O'GRADY

80—Theory and practice of kindergarten teaching—Lectures, discussions, and practical work. Lectures, 1 hour, Miss FISHER. Discussions and practical work, 5 hours, Miss O'GRADY and assistants

81—Kindergarten supervision and critic teaching. 2 hours. Lectures, 1 hour. Miss BLOW, Miss O'GRADY, and special lecturers

84—Theory and practice of teaching manual training—Discussions, collateral reading, observation, and practical work. 3 hours. Professor RICHARDS

85—Organization of manual training—Discussions, essays, and investigation. 2 hours. Professor RICHARDS

46—Theory and practice of teaching mathematics in elementary schools—Lectures, discussions, and practical work. 2 hours. Professor SMITH

88—Theory and practice of teaching school music—Lectures and practical work. 3 hours. Professor FARNSWORTH

20—Theory and practice of teaching nature study in elementary schools—Lectures, discussions, and practical work. 3 hours. Professor BIGELOW, in coöperation with Professors LLOYD, WOODHULL, and DODGE

Secondary Education

57—Secondary education—Lectures, discussions, and reports. 2 hours. Professor SACHS

116—Practicum—The secondary-school curriculum. 2 hours. Professor SACHS

117—Seminar in secondary education. Professor SACHS

60—Theory and practice of teaching biology in the secondary school.—Lectures, discussions, and practical work. 3 hours. Professors LLOYD and BIGELOW

120—Practicum in botany and zoölogy. A critical study of the materials and methods employed in the teaching of botany and zoölogy. 2 hours. Professors LLOYD and BIGELOW

62—Theory and practice of teaching domestic art—Lectures, conferences, and practical work. 3 hours. Professor WOOLMAN

63—Supervision and critic teaching in domestic art—Conferences and practical work. 2 hours. Professor WOOLMAN

64—Theory and practice of teaching domestic science—Lectures,

conferences, and practical work. 2 hours. Professor KINNE and Miss WHITTEMORE

124—Supervision and critic teaching in domestic science—Conferences and practical work. 2 hours. Professor KINNE

66—Theory and practice of teaching English in secondary schools—Lectures, reading, written work, observation, and practice-teaching. 3 hours. Professor BAKER

126—Practicum in English—The history of the criticism of the college entrance classics. 2 hours. Professor BAKER

68—Theory and practice of teaching art—Lectures, conferences, observation, and practical work. 3 hours. Professor DOW and Miss CORNELL

70—Theory and practice of teaching French—The same as French 17. 2 hours. Professor COHN

72—Theory and practice of teaching geography in secondary schools—Lectures, discussions, and practical work. 3 hours. Professor DODGE and Miss KIRCHWEY

132—Practicum in geography. 2 hours. Professor DODGE

74—Theory and practice of teaching German in secondary schools—Lectures, discussions, reports, and practical work. 3 hours. Professor BAGSTER-COLLINS

76—Theory and practice of teaching Greek in secondary schools—Lectures, reports, and practical work. 3 hours. Professor LODGE

136—Practicum in Greek—Xenophon and Homer. 2 hours. Professor LODGE

78—Theory and practice of teaching history in secondary schools—Lectures, discussions, and practical work. 3 hours. Professor CASTLE

138—Practicum in history. 2 hours. Professor CASTLE

82—Theory and practice of teaching Latin in secondary schools—Lectures, reports, and practical work. 3 hours. Professor LODGE

142—Practicum in Latin—Cæsar and Vergil. 2 hours. Professor LODGE

84—Theory and practice of teaching manual training—Discussions, collateral reading, observation, and practical work. 3 hours. Professor RICHARDS

85—Organization of manual training—Discussions, essays, and investigation. 2 hours. Professor RICHARDS

145—Seminar in manual training. Professor RICHARDS

86—Theory and practice of teaching mathematics in secondary schools—Lectures, discussions, and practical work. 3 hours. Professor SMITH

146—Practicum in the history and teaching of mathematics. 2 hours. Professor SMITH

88—Theory and practice of teaching music—Lectures and practical work. 3 hours. Professor FARNSWORTH

90—Theory and practice of physical education—Lectures, readings, reports, and practical work. 3 hours. Dr. SKARSTROM and assistants

92—Theory and practice of teaching physical science in secondary schools—Lectures, laboratory exercises, observation, and practical work. 3 hours. Professor WOODHULL and Miss VAN ARSDALE

152—Practicum in physical science. 2 hours. Professor WOODHULL

Electrical Engineering

FRANCIS B. CROCKER, E.M., Ph.D. Professor

GEORGE FRANCIS SEVER. Adjunct Professor

FITZHUGH TOWNSEND, A.B., E.E. Tutor

MORTON ARENDT, E.E. Lecturer

SALISBURY M. DAY, E.E. Assistant

LEONARD J. LEWINSON, E.E. Assistant

For full information as to the scope of the work in Electrical Engineering, text-books, etc., students are referred to the Announcement of the Course in Electrical Engineering, which may be obtained from the Secretary of the University.

This pamphlet contains a detailed statement of the requirements for the degree of Electrical Engineer, for students either with or without previous collegiate or technical training.

The theoretical side of Electrical Engineering is treated in lectures delivered by Professor PUPIN and Dr. WILLS of the Department of Mechanics, under which head the various courses will be found. (See Mechanics 6-9, 14-17.)

Courses 37 and 9 are required of second-year students in Electrical, Mechanical, Mining, and Civil Engineering, and Chemistry, and are open to seniors of the College.

Courses 1, 4, 10, and 29 are required of third-year students in Electrical Engineering; 1, 4, and 27 of third-year students in Mechanical Engineering; and 3 of third-year students in Chemistry (all courses).

Courses 5 and 105 are required of third-year students in Mining, Civil and Sanitary Engineering, Metallurgy, and of fourth-year students in Chemistry (Course I).

Courses 2, 3, 6, 8, 11, 12, 22, 23, 25, and 26 are required of fourth-year students in Electrical Engineering; and 2, 8, 23, and 28 of fourth-year students in Mechanical Engineering.

Course 24 counts as major for Ph.D.

Courses

1—Dynamo and motor practice—Principles, construction, operation, and testing of dynamos and electric motors. 2 hours, first half-year. Professor SEVER

2—Electric power—Transmission and distribution of electric power, including the principles, construction, and applications of the various types of direct-current, single-phase, and polyphase motors. 2 hours, first half-year. Professor CROCKER and Mr. ARENDT

3—Electrochemistry—Including electrometallurgy; the theory and applications of electrolysis and electrical heating; theory and practice of primary and secondary batteries; production, separation, and purification of chemicals and metals. 1 hour. Professor CROCKER and Mr. ARENDT

4—Electrical Plants—The design, installation, and operation of electrical generating stations and plants, including a discussion of each of the various elements and methods employed. 2 hours, second half-year. Professor CROCKER and Mr. ARENDT

5—Electrical engineering—The principles of electrical engineering and their application to general engineering. 1 hour lecture, second half-year. Professor CROCKER and Mr. ARENDT

6—Telegraph and telephone. 2 hours, second half-year. Professor CROCKER and Mr. ARENDT

8—Electric railway—The design, installation, and operation of the various systems of electric railways. 2 hours, second half-year. Professor SEVER

9—Elements of the Dynamo—The principles and general construction of dynamo-electric machinery. 1 hour, second half-year. Professor CROCKER and Mr. ARENDT

10—Direct-current laboratory—Practice in the use of instruments and in the operation and testing of direct-current dynamos and motors. 2 afternoons. Professor SEVER and Assistants

11—Alternating-current laboratory—Practice in the use of instruments and in the operation and testing of alternating-current generators, motors, and transformers. 2 afternoons. Mr. TOWNSEND

12—Electrical-instrument laboratory. Advanced electrical measurements of inductance, capacity, magnetism, etc. Storage-battery testing, photometry of electric lamps. 3 afternoons, first half-year. Mr. TOWNSEND and Assistants

15—Design of direct-current machinery. Complete and original design with all calculations and working drawings of a specially assigned electric generator or motor. 2 hours conference and 1 afternoon in drawing-room, second half-year. Professor SEVER

22—Management of electrical plants—Economy in design, construction, operation, organization and administration. 2 hours, second half-year. Professor CROCKER and Mr. ARENDT

23—Electrical distribution—Principles and methods; series, parallel, and multiple wire systems; regulation of voltage and current; transformers; interior wiring; meters; arc and incandescent lamps. 2 hours, first half-year. Professor CROCKER and Mr. ARENDT

24—Special problems and original investigations in advanced electrical engineering. Post-graduate work under the direction of the officers of the department.

25—Design of alternating-current machinery—Original design of alternating-current generators, motors, transformers, etc. 2 hours, second half-year. Mr. TOWNSEND

26—Graduation thesis for degree of Electrical Engineer—Original work and report on a subject approved by the head of the department.

27—Direct-current laboratory—Short course for students in Mechanical Engineering. 1 afternoon, first half, third year. Professor SEVER and assistants

28—Alternating-current laboratory—Short course for students in Mechanical Engineering. 1 afternoon, part of first half, fourth year. Mr. TOWNSEND

29—Theory of dynamo-electric machinery—Study of the fundamental actions in dynamos and motors, including the discussion of their characteristic curves. 1 hour, first half-year. Mr. TOWNSEND

37—Elements of electrical engineering—General electrical principles, laws, measurements, and the introduction to their applications. 2 hours, first half-year. Mr. TOWNSEND

105—Direct-current laboratory—Short course for students in Civil, Sanitary, and Mining Engineering, Metallurgy, and Chemistry (Course B). 1 afternoon, second half-year. Professor SEVER and assistants

Equipment

The offices, laboratories, lecture, and other rooms of the Electrical Engineering Department are in the south end of Engineering. In the basement are situated the two machine laboratories, for direct-current machinery, and alternating-current apparatus.

The various machines include examples of constant potential generators, constant-current, arc-lighting dynamos, many types of stationary and railway motors, and motor-dynamos. Machine and hand tools are provided for making and repairing apparatus. Complete sets of ampere and volt meters, speed indicators, and transmission and absorption dynamometers are available for testing the various dynamos and motors.

The alternating-current apparatus includes single-phase and poly-phase generators, induction and synchronous motors, rotary converters, and various types and sizes of transformers. Each alternator is driven by a separate electric motor, enabling its speed to be independently regulated. Complete sets of alternating-current measuring instruments and curve-tracing apparatus are also provided.

The lecture-rooms are provided with an ample supply of electrical energy of different forms, and other facilities for experimental demon-

strations. The museum contains cases for the collection of apparatus, models, and materials relating to Electrical Engineering.

The large instrumental laboratory on the third floor contains various forms of galvanometers, ampere balances, potentiometers, standard cells, and resistances; measuring apparatus, laboratory standard volt and ampere meters. A storage battery is provided for testing purposes and for calibration and standardization. The research room is used for special post-graduate and thesis work.

A most important facility is the large and reliable supply of electric power which is afforded by the central power plant of the University. This plant, which has a total capacity of 750 H.P., illustrates the latest and best practice in electrical engineering, and furnishes current for electric lighting, for driving the motors and fans used in ventilating all of the buildings, and for experimental purposes.

BRANDER MATTHEWS, D.C.L., Litt.D., LL.D.....	<i>Professor</i>
GEORGE RICE CARPENTER, A.B.....	<i>Professor</i>
WILLIAM PETERFIELD TRENT, M.A., LL.D.....	<i>Professor</i>
FRANKLIN THOMAS BAKER, A.M.....	<i>Professor in Teachers College</i>
WILLIAM TENNEY BREWSTER, A.M.....	<i>Adjunct Professor</i>
GEORGE C. D. ODELL, Ph.D.....	<i>Adjunct Professor</i>
HERBERT VAUGHN ABBOTT, A.B..	<i>Adjunct Professor in Teachers College</i>
WILLIAM ALLAN NEILSON, Ph.D.....	<i>Adjunct Professor</i>
VIRGINIA CROCHERON GILDERSLEEVE, A.M.....	<i>Tutor</i>
CHARLES MONTGOMERY HATHAWAY, Jr., Ph.D.....	<i>Tutor</i>
KENNETH C. M. SILLS, A.M.	<i>Tutor</i>
GEORGE PHILIP KRAPP, Ph.D.	<i>Lecturer</i>
FRANCIS XAVIER CARMODY, A.B., LL.B.	<i>Lecturer</i>
ARMOUR CALDWELL, A.B.....	<i>Assistant</i>
WILLIAM BRIAN HOOKER, A.M.....	<i>Assistant</i>
MARGARET ELIZABETH BALL, A.M.	<i>Assistant</i>

Course A is given at Columbia College, at Barnard College, and at Teachers College.

The undergraduate courses B, 1, 3, 10, 15, 16, 17, 19, are given both at Columbia College and at Barnard College. Course A is prescribed for freshmen and Course B for sophomores.

Courses 2 and 20 are given only at Columbia College.

Course 21 is given only at Barnard College.

Courses 30-51 and Seminars A, B, and C are open to graduate students (but Courses 40-44 are not open to women).

For pre-requisites for admission into courses, and a fuller description of the scope of each course, see the Circular of the Division of Modern Languages and Literatures.

Courses

A—English literature and composition. 3 hours. Professor ODELL, Mr. CALDWELL, and Mr. HOOKER (Columbia College); Professor BREWSTER, Miss GILDERSLEEVE, and Miss BALL (Barnard College); Professor ABBOTT (Teachers College)

B—English literature and composition. 2 hours (Columbia); 3 hours (Barnard). Mr. SILLS (Columbia); Professor BREWSTER, Miss GILDERSLEEVE, and Miss BALL (Barnard)

1—English composition—Daily themes and fortnightly essays, lectures, and consultations. 3 hours. Professor G. R. CARPENTER (Columbia); Professor BREWSTER (Barnard)

2—Elocution—Lectures and exercises. 2 hours. Mr. CARMODY (Columbia)

3—Public speaking and debating. 3 hours. Mr. CARMODY (Columbia); Miss GILDERSLEEVE (Barnard)

10—Anglo-Saxon, introduction to the history of the English language. 2 hours. Dr. KRAPP

15—American literature. 3 hours. Professor BRANDER MATTHEWS, Mr. CALDWELL (Columbia); Professor G. R. CARPENTER (Barnard)

16—English literature in the nineteenth century. 3 hours. Professor ODELL and Mr. CALDWELL (Columbia); Professor TRENT (Barnard)

17—English literature in the eighteenth century. 3 hours. Professor ODELL (Columbia); Professor TRENT (Barnard)

[18—English literature in the eighteenth century. 3 hours. Professor ODELL (Columbia); Professor TRENT (Barnard)]

Courses 17 and 18 are given in alternate years.

19—Shakspeare. 2 hours. Professor NEILSON

20—The development of English fiction. 3 hours. Professor BRANDER MATTHEWS (Columbia)

21—The development of the English drama. 3 hours. Professor BREWSTER (Barnard)

[30—English composition. 2 hours. Professor G. R. CARPENTER]

31—The theory of English usage. 2 hours. Professor G. R. CARPENTER

33—Anglo-Saxon literature: poetry and prose. 2 hours. Dr. KRAPP

34—Anglo-Saxon lyric poetry; English of the transition period. 2 hours. Dr. KRAPP

37—Chaucer. 2 hours. Professor NEILSON

[40—Epochs of the drama. 2 hours. Professor BRANDER MATTHEWS]

41—Dramatists of the nineteenth century. 2 hours. Professor BRANDER MATTHEWS

Courses 40 and 41 are given in alternate years.

[42—Molière and modern comedy. 2 hours. Professor BRANDER MATTHEWS]

43—English comedy: its history and its methods. 2 hours. Professor BRANDER MATTHEWS

Courses 42 and 43 are given in alternate years.

44—The history of the drama—Special topics. Professor BRANDER MATTHEWS

46—Studies in the English drama. 2 hours. Dr. HATHAWAY

[47—English literature from 1625–1701. 2 hours. Professor TRENT]

[48—English literature from 1701–1798. 2 hours. Professor TRENT]

49—English literature in the first half of the nineteenth century. 2 hours. Professor TRENT

Courses 47, 48, 49, are given in successive years.

[50—English poetic forms. 2 hours. Professor TRENT]

[51—English prose. 1 hour. Professor BREWSTER]

Seminar A—Scottish literature before the Reformation. 2 hours. Professor NEILSON

Seminar B—English literature from 1603 to 1625. 2 hours. Professor TRENT

Seminar C—Discussion of dissertations. Professors TRENT and NEILSON, Dr. KRAPP and Dr. HATHAWAY

Undergraduate Courses in Teachers College

T. C. 2—Shakspeare—Recitations, lectures, fortnightly reports, and conferences. 2 hours. Professor ABBOTT

T. C. 3—Composition—Lectures, fortnightly themes or tri-weekly paragraphs, and conferences. 2 hours. Professor ABBOTT

T. C. 5—Nineteenth-century poetry—Recitations, conferences, and reports. 2 hours. Professor BAKER

T. C. 10—The folk story. 2 hours, second half-year. Lectures and reading. Professor ABBOTT

Fine Arts

Nine courses in Fine Arts are offered under the auspices of Teachers College. For details see the *Announcement of Teachers College* and the special circular of the department, which will be sent, without charge, upon application to the Secretary of the University.

(See also the Departmental Statements of Architecture and Music in this volume.)

French

(See Romance Languages and Literatures)

Geography

RICHARD E. DODGE, A.M.....	<i>Professor</i>
CLARA B. KIRCHWEY.....	<i>Tutor</i>

Courses

There are four courses given under the auspices of Teachers College: 1, 2, 3, and 10. See also Education 32, 72, and 132.

1—General geography. Lectures, laboratory work, and collateral reading. 2 hours. Professor DODGE and Miss KIRCHWEY
Laboratory fee, \$2.00.

2—General geography continued—Lectures, laboratory work, and collateral reading. 2 hours. Professor DODGE and Miss KIRCHWEY
Laboratory fee, \$2.00.

3—The Geography of the United States—Lectures and library work. 1 hour. Professor DODGE

[10—Physiography, first half-year. Physiography of the United States, second half-year. Lectures, laboratory, and library. 3 hours. Professor DODGE and Miss KIRCHWEY

Laboratory fee, \$2.00.

Not given in 1904-05]

Equipment

The Department of Geography occupies a suite of five rooms on the second floor of the Teachers College. A lecture-room capable of holding fifty, a well-lighted laboratory with table spaces for thirty, two offices, and a large work- and stock-room, compose the suite. The lecture-room is furnished with lantern, models, and wall maps; the laboratory contains several large models, and has a set of the more important weather instruments in an outdoor shelter. The supply of topographic, climatic, and special maps, of diagrams, of physical models, and of lantern slides is large, and has been especially chosen for use in the several courses announced above.

Geology

JAMES FURMAN KEMP, A.B., E.M.....	<i>Professor</i>
AMADEUS WILLIAM GRABAU, S.D.....	<i>Adjunct Professor</i>
CHARLES PETER BERKEY, Ph.D.....	<i>Tutor</i>
ALEXIS ANASTAY JULIEN, Ph.D.....	<i>Curator</i>
¹ IDA HELEN OGILVIE, Ph.D.....	<i>Lecturer in Barnard College</i>
WILLIAM CAMPBELL, Ph.D.....	<i>Special Lecturer</i>

¹ Absent on leave.

For full information regarding the following courses see the Announcement of the Division of Geology, Geography, and Mineralogy.

Courses 1, 2, 3, 7, 8, 13, and 16a are open to College students; Courses 2, 3, 4, 6, 10, 13, 16a, and 18 are open to students in Applied Science; Courses 2, 3, 6, 7, 8, 10, 15, 16b, and 17 are open to graduate students.

Courses

1—General geology. 2 hours lectures and 2 hours laboratory, counting as a three-hour course. Professor GRABAU and Dr. BERKEY

2—General geology. 3 hours lectures. Professor KEMP, Professor GRABAU, and Dr. BERKEY

3—Economic geology. 3 hours lectures. Professor KEMP

4—Petrography. 2 lectures and 1 afternoon for two months, second term. Compare Mineralogy 6. Professor KEMP and Dr. BERKEY

6—Petrology. 2 lectures and at least 4 hours laboratory. Professor KEMP and Dr. BERKEY

7—Invertebrate palæontology. 2 lectures and at least 4 hours laboratory. Professor GRABAU

8—Comparative geology—A comparative description and study of the geological formations of North America. 2 lectures and 4 hours reading and laboratory. Professor KEMP for the crystalline and pre-Cambrian rocks, Professor GRABAU for the fossiliferous

10—Geological examinations and surveys—A discussion of field methods and of the organization of geological surveys. 2 lectures, second term. Professor KEMP

12—A thesis which will furnish the major course for the concluding year of study for the degree of Doctor of Philosophy

13—Field geology—Ten days field work, and report upon the same, during the vacation. Given in two sections, the Eastern section immediately at the close of the spring examinations, the Western section in connection with Mining 11

14—Geology of Europe. 2 lectures and 4 hours laboratory and library work. Professor GRABAU and Dr. CAMPBELL

15—Phylogeny of a special group of fossil invertebrates. 6 or more hours laboratory and conference by appointment. Pre-requisite, Course 7. Professor GRABAU

16a—Fossil faunas—A study of American fossil faunas. 1 lecture and 8 or more hours laboratory, second term. Pre-requisite, Course 1 or 2. Professor GRABAU

16b—A more extended course which may be taken as a minor or partial major. 6 hours or more laboratory, and additional conferences. Professor GRABAU

17—Stratigraphy—Faunas of a special horizon or locality. 6 hours or more laboratory and conference by appointment. Professor GRABAU

18—General geology. 3 hours lectures during the second term. Field work on Saturdays during the last six weeks. Special course for students in Civil Engineering. Dr. BERKEY

[19—General geology—A course in general geology, 3 lectures weekly, and equivalent to Course 1 above, is offered students from Barnard and Teachers Colleges. Dr. OGILVIE

Not given in 1904-05]

20—Palæogeography of North America. A study of the development and changes of continents and ocean basins in the past. 1 hour seminar, and laboratory according to arrangement. Pre-requisite, Geology 8, and 16a or 16b. Professor GRABAU

The department has ample laboratories and a full equipment for its several lines of work, details of which will be found in the Circular of the Faculty of Pure Science.

Related courses in Physiography are given in Teachers College by Professor R. E. DODGE in close association with this department.

The following courses in Palæobotany are offered at the New York Botanical Garden by Dr. ARTHUR HOLLICK

Geology **9a**—General palæobotany—Developmental history and structure of the fossil flora of some selected locality. Laboratory and museum.

Geology **9b**—Cretaceous flora of eastern North America—Collection and determination of specimens of some station with attention to stratigraphic relations. Field and laboratory.

The palæobotanical library and collections of Columbia University have been deposited at the New York Botanical Garden.

Germanic Languages and Literatures

WILLIAM HENRY CARPENTER, Ph.D. . . . *Villard Professor of Germanic Philology*

CALVIN THOMAS, LL.D. . . *Gebhard Professor of the Germanic Languages and Literatures*

ELIJAH WILLIAM BAGSTER-COLLINS, A.M. . . . *Adjunct Professor in Teachers College*

WILLIAM ADDISON HERVEY, A.M. . . . *Adjunct Professor*

RUDOLF TOMBO, JR., Ph.D. . . . *Adjunct Professor*

ARTHUR F. J. REMY, Ph.D. . . . *Instructor*

RUDOLF TOMBO, SR., Ph.D. . . . *Tutor in Barnard College*

WILHELM ALFRED BRAUN, Ph.D. . . . *Tutor in Barnard College*

ERNST RICHARD, Ph.D. . . . *Lecturer*

ANNINA PERIAM, A.M. . . . *Assistant in Barnard College*

JOHN LOUIS KIND, A.M. . . . *Assistant*

PHILIPP SEIBERTH, A.M. . . . *Assistant*

The department, as its name implies, offers instruction, not only in German, but in the kindred languages and literatures of the other

members of the Germanic group. The courses offered by the department are grouped under the following heads: German, Scandinavian languages, Low Germanic languages, Gothic, and Germanic Philology. In German the aim of the instruction is primarily to enable students to use the modern language with facility in reading, writing, and, as far as possible, in speaking, and to acquaint them with the masterpieces of German literature. Opportunity is also given to acquire a reading knowledge of the languages of the other Germanic nations, and to study their literatures. Parallel courses are arranged in such a way that while both language and literature are combined in the earlier courses, either side may be subsequently emphasized at will. Courses are also given in the philology of the whole Germanic group. Work supplementary to the lectures is given in the Seminar.

Course **A** is prescribed for freshmen in the College who did not present Elementary German at entrance; Course **1** is equivalent to Course **A** plus a one-hour elective; Courses **2** and **22** are open to students who presented Elementary German at entrance, or have taken Course **A**; Course **3a** is open to students who have presented the Intermediate requirement at entrance, or have taken Course **1**, **2**, **22**, or an equivalent; Courses **3b** and **4** are equivalent courses, open to students who have presented the Intermediate requirement at entrance, or have taken Course **1**, **2**, or an equivalent; Course **5** is open to others than freshmen on the same terms as Courses **3b** and **4**; Courses **6** and **n** are open to students who have taken Course **3**, **4**, or an equivalent; Course **7** is open to students who have taken Course **6** or an equivalent; Course **8** is open to students who have taken Course **22**, **3**, **4**, **5**, or an equivalent, or who have taken Course **22**, and are taking Course **3**, **4**, or **5**; Courses **10-21**, **23**, and **24** are open, with the permission of the Instructor, to seniors; Courses **A**, **1-24**, are open to university students. The Seminar is open to advanced students only.

Courses **A**, **1**, **2**, **22**, **3**, **4**, **5**, and **8** may not be counted towards the degree of Master of Arts or Doctor of Philosophy, and all other courses may be so counted only when such additional work is taken in connection with them as may be prescribed by the Instructor in charge.

All the courses in this department, with the exception of **A**, **1**, **2**, **22**, **3**, **4**, **5**, **6**, **7**, **8**, and **9**, are open to women on the same terms as to men. Women wishing to enter any of the courses as special students or as candidates for the bachelor's degree must register through Barnard College or Teachers College.

Courses **6**, **7**, **9-21**, **23**, and **24** are open, with the consent of the Instructor, to auditors.

Courses **A**, **2**, **3**, **4**, **6**, and **8** are also given in Barnard College. A parallel course to Course **20** is given as Course **25** in Barnard College. Courses **10-21**, **23**, and **24** are open, with the permission of the Instructor, to seniors of Barnard College.

Courses **A**, **2**, **30**, and Education **74** are given in Teachers College.

Courses in German

A—Elementary course. 3 hours. Professor HERVEY, Mr. KIND, and Mr. SEIBERTH

1—Longer elementary course. 5 hours in second half-year. Mr. KIND and Mr. SEIBERTH

2—Reading, grammar, and composition. 3 hours. Dr. REMY and Mr. KIND

22—Grammar and composition. Syntax and word-formation; sight-reading and colloquial practice. 2 hours. Professor HERVEY and Mr. SEIBERTH

3a—Selected works of Goethe, Schiller, and Lessing. Texts, chiefly dramatic, and essays. Intended primarily for students who have not previously read works of these authors. 3 hours. Professor HERVEY

3b—Selected works of Goethe, Schiller, and Lessing. Texts and essays. Intended primarily for students who have some acquaintance with the works of these authors. 3 hours. Professor HERVEY

4—Historical prose. One volume of Freytag's *Bilder aus der deutschen Vergangenheit*, and other works of a historical character. 2 hours. Professor R. TOMBO, Jr.

5—Lessing's *Laokoon* and *Hamburgische Dramaturgie*. Lectures and recitations. 2 hours. Dr. REMY

6a—History of German literature from the earliest times to the Reformation. Lectures, themes, and readings from Müller's *German Classics*. 2 hours. Professor THOMAS

[6b—History of German literature from the Reformation to the nineteenth century. Lectures, themes, and readings from Müller's *German Classics*. 2 hours. Professor THOMAS

Not given in 1904-05]

Courses 6a and 6b are given in alternate years.

7—Goethe's *Faust*: First and second parts. Lectures and recitations. 2 hours. Professor THOMAS

8—Practice in speaking and writing German. Talks and themes, all in German, upon linguistic and literary topics. 2 hours. Dr. REMY and Mr. SEIBERTH

9—History of the German language. Lectures and texts. 2 hours. Professor W. H. CARPENTER

23—Epochs of German culture. The age of chivalry. Lectures, themes, and readings. 2 hours. Professor HERVEY

[10a—Great German writers. Lessing (first half-year) and Goethe (second half-year). 2 hours. Professor THOMAS

Not given in 1904-05]

10b—Great German writers. Schiller (first half-year) and Heine (second half-year). 2 hours. Professor THOMAS

Courses 10a and 10b are given in alternate years.

11—Old High German. Lectures and texts. 2 hours. Professor R. TOMBO, Jr.

[21—Middle High German. Lectures and texts. 2 hours. Professor HERVEY

Not given in 1904-05]

Courses 11 and 21 are given in alternate years.

20—History of German literature in the nineteenth century. Lectures. 2 hours. Professor THOMAS

30—Reading course in educational German. 2 hours. Professor BAGSTER-COLLINS.

Given in Teachers College.

Education 74—Theory and practice of teaching German in secondary schools. Lectures, discussions, reports, and practical work. 2 hours; practical work, 1 hour. Professor BAGSTER-COLLINS

Given in Teachers College.

Courses in Scandinavian Languages

[12—Swedish. Elementary course in the language, with miscellaneous reading, and a general survey in lectures of the history of Swedish literature. 2 hours. Professor THOMAS

Not given in 1904-05; to be given in 1906-07]

Swedish alternates with Danish and Dutch in a cycle of three years.

13—Danish. Elementary course in the language, with miscellaneous reading, and a general survey in lectures of the history of Danish literature. 2 hours. Professor THOMAS

[14—Icelandic. Elementary course. 2 hours. Professor W. H. CARPENTER

Not given in 1904-05]

15—Icelandic. Advanced course. Lectures and texts. 2 hours. Professor W. H. CARPENTER

Courses 14 and 15 are given in alternate years.

Courses in Low Germanic Languages

[16—Dutch. Elementary course in the language, with miscellaneous reading, and a general survey in lectures of the history of Dutch literature. 2 hours. Professor W. H. CARPENTER

Not given in 1904-05; to be given in 1905-06]

[24—Old Saxon. 2 hours. Professor R. TOMBO, Jr.

Not given in 1904-05; to be given in 1905-06]

Courses 11 and 24 are given in alternate years.

Course in Gothic

17—Gothic. 2 hours. Dr. REMY

Course in Germanic Philology

18—General introduction to Germanic philology. Lectures and exercises. 2 hours. Professor W. H. CARPENTER

Germanic Seminar

A—(first half-year)—The Middle High German *Sängerkrieg auf der Wartburg*. 2 hours. Professor W. H. CARPENTER

B—(second half-year)—The earlier works of Herder. 2 hours. Professor THOMAS

The Seminar is open to advanced students only. Attendance at the meetings is obligatory upon candidates for the degree of Doctor of Philosophy whose major subject lies in this department.

Public Lectures

A course of lectures in the German language on popular subjects, intended primarily for the students of the University, but to which the general public is also invited, is given yearly under the auspices of the department.

Journal Club

The Journal Club is an organization founded in 1902 for the purpose of reviewing and discussing important contributions to recent numbers of the numerous journals devoted to Germanic studies. The Club consists of the officers, fellows, and scholars of the department. Meetings are held once in two weeks in the departmental library.

Deutscher Verein

The Deutscher Verein of Columbia University, founded in 1898, is an association of the students and instructors of the University who are interested in the culture of the German language and literature, and in the acquisition of a more intimate knowledge of Germany, of German institutions, and of the German people than is furnished by academic study alone. The active membership consists of instructors in all departments of the University, of students in residence to the limited number of fifty, and of previous members of the Verein who are no longer students. An honorary membership is made up of prominent German-speaking citizens of New York. Stated meetings are held on the second and fourth Mondays of each month in the room assigned to the Verein in West Hall, which is accessible at all times and forms a convenient club and reading-room.

Equipment

The University Library offers excellent facilities for the study of German, both on the literary and the linguistic side. In German literature most periods are well represented. The Goethe collection, which consists of more than 1300 titles, affords to the student of Germany's greatest author an exceptional opportunity for the prosecution of his researches. The Scandinavian collection contains a good repre-

sensation of the ancient saga and poetical literature, and most of the eminent writers of modern Norway, Denmark, and Sweden. The Holland Society library, deposited with the University in 1901, contains a considerable collection of books and pamphlets in the Dutch language from all periods.

The Library has sets and the current numbers of all the important periodicals which deal with Germanic literature and Germanic and general philology. It has also sets of periodicals no longer published, and a large collection of the transactions and publications of the learned societies of America and Europe.

A reference library, containing the most important subsidia for the critical study of the Germanic languages and literatures—dictionaries, bibliographies, biographies, histories of literature, and the like—and independent of the main collection in the University Library, is placed in a room adjacent to the main lecture-room and the offices of the department in University Hall.

The income of the Carl Schurz Library Fund (\$10,000), contributed by citizens of New York in commemoration of the seventieth birthday of Carl Schurz, is, by the terms of the gift, devoted in perpetuity to the purchase of books in the field of the German language and literature.

The Carl Schurz Fellowship in the German Language and Literature, of the value of eight hundred dollars, the income of a fund (\$10,000) contributed by citizens of New York in commemoration of the seventieth birthday of Carl Schurz, is awarded every alternate year, beginning July 1, 1902.

Greek

(Including Archæology and Epigraphy)

EDWARD DELAVAN PERRY, Ph.D., LL.D.....	<i>Jay Professor</i>
¹ JAMES RIGNALL WHEELER, Ph.D.....	<i>Professor</i>
MORTIMER LAMSON EARLE, Ph.D.....	<i>Professor of Classical Philology</i>
GONZALEZ LODGE, Ph.D.....	<i>Professor of Greek and Latin</i> <i>in Teachers College</i>
CLARENCE HOFFMAN YOUNG, Ph.D.....	<i>Adjunct Professor</i>
CHARLES KNAPP, Ph.D.....	<i>Adjunct Professor of Classical Philology</i>
GERTRUDE MARY HIRST, Ph.D.....	<i>Tutor in Classical Philology in</i> <i>Barnard College</i>
ROSCOE GUERNSEY, Ph.D.....	<i>Tutor</i>
STEPHEN AUGUSTUS HURLBUT, A.M....	<i>Lecturer in Classical Philology</i> <i>in Barnard College</i>
OLIVER SAMUEL TONKS, Ph.D.....	<i>Lecturer in Greek</i>

Courses A, B, 3, 5, and 6, except as given at Barnard College, are closed to women. Course 7 is closed to women undergraduates. The other courses are open to women on the same terms as to men.

Courses 8, 17, 19, and 20 are open to auditors.

¹ Absent on leave

Courses A, B, 5, 6, 7, 8, 12, 17, 19, and 20 are open as electives to properly qualified students in Columbia College; but of these Courses 8, 12, 17, 19, and 20 are open to seniors only. For freshmen who did not present Greek at entrance Course A counts as a 5-hour course. It cannot be counted toward the degree by other students.

Courses 17, 19, and 20 are open as electives to properly qualified students in Barnard College.

Courses 8, 12, 17, 19, 20, and 22, the Classical Proseminar, and the Greek Seminar are open to graduate students and may be counted toward the higher degrees.

Courses 6 and 7 are also open to graduate students, but may not be counted toward the higher degrees.

[NOTE.—Only courses offered in 1904-05 are here given.]

For more detailed information as to the scope of each course, the work pre-requisite to it, and the like, consult the Announcement of the Division of Classical Philology for 1904-05.

Courses

A—Elementary course. 5 hours. Dr. GUERNSEY

B—First half-year: Selections from Plato and Lysias. Second half-year: Homer's *Odyssey*, selections. Greek prose composition fortnightly throughout the year. 3 hours. Dr. TONKS and Dr. GUERNSEY

3—First half-year: Euripides' *Alcestis*; Sophocles' *Ajax*; required reading (in English, French, or German, at the option of the student), and lectures on the Greek drama. Second half-year: Selections from Demosthenes, with required reading as above. 3 hours. Professor YOUNG (first half-year) and Dr. TONKS (second half-year)

An additional hour weekly in advanced Greek composition will be offered by Dr. GUERNSEY, and students who take this may count Course 3 as a four-hour course, or Course 5 as a three-hour course.

5—Herodotus and minor Greek poets. 2 hours. Professor PERRY and Dr. TONKS

6—First half-year: Sophocles' *Electra* and Æschylus' *Prometheus*. Second half-year: Selections from Thucydides. For private reading in the course of the year, with occasional conferences with the Instructor: Plato, *Protagoras* or selections. 3 hours. Dr. GUERNSEY (first half-year) and Professor YOUNG (second half-year)

7—Greek composition, advanced course. One session weekly, with written exercises, counting as a two-hour course. Professor YOUNG

12—Lyric and bucolic poets. 3 hours. Professor PERRY

17—Introduction to Greek archæology. Part I: Vases, Painting. 2 hours. Dr. TONKS

19—Manners and customs of the ancient Greeks. 2 hours. Professor YOUNG

20—Readings from Pausanias, with illustrated lectures on Olympia and Attica. 2 hours. Professor YOUNG

22—Greek dialect inscriptions. 2 hours. Professor PERRY

Classical Proseminar

Lectures on the principles and methods of classical study, with Greek and Latin bibliography. 2 hours. Professors PERRY and PECK

Classical Seminar

Greek section: Critical study of portions of Thucydides. One session weekly throughout the year, counting as a three-hour course. Professor EARLE

Attendance is obligatory upon candidates for the degree of Doctor of Philosophy and strongly recommended to those for the master's degree, whose major subject lies in this department.

Courses in New Testament Greek at the Union Theological Seminary and the General Theological Seminary

Such courses may count as *part* of the work required for the degrees of Master of Arts and Doctor of Philosophy at Columbia University; but students who intend to avail themselves of this privilege must come to an understanding with the Dean of the Faculty of Philosophy of Columbia University with regard to equivalence of courses and additional work required, at the time of registering themselves, or of renewing their registration, as candidates for a degree.

Courses in Barnard College

A—Beginners' course: Grammar, composition, Xenophon's *Anabasis*, Homer's *Iliad*. 3 hours. Mr. HURLBUT

B—Plato: *Apology*, *Crito*, and *Euthyphro*; first half-year. Homer: *The Odyssey* (selections); second half-year. Greek prose composition. 3 hours. Dr. HIRST and Mr. HURLBUT

3—Euripides: *Alcestis* and *Iphigenia in Tauris*; first half-year. Demosthenes: *Olynthiacs* and *Philippics*; second half-year. 3 hours. Professor EARLE and Mr. HURLBUT

4—Rapid reading of Homer. 2 hours. Professors WHEELER and YOUNG

6—Sophocles: *Antigone* and *Œdipus Tyrannus*; first half-year. Herodotus VI. and VII.; second half-year. 3 hours. Professors EARLE and KNAPP

7—Advanced Greek prose composition. 2 hours. Professor EARLE

8—New Testament Greek: Reading of the *Gospel according to Luke* and the *Acts of the Apostles*, with special regard to the forms and idioms of New Testament Greek. 2 hours. Mr. HURLBUT

32—The Greek Lyric Poets; first half-year. Æschylus, two or more plays; second half-year. 3 hours. Professor PERRY

Courses in Teachers College

Education 76—Theory and practice of teaching Greek in secondary schools—Lectures, reports, and practical work. 3 hours. Professor LODGE

Education 136—Practicum in Greek. Xenophon and Homer. Lectures, interpretations, and reports. 2 hours. Professor LODGE

Gynecology

EDWIN B. CRAGIN, M.D.	<i>Professor</i>
WILLIAM S. STONE, M.D.	<i>Chief of Clinic and Instructor</i>
FRANK S. MATHEWS, M.D.	<i>Instructor</i>
FRANK R. OASTLER, M.D.	<i>Instructor</i>
HOWARD C. TAYLOR, M.D.	<i>Instructor</i>
CHARLES J. PROBEN, M.D.	<i>Instructor</i>
WILLIAM P. HEALY, M.D.	<i>Instructor</i>

Clinical Assistants

WM. L. BRADLEY, M.D.	ROBERT L. LOUGHRAN, M.D.
GEO. H. MALLETT, M.D.	PERCY K. WILLIAMS, M.D.
ARTHUR H. GARDNER, M.D.	HAROLD D. MEEKER, M.D.

Courses

Courses 1 and 2 are required in the third year of candidates for the degree of M.D., and Courses 3 and 4 in the fourth year. Course 5 is optional in the fourth year.

1—The principles and practice of gynecology—Lectures, 3 a week, 2 didactic and 1 clinical, during the second half-year. Professor CRAGIN

2—Recitations and demonstrations. 1 hour a week for each student, first half-year. Dr. MATHEWS

3—Minor operations and demonstrations to small sections at the Roosevelt Hospital. 3 times a week for two weeks. Dr. TAYLOR

4—Practical instruction in diagnosis, treatment, and the use of instruments. 12 lessons for each student, at the Vanderbilt Clinic. Drs. STONE, OASTLER, PROBEN, and HEALY

5—Hospital clinic in operative gynecology—Roosevelt Hospital, McLane Operating Theatre. Dr. TUTTLE

History and Political Philosophy

WILLIAM MILLIGAN SLOANE, Ph.D., L.H.D., LL.D.	<i>Seth Low Professor</i>
HERBERT LEVI OSGOOD, Ph.D.	<i>Professor</i>
WILLIAM ARCHIBALD DUNNING, Ph.D., LL.D.	<i>Lieber Professor of History and Political Philosophy</i>
JAMES HARVEY ROBINSON, Ph.D.	<i>Professor</i>
WILLIAM ROBERT SHEPHERD, Ph.D.	<i>Instructor</i>

¹ JAMES THOMSON SHOTWELL, Ph.D.	<i>Instructor</i>
GEORGE WILLIS BOTSFORD, Ph.D.	<i>Instructor</i>
CHARLES AUSTIN BEARD, Ph.D.	<i>Lecturer</i>
LOUISE ROPES LOOMIS, A.M.	<i>Lecturer in Barnard College</i>
VALDIMIR SIMKHOVITCH, Ph.D.	<i>Lecturer</i>

There are three groups of courses in this department: disciplinary, narrative, and research. Course A is required of all candidates for the A.B. degree; with it may be classed Courses 1, 2, 3, and 4. Courses 5, 6, 11, 14, 30, 31, 40, 50, and 51 are preparatory to the independent investigation of historical subjects, and are open to properly qualified students of Columbia College and Barnard College, and the rest are intended for the training of candidates for the higher degrees. These all may be supplemented and complemented by courses given in other departments which deal with subjects constituting an integral part of the domain of history: viz., history of European law, general history of diplomacy, history of American diplomacy, and the historical courses in Economics, Social Science, and Philosophy. The University likewise affords excellent opportunities for the study of anthropology, archæology, political geography, and philology in their intimate connection with historical research.

Courses in History

A—Epochs of ancient, mediæval, and modern history. 3 hours. Columbia College, Dr. SHEPHERD and Dr. BEARD; Barnard College, Miss LOOMIS

[1—Continental European history, mediæval and modern, to the Peace of Westphalia. 3 hours. Dr. SHOTWELL
Not given in 1904-05]

2—Continental European history, modern and contemporaneous. 3 hours. Dr. BEARD

3—English history to the Reform Bill (1832). 3 hours. Columbia College, Dr. BEARD; Barnard College, Miss LOOMIS

4—History of the United States to the close of Reconstruction (1877). 3 hours. Columbia College, Professor DUNNING; Barnard College, Dr. SHEPHERD

[6—History of Great Britain during the eighteenth and nineteenth centuries. 2 hours. Professor OSGOOD
Not given in 1904-05]

7—European history, 1815-1848. 2 hours. Professor SLOANE

[8—Contemporary European history since 1848. 2 hours. Professor SLOANE

Not given in 1904-05]

¹ Absent on leave.

[10—Historical bibliography—The sources of mediæval and modern European history—Apparatus of historical study. 2 hours. Dr. SHOTWELL

Not given in 1904-05]

11—The intellectual history of western Europe from the break-up of the Roman Empire to the Protestant revolt. 2 hours. Professor ROBINSON

12—Mediæval institutions and culture—A research course open only to those who can read Latin and French fluently. Luchaire's *Manuel des Institutions françaises* will be used as a hand-book. 2 hours. Professor ROBINSON

[13—Opening of the Lutheran revolt (1517-26)—A research course, open only to those who can read German and Latin fluently. 2 hours. Professor ROBINSON

Not given in 1904-05]

14—Europe and the French Revolution. 2 hours. Professor ROBINSON

15—The work of Napoleon—This course is open to such selected individuals as give evidence of capacity for original research, and read French and German fluently. 2 hours, first half-year. Professor SLOANE

16—The constitutional history of England to 1689. 2 hours. Professor OSGOOD

17—Modern Russia, its political doctrines and course of expansion. 1 hour. Dr. SIMKHOVITCH

18—Seminar in later mediæval and modern European history. 2 hours every other week. Professor ROBINSON

19—History of the primitive and early Catholic Church. 3 hours, first half-year. Given at the Union Theological Seminary.

20—History of the western Catholic Church and of the Protestant Reformation. 3 hours, second half-year. Given at the Union Theological Seminary.

26—Seminar in Church history. 2 hours, bi-weekly. Given at the Union Theological Seminary.

31—Political and constitutional history of the United States. 2 hours. Columbia College, Professor BURGESS; Barnard College, Dr. SHEPHERD

[32—American colonial history during the seventeenth century — Open only to approved candidates for the degrees of A.M. and Ph.D., and to such special students as receive permission to attend. 2 hours. Professor OSGOOD

Not given in 1904-05]

[33—American colonial history during the eighteenth century —

This course is open to the same class of students as is History 32.
2 hours. Professor OSGOOD

Not given in 1904-05]

34—European politics and the War of 1812—Research course given to selected individuals who show capacity for original research, and read French and German fluently. 2 hours, second half-year. Professor SLOANE

[35—The United States since 1850. 2 hours. Professor DUNNING

Not given in 1904-05]

36—History of Spanish America. 2 hours. Dr. SHEPHERD

37—Seminar in American colonial history. 1 hour. Professor OSGOOD

38—The American Revolution. 2 hours. Professor OSGOOD

39—Seminar in later American history. 1 hour. Professor DUNNING

50—History of Greece and Rome. 3 hours. Dr. BOTSFORD

52—Constitutional history of the Roman Republic. 2 hours. Dr. BOTSFORD

[53—Roman political institutions. 2 hours. Professor MUNROE SMITH

Not given in 1904-05]

55—Seminar in Greek and Roman history. 2 hours. Dr. BOTSFORD

56—The history of western Asia and Egypt. 2 hours. Professor PRINCE

[57—History of India and of Persia. 2 hours, first half-year. Professor JACKSON

Not given in 1904-05]

[58—Rise of Arabian civilization and the spread of Mohammedanism. 2 hours a week, second half-year. Professor GOTTHEIL

Not given in 1904-05]

59—History of China. 1 hour. Professor HIRTH

For Extension courses in History, see the special announcement of Extension Teaching.

Courses in Political Philosophy

40—General history of political theories. 2 hours. Professor DUNNING

41—American political philosophy. 2 hours. Professor DUNNING

42—Seminar in political philosophy. 1 hour. Professor DUNNING

Equipment

The University Library is one of the two or three best similar institutions in the country. It contains about 350,000 volumes, among which are many of the great published collections for the study of

ancient, mediæval, and modern history. The special library of history and political science numbers upwards of 100,000 volumes. The great libraries of New York, Astor, Lenox, and Tilden foundations, those of the New York and Long Island Historical Societies and of the Bar Association are, under certain conditions, also accessible to students. Fuller information as to courses and opportunities for historical work is given in the *Announcement of the Division of History, Economics, and Public Law*, which may be obtained by applying to the Secretary of the University. Under the auspices of the Academy of Political Science, to which advanced students are eligible as members, opportunities are given for the discussion of questions of interest as presented in papers by specialists.

The department employs in its work the best French and German historical maps and one of the four largest relief globes ever made.

Hospital Economics

Two courses in Hospital Economics are offered under the auspices of Teachers College. For details see the *Announcement of Teachers College* and the special *Hospital Economics Announcement*, which will be sent, without charge, upon application to the Secretary of the University.

See also Botany and Zoölogy.

Latin

(Including Roman Archæology and Epigraphy)

HARRY THURSTON PECK, Ph.D., L.H.D., LL.D.....	<i>Anthon Professor</i>
JAMES C. EGBERT, Ph.D.....	<i>Professor</i>
MORTIMER LAMSON EARLE, Ph.D. ..	<i>Professor of Classical Philology in Barnard College</i>
GONZALEZ LODGE, Ph.D., LL.D.....	<i>Professor of Greek and Latin in Teachers College</i>
NELSON G. MCCREA, Ph.D.....	<i>Professor</i>
CHARLES KNAPP, Ph.D.....	<i>Adjunct Professor of Classical Philology in Barnard College</i>
GEORGE N. OLCOTT, Ph.D.....	<i>Adjunct Professor</i>
GERTRUDE MARY HIRST, Ph.D.	<i>Tutor in Classical Philology in Barnard College</i>
STEPHEN A. HURLBUT, A.M.	<i>Lecturer in Classical Philology in Barnard College</i>
DINO BIGONGIARI, A.B.	<i>Assistant</i>

Courses **X** and **Y** are required in the freshman and sophomore years, respectively, of candidates who enter without Latin.

Course **A** or Course **B** is required of candidates for the degree of A.B., and is pre-requisite to 1 and 2. Similarly 1 or 2 (or an equivalent) is pre-requisite to 3 and 4, and one of the latter to any more advanced work.

Courses, 1, 2, 3, 4, 5, 6, 7, 9, 10, 14, 15, 16, 17, 18, 19, 20, 21, 22, 27, 28, 29, and 32 may be counted towards the degree of A.B.

Courses X, Y, A, B, 1, 2, 3, 4, and 7 are closed to women.

Courses 5, 6, 9, 10, 11, 12, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 32, 33 are open to women on the same terms as to men.

Courses 3, 4, 5, 6, 7, 10, 16, 17, 18, 19, 20, 21, 22, 27, 28, 29, 32, and the Proseminar are open to seniors in Columbia College and to University students.

Courses 11, 12, 23, 24, 25, 26, 30, 33, 34, and the Seminar are open to advanced students only. The Seminar is required of candidates for Ph.D. who take Latin as their major subject.

Courses 9, 21, 27, 28, 32 are open to auditors.

Courses 2, 4, 6, 9, 10, 11, 14, 15, 16, 17, 18, 19, 23, 28, 29, 30, 34 are not given in 1904-05

For a detailed statement of the courses in Latin, consult the announcement of the Division of Classical Philology for 1904-06.

Courses

X—Elementary course. Grammar, prose composition, Cæsar, Cicero, and Phædrus. 5 hours. Professor OLCOTT

Y—Second elementary course. Cicero, Vergil, and sight-reading; grammar, composition, and prosody. 3 hours. Mr. BIGONGIARI

A—First half-year: Cicero: *De Senectute*, and Terence: *Phormio*; prose composition. Second half-year: *Odes* and *Epodes* of Horace; prose composition. 3 hours. Professors EGBERT and McCREA, and Mr. BIGONGIARI

B—Readings in prose and verse illustrative of Roman public and private life; prose composition. 3 hours. Professor OLCOTT

1—Tacitus: *The Agricola* and *Annals* (Book I). Horace: *Satires*. 3 hours. Professor OLCOTT

[2—Horace: *Epistles*; the *Letters* of Cicero; sight-reading. 2 hours. Professor McCREA]

3—Juvenal and Martial. 3 hours. Professor EGBERT

[4—Terence: *Andria* and *Adelphoe*. Plautus: *Amphitruo* and *Mostellaria*. 2 hours. Professor McCREA]

5—Roman epigraphy (introductory course). 2 hours. Professor EGBERT

[6—Rapid reading of Horace and Ovid. 2 hours. Professor PECK]

7—Terence: *Andria* and *Heautontimorumenos*. 2 hours. Professor PECK

[9—Lectures on the history of Greek and Roman prose fiction. 2 hours. Professor PECK]

[10—Private life of the Romans. Lectures and readings. 2 hours. Professor McCREA]

[11—Roman lyric poetry. 3 hours. Professor McCREA]

12—Roman epigraphy (advanced course). 2 hours. Professor EGBERT

[14—Roman history. Tacitus, *Annals* XI–XVI. 3 hours. Professor EGBERT]

[15—Lectures on the sources of Roman history. 2 hours. Professor EGBERT]

[16—Lucretius (I–III and V). 2 hours. Professor McCREA]

[17—Selections from Apuleius (*The Asinus Aureus*). 2 hours. Professor PECK]

[18—Roman satire in its historical development. 3 hours. Professor KNAPP]

[19—Roman oratory: Cicero's *Verrine Orations*. 3 hours. Professor McCREA]

20—Roman oratory. Cicero: *De Oratore*, *Pro Milone*, *Philippica II.*, *Pro Cluentio*. 3 hours. Professor McCREA

21—Introduction to the study of Roman numismatics. 1 hour. Professor OLCOTT

22—Latin prose composition (advanced course). 1 hour, to count as 2 hours. Professor McCREA

[23—The *Cena Trimalchionis* of Petronius. 2 hours. Professor PECK]

24—Roman epic poetry. 3 hours. Professor KNAPP

25—Roman philosophy. Lectures, with a careful reading of Cicero's *De Officiis* and *Tusculanæ*. 3 hours. Professor PECK

26—Roman archæology. Lectures. 2 hours, first half-year. Professor EGBERT

27—Latin literature. Period of the Empire. 2 hours. Professor PECK

[28—The history of classical philology. Lectures. 2 hours. Professor PECK]

[29—Roman tragedy. The Fragments and Seneca. 3 hours. Professor KNAPP]

[30—The Italic dialects—Umbrian, Osco-Sabellian, Faliscan. 1 hour. Professor OLCOTT]

32—The topography and monuments of ancient Rome. 2 hours. Professor OLCOTT

33—The topography and monuments of ancient Rome (Imperial period). 2 hours. Professor OLCOTT

Pre-requisite: Course 32

[34—Latin versification. Theory and practice. 1 hour. Professor PECK]

Classical Proseminar

Lectures on the principles and methods of classical study, with Greek and Latin bibliography. 2 hours. Professors PECK and PERRY

Classical Seminar

Latin Section: Lucretius. One session weekly throughout the year. Professor McCREA

Attendance is obligatory upon candidates for the degree of Doctor of Philosophy, and is strongly recommended to those for the master's degree whose major subject lies in this department.

Courses in Barnard College

A—First half-year: Livy, XXIII–XXIV.; prose composition. Second half-year: Horace, *Odes*; prose composition. 3 hours. Dr. HIRST and Professor KNAPP

B—First half-year: Cicero, *De Senectute* and *De Amicitia*; prose composition. Second half-year: Horace, *Odes*; prose composition. 3 hours. Dr. HIRST and Professor KNAPP

1—First half-year: Horace, *Satires* and *Epistles*. Second half-year: Tacitus, *Annals* I–IV. 3 hours. Professor EARLE and Dr. HIRST

2—First half-year: Catullus and Tibullus. Second half-year: *Letters* of Cicero. 2 hours. Mr. HURLBUT

3—First half-year: Cicero, *Tusculanæ*. Second half-year: Lucretius (selections). 3 hours. Professor McCREA

4—First half-year: Terence, *Andria* and *Phormio*. Second half-year: Plautus, *Captivi* and *Mostellaria*. 3 hours. Professor KNAPP

22—Advanced Latin prose composition. 1 hour, to count as 2 hours. Professor KNAPP

23—Latin themes. 1 hour, to count as 2 hours. Professor EARLE

34—First half-year: Suetonius. Second half-year: Juvenal. 3 hours. Professor KNAPP and Dr. HIRST

35—First half-year: Seneca's plays. Second half-year: Vergil, *Georgics*. 2 hours. Professor KNAPP and Dr. HIRST

Courses in Teachers College

Education 82—Theory and practice of teaching Latin in secondary schools. Lectures, reports, and practical work. 3 hours. Professor LODGE

Education 142—Practicum in Latin—Cæsar and Vergil. 2 hours. Professor LODGE

Latin 51—History of Latin syntax. Lectures and reports. 2 hours. Professor LODGE

LAW

The courses offered in Law are here indicated. For full information as to the course leading to the degree of Bachelor of Laws consult the statement concerning the School of Law.

Municipal or Private Law

GEORGE W. KIRCHWEY, A.B.....	<i>Kent Professor</i>
FRANCIS M. BURDICK, LL.D.....	<i>Dwight Professor</i>
GEORGE F. CANFIELD, A.M., LL.B.....	<i>Professor</i>
HENRY S. REDFIELD, A.M., LL.D.....	<i>Professor</i>
CHARLES T. TERRY, A.B., LL.B.....	<i>Professor</i>
HARLAN F. STONE, A.M., LL.B.....	<i>Adjunct Professor</i>
JAMES B. SCOTT, A.M., J.U.D.....	<i>Professor</i>
ALFRED HAYES, Jr., A.M., LL.B.....	<i>Tutor</i>
JACKSON E. REYNOLDS, A.B., LL.B.....	<i>Lecturer</i>
THADDEUS D. KENNESON, A.M., LL.B.....	<i>Lecturer</i>

Courses 1 to 7, inclusive, constitute the work of the first year in the Law School and are open to seniors in the College. Courses 8 to 17, inclusive are open to students who have taken the work of the first year in Law. Courses 18 to 30, inclusive, are open to students who have taken the work of the first and second years in Law.

Courses

- 1—Contracts. 4 hours. Professor TERRY
- 2—Criminal law. 3 hours, first half-year. Professor SCOTT
- 3—Domestic Relations. 2 hours, second half-year. Professor SCOTT
- 4—Equity I. 2 hours, second half-year. Professor STONE
- 5—Pleading and practice I. 2 hours. Professor REDFIELD
- 6—Real and personal property I. 2 hours. Professor KIRCHWEY
- 7—Torts. 2 hours. Professor BURDICK
- 8—Admiralty. 2 hours, second half-year. Professor SCOTT
- 9—Agency. 2 hours. Mr. REYNOLDS
- 10—Bailments and carriers. 2 hours. Mr. REYNOLDS
- 11—Trusts. 2 hours. Professor STONE
- 12—Insurance. 2 hours, first half-year. Professor BURDICK
- 13—Negotiable paper. 2 hours. Professor CANFIELD
- 14—Pleading and practice II. 2 hours. Professor REDFIELD
- 15—Quasi-contracts. 3 hours, first half-year. Professor SCOTT
- 16—Real and personal property II. 2 hours. Professor KIRCHWEY
- 17—Sales of personal property. 2 hours. Professor BURDICK

- 18—Bankruptcy and Insolvency. 2 hours, second half-year. Professor BURDICK
- 19—Conflicts of laws. 1 hour. Professor J. B. MOORE
- 20—Corporations. 2 hours. Professor CANFIELD
- 21—Damages. 2 hours, first half-year. Mr. HAYES
- 22—Equity III. 2 hours. Professor STONE
- 23—Evidence. 2 hours. Mr. KENNESON
- 24—Mortgages. 2 hours. Professor SCOTT
- 25—Partnership. 2 hours. Professor BURDICK
- 26—Pleading and practice III. 2 hours, first half-year. Professor REDFIELD
- 27—Real and personal property III. 2 hours. Professor KIRCHWEY
- 28—Suretyship. 2 hours, second half-year. Professor SCOTT
- 29—Trusts and perpetuities. 2 hours, second half-year. Professor CANFIELD
- 30—Wills and administration. 2 hours. Professor REDFIELD

Public Law and Jurisprudence

JOHN WILLIAM BURGESS, Ph.D., LL.D.....*Ruggles Professor*
 MUNROE SMITH, J.U.D., LL.D.....*Professor*
 FRANK JOHNSON GOODNOW, LL.D.....*Eaton Professor*
 JOHN BASSETT MOORE, LL.D.....*Hamilton Fish Professor*

The courses in this department fall into two divisions: public law and jurisprudence. The purpose of the courses in public law is to give a complete general view of international, constitutional, and administrative law. They serve primarily to supplement the courses in the Departments of History and Economics, and to give with them a complete system of political science. In the second place, they supplement the courses offered by the Faculty of the School of Law, constituting with these a well-rounded legal curriculum. The courses in international, constitutional, and administrative law are also recommended to journalists, students of philosophy and theology, and in general to all who desire to understand the organization and working of governmental systems. The courses on private rights under the Constitution of the United States, on the law of taxation, on the law of municipal corporations, and on conflict of laws are more professional in their character, and are chiefly intended for law students.

The courses in Roman law and comparative jurisprudence, while constituting an integral portion of a complete legal education, will be found useful to all those who desire a general comprehension of the principles of private law rather than a professional training in its details. The introductory course upon the Roman law (21) and that upon European legal history (23) are especially recommended to students of history, economics, and philosophy.

Courses in Public Law

A—Constitutional Law

1—Comparative constitutional law of the principal modern states—Lectures. 2 hours. Professor BURGESS

3—Private rights and immunities under the Constitution of the United States—Discussion of cases. 2 hours. Professor BURGESS

4—American constitutional law in its historical development—Lectures. 2 hours. (Identical with History 31.) Professor BURGESS

5—Advanced seminar in constitutional law—Investigation and discussion. 1 hour. Professor BURGESS

The courses in the constitutional history of Europe and England (*cf.* courses in history) are regarded as a necessary introduction to the above courses in constitutional law.

B—International Law

6—History of diplomacy—Lectures. 2 hours, first half-year. Professor MOORE

7—History of American diplomacy—Lectures. 2 hours, second half-year. Professor MOORE

8—International law—Lectures. 2 hours. Professor MOORE

10—Seminar in international law. 2 hours. Professor MOORE

C—Administrative Law

15—History and principles of colonial administration—Lectures. 2 hours, first half-year. Professor GOODNOW

16a—Administrative law of the United States and the principal European states—Lectures. 2 hours, first half-year. Professor GOODNOW

16b—Law of officers (extraordinary legal remedies). 2 hours, second half-year. Professor GOODNOW

17—Municipal science and administration—Lectures. 2 hours, second half-year. Professor GOODNOW

18—Law of taxation—Lectures and discussion of cases. 2 hours, second half-year. Professor GOODNOW

19—Law of municipal corporations—Lectures and discussion of cases. 2 hours, first half-year. Professor GOODNOW

20—Seminar in administrative law. 1 hour. Professor GOODNOW

Courses in Roman Law and Comparative Jurisprudence

21—Roman law I—History and institutes of Roman law: Family, things, obligations—Lectures and assigned reading. 2 hours, first half-year. Professor MUNROE SMITH

22—Roman law II—Institutes of Roman law: succession; selected cases from the *Corpus Juris Civilis*, principally in contracts—Lectures, assigned reading, and discussion. 2 hours, second half-year. Professor MUNROE SMITH

[23—History of European law (early German law; Frankish law; feudalism; the canon law; the law merchant; the reception of the Roman civil law; the modern civil codes)—Lectures. 2 hours. Professor MUNROE SMITH

Not given in 1904-05; given in 1905-06]

24—Modern civil law of western Europe: Introduction to the private law of France, Italy, Spain, and Germany.—Lectures. 2 hours. Professor MUNROE SMITH

25—Conflict of laws—Lectures and discussion of cases. 1 hour. Professor MOORE

29—Seminar in legal history and comparative legislation. 1 hour. Professor MUNROE SMITH

30—Advanced Seminar in comparative jurisprudence. 1 hour. Professor MUNROE SMITH

Manual Training

Fourteen courses in Manual Training are offered under the auspices of Teachers College. For details see the *Announcement of Teachers College* and the special circular of the department, which will be sent, without charge, upon application to the Secretary of the University.

Materia Medica

(See page 162)

Mathematics

J. HOWARD VAN AMRINGE, Ph.D., L.H.D., LL.D., *Professor and Head of Department*

THOMAS SCOTT FISKE, Ph.D.....*Professor*

FRANK NELSON COLE, Ph.D.....*Professor*

DAVID EUGENE SMITH, Ph.D.....*Professor*

CASSIUS JACKSON KEYSER, Ph.D.....*Adrian Professor*

CHARLES EARLE BIKLÉ, A.M.....*Adjunct Professor*

JAMES MACLAY, Ph.D.....*Adjunct Professor*

HENRY BEDINGER MITCHELL, E.E., A.M.....*Tutor*

EDWARD KASNER, Ph.D.....*Tutor*

GEORGE HERBERT LING, Ph.D.....*Tutor*

WILLIAM FINDLAY, Ph.D.....*Tutor*

CLIFFORD GRAY, A.M.....*Tutor*

EDWARD ALFRED HOOK, M.S., A.M.....*Tutor*

JOHN AUGUST SWENSON, A.B.....*Assistant*

CAMILLE AUGUSTE TOUSSAINT, A.M.....*Assistant*

Course A or its equivalent is prescribed for the degree of A.B. Courses 3a, 3b, 5, 6, 8, 9, 10, 11, 151 (given in Teachers College), are open to properly qualified students of Columbia College. Courses 3a, 3b, and 5 are prescribed for first-year students in the Schools of Applied Science, and Course 6 for second-year students.

Courses 151 and 101-116 may be counted toward the degrees of A.M. and Ph.D., and are open to men and women.

For the summer courses in Mathematics, consult the *Announcement of the Summer Session*, issued in February of each year.

Courses

A—Geometry, algebra, and trigonometry—Volumetric and spherical geometry; algebra, including the arithmetical and geometrical progressions, the elementary treatment of permutations and combinations, and the elementary principles of logarithms; plane trigonometry, including the use of tables of logarithms, the solution of plane triangles, the properties and relations of the trigonometric functions, and the deduction of important analytical formulæ. 3 hours. Professor MACLAY, Dr. LING, Mr. GRAY, and Mr. HOOK

3b—Algebra—The general theory of equations. 2 hours, first half-year. Professor KEYSER, Mr. MITCHELL, Dr. LING, Mr. GRAY, and Mr. HOOK

3a—Trigonometry—Spherical trigonometry with applications. 2 hours, second half-year. Professor KEYSER, Mr. MITCHELL, Dr. LING, Mr. GRAY, and Mr. HOOK

5—Analytical geometry. 3 hours. Professor KEYSER, Mr. MITCHELL, Dr. LING, Mr. GRAY, and Mr. HOOK

6—Differential and integral calculus. 3 hours. Professors VAN-AMRINGE, FISKE, MACLAY, and KEYSER

8—Projective geometry. 3 hours, first half-year. Dr. LING

9—Higher algebra. 3 hours, second half-year. Dr. LING

10—Solid analytical geometry. 3 hours, first half-year. Mr. MITCHELL

11—Elementary differential equations. 3 hours, second half-year. Mr. MITCHELL

151—History of mathematics.¹ 2 hours. Professor SMITH

101—Advanced calculus—Introduction to the theory of functions of a real variable. 3 hours. Professor FISKE

103—Introduction to the theory of functions. 3 hours. Professor COLE

108—Functions defined by linear differential equations. 3 hours. Professor FISKE

109—Theory of invariants. 3 hours. Professor COLE

110—The general theory of assemblages. 3 hours. Professor KEYSER

113—The application of the calculus to the theory of surfaces. 3 hours. Professor MACLAY

¹ Other courses in the history and teaching of mathematics are also offered in Teachers College.

114—Differential equations and continuous groups. 2 hours. Dr. KASNER

115—Theory of numbers. 3 hours, first half-year. Dr. LING

116—Theory of probability. 3 hours, second half-year. Dr. LING

Courses Given Separately at Barnard College

Course A is given by Dr. KASNER and Dr. FINDLAY. Courses in Analytical Geometry (No. 1, 3 hours, first half-year), in Elementary Calculus (No. 2, 3 hours, second half-year), in the Fundamental Concepts of Modern Mathematics (No. 9, 3 hours), by Dr. KASNER

Courses in the Theory of Equations (No. 3, 3 hours), and in Projective Geometry (No. 5, 3 hours), Advanced Analytical Geometry (No. 8, 3 hours), by Dr. FINDLAY; and in Calculus (No. 6, 3 hours), by Professor COLE

Equipment

In the equipment of the Department of Mathematics is a large number of models, charts, and instruments. An elaborate set of models illustrates the metric system of weights and measures. A set of about fifty models of elementary solid and spherical geometry is intended to exemplify the demonstrations contained in Davies' *Legendre*. These are made of cherry wood with markings in inlaid ebony, and are of unusually large size. There are several similar models representing the different plane sections of the cone. A series of wooden models, constructed by Schroeder of Darmstadt, illustrates elementary solid geometry, and contains, in addition, examples of all the different forms of the surfaces of the second order. There is a series of models of descriptive geometry, also constructed by Schroeder. The horizontal and vertical projections are traced upon boards solidly joined together at right angles and of convenient size to allow in general the representation of three different models, or of three different views of the same model. The form and construction suggest a division of these models into two classes: (1) the representation in metal of lines and surfaces, adjusted upon axes, the projection of several of their positions being given; (2) the representation of solid bodies in hardwood, including the exhibition of their plane sections in various directions and the intersections of different surfaces and solids.

A collection of models, which was presented to the department by Dr. Seth Low, having been purchased by him from the German University Exhibit at the Chicago Exposition in 1893, illustrates analysis situs, theory of functions of a complex variable, surfaces of higher order, their singularities and curvature, and line-geometry.

A series of charts illustrates the theory of plane algebraic curves, especially those of the fourth order, the resolution of higher plane singularities into equivalent elementary singularities, the expression of functions by means of infinite series and infinite products, and conormal representation by means of algebraic and elliptic functions.

The collection of mathematical works in the Library of the University is especially rich in treatises and in sets of collected works of mathematicians. All the mathematical journals of importance are regularly received, and the Library possesses complete sets of most of them.

Mechanical Engineering

FREDERICK R. HUTTON, E.M., Ph.D., Sc.D.....	<i>Professor</i>
RALPH E. MAYER, C.E.....	<i>Adjunct Professor</i>
IRA H. WOOLSON, E.M.....	<i>Adjunct Professor</i>
AMASA TROWBRIDGE, Ph.B.....	<i>Adjunct Professor</i>
CHARLES E. LUCKE, M.S., Ph.D.....	<i>Instructor</i>
SAMUEL O. MILLER, C.E.....	<i>Tutor</i>
THOMAS H. HARRINGTON, C.E.....	<i>Tutor</i>
SAMUEL T. LAUBACH, Mech.E.....	<i>Tutor</i>
JULIAN C. SMALLWOOD, Mech.E.....	<i>Assistant</i>
H. HAROLD HIGBIE, E.E.....	<i>Assistant</i>
CLIFFORD T. SWART, Mech.E.....	<i>Assistant</i>
CHARLES RUSSELL RICHARDS, B.S....	<i>Professor of Manual Training in Teachers College</i>
CHARLES P. BENNS, E.M.....	<i>Instructor in Teachers College</i>
CHARLES C. SLEFFEL.....	<i>Instructor in Teachers College</i>
CHARLES W. WEICK, B.S.....	<i>Instructor in Teachers College</i>

Special students are admitted to the courses for which previous training may have fitted them. All courses intended for students in the Schools of Applied Science may be pursued by graduates, the instruction for such persons being carried farther in specialization than the time available permits to candidates for the first degree. The instruction for such advanced students will be by prescribed reading, by problems assigned, and by work in the mechanical laboratories under individual instruction. Courses 10, 11, 12, and 13 are pre-requisites for all graduate courses. Experimental investigation is a special feature of such work in Courses 10 to 17, 19, 24, and 25.

For fuller information regarding the topics covered in these courses see the Announcement of the Courses in Mechanical Engineering.

Courses

1—Elementary mechanical drawing—Use of instruments, elementary projections. 2 hours a week lectures, and 5 hours a week in the first year; 2 hours lectures, and 5 hours draughting-room in the second year. Professor MAYER, Mr. HARRINGTON, and Mr. MILLER

2—Specialized engineering drawing—Working and isometric drawing of machinery, furnaces, and structural work. 2 hours a week lectures, second year; 5 hours a week draughting-room. Professor MAYER, Mr. HARRINGTON, and Mr. MILLER

3 and 4—First-year shop-work—Carpentry, framing, and joinery. 2 afternoons a week shop practice in shops of Teachers College. Mr. WEICK

5—First-summer shop-work—Pattern-making and foundry-work. 100 hours in 3 weeks in June. Mr. WEICK

6—Second-year shop-work—Forging. 1 hour conference, and four laboratory periods first half-year, and two periods for second half-year. Mr. SLEFFEL

7—Second-year shop-work—Bench-work. Machine-tool work. 1 hour a week conference for instruction, and two laboratory periods, second half-year. Mr. BENNS

8—Second-summer shop-work—Machine-tool work continued. 100 hours in 3 weeks in June. Mr. BENNS

9—Third-year shop-work—Machine-tool work, with special appliances for rapid and economical production. 2 afternoons per week, first half-year. Mr. BENNS

10—Properties of materials—Properties of constructive materials, tension, compression, transverse, and abrasion tests; protecting metal work; bearing metal alloys. 2 hours, first half-year. Professor WOOLSON

11—Engineering of power plants—Steam-engines and their mechanisms. 1 hour, second half-year. Professor HUTTON

12—The steam-engine and its accessories—The power plant continued. 2 hours, first half-year. Professor HUTTON

13—The steam-boiler and its accessories—The power plant concluded. 2 hours, second half-year. Professor HUTTON

14—Experimental mechanical engineering—Laboratory methods for determination of data. Calibration of instruments. Solution of problems. 1 hour. Dr. LUCKE

15—Experimental mechanical engineering laboratory—Calibration of thermometers, pressure gauges, indicators, planimeters; weirs, nozzles, meters; dynamometers and power scales. Various measurements. Determination of data by tests on apparatus. 1 afternoon. Dr. LUCKE and assistants

16—Testing materials of engineering—Tensile, transverse, compressive, and other resistances of structural materials. Afternoon hours. Professor WOOLSON

17—Experimental mechanical engineering—Continuation of Course 14. Solution of problems on hypothetical data relating to tests of Course 24. 1 hour lecture, first term fourth year. Dr. LUCKE

18—Machinery and mechanism—Conversion of motion, teeth of wheels, general mechanism. 2 hours. Professor WOOLSON

19—Heat and its applications. 3 hours. Professor HUTTON

20—Motors other than steam. 1 hour, second half-year. Professor HUTTON

21—Dynamics of motors—Dynamometers, governors, regulators. 1 hour, second half-year. Professor HUTTON

22—Engineering design and drawing—Graphic statics of forces, moments, framed structures and mechanism. 1 hour, first half-year. 2 hours, second half-year; afternoon periods in draughting-room. Mr. HARRINGTON

23—Valve-gearing for engines. 1 hour, first half-year, and afternoon work in draughting-room. Mr. LAUBACH

24—Experimental mechanical engineering laboratory—Continuation of Course 15. 1 afternoon, first half-year. Dr. LUCKE and Assistants

25—Research Seminar—Methods of approaching new problems. Selection of suitable experiments, preparation of apparatus, and deductions from observations. Theses and current professional problems. 1 hour, fourth year. Conference at convenience. Dr. LUCKE

26—Machine design—Design of machine-tools, automatic machinery, cranes, and hydraulic machinery. 1 afternoon, first half-year; 4 afternoons, second half-year. Professor TROWBRIDGE

27—Pumps, pumping machinery, and hydraulics—Flow of water; water motors and turbines; action and design of pumps. 3 hours, second half-year. Mr. LAUBACH

28—Steam-engine design—The theory of crank-effort, fly-wheels, governors, balancing, and stresses in built-up framing; design of engine-details. 2 hours, with afternoon work in drawing-room. Mr. LAUBACH

29—Shop and factory organization and management. 1 hour, second half-year. Professor HUTTON and Mr. BENNS

30—Work-shop economics and specifications. 1 hour for a year and a half. Professor HUTTON

31—Marine-engine design—Theory and practice. Engine details. Marine-boiler design. 2 hours for Alternative M; 1 hour for Alternative MA. Professor TROWBRIDGE

32—Naval architecture—Areas and volumes; trim; statical stability; curves of stability; weights and centre of gravity. Calculations for a given ship. 2 hours. Professor TROWBRIDGE

33—Ship-building—Materials; types of vessels; lines and models. General arrangement, design. Initial cost and economy of operation, with regard to speed and carrying capacity. 1 afternoon for Alternative M; 2 afternoons for Alternative MA. Professor TROWBRIDGE

34—Marine auxiliaries, appliances, and materials. 2 hours. Professor TROWBRIDGE

35—Vacation class in mechanical engineering—During the latter half of the school year visits are made to shops, factories, iron and steel works, and pumping stations, for the study of practice in these

lines. The instruction is conducted by Professor HUTTON, Professor TROWBRIDGE, and Dr. LUCKE

36—Summer work between first and second years—Memoir or drawings.

37—Summer work between second and third years—Memoir or drawings.

38—Summer work between third and fourth years—Memoir, test, report, or special laboratory work as may be directed in each case by the Professor of Mechanical Engineering, having reference to the proposed specialization of the final year in power-house, marine, or locomotive directions. Professors HUTTON, TROWBRIDGE, and Dr. LUCKE

39—Graduation thesis.

40—Special problems and original investigations in advanced mechanical engineering, with conferences, laboratory work, and design as required. Major subject for degree of Ph.D. Pre-requisites: all courses offered in the Department of Mechanical Engineering.

41—Mechanics of Materials—Resistance and elasticity of materials; simple stresses and deformations; combined stresses. 4 hours, first half-year. Mr. LAUBACH

42—Propulsion of ships. 2 hours, first half-year. Professor TROWBRIDGE

43—Locomotive engineering and design. 3 hours, first half-year. Professor HUTTON

44—Locomotive accessories.

45—Locomotive specifications, manufacture, and accidents.

46—Locomotive testing and management.

47—Locomotive history and evolution.

48—Traction engines and trucks and motor vehicles.

44 to 48 form one course of 3 hours per week. Professor HUTTON

49—Mould-loft practice—Afternoon work. Professor TROWBRIDGE and assistants

50—Principles and design of the gas engine. 3 hours, first half-year; 2 hours, second half-year. Dr. LUCKE

51—Advanced laboratory course in the gas engine. Dr. LUCKE

52—Power plant layout and specification. 2 hours and 1 afternoon, first half-year, and 1 hour and 1 afternoon, second half-year. Dr. LUCKE

53—Mechanics of the steam turbine—Open only to graduate students. Dr. LUCKE

54—Balance shaking and vibration in machines. Open only to graduate students. Dr. LUCKE

55—Ship calculations—A series of calculations to accompany the course in naval architecture. 1 hour for Alternatives **MA**. Professor TROWBRIDGE

56—Marine-engineering development—Analytical and experimental investigation of problems in propulsion. Open only to graduate students. Professor TROWBRIDGE

57—Ship design—Investigation of building rules and such navigation laws as apply to ship-building. Open only to graduate students. Professor TROWBRIDGE

58—Marine Seminar—Discussion of professional problems and technical literature. 1 hour for Alternatives **M** and **MA**. Professor TROWBRIDGE

103, 104—First-year shop-work—Short course in wood-working for Electrical and Civil Engineers. 1 afternoon per week part of the year. Mr. WEICK

106, 107—Second-year shop-work—Short course in forging and machine-shop for Civil and Electrical Engineers. 1 hour lecture, first half-year, 1 afternoon per week part of the year. Mr. SLEFFEL and Mr. BENNS

110—Properties of materials—First half: Sources of timber supply, inspection, practical study of planks, logs, and trees; causes of decay and processes of preservation; fireproofing, etc. 2 hours per week, second half-year. Professor WOOLSON

114—Experimental mechanical engineering—Short course for Electrical, Civil, and Mining Engineers, made of selections from Mechanical Engineering **14**. Third year. Dr. LUCKE

115—Mechanical engineering laboratory—Short course for Electrical, Civil, and Mining Engineers, made of selections from Mechanical Engineering **15**. Third year. Dr. LUCKE

117—Continuation of **114**. Fourth year. Dr. LUCKE

119—Heat and heat engines. 1 hour a week, lectures and recitations, third year. For Mechanical Engineers only. Dr. LUCKE

124—Continuation of **115**. Fourth year. Dr. LUCKE

Equipment

The Department of Mechanical Engineering both has its own special equipment and also enjoys the admirable and complete equipment of other departments for the use of its students.

THE WORKSHOPS are located in the Macy Manual Arts building of Teachers College, 120th Street. The wood-working course is planned

to lead up to pattern-making and foundry-work. The foundry division has facilities for bench and floor moulding, and for limited work with sweeps. The second division includes the shops for metal-working.

THE MECHANICAL LABORATORIES, properly so called, are located partly in the great basement annex area north of Engineering and beneath the esplanade in front of Havemeyer, and partly in Engineering. Their area exceeds 9000 square feet, giving a length in one span of over 210 feet and a width of 32 and 35 feet. These laboratories are equipped for testing in all the branches specifically belonging to mechanical engineering, as well as for research in this department.

For description in detail of the equipment of these laboratories, reference may be made to the *Announcement of the Courses in Mechanical Engineering*, which may be had upon application to the Secretary of the University.

THE DRAUGHTING ROOMS on the top floor of Engineering are splendidly lighted and of very large extent, and are fitted not only with the best forms of drawing tables and furniture, but also with extensive collections of patterns, models, and illustrative drawings, blue prints, photographs, and prints, which are useful both as copies and for training in design.

LECTURE- AND CLASS-ROOM ILLUSTRATION is effected by extensive use of material from the collections of models, specimens, and samples in the museum, and of photographs exhibited as lantern-slides by projection in an illuminated room, by drawings and blue prints, and by electrotype prints and wall diagrams.

Summer and Vacation Work

To derive the advantages possible from continuous work in the shop, two summer classes are maintained, each covering about one hundred working hours, beginning June 1. If necessary another similar term will be arranged for September. These form parts of the regular shop-work course of Mechanical Engineering, but are also intended to permit students from other schools, where these facilities are lacking, to comply with the requirements of the regular course by extra application and overtime work.

During the session, and on occasional holidays, students are given opportunities to visit engineering works, machine shops, factories, and industrial establishments in the city and its environs. More elaborate excursions are arranged for the advanced students to special places or districts, under the supervision of the professors or instructors. The summer between third and fourth years is intended to be preparatory to fourth-year purely professional work and generally consists of a technical report of some plant, machine, or process examined by the student.

Mechanics

ROBERT SIMPSON WOODWARD, C.E., Ph.D., LL.D.....	Professor
MICHAEL IDVORSKY PUPIN, Ph.D., Sc.D.....	Professor
JOSEPH CLEMENT PFISTER, A.M.....	Instructor
ALBERT P. WILLS, Ph.D.....	Instructor
RICHARD F. DEIMEL A.M.....	Assistant

Courses 3 and 10-18 are open to women on the same terms as to men.

For fuller information as to the scope of the courses in this department, the conditions under which certain of them may be counted toward the higher degrees, the pre-requisites for each course, and the like, consult the Announcement of the Division of Mathematical and Physical Science, which may be obtained, without charge, from the Secretary of Columbia University.

Courses

1—Analytical mechanics. Rankine's *Applied Mechanics* is used as a text for reference. 3 hours. Professor WOODWARD

2—Elementary mechanics. Loney's *Elements of Statics and Dynamics* is used as a text. 2 hours. Mr. PFISTER

3—Theoretical mechanics. 2 hours. Mr. PFISTER

4—Thermodynamics, with special reference to its bearing on the theory of heat engines. 3 hours, second half-year. Dr. WILLS

5—Elementary thermodynamics and hydromechanics. Thermodynamics, 2 hours, first half-year; hydromechanics, 2 hours, second half-year. Mr. PFISTER

6—Theory of dynamo and motor (introductory). 2 hours, first half-year. Dr. WILLS

7—Theory of direct-current dynamo and motor, covering Hopkinson's theory of dynamo and motor designing, and Froelich's method of dynamo and motor testing. 3 hours, second half-year. Professor PUPIN and Dr. WILLS

8—Theory of alternators and transformers. 3 hours, first half-year. Professor PUPIN

9—Theory of variable currents. 3 hours, second half-year. Professor PUPIN

10—Advanced theoretical mechanics. Lectures 2 hours. Professor WOODWARD

11—Theory of the potential function. Lectures, 2 hours. Professor WOODWARD and Dr. WILLS

12—Geodynamics. Lectures, 2 hours. Professor WOODWARD

13—Mathematical theory of elasticity. Lectures, 2 hours. Professor WOODWARD

14—Maxwell's theory of electricity and magnetism. Lectures, 2 hours. Professor PUPIN

14a—Theory of Bessel's functions and spherical harmonies. Lectures, 1 hour. Professor PUPIN

15—Electro-magnetic theory of light. Lectures, 3 hours, first half-year. Professor PUPIN

16—Advanced thermodynamics, including its application to thermo-electricity and thermomagnetism, physical chemistry, and caloric engines. Lectures, 2 hours. Professor PUPIN

17—Theory of oscillations. 2 hours. Professor PUPIN

18—Theory of the conduction of heat in solids. Lectures, 2 hours. Professor WOODWARD

19—Analytical mechanics, abridged course. 2 hours. Dr. WILLS

20—Thermodynamics, abridged course. 2 hours. Dr. WILLS

21—Elementary mechanics. Loney's *Elements of Statics and Dynamics*. 3 hours, first half-year. Mr. PFISTER

22—Problems in electro-magnetic theory. Lectures, 2 hours. Dr. WILLS

Metallurgy

HENRY M. HOWE, A.M., B.S. *Professor*

BRADLEY STOUGHTON, Ph.B., B.S. *Adjunct Professor*

WILLIAM CAMPBELL, Ph.D., M.Sc. *Instructor*

MYRICK N. BOLLES, Ph.D. *Tutor*

JOHN F. THOMPSON, B.S. *Assistant*

Non-resident lecturers for 1903-04: James Douglas, LL.D., President of the Copper Queen Consolidated Mining Company; H. O. Hofman, E.M., Met.E., Ph.D., Professor of Metallurgy, Massachusetts Institute of Technology; Joseph W. Richards, Ph.D., Professor of Metallurgy, Lehigh University; Richard Moldenke, Ph.D., Secretary, American Foundrymen's Association; Edward D. Peters, M.D., Professor of Metallurgy, Harvard University; Joseph Struthers, Ph.D., Assistant Editor, American Institute of Mining Engineers; J. Parke Channing, E.M., President of the Tennessee Copper Company; Chas. Kirchhoff, Editor of *The Iron Age*; George C. Stone, Ph.D., Chief-Engineer of the New Jersey Zinc Company; William Campbell, Ph.D., Barnard Fellow.

The courses of this department are rarely open to special students who are not graduates of some college or scientific school. Great stress is laid on the metallurgical laboratory courses.

Special courses, consisting of personal instruction and original experimental investigation, will be arranged for advanced students according to their individual needs and ability. Some of these investigations will be made at metallurgical works into processes in actual use there, others in the metallurgical and analytical laboratories of

the department. These courses include advanced courses in pyrometry, the microstructure of metals and alloys, the chemistry of roasting processes, etc.

Two courses of three weeks each are given at metallurgical works in studying the operations there carried out. The students are given individual and class instruction and are required to make complete descriptions of the various processes, including sketches of furnaces and apparatus.

For a fuller description of courses than given below, see the Announcement of the School of Mines.

The following courses taken together count as a minor for the degree of A.M. or as one-half minor for the degree of Ph.D.:

- (1) 1, 3, 4, 5, and 6a
- (2) 1, 3, and 6
- (3) 4, and 6, with either 1, 2, 3, 5a, or 5b

Courses 1, 4, and 5a are required of third-year students in Metallurgy, Mining, Engineering and Chemistry.

Courses 2, 5b, 6a, are required of fourth-year students in Mining Engineering; 5b, 105b, and 109, of students in Metallurgy, in the fourth year; 6, 101, 104, 105a, in third year; 3 and 103, in the second.

Courses 2, 3, and 5b are required of fourth-year students in Chemistry, and 3 of second-year students in Civil, Mechanical and Electrical Engineering.

Courses

1—General metallurgy—2 hours lectures for six weeks, second half, third year. Professor STOUGHTON

2—Metallurgy of steel and iron—Shorter course. 3 hours lectures per week, during January. Professor STOUGHTON

3—Metallurgy of iron and steel—Longer course. 2 hours lectures, second half-year. Professor STOUGHTON

4—Metallurgy of copper—2 hours lectures, first half-year. Dr. BOLLES

5a—Metallurgy of lead—2 hours lectures for nine weeks, second half, third year. Dr. CAMPBELL

5b—Metallurgy of silver, gold, zinc, and minor metals. 2 hours lectures for twelve weeks, first half, fourth year. Drs. CAMPBELL and BOLLES

6—Laboratory work—Longer course. 4 afternoons a week, second half-year. All officers

6a—Laboratory work—Shorter course. 10 afternoons, second half-year. All officers

20—Summer course in non-ferrous metallurgy. Required of students in Metallurgy and Mining Engineering between the third and fourth years. Dr. CAMPBELL or Dr. BOLLES and assistants

21—Summer Course in iron and steel. Required of students in Metallurgy between the second and third years and in Mechanical Engineering between the third and fourth years. Professor STOUGHTON and assistants

101—Extension of Metallurgy 1—1 hour conference for six weeks, second half-year. Professor STOUGHTON

103—Extension of Metallurgy 3. 2 hours conference, second half-year. Professor STOUGHTON

104—Extension of Metallurgy 4. 1 hour conference, first half-year. Dr. BOLLES

105a—Extension of Metallurgy 5a. 1 hour conference, for nine weeks, second half-year. Dr. CAMPBELL

105b—Extension of Metallurgy 5b. 1 hour conference, for twelve weeks, first half-year. Drs. CAMPBELL and BOLLES

109—Metallurgy of alloys. 3 hours conference during January. Dr. CAMPBELL

METALLURGICAL EXCURSIONS—During the term the students are taken to the metallurgical establishments in the vicinity of the city, embracing iron blast furnaces, and Bessemer, open-hearth, and puddling works, the smelting of lead and copper ores, the Bessemerizing of copper matte, the refining of copper by furnace and electrolytic methods, the desilverizing of base bullion by zinc, and the parting and refining of gold and silver by both electrolytic and acid methods.

Equipment

LECTURE DIAGRAMS—There is an important collection of large lecture diagrams, illustrating the various metallurgical furnaces and appliances, or showing graphically the sequence of operations in metallurgical processes.

In addition the lectures are illustrated, not only by models, but actual demonstrations, as, for instance, in the heat-treatment of metals, in the wet metallurgical processes, in the rolling of metals.

MODELS AND DRAWINGS—There is an excellent collection of models of metallurgical apparatus, furnaces, Bessemer converters, roll-trains, etc., and a number of detailed drawings.

METALLURGICAL COLLECTION—There is a collection of about 3000 specimens of ores, metals, etc., and the intermediate and final products of the more important metallurgical processes. Suites of specimens of great educational value are added frequently.

MICROSCOPIC SPECIMENS—The department is rapidly forming a valuable collection of microscopic sections of metals and alloys, and photomicrographs of them.

ANALYTICAL LABORATORY—The department has an analytical laboratory open to the students in Metallurgy.

METALLURGICAL LABORATORY — I. *Instruments of Precision of Metallurgy*—Of these the most important are pyrometers, calorimeters, and microscopes for examining metals and alloys. There are enough Le Chatelier thermo-electric pyrometers to give each student the exclusive use of one throughout his course. In addition there are Le Chatelier pyrometers of great precision, and two with autographic attachments of the Roberts-Austen and another type.

For the microscopic study of metals, many specially adapted microscopes are provided, together with appliances for grinding, polishing, and photomicroscopy. There are also sclerometers, a drop-testing machine, special testing machines for metals, ammeters, etc.

2. *For Analytical Metallurgy*, or the study of the principles and reactions of metallurgy taken singly as distinguished from the several industrial processes each taken as a unit, besides the instruments just enumerated there are many special furnaces heated by electric resistance or gas, gas forges, a small power-driven roll-train, etc.

3. *For Applied Metallurgy*, the laboratory has, besides the common forms, crucible melting furnaces, muffles, etc., and ores, refractory materials, and fluxes, a cupola furnace, an English cupelling furnace, a small reverberatory roasting furnace, a set of lixiviating and precipitating vats, a battery of amalgamating pans, kettles for desilverizing lead, a chlorinating barrel, storage batteries, voltmeters, and ammeters for electrolysis, etc.

There is a large assortment of alloys, and of steels and irons, which give opportunity for an extended range of investigation into their properties.

4. *Advanced Students*—The laboratory offers to advanced students and properly equipped practitioners unusual advantages for investigation with great accuracy the scientific and many of the economic problems of metallurgy.

METALLURGICAL LIBRARY—The Metallurgical Department has its own metallurgical library and reading-room, containing about fourteen hundred volumes of metallurgical treatises, text-books, periodicals, etc.

Mineralogy

ALFRED J. MOSES, E.M., Ph.D.....	Professor
LEA McI. LUQUER, C.E., Ph.D.	Adjunct Professor
AUSTIN FLINT ROGERS, A.B., Ph.D.....	Tutor
M. A. LAMME, B.S., A.M.	Assistant

Courses 2, 3, 5, 6, and 12 are open to properly qualified students in Columbia College. Course 12 is required of first-year students in Mining Engineering, Metallurgy, and Chemistry; Course 5, of second-year students in Civil Engineering; Course 6, of third-year students in Mining Engineering and Metallurgy; and Course 8, of third-year students in Analytical and Organic Chemistry.

Courses 5, 6, 7, 9, 10, 11, and 12 may be counted toward the degrees of A.M. and Ph.D. Course 7 is especially a minor course for Geologists, Course 9 a minor course for Chemists, and Courses 10 and 11 major courses for Mineralogists. For details see the *Announcement of the Division of Geology, Geography, and Mineralogy*, which will be furnished on application to the Secretary of the University.

Courses 7, 9, 10, and 11 are open to women.

The following courses or their equivalents are pre-requisite: Physics 31 for Courses 2, 3, 12; Chemistry 6 for 3, 12; Course 2 for 8; Course 3 for 7, 9, 10, 11; Course 5 for 6.

Courses

12—Descriptive and determinative mineralogy — First half-year: Crystallography; blowpipe tests; the silicates and borates. Second half-year: The economic minerals; blowpipe analysis; optical mineralogy. 3 hours lectures and conferences, 2 afternoons laboratory. Professors MOSES and LUQUER, Dr. ROGERS, and Mr. LAMME

2—Crystallography. 2 hours lectures and conferences, first half-year. Professor MOSES

8—Physical crystallography—Short laboratory course. 1 hour lecture, 1 hour laboratory, second half-year. Professor MOSES

3—General mineralogy—Important minerals in systematic order with introductory crystallography. 2 hours lectures, 1 afternoon laboratory. Dr. ROGERS

5—The minerals of building-stones and their economic effect. 2 hours lectures and one afternoon laboratory during first half-year. Professor LUQUER and Dr. ROGERS

6—Optical mineralogy—The study of minerals in rock sections. 2 afternoons laboratory for two months. Professor LUQUER and Dr. ROGERS

7—Optical mineralogy—Longer course. 1 hour lecture, 1 afternoon laboratory. Professor LUQUER

9—Physical crystallography—The characters of crystals; determination of constants; theories of structure. 1 hour lecture and 1 afternoon laboratory. Professor MOSES

10—Physical crystallography—Longer course, including study of the crystals of some group. 12 hours for two years. Professor MOSES

11—Mineralogy—Study of assigned group or species. 12 hours for two years. Professor MOSES

Equipment

The work of the students in the college courses and in general mineralogy is performed in the lecture room, in the blowpipe laboratory, a large room with conference tables and seats for about 75 men,

and in the adjoining conference-room, in which are the student collections of crystal models and minerals and several thousand unlabelled specimens used in determinative work. The department possesses also about 1200 sections of minerals and rocks, and 1500 crystal models in wood and glass. Students in optical mineralogy use a separate room with north light, and for crystal measurements and monochromatic-light determinations there is provided a large dark-room.

Attached to the department is the Egleston Mineralogical Museum, containing about 30,000 labelled specimens, and including a systematic collection, an economic collection of ores, building materials, and minerals used in chemical industries, a collection illustrating the genesis and alteration of minerals, a collection illustrating the characters of minerals, and small collections of artificial minerals and New York City minerals.

Among the collections of minerals that have been presented to the museum from time to time, the largest is that of Dr. Egleston, consisting of about 5000 specimens. Others that may be mentioned are: the Gillmore collection, made in Paris under the direction of the Abbé Haüy, and presented by the late Gouverneur Kemble of West Point; a collection of Schulsberg (Wis.) stalactites, exhibited at the Sanitary Fair; a fine suite of Russian minerals, presented by the Czar; a collection of American minerals, presented by the late Geo. T. Strong; two of the finest cerussites in the world; the Julien collection of minerals from Chesterfield, Mass.; the collection of Professor How, of King's College, Nova Scotia; and a very valuable collection made by Dr. Egleston in Japan.

In addition, a large number of gifts have been received, and these have been supplemented by careful purchasing and exchanging.

Mining

HENRY S. MUNROE, E.M., Ph.D., Sc.D.....	<i>Professor</i>
ROBERT PEELE, E.M.....	<i>Professor</i>
EDWARD L. KURTZ, E.M.....	<i>Instructor</i>
JAMES FARLEY McCLELLAND, E.M.....	<i>Instructor</i>

For a more detailed statement of the scope of the work in Mining the reader is referred to the special Announcement of the School of Mines for 1904-06.

Courses 1, 2, 3, 7a, and 11 are required in the third year, and 4, 5, 6, 7, 8, 9, 10, 24, and 25 in the fourth year, of candidates for the degree of Engineer of Mines.

Courses 3 and 7a are required in the third year, and 4, 5, and 10 in the fourth year, of candidates for the degree of Metallurgical Engineer.

All the above courses, 1 to 11, 24 and 25, are open to candidates for A.M. and Ph.D. in certain combinations as detailed in Courses 19, 20, 21, 22, and 23.

Courses 12 to 23 are intended as suggestions for lines of advanced study and investigation open to candidates for higher degrees. Courses 12, 13, 14, and 15 may be taken as major or minor subjects for A.M. or Ph.D. Courses 16, 17, 18, 19, 20, 21, and 22 are minors for A.M. Course 23 counts as a major and one minor for A.M.

With the exception of Courses 4, 5, and 7a, the mining courses are progressive, and must be taken in the order required of regular students. Pre-requisites for Course 1 are the entrance requirements in Mathematics, Chemistry, and Physics. In addition, the pre-requisite or parallel courses for Course 3 are: Mineralogy 12, and Geology 2 and 3; for Course 6, Civil Engineering 12 and 17; for Course 7, Mechanics 1 and 21, and Mechanical Engineering 111; for Course 8, Civil Engineering 5, Mechanical Engineering 1 and 2; for Courses 9 and 11, Civil Engineering 15. For Courses 4 and 5 the pre-requisite and parallel courses are Physics 1, Mineralogy 12 or 13, and Mechanics 21. All the undergraduate courses are pre-requisite to Courses 12, 13, 14, 15, 16, 17, and 18.

Courses

1—Excavation and tunnelling. Excavation of earth and rock; Explosives. Drilling and blasting. Driving and support of railroad and mine tunnels. 3 hours, first half-year. Professor PEELE

2—Boring and shaft-sinking. 3 hours for 3 months, second half-year. Professor PEELE

3—Prospecting, exploration, development, and methods of working. 3 hours, second half-year. Professor MUNROE

4—Ore dressing, gold milling, and the mechanical preparation of coal. 3 hours for 5 months. Professor MUNROE

5—Ore-dressing laboratory. Working tests with simple dressing apparatus. Concentrating machines. Afternoon work for three weeks, second half-year. Professor MUNROE, Mr. KURTZ, and Mr. McCLELLAND

6—Mine engineering. Surface handling and transportation; transshipment and storing of minerals. Drainage. Water supply. Ventilation. Accidents. 2 hours, second half-year. Professor MUNROE

7—Mine plant. Hoisting, drainage, ventilating, and compressed-air plant, machine drills, coal cutters, and underground handling and haulage. 3 hours. Professor PEELE

7a—Mine constructions. Building materials, masonry and timber construction, retaining walls, trestles, and ore-bins. 1 hour, second half-year. Professor PEELE

8—Design of mine plant. Working drawings of specified portions of mine plant, made under supervision and advice in connection with graduating project. 5 afternoons first half-year. Professor PEELE, Mr. KURTZ, and Mr. McCLELLAND

9—Mine surveying. Examination, sampling, and valuation of mines. 1 hour, first half-year. Professor MUNROE

10—Administration, organization, and business management, mine accounts, and cost sheets. 1 hour, first half-year. Professor MUNROE

24—Mining law. 1 hour, first half-year.

25—Graduating thesis or project, on assigned subjects. Professor PEELE

Summer Course

11—The summer course of practical mining is held in June and July, in the vacation between the third and fourth years, and lasts six weeks. Professor PEELE, Mr. KURTZ, and Mr. McCLELLAND

The course of instruction includes four weeks' detailed study of the plant and methods of working at some important mine or mines selected for the purpose; one week mine surveying; one week excursion to other mines and mining regions; and one week geological work, surface and underground.

Graduate Course

Special courses, consisting of personal instruction, reading, and experimental investigation, will be arranged for advanced students according to their individual needs and ability. These investigations will be made at mines and dressing works, either in connection with the summer school or elsewhere as assigned, with additional work, as required, in the library and in the laboratories of the department. These courses vary in difficulty and in the amount of time necessary, according as the student is a candidate for the degree of A.M. or Ph.D., and according as he pursues Mining as a major or a minor subject. The time required is governed by the rule that a course or courses should occupy about 18 hours a week (outside reading and study included) if taken as a major subject, and about 9 hours a week if taken as a minor subject. The following are suggested:

12—Methods of mining—Critical study of methods used in some mining region, or for a certain class of deposits.

13—Mining plant—Critical study of rock drilling, or coal cutting, or hoisting, or haulage, or ventilating plant at some mine or mines.

14—Deep mining—Study of problems involved.

15—Ore dressing—Critical study of some detail of the ordinary dressing methods.

16—Examination of a coal-washing plant, or an ore-dressing plant—4 to 6 weeks' work in the mill and in the laboratory, with conferences.

17—Examination of a mineral property, or a mine—4 to 6 weeks devoted to field and underground work in the summer school of practical mining, with conferences at convenience of professor.

18—Economic studies in mining—Study of existing conditions affecting the production and cost of some mineral or metal.

19—Mining and ore dressing—Mining 3, 4, and 5. 4 hours, with laboratory work and reading as required.

20—Mining engineering—Mining 3, 6, 7, and 10. 4 hours lectures and reading as required.

21—Design of mine plant—Mining 7, 7a, and 8. 3 hours and 5 afternoons draughting-room work.

22—Design of ore-dressing works—Mining 4, 5, 7a, and 8, with 1 hour conference additional, first half-year. 3 hours and 5 afternoons laboratory and draughting-room work.

23—Mining—1, 2, 3, 4, 5, 6, 7, 7a, 8, 9, 10, 11, 24, 25, being all the undergraduate courses in the Department of Mining.

Equipment

LECTURE ILLUSTRATIONS—The lectures on mining are illustrated by 5 sets of books aggregating over 300 volumes, and containing 85,000 blue prints from negatives made for the purpose. There are a sufficient number of these books, illustrating the different courses of lectures, so that each student has the use of one or more for reference during the lectures and for home study. These blue prints have many advantages over the usual form of lecture illustrations by lantern slides or wall diagrams. The latter are, however, used when necessary to supplement the blue prints.

MINING LIBRARY—The University Library contains sets of the transactions of all mining, metallurgical, and engineering societies, and of the more important periodical publications on these subjects. There is also a large collection of books on mining, and all new publications of value are added as they appear. In addition, a small departmental reference library has been created, which is accessible to students at all times.

MINING MUSEUM—The subject of mining is illustrated by collections as follows: Maps of coal and metal mines of this and other countries. Working drawings, diagrams, and photographs of mine plant, and of mining and dressing machinery. Models of mines and parts of mines and of mine plant. Mining tools: picks, shovels, hammers, drills, blasting apparatus, lamps, safety-lamps, anemometers, and machine drills. Ores and dressing products from typical works in this and other countries. Surveying instruments: geological compasses and clinometers, attraction compasses, dipping needles, hanging compasses and arcs, transits, lamp signals, rods, and apparatus for plumbing and measuring shafts.

MINING LABORATORIES—Seven rooms in the basement and sub-basement of the Engineering Building are equipped as laboratories for the department of mining. These laboratories serve four purposes: 1. To illustrate the physical laws bearing on mineral separation. 2. To afford opportunity for quantitative working tests. 3. To train stu-

dents in the adjustment and operation of concentrating machinery, and in the making of efficiency tests under working conditions. 4. To give advanced students and others all necessary facilities for original investigation.

MINES AND DRESSING WORKS—Many coal, iron, and other mines, slate and stone quarries, and metallurgical works are easily accessible. Within a radius of one hundred miles of New York City may be studied numerous examples of the best practice in mining and metallurgy under most varied conditions, and some of the most modern and effective mining and dressing machinery and smelting plants in the country. The excursions of the summer class in mining extend as far as the iron, copper, zinc, lead, silver, and gold regions of Michigan, Missouri, Montana, Colorado, and Utah.

The metropolitan situation of the school renders it possible to present, also, as parts of the regular courses in mining, special lectures by prominent engineers. The list of such lecturers for 1903-04 and more detailed information as to the courses offered and as to the facilities for instruction will be found in the *Announcement of the School of Mines* for 1904-06.

Music

CORNELIUS RÜBNER	<i>Professor</i>
LEONARD BEECHER MCWHOOD, A.B.	<i>Adjunct Professor</i>
GUSTAV HINRICHS.	<i>Conductor</i>

The courses in this department fall into four divisions; general musical culture, the technique of musical composition, musical dictation, and practical training in orchestral and choral music. In the general courses, music is treated historically and æsthetically as an element of liberal culture; the technical side of the art is explained, and the lectures are supplemented by illustrations and analysis. The aim of the technical courses is to teach music theoretically and scientifically with a view to training musicians competent to teach and to compose.

Course 2 is not given in 1904-05.

All courses are open to undergraduate students, to university students, to special students of music, and to auditors; and all, except Courses 8 and 9, to women on the same terms as to men.

Course 2 is open only to students that have taken Course 1, and to others equally qualified. Similarly, Courses 4 and 7 presuppose 3, 10 presupposes 3 and 6, 11 presupposes 7, and 5 presupposes 4 and 7.

Any course may be counted toward the degree of Bachelor of Arts, except that courses 8, 9, and 13 may be counted only in connection with some other course in Music. Only Courses 4, 5, and 11 (or other courses in connection with one of these) may be counted toward the degrees of Master of Arts and Doctor of Philosophy.

For the courses in Music offered at Teachers College see the *Announcement of Teachers College*, and for Extension courses see the *Announcement of Extension Courses*.

Courses

1—General musical course—The history of music—the origin, development, and meaning of music, with especial reference to the works of the great composers. Without being technical in nature, this course treats of music as an element of liberal culture. It is fully illustrated with music. 1 hour. Professor McWHOOD

[2—General musical course, advanced.

Not given in 1904-05]

3—Harmony—This course treats of general theory, harmony, chords, and their mutual significance, altered chords, suspensions, modulation, and analysis. 2 hours. Lectures and class-work. Professor McWHOOD

4—Counterpoint—This course treats of counterpoint, canon, fugue, and analysis. 2 hours. Lectures and class-work. Professor McWHOOD

5—Orchestration and symphonic form—This course treats of free composition, analysis, instrumentation, and symphonic forms. 2 hours. Lectures and class-work. Professor RÜBNER

6—Musical dictation—Melodic and rhythmic dictation, and the beginning of harmonic dictation. 1 hour. Professor McWHOOD

7—Advanced harmony and practical composition—This course treats of free harmony and the practical composition of music. It may be considered as a continuation of Course 3. 1 hour. Professor McWHOOD

8—Men's chorus. 2 hours. Mr. HINRICHS

9—University orchestra. 2 hours. Mr. HINRICHS

10—Musical dictation, advanced. This course treats, especially, of harmonic dictation. 1 hour. Professor McWHOOD

11—Free composition, advanced. This course is a continuation of Course 7. A thorough knowledge of harmony and some experience in composition are required. 1 hour. Professor RÜBNER

12—Analysis of musical sound. 1 hour, second half-year. Professor McWHOOD

13—University Chorus—This chorus, which is open to both men and women, is concerned with the study of the choral works of the masters, old and new. Concerts are given by the chorus, illustrative of the historical development of choral music. 1 hour. Professor RÜBNER

Equipment

A collection of music and of books of reference is placed at the disposal of students. It includes the complete works of various com-

posers, many orchestral and opera scores, the piano-forte classics, and vocal music, besides many theoretical, historical, and biographical works. The department has also a collection of instruments for the use of students participating in the university orchestra.

Neurology

M. ALLEN STARR, M.D., LL.D., Sc.D.	<i>Professor</i>
FREDERICK PETERSON, M.D.	<i>Clinical Professor of Psychiatry</i>
PEARCE BAILEY, M.D.	<i>Chief of Clinic and Instructor</i>
R. H. CUNNINGHAM, M.D.	<i>Instructor</i>

Clinical Assistants

C. E. ATWOOD, M.D.	E. L. HUNT, M.D.
S. P. GOODHARDT, M.D.	L. PIERCE CLARK, M.D.
SMITH ELY JELLIFFE, M.D.	H. R. HUMPHRIES, M.D.
B. E. KRYSTALL, M.D.	THOS. L. PROUT, M.D.
L. M. GIBSON, M.D.	G. W. TODD, M.D.
L. S. MANSON, M.D.	E. J. McENTEE, M.D.

A. F. WITMER, M.D.

Courses

- 1—Didactic lectures with lantern demonstration on nervous diseases. 1 hour, four months for two years. W., 4 P.M. Professor STARR.
Spinal Cord and Nerves, 1904. Brain, 1905.
- 2—Clinical lectures. 1 hour, F., 2 P.M. Professor STARR
- 3—Section teaching—Practical neurology. Ten lessons. Dr. BAILEY and Dr. CUNNINGHAM
- 4—Clinics on insanity. 4 hours in March. Professor PETERSON

Normal Histology

(See page 158)

Obstetrics

EDWIN B. CRAGIN, M.D.	<i>Professor</i>
HARRY McM. PAINTER, M.D.	<i>Professor of Clinical Obstetrics</i>
JAMES D. VOORHEES, M.D.	<i>Lecturer</i>
GEORGE H. RYDER, M.D.	<i>Instructor</i>

Courses

Course 1 is required, in the third year, of candidates for the degree of M.D.; Course 2, in the second year; Course 3, in the fourth year.

1—Theory and practice of obstetrics—Lectures. 3 hours, two didactic and one clinical, during the first half-year. Professor CRAGIN

2—Recitations and demonstrations. 1 hour for each student. One sixth of the class receives instruction daily, by recitations and demonstrations. Dr. VOORHEES

3—Practical instruction at the Sloane Maternity Hospital. The students are divided, at the beginning of the academic year, into sections of six, each section remaining on duty at the Hospital for two weeks.
Dr. RYDER

The Sloane Maternity Hospital

The Sloane Maternity Hospital is situated upon the grounds of the College of Physicians and Surgeons, and the service is under the exclusive direction of the Professor of Obstetrics in the College, one of the Instructors in Obstetrics being the resident physician.

The wards of the Hospital furnish one hundred and sixteen beds, and there are ample accommodations for the house staff, students, and nurses. The operating-room is equipped with all modern surgical and obstetrical conveniences, and has seating accommodations for fifty-one students. The number of deliveries averages over fourteen hundred a year. These, with the obstetric operations and the subsequent treatment of women and infants, afford invaluable practical experience, such as is offered at no other medical school in this country.

Oriental Languages

CHINESE

FRIEDRICH HIRTH, Ph.D. *Dean Lung Professor*
BERTHOLD LAUFER, Ph.D. *Lecturer*
ROBERT J. H. KLIENE *Assistant*

Courses 1, 9, 10, 11, and 12 are open to Seniors in Columbia College, Courses 10, 11, and 12 are designed for students not wishing to become specialists. All courses are open to auditors. The seminars are arranged for advanced students only.

Pending the completion of the collection of Chinese books now in the course of formation in connection with the Columbia Library, Courses and Seminars will be held in Professor HIRTH's private library, near Columbia University, 501 W. 113th Street. Course 12 (Ethnography) will be given in No. 507, Schermerhorn H., at the University.

1—Elementary course—Study of Chinese characters with explanations regarding the peculiarities of Chinese life and language. Text-book: T. L. Bullock, *Progressive Exercises in the Chinese Written Language*. 3 hours. Professor HIRTH

1b—Same as 1. Evening course. 2 hours. Mr. KLIENE

2—Analysis and translation of easy documents written in the Chinese modern business style: treaties, despatches, rules and regulations, commercial letters, contracts, etc. 2 hours. Professor HIRTH

This course is intended for those who have taken Course 1 and may wish to do business in China. It is desirable that students combine it with Courses 4 and 5.

3—Analysis and translation of selected easy texts from the national histories and the Confucian classics. 2 hours. Professor HIRTH

- 4—Helps and keys in Chinese literature. 1 hour. Professor HIRTH
Practical directions how to use such works as K'ang-hi's Dictionary, the *P'ei-wōn-yūn-fu*, the *Piēn-tzī-lai-piēn*, chronological, geographical, and biographical handbooks, and the several encyclopedias, indispensable to those who wish to translate written Chinese correctly and search for information contained in Chinese books.
- 5—Selected works of Chinese literature. 1 hour. Professor HIRTH
- 9—Colloquial studies in the Mandarin dialect. Evening course. 2 hours. Mr. KLIENE
- 10—History of the Chinese Empire. Continued from previous year. 1 hour. Professor HIRTH
- 11—Language, literature, government, and social life of the Chinese. 1 hour. Professor HIRTH
- 12—Ethnography of Asia as represented in Chinese literature. To form part of Anthropology 8. 2 hours. Professor HIRTH

Seminars

The Seminars are for research work and special study in three directions: (a) modern government matters; (b) historical literature; and (c) literature on art, industry, and culture. Any two of them will be offered in each academic year, according to the needs of the students presenting themselves. It is expected that, in order to participate in any of these Seminars, students have either gone through the preceding courses (1 to 5), or otherwise acquired the requisite knowledge of the book language.

6—Seminar for the study of Chinese government matters, based on original state papers taken from the *Peking Gazette*, Chinese provincial newspapers and other publications, memorials, imperial edicts, etc. For advanced students. 1 hour. Professor HIRTH

7—Seminar for historical studies in Chinese literature. 1 hour. Professor HIRTH

For research work in the ancient and mediæval history of Central Asia in connection with the discoveries made by modern explorers in Eastern Turkestan.

8—Seminar for the study of Chinese art, industry, and general culture. 1 hour. Professor HIRTH.

INDO-IRANIAN LANGUAGES

A. V. WILLIAMS JACKSON, Ph.D., L.H.D., L.L.D. Professor
ABRAHAM YOHANNAN, Ph.D. Lecturer

The following courses of instruction are intended to be introductory to the study of comparative philology and of the history of religion, as well as to the study of the history, antiquities, and literature of India and Persia and also of Armenia. Indo-Iranian 1 may be taken with advantage in connection with any of the Latin, Greek, or other linguistic courses.

Course 1 is open to juniors in the college. Courses 1, 2, 3, and 11

are open to seniors and graduate students. If taken by candidates for higher degrees, Course 1 must be supplemented by additional work or by taking some kindred course in the department. Course 1 may also be taken as an elective by juniors in the College. Courses 4, 5, 6, 7, 10, and 12 are open to advanced students only. Courses 8 and 9 are open to students pursuing one other course in the department. Course 13 is open to seniors in the College and to university students.

Courses 1, 3, 11, and either 2 or 4 are intended to be given each year. Courses 5, 6, 7, 8, and 12 form a supplementary series. Two of this series will be given each year according to the requirements of the students in attendance.

Course 9, on some special Iranian subject, Course 10, on Zoroaster and Buddha and their teachings, and Course 13, on the history of India and Persia, will be offered every second or third year.

Course 11 is open to auditors, and to women on the same terms as to men.

Courses

1—Sanskrit elementary course. 3 hours. Professor JACKSON

[2—Avestan elementary course—Grammar and reading of texts. 2 hours. Professor JACKSON

Not given in 1904-05. To be given in 1906-07]

3—Sanskrit, advanced course. First half-year: The Sanskrit drama, *Priyadarśikā* of Harsha; selections from Manu, with the native commentary. Second half-year: Introduction to the study of the Veda. 2 hours. Professor JACKSON

4—Avestan, advanced course—Interpretation of texts, antiquities, and literature. 2 hours. Professor JACKSON

5—Pāli, elementary course. 1 hour. Professor JACKSON

[6—Old Persian cuneiform inscriptions. 1 hour, first half-year. Professor JACKSON

Not given in 1904-05. To be given in 1906-07]

[7—Palhavi, introductory course. 1 hour, second half-year. Professor JACKSON

Given in 1903-04, and in alternate years thereafter]

8—Sanskrit literature—Lectures on some branch of the literature; rapid reading of assigned texts. 1 hour. Professor JACKSON

[9—Zoroastrian Gāthās—Reading of texts with the Pahlavi and the Sanskrit version. 1 hour. Professor JACKSON

Given in 1903-04, and in alternate years thereafter]

10—See introductory note above.

11—Modern Persian, introductory course. First half-year: Grammar and reading. St. Clair-Tisdall's *Modern Persian Conversation-Grammar*. Second half-year: Interpretation of Sa'di's *Gulistan*. 2 hours. Dr. YOHANNAN

12—Modern Persian, second-year course. Selections from Firdausi, from Omar Khayyām, and from Hāfiz. 2 hours. Dr. YOHANNAN

[13—History of India and of Persia. 2 hours, first half-year. Professor JACKSON

This course is identical with History 57

Given in 1903-04 and in alternate years thereafter]

Course in Armenian

1—Principles of the grammar, with selected readings. 2 hours. Dr. YOHANNAN

Seminar

Indo-Iranian Seminar. 1 hour. Professor JACKSON

Lectures

A course of afternoon lectures on the literature, antiquities, and history of ancient India and Persia, open to all students of the University and to auditors, is given during the winter months. Public announcement of the subjects will be made at the time when these lectures are to be delivered.

Course in the Science of Language

Introduction to the science of language. 2 hours. Professor JACKSON

This course is open to seniors and juniors in the College, to all university students, and to auditors. It may not be counted toward the degree of Master of Arts or Doctor of Philosophy except on the basis of special work done in connection with it. It is planned to add in this course a second year of study in which the student shall devote himself to research in the philology of one particular family of languages. In this connection Professor Gottheil and Professor Jackson propose to offer advanced courses in Semitic and Indo-Iranian linguistics.

SEMITIC LANGUAGES

¹ RICHARD J. H. GOTTHEIL, Ph.D.....	Professor
JOHN DYNELEY PRINCE, Ph.D.....	Professor
ABRAHAM YOHANNAN, Ph.D.....	Lecturer
WILLIAM POPPER, Ph.D.....	Lecturer

Courses 1, 2, 3, 4, 5, 10, 12, 13, 15, 16, 18, 19, and 20, and the Seminar, are open to seniors in Columbia College and to university students; Courses 6, 7, 8, 9, 11, 14, and 17, to advanced students only. All the courses in Semitic Languages except the Seminar are open to auditors. Courses 1, 2, 4, 10, 12, 13, 15, and 16 are open also to juniors in Columbia College.

¹ Absent on leave

Courses in Hebrew

The course in Hebrew extends over three years. The first year is devoted to the study of the elements; the second, to the study of the syntax and the acquiring of ease in translating from Hebrew into English and from English into Hebrew; the third, to a critical study of one or more books of the Bible.

The attention of students in the College is directed to the fact that it is desirable that those who intend entering a theological seminary after graduation shall have had at least two years' previous training in Hebrew. Opportunity for this training is given the students of Columbia College, Hebrew being an elective in both the junior and senior classes.

1—Biblical Hebrew, elementary course. 2 hours. Dr. POPPER

2—Biblical Hebrew, second course—(a) Interpretation of Ecclesiastes. 2 hours. Professor PRINCE. (b) The development of Hebrew poetry: selections and exegesis. 2 hours. Professor PRINCE

3 [(a)—Biblical Hebrew, third (lecture) course—Semitic archæology and its bearings upon the study of the Bible. 2 hours, first half-year. Professor GOTTHEIL. *Not given in 1904-05.*] (b) The history of the literature of the Old Testament: Lectures on the origin and development of Hebrew literature. 1 hour throughout the year. Professor PRINCE

4—Selected readings from the Mishnah. 2 hours. Dr. POPPER

[5—Selected readings from the Talmud, Treatise Berachoth. 2 hours. Professor GOTTHEIL
Not given in 1904-05]

[6—Lectures on post-Biblical Hebrew literature. 2 hours, first half-year. Professor GOTTHEIL
Not given in 1904-05]

For Courses 4 and 5 a good knowledge of Biblical Hebrew is required.

Other courses in Hebrew are given at the Union Theological Seminary.

For Extension courses in Biblical Literature, see the special announcement of such work issued by Teachers College.

Courses in Semitic Epigraphy

These courses are intended to cover the whole field of Semitic Epigraphy during a period of three years. For Course 7 a previous knowledge of Hebrew is required; for Course 8, of Aramæan; and for Course 9, of Arabic.

[7—Interpretation of the Phœnician inscriptions, with an introduction to Semitic palæography and the history of the alphabet. *Corpus Inscriptionum Semiticarum*, vol. i. 1 hour. Professor GOTTHEIL

Not given in 1904-05. To be given in 1905-06]

[8—Interpretation of the Aramæan inscriptions of Sinjirli and of the *Corpus Inscriptionum Semiticarum*, vol. ii. 1 hour. Professor GOTTHEIL

Not given in 1904-05]

[9—Interpretation of the Sabæan and Himyaritic inscriptions contained in the *Corpus Inscriptionum Semiticarum*, vol. iv. Professor GOTTHEIL

Not given in 1904-05]

Courses in Assyrian

10—Elementary course—Study of the syllabary, with readings. 2 hours. Professor PRINCE

11—Advanced course—Sumerian grammar and vocabulary, with study of Sumerian texts. 2 hours. Professor PRINCE

Only such students may take this course who have previously taken the first course or have done an equivalent amount of work.

Courses in Arabic

12—Elementary course—Grammar and translation. 2 hours. Dr. POPPER

13—Second course—Study of Brunnow's *Chrestomathie aus arabischen Prosaschriftstellern*. 2 hours. Dr. POPPER

14—Advanced course—Selections from the *Annals of Tabari* and from the *Prolegomena of Ibn Khaldun*; Arib, *Tabari Continuatus* (ed. De Goeje, Leiden, 1897). 2 hours. Dr. POPPER

14a—Conversational Arabic. Professor PRINCE

Courses in Syriac

15—First course. First half-year: Grammar and selected readings from the Peshitta. Second half-year: Interpretations of selected portions of the *Acta Martyrum* (ed. Bedjan). 2 hours. Dr. POPPER

16—Second course. First half-year: Interpretation of *Tash'ûhâ de-Mâr Yabhalâhâh* (ed. Bedjan). Second half-year: Interpretation of the Syriac grammar *Keithâbhâ Dhesemhê* of Bar Hebraeus. 2 hours. Dr. YOHANNAN

In case there should be a demand for instruction in Modern Syriac, Dr. Yohannan will make arrangements for a course.

Course in Ethiopic

[17—Principles of the grammar and reading of the extracts in Prætorius. 1 hour. Professor GOTTHEIL

Not given in 1904-05]

Courses in Oriental History

18—The ancient history of Western Asia from the earliest times until the period of Alexander the Great. 2 hours. Professor PRINCE

This course is identical with History 56

[19—The rise of Arabian civilization and the spread of Mohammedanism. Professor GOTTHEIL

Not given in 1904-05]

20—The nearer Orient. Dr. POPPER

Semitic Seminar

21—The Seminar will take up the study of current questions in Semitic philology and history with especial reference to modern methods of research. Professor PRINCE and Dr. POPPER

Attendance at the Seminar meetings will be obligatory upon candidates for the degrees of Master of Arts and Doctor of Philosophy whose major subject is in Semitic Languages. The meetings are open also to advanced students one of whose minor subjects is in the Department of Semitic Languages.

Courses in Egyptian

22—Elementary course in Coptic. 1 hour a week. Professor PRINCE

23—Egyptian hieroglyphs and advanced Coptic. 1 hour. Professor PRINCE

Course in Turkish

22—Principles of the grammar. Second half-year: Exercises in Turkish conversation and in the reading of Turkish newspapers. 2 hours. Dr. YOHANNAN

Courses in Semitic Languages at the Union Theological Seminary

A detailed announcement of these courses is given in the circular issued by the Division of Oriental Languages. Such courses may be counted as part of the work required for the degrees of Master of Arts and Doctor of Philosophy.

Equipment

The Columbia University Library (about 330,000 volumes) contains most of the important periodicals which deal with Oriental research, and has quite a rich collection of the publications of the learned societies of Europe—*e. g.*, of the Academies of Berlin, Vienna, Leipsic. St. Petersburg, Brussels, Paris, and Rome (Lincei).

The books relating to East Indian and Iranian subjects in the University Library comprise already a good collection of the most important text-editions and works of reference, and additions are constantly being made. Most of the best works dealing with Semitic philology will be found in the Library; care has been taken, especially in Assyriology, to buy all the more important publications. In the Avery Architectural Library most of the monumental works relating to Eastern art and archæology will be found. Through the generosity of the trustees of Temple Emanuel, the Library now possesses the most

complete collection of works in Rabbinical Hebrew to be found in this country. There is also a small collection of Hebrew, Arabic, and Persian MSS., designed for the use of advanced students. The resources of the University Library are supplemented in the most valuable way by the collections of all branches of Orientalia in the New York Public Library. A collection of old Babylonian tablets has been added to the department. These, together with the casts of tablets in the Metropolitan Museum of Art, furnish material for those who wish to devote themselves especially to the study of Babylonian and Assyrian.

The library of the Union Theological Seminary, which is accessible to advanced students at Columbia University, contains all the current theological periodicals.

Pathology

*Including Pathology, Normal Histology, Bacteriology and Hygiene,
Clinical Pathology, and Photomicrography*

- T. MITCHELL PRUDDEN, M.D., LL.D.....*Professor of Pathology and
Director of the Associated Laboratories*
- PHILIP HANSON HISS, Jr., M.D.....*Adjunct Professor of Bacteriology*
- EUGENE HODENPYL, M.D. .*Adjunct Professor of Pathological Anatomy*
- FRANCIS CARTER WOOD M.D. .*Adjunct Professor of Clinical Pathology*
- FREDERICK RANDOLPH BAILEY, M.D.....*Adjunct Professor of Normal
Histology*
- EDWARD LEAMING, M.D.....*Instructor in Photomicrography*
- JOHN H. LARKIN, M.D.....*Instructor in Pathology and Curator of the
Museum*
- NORMAN E. DITMAN, M.D.....*Instructor in Pathology*
- A. M. MILLER.....*Instructor in Normal Histology*
- OLIVER S. STRONG, A.M., Ph.D.....*Instructor in Normal Histology*
- AUGUSTUS B. WADSWORTH, M.D.....*Instructor in Bacteriology and
Hygiene*
- EDMUND L. DOW, M.D.....*Demonstrator in Pathological Anatomy*
- GEORGE A. TUTTLE, M.D.....*Demonstrator in Pathological Anatomy*
- HORST OERTEL M.D.....*Demonstrator in Pathological Anatomy*
- D. STUART DODGE JESSUP, M.D.....*Assistant in Clinical Pathology*
- CHARLES EVERETT BANKER, M.D.....*Assistant in Normal Histology*
- CHARLES HENDEE SMITH, M.D.....*Assistant in Normal Histology*
- KARL M. VOGEL, M.D.....*Assistant in Pathology*
- HENRY S. PATTERSON, M.D.....*Assistant in Clinical Pathology*
- AUSTEN FOX RIGGS M.D.....*Assistant in Pathology*
- HERBERT B. WILCOX, M.D.*Assistant in Clinical Pathology*
- CLINTON BEECHAM KNAPP, M.D.....*Assistant in Bacteriology and
Hygiene*
- J. HARVEY BORDEN, M.D.*Assistant in Bacteriology and Hygiene*

For the convenience of administration, and for the better association of allied themes, the laboratories of Pathology, Normal Histology, Bacteriology and Hygiene, Clinical Pathology, and Photography are grouped together in the Department of Pathology under the direction of the Professor of Pathology.

Courses

Further details respecting the following courses are to be found in the special Bulletin of Information of the College of Physicians and Surgeons.

Course 1 in Normal Histology is required, in the first year, of candidates for the degree of M.D. This course may be elected by seniors in Columbia College.

Courses 1 in Pathology and 1 in Bacteriology and Hygiene are required, in the second year, of candidates for the degree of M.D.

Courses 2 and 3 in Pathology are required, in the third year, of candidates for the degree of M.D.

Course 1 in Clinical Pathology is required, in the third year, of candidates for the degree of M.D.

Course 2 in Bacteriology and Hygiene may be offered as a minor for one year by candidates for the degree of A.M. or Ph.D. Course 3 in Bacteriology and Hygiene may be offered as a major for one year by candidates for the degree of A.M. or Ph.D.

Courses 4 in Pathology and 2 in Clinical Pathology cannot be counted for a degree, and are only open to qualified graduate students by special arrangement with the head of the department.

Courses in Pathology

1—Autopsy technique and pathological anatomy at the Roosevelt, Presbyterian, St. Luke's, Bellevue, or City Hospitals, once a week for eight weeks. Drs. HODENPYL, TUTTLE, WOOD, and OERTEL

2—Practical instruction in general pathology, pathological anatomy and histology, and in the bacteriology of the infectious diseases. 8 hours a week for one half of the academic year. Professors PRUDDEN and HODENPYL, and Drs. LARKIN, BAILEY, DITMAN, VOGEL, and RIGGS

3—Demonstrations in pathological anatomy. 1 hour a week throughout the academic year. Prof. HODENPYL and Drs. LARKIN, DITMAN, VOGEL, and RIGGS

4—Pathological anatomy and histology, experimental pathology, bacteriology as applied to medicine, and clinical pathology. Professors PRUDDEN, HISS, HODENPYL, and WOOD

Courses in Normal Histology

1—Practical instruction in general normal histology. 10 hours a week for one half of the academic year. Prof. BAILEY and Drs. STRONG, MILLER, BANKER, and SMITH

Courses in Bacteriology and Hygiene

1—Practical instruction in bacteriology and hygiene. 6 hours a week for one quarter of the academic year. Prof. HISS and Drs. WADSWORTH and KNAPP

2—Special laboratory course in advanced bacteriology and bacteriological technique. This course is given but once during the year, and requires attendance at the laboratory for the entire afternoon in January, February, and March. Professor HISS and Dr. WADSWORTH

3—Laboratory course—As under Course 2, with additional study and determination of known species of bacteria; special study of the chemical products formed in the growth of bacteria; practical work in photomicrography and the pursuit of some selected theme for original investigation. Professors PRUDDEN and HISS, and Drs. WADSWORTH and LEAMING

Courses in Clinical Pathology

1—Practical instruction in clinical pathology 6 hours a week for one quarter of the academic year. Professor WOOD and Drs. JESSUP, PATTERSON, and WILCOX

2—Special laboratory course in clinical pathology. Professor WOOD

Photography and Photomicrography

1—Practical instruction is given to a limited number of men in the photographic laboratories of the college, in the technique of photography and photomicrography. Dr. LEAMING

Research

Research in pathology and bacteriology may be pursued in the laboratories of this department by a limited number of graduate students or practitioners of medicine or other advanced workers. Professor PRUDDEN

Museum

The Museum of Pathology is made use of in the work of this department, both for the instruction of medical students and as a place of deposit for specimens showing new and rare forms of lesions.

Equipment

The Department of Pathology occupies the two upper floors of the north wing of the college building. The large class-room on the upper floor is used, as formerly, for the classes in normal histology and in pathology. The fourth floor is devoted to the pathological museum and to a large preparation laboratory, a workshop, cold storage, and

the like. The remaining space is devoted to a general laboratory and to private rooms for instructors and advanced workers in pathology, to undergraduate and to research work in bacteriology and hygiene and clinical pathology, and to a departmental library.

The entire space is amply lighted, fully furnished, and equipped with such new apparatus as the rapidly growing sciences of pathology, bacteriology, and closely allied themes require.

Pediatrics

ABRAHAM JACOBI, M.D., LL.D. *Emeritus Professor*

L. EMMETT HOLT, M.D., LL.D., Sc.D. *Carpentier Professor*

LINNAEUS EDWARD LA FETRA, M.D. *Chief of Clinic and Instructor*

JOHN HOWLAND, M.D. *Instructor in Contagious Diseases*

FRANK S. MEARA, M.D. *Tutor*

Clinical Assistants

LOUIS M. SILVER, M.D.

SIDNEY V. HAAS, M.D.

ALBERT F. BRUGMAN, M.D.

ANDREW B. YARD, M.D.

BERNARD SOUR, M.D.

EDWARD MILLER, M.D.

ROBERT H. MCCONNELL, M.D.

HENRY E. HALE, M.D.

Courses

Courses 1, 3, 5, and 6 are required in the third year, and Courses 1, 2, and 4 in the fourth year, of candidates for the degree of M.D.; Course 7 is optional in the fourth year.

1—Didactic lectures at the College upon pediatrics. 1 hour. Wednesday at 4 P.M., from February to May. Professor HOLT

2—Clinical lectures at the Vanderbilt Clinic upon pediatrics. 1 hour. Wednesday at 2 P.M., from October to February. Professor HOLT

3—Practical instruction at the Vanderbilt Clinic in the diagnosis and treatment of the diseases of children. 10 lessons for each student. Dr. L. E. LA FETRA

4—Hospital clinic—Foundling or Babies' Hospital, Tuesdays at 2 P.M., Fridays at 3.15 P.M., from October to May. Professor HOLT

5—Bedside instruction in contagious diseases at the Willard Parker Hospital, to small sections of the class. Dr. HOWLAND

6—A weekly recitation in pediatrics for each student for half the year. Dr. MEARA

7—Hospital clinic—Roosevelt Hospital, Mondays and Thursdays at 5 P.M., from October to May. Professor JACOBI

Pharmacology, Materia Medica, and Therapeutics

CHRISTIAN A. HERTER, M.D.	<i>Professor of Pharmacology and Therapeutics</i>
SAMUEL W. LAMBERT, M.D.	<i>Professor of Applied Therapeutics</i>
SMITH ELY JELLIFFE, M.D., Ph.D.	<i>Instructor in Pharmacology and Therapeutics</i>
ALFRED N. RICHARDS, Ph.D.	<i>Instructor in Pharmacology</i>
WALTER A. BASTEDO, M.D.	<i>Tutor in Materia Medica and Pharmacology</i>
HENRY S. PATTERSON, M.D.	<i>Tutor in Therapeutics</i>
WILLIAM R. WILLIAMS, M.D.	<i>Tutor in Therapeutics</i>

Courses

Courses 1, 2, and 3 are required in the second year, Courses 4 and 8 in the third year, Course 5 in both the third and fourth years, and Course 6 in the fourth year, of candidates for the degree of M.D. Course 7 is optional to a limited number of students in the third year in medicine, Course 4 in the fourth year, and Course 9 in the third and fourth years.

1—Lectures on the principles of materia medica. 1 a week during the first half-year. Dr. JELLIFFE

2—Practical instruction in the pharmaceutical laboratory. 3 hours a week for one half of the year. Drs. JELLIFFE and BASTEDO

3—Recitations in materia medica and pharmacology. 1 hour a week throughout the year. Drs. JELLIFFE and BASTEDO

4—Lectures on the principles of pharmacology, toxicology, and therapeutics. 2 hours a week during the first half-year. Professor HERTER

5—Lectures on applied therapeutics. 2 hours a week during the second half-year. Professor LAMBERT

6—Clinical instruction in therapeutics. 1 hour exercises, six times a week for four weeks, in sections. Professor LAMBERT and Dr. PATTERSON

7—Laboratory course in pharmacology. 2-hour exercises twice a week for one quarter of the year. Dr. RICHARDS and Dr. SYMMERS

8—Recitations on the work given in lectures of Courses 4 and 5. 1 hour a week throughout the year. Dr. WILLIAMS

9—Prescription work in the pharmaceutical laboratory, for advanced students. Drs. JELLIFFE and BASTEDO

Research

The research laboratory of pharmacology is open to a limited number of workers.

Philosophy and Psychology

JAMES McKEEN CATTELL, Ph.D.....	<i>Professor</i>
MOSES ALLEN STARR, M.D., LL.D., Sc.D.....	<i>Professor</i>
HERBERT GARDINER LORD, A.M.....	<i>Professor</i>
FREDERICK JAMES EUGENE WOODBRIDGE, A.M., LL.D.....	<i>Johnsonian Professor</i>
FELIX ADLER, Ph.D.....	<i>Professor</i>
CHARLES AUGUSTUS STRONG, A.B.....	<i>Professor</i>
GEORGE STUART FULLERTON, Ph.D., LL.D.	<i>Professor</i>
JOHN DEWEY, Ph.D., LL.D.....	<i>Professor</i>
ROBERT SESSIONS WOODWORTH, Ph.D.....	<i>Instructor</i>
ADAM LEROY JONES, Ph.D.....	<i>Tutor</i>
WILMON HENRY SHELDON, Ph.D.....	<i>Tutor</i>
WILLIAM PEPPERRELL MONTAGUE, Ph.D.....	<i>Tutor</i>
DICKINSON S. MILLER, Ph.D.	<i>Lecturer</i>
PERCY HUGHES, Ph.D.....	<i>Assistant</i>
FRANK G. BRUNER, A.B.....	<i>Assistant</i>
G. CUTLER FRACKER, A.M.	<i>Assistant</i>
EDWARD LEE THORNDIKE, Ph.D.....	<i>Professor in Teachers College</i>
JOHN ANGUS MACVANNEL, Ph.D..	<i>Adjunct Professor in Teachers College</i>
NAOMI NORSWORTHY, Ph.D.....	<i>Tutor in Teachers College</i>

NICHOLAS MURRAY BUTLER, Ph.D., LL.D.....*President and Professor*

The courses primarily for students of the colleges are intended to offer the training in philosophy and psychology which is believed to be essential for a liberal education, to give instruction preliminary to certain of the professions, and to prepare students for advanced work.

Psychology A, given in four sections at Columbia College, in three sections at Barnard College, and in three sections at Teachers College, is required in the sophomore or junior year. It should be elected in the sophomore year by students wishing to follow other courses in philosophy or psychology.

Psychology 10 (given both at Columbia and Barnard Colleges), 8, and 9 are primarily for sophomores and juniors.

Philosophy 2 and 9 (given both at Columbia and Barnard Colleges) and Psychology 1 and 18 are for juniors and seniors.

Philosophy 1 (given both at Columbia and Barnard Colleges), 7, and 8, and Psychology 2, 3, and 16, are primarily for seniors, and are open to students of Columbia, Barnard, and Teachers Colleges. Juniors may be admitted in special cases; graduate students, if they have not had training in philosophy and psychology, will need to enter these courses. They may count towards the higher degrees when special work is done in connection with them.

These courses count one point towards the degree of A.B. for each hour of work through the year, or one half-point for each hour of work

through one half-year, except that two hours of laboratory work in psychology count as one point.

The graduate courses are intended to cover the whole field of philosophy and psychology and to give opportunity for research in any direction.

Philosophy 3, 4, 6, 7, 10, 11, 12, 13, 14, 15, 16, 18, 20, 21, 26, 27, 29, 30, and 31, and Psychology 5, 6, 7, 11, 14, 17, and 19, are for graduate students in the first or second year of residence. To certain of them specially qualified seniors are admitted.

The seminars and research courses (including Psychology 4) are for graduate students who are able to do independent work, and can only be taken with the consent of the instructor.

Psychology 1 and 8 (being open to juniors) and 7 (being given at the College of Physicians and Surgeons) are not open to Barnard students, but all the courses in philosophy and psychology except Psychology 7 are open to women. All the courses are open to auditors, who, in accordance with the regulations, must secure the written consent of the instructor.

Certain courses in philosophy and psychology are offered each year in the Summer Session. For details see the *Announcement* of the Session, issued in February of each year. Extension courses in psychology are described in the special announcement issued by Teachers College.

For special information as to the scope of each course, the courses or their equivalents that must have preceded it or must accompany it, as to what credit toward the fulfilment of the requirements for major or minor subjects will be given on the completion of the course, consult the Announcement of the Division of Philosophy, Psychology, and Anthropology for 1904-05.

Courses in Philosophy

1—The history of philosophy—Lectures, essays, and discussions. This course serves as a general introduction to the study of philosophy, and is pre-requisite to Courses 3, 4, 5, 6, 11, 13, 15, 20, 21, and 27. 3 hours. Professor WOODBRIDGE and Dr. MONTAGUE, assisted by Dr. HUGHES

9—Logic and scientific method. 3 hours, Columbia College, first half-year. Dr. SHELDON. Repeated, second half-year. Dr. MONTAGUE. Barnard College, first half-year. Dr. JONES

6—Logic and metaphysics—Lectures, discussions, and essays. 2 hours. Professor WOODBRIDGE

[5—Metaphysics—3 hours. Professor FULLERTON
Not given in 1904-05]

[28—Seminar in metaphysics. Professor FULLERTON
Not given in 1904-05]

13—Seminar in logic. Dr. SHELDON

26—Seminar in the development of English logical theory. 2 hours, second half-year. Professor DEWEY

3—The philosophy of Kant and his successors. 2 hours. Dr. SHELDON

4—British philosophy from Locke to Herbert Spencer. 2 hours. Professor WOODBRIDGE

15—The philosophy of Descartes, Spinoza, and Leibniz. 2 hours. Dr. SHELDON

20—Post-Kantian idealism in Germany. 2 hours. Dr. SHELDON

21—The philosophy of realism. 2 hours. Dr. MONTAGUE

22—Seminar in Aristotle. Professor WOODBRIDGE

33—Seminar—American philosophers. 2 hours, second half-year. Dr. JONES

[25—Seminar in Schopenhauer. Dr. MONTAGUE

Not given in 1904-05]

27—Research work in philosophy. Professor DEWEY

2—Ethics: general course—Recitations, essays, and discussions. 3 hours, second half-year. Professor LORD

7—Ethics: advanced course—Lectures, essays, and discussions. 3 hours. Dr. MONTAGUE

17—Ethical ideals of the nineteenth century. 2 hours. Dr. MILLER

18—Lectures on personal ethics. 2 hours, second half-year. Professor ADLER

29—Evolution of ethical ideals since the Renaissance. 2 or 3 hours, second half-year. Professor DEWEY and Dr. MONTAGUE

30—Logic of ethics. 2 hours, second half-year. Professor DEWEY

23—Seminar in ethics, first half-year. Professor ADLER

32—Seminar in ethics. Dr. MONTAGUE

8—Principles and problems of æsthetics—Lectures, essays, and discussions. 2 or 3 hours. Dr. JONES

16—Seminar in æsthetics—Advanced study of the principal problems—Lectures, readings, essays, and discussions. 2 hours. Dr. JONES

31—The philosophy of history. 2 hours. Dr. HUGHES

14—Educational problems. 1 hour. Dean RUSSELL, in co-operation with President BUTLER and special lecturers

12—Practicum. Philosophy of education. 2 hours. Professor MACVANNEL

24—Seminar in the philosophy of education. Professor MACVANNEL

34—Logic as applied to education. 2 hours. Professor DEWEY

10—Journal club—Reports and discussions on contemporary literature. 1 hour. Dr. JONES

Philosophy of Religion (at the Union Theological Seminary)

- A—Philosophy of religion; the philosophical foundation. 2 hours, first half-year. Professor KNOX
- B—Theism. 2 hours, second half-year. Professor KNOX
- C—Survey of the ethnic faiths. 2 hours, first half-year. Professor KNOX
- F—Introduction to the study of the philosophy of religion. 2 hours. Professor KNOX
- Apologetics B and D may also be counted as courses in the philosophy of religion.

Ethics (at the Union Theological Seminary)

- A and B—Christian ethics. 2 hours. Professor THOMAS C. HALL
- C—Special introduction to ethics. 2 hours, first half-year. Professor THOMAS C. HALL
- E—History of ethical thought. 2 hours. Professor THOMAS C. HALL
- G—Christian casuistry. 1 hour. Professor THOMAS C. HALL
- H—Study of modern ethics. 2 hours. Professor THOMAS C. HALL
- J—The field of ethical inquiry. 2 hours, first half-year. Professor THOMAS C. HALL

Courses in Psychology

A—Elements of psychology—Discussions, practical exercises, and recitations. 3 hours, first half-year, given in 4 sections at Columbia College and in 3 sections at Barnard College. Professor LORD, Dr. WOODWORTH, and Dr. JONES. Given at Teachers College in 3 sections. Professor THORNDIKE and Dr. NORSWORTHY

10—Analytic psychology, introductory course—Recitations and discussions. 3 hours, second half-year. Given at Columbia and Barnard Colleges. Professor LORD

1—Introduction to psychology.—Lectures and demonstrations. 2 hours.

- A. Prolegomena to psychology. Two lectures. President BUTLER
- B. History of psychology. Six lectures. Professor WOODBRIDGE
- C. Physiological psychology. Eight lectures. Dr. WOODWORTH
- D. Experimental psychology. Eight lectures. Professor CATTELL
- E. Genetic psychology. Eight lectures. Professor THORNDIKE
- F. Comparative psychology. Six lectures. Professor FARRAND
- G. Psychological æsthetics. Three lectures. Dr. JONES
- H. Psychological ethics. Four lectures. Professor ADLER
- J. Pathological psychology. Three lectures. Professor STARR
- K. Philosophy of mind. Six lectures. Mr. STRONG

2—Experimental psychology, introductory course—Lectures, themes, and demonstrations. 2 hours. Professor CATTELL

3—Experimental psychology—Laboratory work in connection with Psychology 2. 2 or 4 hours, counting as a 1- or 2-hour course. Professor CATTELL, assisted by Mr. FRACKER

4—Problems in experimental psychology—Lectures and reports. 2 hours. Professor CATTELL

5—Research work in experimental psychology. Professor CATTELL, assisted by Mr. BRUNER and Mr. FRACKER

16—(Same as Education 12)—Child study—Observation, experiments, private reading, and conferences. 2 hours. Dr. NORSWORTHY

11—(Same as Education 59)—Genetic psychology, advanced course. 2 hours. Professor THORNDIKE

18—Educational psychology. 2 hours. Professor THORNDIKE and Dr. NORSWORTHY

17—(Same as Education 108)—The application of psychological and statistical methods to education. Professor THORNDIKE

13—(Same as Education 109)—Research work in genetic and comparative psychology. Professor THORNDIKE

[6—Analytic psychology, advanced course—Lectures, discussions, and private reading. 2 hours. Professor STRONG

Not given in 1904-05]

14—Philosophy of mind—Lectures, discussions, and private reading. 2 hours. Professor STRONG

15—Research work in analytic psychology and the philosophy of mind. Professor STRONG

7—Diseases of the mind and nervous system—Lectures and demonstrations. 1 hour. Professor STARR

8—Physiological psychology, general course—Lectures and demonstrations. 3 hours. Dr. WOODWORTH

9—Physiological psychology—Laboratory work in connection with Psychology 8. 2 or 4 hours, counting as a 1- or 2-hour course. Dr. WOODWORTH, assisted by Mr. BRUNER

19—The psychology of vision. 2 hours. Dr. WOODWORTH

12—Research work in physiological and abnormal psychology. Dr. WOODWORTH

Seminars. The courses devoted to research work are conducted as seminars.

Journal club. A journal club for reports and discussions of recent psychological literature meets bi-weekly in the afternoon, and monthly in the evening.

Equipment

LIBRARY FACILITIES—The library facilities of Columbia University and of the city of New York, for students of philosophy and psychology, are unusually good. The University Library, open daily (except

Sunday) for fifteen hours, contains more than 300,000 bound volumes and an equal number of pamphlets, and is being added to at the rate of more than 18,000 volumes annually. Any book needed by an advanced student can usually be bought at once. The collection of books on the history of philosophy is very large, that on Kant and his philosophy being especially complete. About 1000 periodicals are regularly received at the University Library, and among them will be found every journal of importance, American or foreign, dealing with philosophy or psychology. Duplicates of the more important books and journals are placed in the Psychological Laboratory, where there is also a card index of psychological literature containing over 15,000 titles. Students of psychology will also find much of value in the Library of the Academy of Medicine, 15 West 43d Street, which is open to students free of charge. The Astor and Lenox Libraries are also available for students, when introduced by one of the instructors, on especially favorable terms.

THE PSYCHOLOGICAL LABORATORY—The laboratory is in Schermerhorn Hall, a building "devoted to the advancement of natural science," erected in 1897 at a cost of over \$400,000. It occupies the eastern half of the second floor and part of the floor immediately above, the rooms being as follows: A lecture-room, seating one hundred students, used also as a general laboratory; a seminar room with a department library, a workshop, a photographic and chemical room, an apparatus cabinet, an anthropometric laboratory, five rooms used as offices and laboratories by the officers of the department, and eight research laboratories. Two of these are dark-rooms, specially constructed to exclude sound as well as light, 18 feet high and well ventilated. The laboratory has light from the north and south, is supplied with electric current of both high and low potential, and is in all respects equipped both for instruction and research. The collection of apparatus has been gradually secured at a cost of over \$7,500. It includes: (1) Outfit for making and repairing apparatus, electric motors, etc. A skilled instrument-maker is continually employed, adding greatly to the efficiency of the laboratory. (2) The outfit of an anthropometric laboratory with which freshmen in the college and others are annually tested. (3) The apparatus, preparations, charts, etc., needed for complete courses in experimental, physiological, and genetic psychology; and (4) the apparatus that has been used or is being used in special researches, a large part of which has been made especially for the laboratory. The outfit for the courses of instruction is now in large measure secured, and the annual appropriations can be used chiefly for apparatus needed in special researches.

Photography and Photomicrography

(See page 158.)

Physical Education

THOMAS DENISON WOOD, M.D.....	<i>Professor</i>
GEORGE L. MEYLAN, A.M., M.D.....	<i>Adjunct Professor and Medical Director of the University Gymnasium</i>
WILLIAM SKARSTROM, M.D.....	<i>Instructor</i>
JOHN A. DAVIS.....	<i>Assistant</i>
DUDLEY BILLINGS REED, A.B.	<i>Assistant</i>
JOHN SLACK KEITH, A.B.....	<i>Assistant</i>

The instruction in the Department of Physical Education includes the general courses in hygiene now offered and to be announced later in Columbia, Barnard, and Teachers Colleges, the instruction in physical training given in the various gymnasiums, and the courses offered in the professional course for the training of teachers of Physical Education in Teachers College.

Courses

Hygiene a—Lectures, demonstrations, and practical work. 2 hours. Professor MEYLAN

There are also eleven courses given under the auspices of Teachers College: Physical Education 1, 2, 3, 10, 11, 12, 13, 14, 15, Education 49 and 150.

For detailed information regarding these courses, see the Announcement of Teachers College and the Announcement of the Division of Physical Education.

Equipment

For description of the University gymnasium see pages 59–60.

The Frederick Ferris Thompson Memorial Building, given to Teachers College by Mrs. F. F. Thompson has been recently completed. It is a building of four stories devoted to the purposes of Physical Education and School Hygiene. It contains offices, examination rooms, lecture- and class-rooms, laboratories, hand-ball courts, bowling alleys, a swimming pool, four gymnasiums, rooms for corrective exercises, dressing-rooms, shower baths, fencing-room, and a suite of rooms for photographic purposes. This building provides physical-training facilities for the women, the pupils of the Horace Mann School, and the varied equipment for the theoretical and practical instruction of professional students in Physical Education.

¹ Absent on leave

Physics

WILLIAM HALLOCK, Ph.D.....	Professor
¹ ERNEST FOX NICHOLS, D.Sc.....	Professor of Experimental Physics
HERSCHEL C. PARKER, Ph.B.....	Adjunct Professor
MARGARET E. MALTBY, Ph.D....	Adjunct Professor (Barnard College)
CHARLES C. TROWBRIDGE, M.S.....	Instructor
FRANK L. TUFTS, Ph.D.....	Instructor
GEORGE BRAXON PEGRAM, Ph.D.....	Tutor
BERGEN DAVIS, Ph.D.....	Tutor
HARRIET BROOKS, A.M.....	Tutor (Barnard College)
WILLIAM SCOFIELD DAY, Ph.D.....	Lecturer
CHARLES FORBES, B.S., M.D.....	Curator
LINVILLE L. HENDREN, A.M.....	Assistant
CLAUDE RUSSELL FOUNTAIN, A.B.....	Assistant
ALLEN H. NELSON, A.B.....	Assistant
EDWIN B. WHEELER, B.S.....	Assistant
WALTER A. MITCHELL, A.B.....	Assistant

Courses

Courses 1, 2, 4, 31, 41, and 48 are open to properly qualified students in the College.

Course 1 is required of all students in Applied Science; 3a, of all except in Chemistry; 43, of students in Electrical Engineering.

Courses 2, 3a, 4, 41, and 43 to 50 may be counted toward the degrees of A.M. and Ph.D., 3 hours of lectures per week for a year, or their equivalent, being required for a minor or half-major for the A.M., and twice that amount for the corresponding credit for the Ph.D.

Courses equivalent to 1, 2, and 4 are given at Barnard College by Professor MALTBY and Miss BROOKS

31—General elementary physics. For students in medicine and those commencing the study of physics. 3 hours lectures and 3 hours laboratory work for a half-year, given twice annually. Mr. TROWBRIDGE

1—General physics—Mechanics, properties of matter, sound and heat, first half-year. Light and electricity, second half-year. 2 hours, lectures, 1 hour recitation. Dr. TUFTS, Dr. DAY, Dr. PEGRAM, and Dr. DAVIS

2—Magnetism and electricity, first half-year. Dr. TUFTS. Sound, second half-year. Dr. PEGRAM. 2 hours lectures and 2-6 hours laboratory work.

3a—Physical laboratory work—Exact experimentation and measurement in the laboratories. 2 to 6 hours. Professor PARKER

¹ Absent on leave

4—Light (first half-year). Professor HALLOCK. Heat (second half-year). Dr. DAY. 3 hours lectures, 2 to 4 hours laboratory work.

5—The design and construction of apparatus. 1 hour, first half-year. Professor HALLOCK

41—Fundamental phenomena of theoretical physics. 1 hour. Dr. TUFTS

43—Critical discussion of methods of measurement and computation according to the C. G. S. System. Electricity and magnetism, first half-year. Professor PARKER. Sound, light, and heat, second half-year. Dr. PEGRAM. 2 hours lectures.

44—Light, advanced course, given in the second half-year, following the first half of Course 4. 3 hours lectures. Professor HALLOCK

45—Heat, advanced course, given in the first half-year, and presupposes the second half of Course 4. 3 hours lectures. Dr. DAY

46—Electricity, advanced course, given in the second half-year to follow the first half of Course 2. 2 hours lectures. Dr. TUFTS

47—Sound, advanced course, given in the first half-year and presupposes the second half of Course 2. 2 hours lectures. Dr. PEGRAM

48—Courses in advanced laboratory work upon the various subjects of physics are arranged for properly qualified students. They will include collateral reading, and are intended to lead the way to original research.

An examination is required on general theory in connection with this course.

49—Original research under the direction of the professors is open to properly qualified persons.

[50—Course on the general subject of radiation. 2 hours. Professor NICHOLS

Not given in 1904-05]

52—Discharge of electricity through gases. 2 hours, first half-year. Dr. DAVIS

53—Phenomena of radioactivity. 2 hours, second half-year. Dr. PEGRAM

Pre-requisite: Course 52

Journal Club—The Journal Club of the department meets every week for the discussion of the current literature of physics and of reports of special investigations. Dr. TUFTS in charge.

For details regarding the courses in Physics offered in the Summer Session, see the Announcements of the Session, published in February of each year.

Equipment

The laboratories and lecture rooms of the Department of Physics occupy four floors of Fayerweather Hall on the eastern side of the University grounds. The building is supplied with all ordinary conveniences, including compressed air, steam, electricity for power and light, direct and alternating current. There is a vertical shaft 95 feet high, with gas, electric, and water outlets every ten feet. In the sub-basement a constant-temperature room is placed twelve feet below the surface of the ground. There are two lecture rooms, a library, an apparatus room, a shop, and a small laboratory on the first floor, while the remaining three floors devoted to the department are occupied by laboratories of different kinds.

The general laboratories are provided with all the usual apparatus for undergraduate work in mechanics, sound, heat, light, electricity, and magnetism.

The laboratories used for research have been named by the Trustees the "Phoenix Physical Laboratories," in memory of Mr. Stephen Whitney Phoenix, who bequeathed to the University a generous sum as an endowment for research in the physical sciences. On account of this endowment unusual facilities are offered for advanced work and research in physics. Among the principal additions to the equipment of these laboratories since 1903 may be mentioned the following: pulsometer and mercury air-pumps; a 60-cell large capacity storage battery with a complete switch-board and wiring system; two du-Bois-Rubens armored galvanometers; a 10-inch induction coil; a Wolff precision potentiometer and a Wheatstone bridge, both standardized at the Reichsanstalt; a set of high potential, direct-current dynamos, giving 6000 volts; a large electromagnet for special researches; a Michelson interferometer; a 21-foot concave grating spectroscope; a reflecting spectrometer and a torsion radiometer for work in radiation.

Arrangements have been made by which it is possible to carry on certain investigations at the Botanical Garden, in Bronx Park, free from the magnetic and other disturbances of the city.

The department has a shop equipped with wood, metal, and glass-working machinery, and employs a skilled mechanician.

The Physical Laboratories at Barnard College occupy the second floor of Fiske Hall. They are supplied with the usual conveniences and well equipped with suitable apparatus for quantitative experimental work in all the courses offered. Through the generosity of Mrs. Collord, the department has recently acquired a very complete equipment in sound apparatus suitable for illustrating the theory of the production of tone in musical instruments, and for analyzing musical sounds.

The laboratories and lecture room of Teachers College are well equipped for illustrating the teaching of physics in secondary and nor-

mal schools. In these the physics classes of the Horace Mann School receive their instruction, and by observation and practical work in connection with the classes the students in Education 92 are enabled to become familiar with the duties of a teacher of physics.

Physiological Chemistry

(Including General Chemistry, Physiological Chemistry, Toxicological Chemistry, and Botanical Chemistry)

WILLIAM J. GIES, M.S., Ph.D.....	Adjunct Professor
EDWARD R. POSNER, M.D.....	Tutor
GUSTAVE M. MEYER, Ph.D.....	Assistant
WILLIAM N. BERG, B.S.....	Assistant
WILLIAM H. WELKER, A.C.....	Assistant

Preliminary Statement

Detailed reference to the scope of the courses offered in this department may be found in the Announcements of the College of Physicians and Surgeons and of the Divisions of Biology and Chemistry.

Course 1 is required, in the first year, of candidates for the degree of M.D. It is open as an elective to qualified seniors in Columbia College.

Course 2 is required, in the second year, of candidates for the degree of M.D. It is open (1) to qualified first-year students of medicine; (2) also, as an elective, to qualified seniors in Columbia College.

Courses 2, 3, 4, 5, and 6 are offered as partial majors or minors for the degree of A.M. or Ph.D.

Candidates for the degree of A.M. or Ph.D. in this department are required to take Course 2 or its equivalent.

In addition to the courses announced below, this department co-operates with the Department of Physiology in giving Course 4 in physiology. (See page 175.)

Courses in General Chemistry

1—General chemistry. First half-year. Lectures, 2 hours. Professor GIES. Recitations, 2 hours, each section (2). Professor GIES. Laboratory exercises (3) and demonstrations, 6 hours, each section (4). Professor GIES and Messrs. BERG and WELKER

1a—Inorganic chemistry. First quarter-year.

1b—Organic chemistry. Second quarter-year.

1c—Physical chemistry. Recitations and demonstrations at intervals throughout the first half-year.

Courses in Physiological Chemistry

2—General physiological chemistry. Second half-year. Lecture, 1 hour. Professor GIES. Recitation, 1 hour, each section (2). Dr.

POSNER. Laboratory exercises (2) and demonstrations, 6 hours, each section (2). Professor GIES and Drs. POSNER and MEYER

3—Laboratory course in quantitative physiological chemistry, with special reference to clinical methods. Entire year. 6 hours. Professor GIES and Dr. MEYER

4—Laboratory course in advanced physiological chemistry. Research. Entire year. 12 hours. Professor GIES

Course in Toxicological Chemistry

5—Laboratory course in toxicological chemistry. Entire year. 6 hours. Professor GIES and Dr. POSNER

Course in Botanical Chemistry

6—Laboratory course in the chemical physiology of plants. Entire year. 6 hours. Professor GIES. [The course may be taken in whole or in part at the New York Botanical Garden, where Professor GIES is consulting chemist.]

Biochemical Seminar

The members of the teaching staff and all other investigators in the department meet weekly to study and discuss recent researches in chemical biology. The Seminar is open to all students in the University. Entire year. 2 hours. Professor GIES in charge.

Research

The laboratory is open to advanced workers for research.

Library

The private library owned by Professor Gies is housed in the laboratory and is available at all times to all students in the University.

Equipment

The Department of Physiological Chemistry possesses six well-equipped rooms for experimental work. Two of these are relatively large and will each accommodate about seventy workers at a time. Four smaller rooms are specially fitted up for original investigations by advanced students. The department is well equipped with all necessary apparatus for routine and research work in biological chemistry.

Physiology

JOHN GREEN CURTIS, M.D., LL.D.....	<i>Professor</i>
FREDERIC SCHILLER LEE, Ph.D.....	<i>Professor</i>
RUSSELL BURTON-OPITZ, S.M., M.D.....	<i>Adjunct Professor</i>
HAVEN EMERSON, A.M., M.D.....	<i>Demonstrator</i>
RICHARD HOOP CUNNINGHAM, M.D.....	<i>Instructor</i>
LEANDER HOWARD SHEARER, M.D.....	<i>Assistant Demonstrator</i>
ARTHUR WALKER BINGHAM, M.D.....	<i>Assistant Demonstrator</i>
HARRY MAYHAM KEATOR, M.D.....	<i>Assistant Demonstrator</i>

A more detailed statement of the work and equipment of this department may be found in the Announcements of the College of Physicians and Surgeons and of the Division of Biology.

Preliminary Statement

Course 6 is open to juniors and seniors in Columbia College. No other course is open to undergraduates except in so far as Course 3 is required of seniors who are taking their first year in medicine.

A knowledge of general biology, such as is offered in the Department of Zoölogy, Course 2, or of elementary physiology, such as Course 6 or its equivalent, or of the first year's work in medicine, is a pre-requisite to the undertaking of work in physiology by a candidate for the degree of A.M. or of Ph.D.

Candidates for the degree of A.M. may take (a) Courses 1 and 2, or (b) in the first half-year, either Courses 3 and 4, or Course 4 with a sufficient amount of prescribed reading, and, in the second half-year, Physiological Chemistry, Course 1.

Candidates for the degree of Ph.D. are expected to take during their first year Courses 1 and 2, and during their second year, in the first half-year Course 4, with Course 3 or with a sufficient amount of prescribed reading, and in the second half-year Physiological Chemistry, Course 1.

Candidates for the degree of M.D. are required to take Course 3 during the second half of their first year and the first half of their second year.

None of the courses in this department is open to women.

Courses

6—Elementary physiology. Given with the co-operation of the Department of Physiological Chemistry. 1 hour lecture, and 2 hours laboratory work. 516S. Professors BURTON-OPITZ and GIES

1—General physiology. Lectures, 1 hour. Professor LEE

2—Laboratory course in general physiology. 5 hours. Professor BURTON-OPITZ

3—The physiology of man as related to that of other mammals and of lower vertebrates. Lectures and demonstrations, 4 hours. Recitations, 1 hour. Laboratory work, 3 hours. Professors CURTIS and BURTON-OPITZ, Drs. EMERSON, SHEARER, BINGHAM, and KEATOR

4—Laboratory course in special physiology. 3 hours. Professor CURTIS or Professor BURTON-OPITZ

5—Electro-physiology. Hours and work to be arranged with the Instructor, Dr. CUNNINGHAM

Research

The laboratory is open for research, under the direction of its officers, to advanced workers.

Equipment

The Department of Physiology possesses:

I—At the College of Physicians and Surgeons:

- (1) A laboratory for research and the preparing of demonstrations.
- (2) A small laboratory for histological research with special reference to physiological problems.
- (3) Two rooms for optical or psychological work or for photography.
- (4) Two private laboratories for professors of the department.
- (5) Two laboratories for practical instruction.
- (6) A room for recitations and for lectures and demonstrations to limited classes.
- (7) Easy access to a large lecture-room specially fitted for experimental teaching.
- (8) The Swift Physiological Cabinet, for the accommodation of a specially endowed and very full collection of apparatus of precision, mainly for research.

II—In Schermerhorn Hall:

- (1) The use of a laboratory equipped for the instruction of undergraduates.

The physiological journals are accessible to the students of the department; also the most important monographs and other books, both modern and ancient.

A skilled mechanic is employed to devote his entire working time to the care and improvement of the plant, including the making, altering, and repairing of special apparatus. He also assists in the scientific manipulations.

Political Economy and Finance

Practice of Medicine

WALTER B. JAMES, M.D., LL.D.	<i>Bard Professor of the Practice of Medicine</i>
FRANCIS P. KINNICUTT, M.D.	<i>Professor of Clinical Medicine</i>
JOHN SEYMOUR THACHER, M.D.	<i>Professor of Clinical Medicine</i>
A. BRAYTON BALL, M.D.	<i>Professor of Clinical Medicine</i>
GEORGE ROE LOCKWOOD, M.D.	<i>Instructor in Medical Diagnosis</i>
WILLIAM K. DRAPER, M.D.	<i>Instructor in Medical Diagnosis</i>
VAN HORNE NORRIE, M.D.	<i>Instructor in Physical Diagnosis</i>
FRANK W. JACKSON, M.D.	<i>Instructor in Medical Diagnosis</i>
GEORGE MONTAGUE SWIFT, M.D.	<i>Instructor in Medicine</i>
ALBERT E. SUMNER, M.D.	<i>Chief of Clinic and Instructor in Physical Diagnosis</i>
ARTHUR M. SHRADY, M.D.	<i>Instructor in Physical Diagnosis</i>
JAMES A. MILLER, M.D.	<i>Instructor in Physical Diagnosis</i>
T. STUART HART, M.D.	<i>Instructor in Physical Diagnosis</i>
HENRY WOOLFE BERG, M.D.	<i>Instructor in Infectious Diseases</i>
DAVID BOVAIRD, Jr., M.D.	<i>Tutor in Medicine</i>
NATHANIEL B. POTTER, M.D.	<i>Tutor in Medicine</i>
FRED P. SOLLEY, M.D.	<i>Tutor in Medicine</i>
EDMUND L. DOW, M.D.	<i>Clinical Assistant and Tutor in Medicine</i>
EVAN EVANS, M.D.	<i>Tutor in Medicine</i>

Clinical Assistants

CHARLES S. FISCHER, M.D.	ROLFE FLOYD, M.D.
D. S. D. JESSUP, M.D.	LEANDER H. SHEARER, M.D.
HUGHES DAYTON, M.D.	LINSLEY R. WILLIAMS, M.D.
LEWIS F. FRISSELL, M.D.	ISAAC N. WILZIN, M.D.
JAY WILLIAM DOUNCE, M.D.	

FRANCIS DELAFIELD, M.D., LL.D. . . . *Emeritus Professor of the Practice of Medicine*

Courses

Courses 8 and 9 are required in the second year, Courses 1, 2, 4, 7, and 10 in the third year, Courses 1, 2, 3, 5, 6, and 10 in the fourth year, of candidates for the degree of M.D.

Attendance at the hospital clinics (Course 11) is optional in the third and fourth year.

1—The practice of medicine. Didactic lectures. 1 hour a week throughout the academic year. Professor JAMES

2—Clinical lectures on general medicine at the Vanderbilt Clinic. 2 hours a week throughout the academic year. Professors DELAFIELD and JAMES

3—Bedside instruction. In the wards of Roosevelt and Presbyterian Hospitals in sections. 6 hours a week for four weeks. Professor JAMES

4—Physical diagnosis. Practical instruction in the Vanderbilt Clinic, Roosevelt and Bellevue Hospitals. 24 lessons for each student. Drs. NORRIE, SHRADY, MILLER, and HART

5—Hospital general diagnosis. 20 lessons, 2 hours each, for each student, in the wards of Bellevue Hospital. Drs. JACKSON, LOCKWOOD, and DRAPER

6—Practical instruction in infectious diseases in the wards of the Willard Parker and Riverside Hospitals. Dr. BERG

7—Recitations in general medicine. In sections, 2 hours a week throughout the academic year. Drs. BOVAIRD, EVANS, POTTER, and SOLLEY

8—Recitations in general medicine. In sections. 1 hour a week throughout the academic year. Dr. DOW

9—Lectures and demonstrations on physical diagnosis. 1 hour a week throughout half the academic year. Dr. SUMNER

10—Clinical lectures on general medicine—Roosevelt Hospital. Professor JAMES

M. at 4 P.M. throughout the academic year.

11—Hospital clinics in general medicine—New York Hospital. Professor BALL. (See Pharmacology and Therapeutics.)

S. at 10.30 A.M. from November through April.

Presbyterian Hospital. Professors KINNICUTT and THACHER

Tu. at 4 P.M. and S. at 3 P.M.

Romance Languages and Literatures

ADOLPHE COHN, LL.B., A.M.....	Professor
HENRY ALFRED TODD, Ph.D.....	Professor of Romance Philology
CARLO LEONARDO SPERANZA, LL.B., A.M.....	Professor of Italian
BENJAMIN DURYEA WOODWARD, Ph.D.....	Professor
¹ LOUIS AUGUSTE LOISEAUX, S.B.....	Adjunct Professor
DANIEL JORDAN, S.B., Pd.B.....	Instructor
HENRY BARGY, A.M.....	Tutor
JOHN DRISCOLL FITZ-GERALD, A.B.....	Tutor
RICHARD T. HOLBROOK, Ph.D.....	Tutor
HENRI FRANÇOIS MULLER, A.B.....	Tutor
¹ CURTIS HIDDEN PAGE, Ph.D.....	Lecturer
FREDERICK CURRY OSTRANDER, A.B.....	Lecturer
ANTONIO MARINONI.....	Lecturer

The Department of Romance Languages and Literatures has charge of all the courses of instruction and research throughout the University dealing with the various languages that trace their origin to the speech of ancient Rome. To the chief of these languages, the French, Italian, and Spanish, a foremost place is naturally assigned in the work of the department; but special attention is also given, in the more advanced courses, to the remaining members of the family, such as Old and Modern Provençal, Catalan, Portuguese, Rhæto-Romance, and Rumanian, several of which are possessed of noteworthy literary and philological interest.

The department offers: (1) to students in Columbia College, practical instruction in French, Italian, and Spanish, courses in French, Italian, and Spanish literature, and introductory instruction in Romance philology; (2) to students in the School of Philosophy, advanced instruction in literature and in Romance philology, courses in the languages unprovided for in Columbia College, and also instruction of a pedagogical character; (3) to university students at large, and also to auditors, an opportunity to follow special courses; while advanced students in particular may receive the preparation necessary to meet the requirements in French made of every candidate for the degree of Ph.D. One of the aims of the department is to offer at least one course in each of the languages of the Romance group. Although no course in philology proper is offered to members of the lower classes in the College, it may be stated that from the outset care is taken to suggest the significance of the historical development of the language taught, so as to furnish a solid foundation for grammatical knowledge, and to awaken in some portion of the students a taste for philological research.

The courses at present offered are grouped under the following headings: French, Italian, Spanish, Romance Philology.

French **A** is prescribed for freshmen not offering French for entrance. **1** is open to freshmen and sophomores having had **A** or an equivalent. **2** is open to students, not seniors, having had **B** or **1**, or an equivalent, and is pre-requisite to **3**, **4**, **12**. **D** and **E** cannot be counted for a degree.

¹ Absent on leave.

Italian 1 and Spanish 1 are open to all students, not seniors, having had the equivalent of the elementary entrance requirement in French and German, but they may not both be taken at the same time. Each is pre-requisite to Courses 2 and 3 in the same language.

The following courses will not be given in 1904-05, but will be given in 1905-06 (except Italian 3 and Romance Philology 2, not given until 1906-07): French 5, 8, 10, 15, 16, Italian 2, 3, Spanish 3, Romance Philology 2, 4, 10, 15, 16.

Courses 9 and 10, under French, are given by Professor BRANDER MATTHEWS of the Department of English.

For fuller information as to the scope of each course in the department, the work pre-requisite to it, and the credit to be given toward the several degrees for it, see the Announcement of the Division of Modern Languages, which may be obtained, without charge, from the Secretary of the University.

Courses in French

(a) Designed specially for Undergraduates

*A—Elementary course. 3 hours. Columbia College Mr. JORDAN, Dr. HOLBROOK, and Mr. OSTRANDER; Barnard College, Professor WOODWARD, Dr. HOLBROOK, and Mr. MULLER. † Mr. OSTRANDER

*1—Grammar, reading, composition. 3 hours. Columbia College Mr. JORDAN, and Mr. MULLER; Barnard College, Professor WOODWARD and Mr. OSTRANDER. † Mr. FITZ-GERALD

*2—General introduction to the study of French literature; composition. 3 or 4 hours. Columbia College, Mr. JORDAN and Mr. MULLER; Barnard College, Professor WOODWARD and Dr. HOLBROOK

Open as a three-hour course to students, not seniors, who have taken Course 1, or its equivalent, and to freshmen who have passed the advanced entrance examination in French; as a four-hour course to freshmen who have passed the intermediate entrance examination in French.

*3—Historical French—Practice in reading, writing, and speaking French. 3 hours. Columbia College, Mr. MULLER; Barnard College, Mr. JORDAN

*4—History of French literature in the seventeenth century. 3 hours. Columbia College, Professor COHN; Barnard College, Professor WOODWARD and Mr. BARGY

12—French idioms historically considered. 2 hours. Professor TODD

D—French conversation—Elementary course. Mr. MULLER

E—French conversation—Advanced course. Mr. BARGY

The following courses, with the exception of Course C, are open only to students who have taken at least Course 4, or who can offer a satisfactory equivalent for the work therein described.

* Starred courses are given both in Columbia College and in Barnard College.

† In Teachers College.

(b) *Designed for Seniors and Graduates*

[5—History of French literature in the eighteenth century, especially Voltaire. 3 hours. Professor COHN]

6—History of French literature in the eighteenth century, especially Montesquieu, Rousseau, and the Encyclopedists. 3 hours. Mr. BARGY

†5—History of French literature in the eighteenth century. 3 hours. Mr. BARGY

*7—History of the French literary movement in the first half of the nineteenth century. 2 hours. Columbia College, Mr. MARINONI; Barnard College, Mr. BARGY

[*8—History of the literary movement in France in the second half of the nineteenth century. 2 hours. Columbia College, Dr. PAGE; Barnard College, Mr. BARGY]

11—History of literary criticism in France, especially Sainte-Beuve and Brunetière. 2 hours. Mr. BARGY

[15—French literature in the sixteenth century, with special attention to Montaigne. 2 hours. Mr. BARGY]

13—Old French. Reading of selected extracts. 2 hours. First half-year only. Professor TODD

14—Old French. Reading of complete texts. 2 hours. Second half-year only. Professor TODD

(c) *Designed specially for Graduate Students*

C—Elementary course for university students. 3 hours, first half-year. 2 hours, second half-year. Mr. MULLER

9—The French dramatists of the nineteenth century. 2 hours. First half-year. Professor BRANDER MATTHEWS

Identical with first half of English 41.

[10—Molière and modern comedy. 2 hours. Professor BRANDER MATTHEWS]

Identical with English 42.

[16—Critical bibliography of French literature from the sixteenth to the nineteenth century. 2 hours. Professor COHN]

17—Methods of teaching French. 2 hours. Professor COHN

Seminar—Special topics in Romance literature. The Drama of Voltaire. 2 hours. Professor COHN

N.B.—For other advanced courses in French language and literature, see under Romance Philology.

* Starred courses are given both in Columbia College and in Barnard College.

† Given only in Barnard College.

Courses in Italian

(a) *Designed specially for Undergraduates*

*1—Elementary course—Grammar, reading, composition. 3 hours. Columbia College, Mr. MARINONI; Barnard College, Professor SPERANZA

(b) *Designed for Undergraduates and Graduates*

[*2—Italian literature of the fourteenth and fifteenth centuries. Composition. 3 hours. Professor SPERANZA]

[*3—Italian literature from 1700 to 1790. Composition. 3 hours. Professor SPERANZA]

4—Modern Italian literature—Composition. 3 hours. Professor SPERANZA

5—Critical study of Dante's *Divina Commedia*. 2 hours. Professor SPERANZA

6—Outline history of Italian literature—Lectures and private reading. 1 hour. Professor SPERANZA

N.B.—For other advanced courses in Italian language and philology, see under Romance Philology.

Courses in Spanish

(a) *Designed specially for Undergraduates*

*1—Elementary course—Grammar, reading, composition. 3 hours. Columbia College, Mr. FITZ-GERALD; Barnard College, Mr. OSTRANDER

(b) *Designed for Undergraduates and Graduates*

2—General introduction to Spanish literature. Composition. 3 hours. Columbia College, Mr. FITZ-GERALD; Barnard College, Mr. OSTRANDER

[3—The novela of the golden age. 3 hours. Professor LOISEAUX]

4—The Spanish classical drama. Mr. FITZ-GERALD

(c) *Designed specially for Graduate Students*

5—History of Spanish literature—Lectures and private reading. 1 hour. Mr. FITZ-GERALD

N.B.—For other advanced courses in Spanish language and philology see under Romance Philology.

Courses in Romance Philology

(a) *Designed for Seniors and Graduates*

1—Introduction to Romance philology. 2 hours. Professor TODD

(b) *Designed specially for Graduate Students*

Courses 2, 3, and 4 are given in successive years.

* Starred courses are given both in Columbia College and in Barnard College.

[2—The oldest monuments of the French language. 1 hour. Professor TODD]

3—Old French dialects. 1 hour. Professor TODD

[4—The formative elements of Romance speech. 1 hour. Professor TODD]

6—French poetry of the fifteenth century. 1 hour. Dr. HOLBROOK

7—Breton lay and verse romances of the Arthurian cycle. Marie de France and Chrétien de Troyes. 1 hour. Dr. HOLBROOK

8—Old Provençal. 1 hour. Professor TODD

9—The origins of Spanish poetry. *El Poema del Cid*. 1 hour. Professor TODD

[10—The oldest monuments of the Spanish language. 1 hour. Mr. FITZ-GERALD]

11—Early Italian literature. 1 hour. Dr. HOLBROOK

12—Portuguese. 2 hours. Professor TODD

13—Rumanian. 2 hours. Professor COHN

14—The Origins of the Spanish novela. 1 hour. Mr. FITZ-GERALD

[15—The origins of the Spanish drama. 1 hour. Mr. FITZ-GERALD]

[16—Boccaccio: *The Decameron*. 1 hour. Dr. HOLBROOK]

Seminar—Contributions to a dictionary of Old-French locutions. 2 hours. Professor TODD

Public Lectures

Weekly lectures in French, and occasional lectures in Italian and Spanish, open to all members of the University, are given by the members of the department and by distinguished European lecturers.

The Romance Club

The Romance Club consists of all the instructors and advanced students in the department. At its meetings, which take place on the 2d and 4th Tuesdays of every month, in Room 300, West Hall, an account is given of the most important articles on the Romance languages and literatures in the recent French, English, German, Italian, and Spanish periodicals; new books are discussed, letters from absent instructors and former students in the department are read, etc. The meetings are partly of a social character, and are intended to bring instructors and students into closer personal relations.

Equipment

The Library of Columbia University is well supplied with French, Spanish, and Italian works, as well as with works upon Romance philology. Its list of periodicals of interest for students in the department is especially rich. The Library has also complete sets of the

most important series and collections, such as the Altfranzösische Bibliothek, Romanische Bibliothek, publications of the Modern Language Association, publications of the Société des anciens Textes français, Histoire littéraire de la France, Ausgaben und Abhandlungen aus dem Gebiete der romanischen Philologie, Jahrbuch für romanische und englische Sprachen, etc.

French Societies

Two societies have been organized for the purpose of fostering the use of the French language among the members of the University, viz., the *Société Française de l'Université Columbia*, which admits only men and the *Société Française de Barnard College*, which admits only women. They give performances of French plays. The following plays have been presented in recent years: Scribe and Legouvé, *Bataille de Dames*; Jules Moinaux, *Les deux Sourds*; Meilhac and Halévy, *L'Eté de la Saint-Martin*; Tristan Bernard, *L'Anglais tel qu'on le parle*; Eugène Labiche, *Les Vivacités du Capitaine Tic*, etc.

Surgery

JOSEPH A. BLAKE, M.D.....	Professor
GEORGE E. BREWER, M.D.....	Professor of Clinical Surgery
ROBERT F. WEIR, M.D.....	Professor of Clinical Surgery
CHARLES MCBURNEY, M.D.....	Professor of Clinical Surgery
ANDREW J. MCCOSH, M.D., LL.D.....	Clinical Lecturer
FRANK HARTLEY, M.D....	Professor of Clinical Surgery and Instructor in Operative Surgery
FRANCIS H. MARKOE, M.D.....	Professor of Clinical Surgery
CHARLES T. POORE, M.D.....	Clinical Lecturer
ROBERT ABBE, M.D.....	Clinical Lecturer
LUCIUS W. HOTCHKISS, M.D.....	Clinical Lecturer and Instructor

CARLETON P. FLINT, M.D.....	Instructor
FORBES HAWKES, M.D.....	Instructor
CLARENCE A. MCWILLIAMS, M.D.....	Instructor
CHARLES H. PECK, M.D.....	Instructor
PERCY R. TURNURE, M.D.....	Chief of Clinic and Instructor
EUGENE POOL, M.D.....	Instructor
ADRIAN V. S. LAMBERT, M.D.....	Instructor
WARREN S. BICKHAM, M.D....	Assistant Instructor in Operative Surgery
ALFRED S. TAYLOR, M.D....	Assistant Instructor in Operative Surgery
JAMES C. AYER, M.D.	Assistant Instructor in Operative Surgery
A. EMIL SCHMITT, M.D.....	Assistant Instructor in Operative Surgery

Clinical Assistants

ROWLAND COX, Jr., M.D.

WILLIAM DARRACH, M.D.

JAMES H. KENYON, M.D.

HENRY H. M. LYLE, M.D.

A. C. PRENTICE, M.D.

JAMES I. RUSSELL, M.D.

WILLIAM T. BULL, M.D., *Emeritus Professor of Surgery***Courses**

Courses 2 and 10 are required, in both the third and fourth years, of candidates for the degree of M.D.; Courses 3 and 9 in the third year only, and Courses 1, 5, and 6 in the fourth year. Course 8 is required in the latter half of the second year. Course 4 is optional in the fourth year. For Courses in Genito-Urinary Diseases see under Clinical Instruction, page 89.

Attendance at the hospital clinics of Professors BLAKE, WEIR, and BREWER is required; at other clinics attendance is optional.

1—Surgical pathology, general and regional surgery—Didactic lectures. 2 hours a week. Professor BLAKE

2—Clinics in general surgery at the Vanderbilt Clinic. 2 hours, M. and Th. at 12. Professors BLAKE and BREWER

3—Minor surgery and bandaging—Practical instruction at the Vanderbilt Clinic, and the out-patient department, Roosevelt Hospital, 24 lessons for each student. Drs. TURNURE and FLINT

4—Operative surgery upon the cadaver—Practical instruction to sections of the class. Each student performs for himself upon the cadaver the principal operations, including the ligation of arteries, amputations, resections, and the removal of parts. Special attention is paid to operation upon the abdominal viscera. 7 to 12 lessons for each student. Professor HARTLEY, Drs. BICKHAM, TAYLOR, SCHMITT, and AYER

5—Practical instruction in surgery to classes of 20 members each in the wards of Bellevue Hospital, the Syms Operating Theatre, Roosevelt Hospital, the wards of the Presbyterian Hospital, and the wards of the City Hospital, 20 lessons. Professor BREWER, Drs. GALLAUDET, HOTCHKISS, FLINT, HAWKES, MCWILLIAMS, PECK, and FOOTE

6—Practical instruction in the surgery of children at St. Mary's Free Hospital for Children, to classes of 20 members, once a week for two months for each student. Dr. DOWD

7—Practical instruction in the mechanical treatment of hernia at the Hospital for the Ruptured and Crippled, to sections of the class, second half of fourth year. Dr. COLEY

8—Lectures and recitations in surgical pathology. Two lectures and one recitation per week in latter half of the second year. Dr. COLEY

9—Recitations in general and regional surgery. Two recitations per week to sections of the class. Drs. POOL and LAMBERT

10—HOSPITAL CLINICS:

Roosevelt Hospital—Th. at 11.00 A.M., Professor BLAKE; S. at 3.15 P.M., Professors WEIR and BREWER; Tu. at 4.15 P.M., for sections. Professor BREWER

New York Hospital—S. at 11.15 A.M. from Oct. to Feb., Professor MARKOE; and 11.15 A.M., from Feb. to May, Professor HARTLEY

St. Luke's Hospital—Th. or F. at 2.30 P.M. Professor MARKOE and Dr. ABBE

Presbyterian Hospital—Tu. at 3.30 P.M. throughout the academic year. Dr. McCOSH

Hospital for the Ruptured and Crippled—Tu. and F., 8.30–9.30 A.M. Professors GIBNEY and BULL and Dr. COLEY. Tu., Th., and S., 1–3 P.M. Dr. WHITMAN

Zoölogy

EDMUND B. WILSON, Ph.D., LL.D.....	<i>Professor</i>
HENRY F. OSBORN, Sc.D., LL.D.....	<i>Da Costa Professor</i>
THOMAS H. MORGAN, Ph.D.....	<i>Professor of Experimental Zoölogy</i>
BASHFORD DEAN, Ph.D.....	<i>Professor of Vertebrate Zoölogy</i>
GARY N. CALKINS, Ph.D.....	<i>Professor of Invertebrate Zoölogy</i>
JAMES H. MCGREGOR, Ph.D.....	<i>Lecturer in Vertebrate Zoölogy</i>
HENRY E. CRAMPTON, Ph.D.....	<i>Professor in Barnard College</i>
WILLIAM E. KELLICOTT, Ph.D.....	<i>Tutor in Barnard College</i>
PAULINE H. DEDERER, A.B.....	<i>Assistant in Barnard College</i>

Detailed information regarding the purpose and scope of the courses and the equipment of the laboratories is given in the circular of information issued by the biological departments, for which application should be made to the Secretary of the University.

Course 2 is open to juniors and seniors in Columbia College, counting as four (shorter course) or six (longer course) points towards the degree of A.B.

Courses 3, 16, and 17 are open both to seniors in Columbia College and to graduates, and count towards the degree of A.B. as follows: Course 3, six points; Courses 16 and 17, two points each.

Courses 3 to 27 are open to graduates, and may all count towards the higher degrees with the exception of Courses 16 and 17. Course 3, however, may not be counted as part of the major work towards the Ph.D. degree, and may not be counted as graduate work if previously taken as an undergraduate course.

The following are the usual general requirements (given as a guide to students), subject to modification in special cases. A major course for the M.A. degree requires, in addition to the dissertation, the equivalent of two one-day courses for one year; for example, Course 5 (a

two-day course), Courses 8, 18, and 25 (one-day courses), or any one of these, with any two of Courses 6, 7, 9, 10, 19, 21-24, 26, 27 (one-day half-year courses). A minor is approximately one half the major.

A Ph.D. major requires, in addition to the dissertation, a minimum of two one-day courses for two years. A minor is in general equivalent to an M.A. major; but in the case of students who have not taken Course 3 as undergraduates, this course may constitute one half the requirement, the remaining half comprising any one of the full-year courses or any two of the half-year courses as above.

Courses 2 and 3 are given separately at Barnard College by Professor CRAMPTON and Dr. KELLICOTT; all other courses are open to women, excepting 16 and 17.

Undergraduate Courses

2—Elementary biology (zoölogy). The foundation of all the higher courses. Introductory to morphology and physiology, and to the general principles of biology. A year's course, divided into a shorter (2 lectures, 4 hours laboratory) and a longer (3 lectures, 6 hours laboratory) course, the latter including histology and embryology. Professors WILSON, DEAN, MORGAN and CALKINS, Dr. MCGREGOR

Intermediate Courses

Pre-requisite: Course 2 or an equivalent.

3—General zoölogy. General zoölogy, including embryology, of vertebrates and invertebrates; facts and principles of general morphology, classification, development, distribution, evolution, and ecology. An optional course in mammalian dissection may be taken by prospective medical students as part of this work. 3 lectures, 6 hours laboratory work, throughout the year. Professors DEAN and CALKINS, Dr. MCGREGOR

16—Practical histology. Comparative study of tissues and organs with especial reference to histological technique. Supplementary to Course 3, as additional preparation for courses in medicine or biology. 3 hours a week throughout the year.

17—Practical embryology. Comparative study of development, especially of vertebrates, with particular reference to embryological technique. Supplementary to Course 3 as additional preparation for courses in medicine and biology. 3 hours a week throughout the year. Under the direction of Professors WILSON and DEAN

University Courses

Pre-requisites : Courses 2 and 3 or an equivalent.

5—Comparative zoölogy. This course directly continues the work of Courses 2 and 3. Critical examination of the morphology and development of vertebrates and invertebrates, with especial reference

to problems of classification and phylogeny. 10 hours (2 days) a week throughout the year.

a. Zoölogy of invertebrates, first half-year. Professors WILSON and CALKINS

b. Zoölogy of vertebrates, second half-year. Professor OSBORN and Dr. MCGREGOR

Either half of this course may be taken separately.

6—Cellular embryology. A critical study of the general problems of embryology, with especial reference to the internal factors of development. 1 lecture a week, with reading, conferences, and specially arranged laboratory work, during the second half-year. Professor WILSON

7—Cellular biology. Structure and functions of the cell. Cytological technique. 1 day a week during the second half-year. Professor WILSON

8—Mammals, living and fossil. A study of the structure, evolution, and classification of the Mammalia. 6 hours (1 day) a week throughout the year. Professor OSBORN

The latter part of this course is given in the American Museum of Natural History.

9—Fishes, living and fossil. Morphology and phylogenetic relations of the sub-classes and orders of fishes. 1 lecture a week with reading and demonstrations during half a year. Professor DEAN

10—The Protozoa. Classification, morphology, and physiology of unicellular organisms in relation to modern theories of biology. 1 lecture and 2 hours laboratory a week during the second half-year. Professor CALKINS

11—Advanced biology. Individual study of special biological problems. Original investigation. The time varies in different cases.

15—Sanitary biology. A general study of the Protozoa and other microscopic forms in their relations to sanitary science. Biological examination of drinking waters. Methods and results. Selected readings. Lecture and laboratory work. 3 hours a week during the second half-year. Professor CALKINS

Designed for students in Civil Engineering, Sanitary Science, and Chemistry.

18—Comparative embryology. General facts and principles of animal development, with especial reference to comparative organogeny. 1 day a week throughout the year. Professors DEAN and CALKINS

19—The protochordates—Morphology and embryology of the protochordate groups and allied forms with special reference to the problems of vertebrate descent. Lectures and laboratory work. 1 day a week during the first half-year. Dr. MCGREGOR

20—The statistical study of variation (given in coöperation with the Department of Anthropology) — Lectures, essays, discussions, and laboratory work, on the characteristic features of variability and methods of treatment by modern statistical research. 2 lectures (Professor BOAS) and 2 hours laboratory work (Professor CRAMPTON). Elementary course (Anthropology 2) in the first half-year, and advanced course (Anthropology 8) in the second half-year.

21—Experimental and physiological morphology, with especial reference to the reactions of organisms to stimuli. 1 lecture a week, with readings and conferences, during the first half-year. Professor CRAMPTON

22—The Enterocœla—Morphology and embryology of the Proso-pygia and Echinoderma, with critical discussion of their relationship to other invertebrates and to the protochordates. 1 lecture and 5 hours laboratory work a week in the second half-year. Professor CRAMPTON

23—The sense-organs of invertebrates—Comparative morphology and physiology of the primitive organs of sense. 1 lecture a week with demonstration and readings, second half-year. Professor CALKINS

24—Experimental study of evolution (with especial reference to the statistical study of variation and inheritance). 1 lecture a week, with readings and conferences during the second half-year. Professor CRAMPTON

25—Experimental zoölogy. A general discussion of growth, reproduction and the transformation of species as affected by external conditions. 1 lecture a week, with readings, conferences, and the practical study of special problems, throughout the year. Professor MORGAN

26—Regeneration. A discussion of the special phenomena and general problems of the regenerative processes in plants and animals. 1 lecture a week, with the practical study of special problems, during the first half-year. Professor MORGAN

27—Experimental embryology (parallel with Course 6). A discussion of the general phenomena of development, with especial reference to the external factors. 1 lecture a week, during the second half-year. Professor MORGAN

JOURNAL CLUB—Reports and discussions of recent literature by members of the staff, graduate students, and others. 1 hour a week throughout the year. Under direction of the staff.

SEMINAR—Critical discussion of selected topics by members of the staff and graduate students. Subject and time are specially arranged.

UNIVERSITY BIOLOGICAL LECTURES—A course of lectures on general topics, given, as a rule, each year, by members of the staff and eminent specialists from other institutions. These lectures form the basis of the Columbia Biological Series, edited by Professors OSBORN and WILSON

Laboratories, Libraries, and Equipment

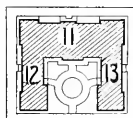

The zoological laboratories on the upper floor of Schermerhorn comprise a large general undergraduate laboratory, three graduate laboratories, and eight rooms for private research, besides special rooms for supplies, aquaria, and preparation. There are also a commodious lecture-room, a library, and a seminar room. The laboratories are well equipped with optical instruments, microtomes, and other apparatus for advanced work. The teaching collections include a series of the Mediterranean and American marine types, the injected vertebrate series of Fric and Muller, a set of standard and specially prepared charts and wax models, and a variety of living animals and plants contained in fresh-water and marine aquaria.

The departmental library, a part of the University library kept in the laboratory, the gift of Charles H. Senff, Esq., is a memorial to the late Dr. John I. Northrop. It embraces sets of the standard biological works and includes the journals and a rapidly increasing collection of special monographs. A fund is available for the purchase of literature needed in connection with the special researches of students. Forty-three of the current biological journals are subscribed for.

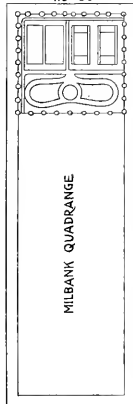

Important adjuncts to zoological work are offered by the American Museum of Natural History, the Bronx Zoological Garden, the New York Aquarium, and by the marine biological laboratories at Wood's Hole, Mass., and Cold Spring Harbor, L. I. The University has hitherto subscribed to one half of the university table at the Naples Zoological Station. An investigator's table is held at the Wood's Hole laboratory, and the John D. Jones scholarship is available at the Cold Spring Harbor laboratory.

DYCKMAN FUND—The interest of a fund of \$10,000, established by the late Isaac M. Dyckman, Esq., is available annually for the encouragement of biological research, and may be used for special grants to advanced students, investigators, or lecturers, or for purchases of books and apparatus.

GENERAL STATEMENT

There are no examinations for admission to the Schools of Law, Political Science, Philosophy, and Pure Science, or for admission to the graduate courses under the Faculties of Applied Science and Teachers College. For the requirements for admission to these departments, see the separate announcements of the Schools and Faculties concerned.

Examinations for admission to Columbia College, Barnard College Teachers College (Collegiate Course), the College of Physicians and Surgeons, and the Schools of Applied Science and Architecture are held twice each year, in June, on the date set by the College Entrance Examination Board, and in September on the Monday of the week preceding that during which the University opens. In 1905 they will begin on June 19 and September 18, respectively.

In June, 1905, the entrance examinations of Columbia University will be those of the College Entrance Examination Board of which Columbia University is a member. These examinations will be held June 19-24.

Candidates are admitted to the several colleges and schools of the University on the numerical ratings of the College Entrance Examination Board, which are accepted without change. A uniform passing mark is, however, determined by the action of the respective Committees on Admission.

In September, 1904, the entrance examinations of Columbia University will be conducted by the Columbia University Committee on Entrance Examinations and will be held only at the University. The College Entrance Examination Board at present holds no examinations in September.

As the requirements are subject to modification, candidates should obtain the special announcement of Entrance Examinations which will appear in February.

APPLICATION FOR EXAMINATION

Every candidate for examination is required to file an application for examination.

For the examinations in June, 1905, the application must be filed with the Secretary of the College Entrance Examination Board, Post-Office Sub-Station 84, New York, N. Y. Applications for examination in New England, in the Middle States, or in Maryland must be filed on or before June 5. Applications for examination elsewhere in the United States or in Canada must be filed on or before May 29. Applications for examination outside of the United States and Canada must be filed on or before May 15. Candidates filing their application later than the dates named do so at their own risk. Requests for blank forms of application should be addressed to the Secretary of the College Entrance Examination Board and should be accompanied by return postage.

For the examinations in September, 1905, candidates for admission to Columbia College, the College of Physicians and Surgeons, or the Schools of Applied Science and Architecture should send their applications by mail to the Registrar of Columbia University; candidates for admission to Barnard College should send their applications to the Registrar of Barnard College; and for Teachers College, to the Registrar of Teachers College. Applications must be filed on or before September 11. Requests for blank forms of application should be addressed to the Secretary of Columbia University.

EXAMINATION FEE

Every application for examination in June must be accompanied by a fee of \$5 in the form of a postal order, express order, or draft on New York, to the order of the *College Entrance Examination Board*, for all candidates examined at points in the United States and Canada, and \$15 for all candidates examined at points outside of the United States and Canada.

Every application for examination in September must be accompanied either by a fee of \$5 in the form of a postal order, express order, or draft on New York, to the order of *Columbia University*, by a receipt from the Bursar for an examination fee previously paid, or by the receipt issued by the Secretary of the College Entrance Examination Board for the June examinations of the same year.

If a late application is accepted either by the College Entrance Examination Board or by the University Committee on Entrance Examinations, a second fee of \$5 is charged to the candidate making such late application.

In every case a candidate who has paid the examination fee will be furnished with a receipt. This receipt should be carefully preserved. It must be presented by the candidate to the Supervisor in charge of the examinations which he attends as evidence that he is entitled to be admitted to the same. No candidate will be admitted to the Sep-

tember examinations upon the receipt of the College Entrance Examination Board, unless that receipt bears the certification of the Registrar of Columbia University, of Barnard College, or of Teachers College that the candidate's application has been filed.

DIVISION OF EXAMINATION

A candidate may take examinations in June (but not in September) of the year preceding that in which he proposes to enter the University. Such examinations are known as preliminary examinations. At his preliminary examinations a candidate may, with the approval of his principal instructor, offer any subject or lettered (or numbered) part of a subject (see Definitions of Requirements, page 194).

In the year in which he purposes to enter the University, a candidate may divide his examinations between June and September in whatever manner he may wish, and he may offer again in September any subject in which he may have failed at the June examinations.

The results of an entrance examination are allowed to stand to the credit of a candidate for sixteen months, but not longer.

PLACES OF EXAMINATION

In June, 1905, entrance examinations will be held at a large number of widely distributed points.

A list of the places at which the examinations are to be held will be published about March 1st, and may be obtained from the Secretary of the College Entrance Examination Board, Post-Office Sub-Station 84, New York City, N. Y. Requests that the examinations be held at particular points, to receive proper consideration, should be transmitted to the Secretary of the College Entrance Examination Board not later than February 1st.

In September, 1905, examinations for admission to Columbia University will be held only at the University.

EXAMINATION SUBJECTS

Columbia University recognizes the following examination subjects, which may be offered for admission to one or more of the colleges and schools included in the University, each subject counting for a specific number of points as indicated below:

English.....	3	Advanced Greek ¹	1
Elementary French.....	2	“ History ¹	1
“ German.....	2	“ Latin ¹	1
“ Greek.....	3	“ Mathematics.....	1
“ History.....	2	“ Physics ¹	1
“ Latin.....	4	Botany.....	1
“ Mathematics.....	3	Chemistry.....	1
“ Physics.....	1	Drawing.....	1
“ Spanish.....	2	Physiography.....	1
Intermediate French.....	1	Zoölogy ¹	1
“ German.....	1		

¹ Candidates will be examined in this subject only in September

The combinations of subjects which may be offered for admission to the several colleges and schools are indicated in this catalogue in the part devoted to each college or school, under the heading Admission.

TIME-SCHEME OF EXAMINATIONS

In both June and September, 1905, entrance examinations will be conducted at Columbia University. Examinations for men will be held in the Columbia University Gymnasium; and for women, in the Barnard College Theatre.

Candidates taking these examinations must report to the Supervisor, in the examination room, fifteen minutes in advance of the first examination which they are to attend.

A schedule of the hours at which examinations in the various subjects will be held may be obtained by addressing the Secretary of the University.

DEFINITIONS OF REQUIREMENTS¹

(Specimens of the question papers set by Columbia University may be obtained from the Registrar upon application. The question papers set by the College Entrance Examination Board are published in book form by Ginn & Company, Boston, Mass. The volumes for 1901, 1902, 1903, and 1904 are sold for sixty cents each.)

BOTANY² (counting one point)

The candidate should have received training by means of the laboratory method in:

The structure and the more obvious features of the life history of at least ten types among the higher seed plants chosen from the more representative families (*e. g.*, Gramineæ, Liliaceæ, Salicaceæ, Ranunculaceæ, Rosaceæ, Leguminosæ, Cruciferae, Solanaceæ, Labiatae, Compositæ). In addition to these, the following types are recommended among the remaining lower groups of plants: pine, *Selaginella*, a fern, a moss (*Polytrichum* or *Funaria*), a leafy hepatic, *Marchantia*, a mildew (*Microsphaera*), an agaric, *Vaucheria*, *Spirogyra*, and a protophyte (preferably *Sphaerella*).

Physiology. This work should cover the essential facts concerning irritability, photosynthesis, respiration, digestion, growth, and reproduction.

Ecology. The natural history of plants should receive considerable attention, and the behavior of plants toward environmental factors (especially light and moisture), dissemination, cross and

¹ The several subjects are stated in terms of units; the unit is a course of five periods weekly throughout an academic year of the preparatory school; the subjects are assigned units in accordance with the time required to prepare adequately upon them for college entrance.

² For a more detailed statement of the requirement in Botany the reader is referred to the definitions of the requirements published by the College Entrance Examination Board. Applications for the pamphlet containing these definitions should be addressed to the Secretary of the College Entrance Examination Board, Post-Office Sub-Station 84, New York, N. Y.

close pollination, and the more important structural and physiological characteristics of plant formations (hydrophytes, halophytes, mesophytes, and xerophytes) should be included.

As evidence of proper laboratory training and of satisfactory work, the note-book of the candidate should be submitted *at the time of the examination*. The note-book must bear the endorsement of the teacher, certifying that it is a true record of the candidate's work. Candidates desiring the return of their note-books should apply for them after the examination to the Secretary of the University. Note-books for the return of which no application is made will be preserved for one year only.

CHEMISTRY (counting one point)

The candidate's preparation in chemistry should include:

- a. The study of a standard text-book, to the end that the pupil may gain a comprehensive and connected view of the most important facts and laws of elementary chemistry.
- b. Instruction by lecture-table demonstrations, to be used mainly as a basis for questioning upon the general principles involved in the pupil's laboratory investigations.
- c. Individual laboratory work, comprising at least forty exercises.

The following outline includes only the indispensable things which must be studied in the class-room and laboratory. The material is, for the most part, common to all elementary text-books and laboratory manuals. The order of presentation will naturally be determined by each teacher for himself.

OUTLINE—The chief physical and chemical characteristics, the preparation, and the recognition of the following elements together with their principal compounds: *oxygen, hydrogen, carbon, nitrogen, chlorine, bromine, iodine, fluorine, sulphur*, phosphorus, silicon, potassium, *sodium*, calcium, magnesium, *zinc*, copper, mercury, silver, aluminum, *lead*, tin, *iron*, manganese, chromium.

More detailed study should be confined to the italicized *elements* (as such) and to a restricted list of compounds such as: water, hydrochloric acid, carbon-monoxide, carbon-dioxide, oxides of nitrogen, nitric acid, ammonia, sulphur-dioxide, sulphuric acid, hydrogen-sulphide, sodium-hydroxide, ammonium-hydroxide.

Attention should be given to the atmosphere (constitution and relation to animal and vegetable life), flames, acids, bases, salts, oxidation and reduction, crystallization, combining proportions by weight and volume, calculations founded on these and Boyle's and Charles's laws, symbols and nomenclature, atomic theory, atomic weights, valency (in a very elementary way), nascent state, natural grouping of the elements, solution (solvents and solubility of gases and solids and liquids, saturation), strength of acids and bases, conserva-

tion and dissipation of energy, chemical energy, electrolysis. Chemical terms should be clearly understood, and the pupil should be able to illustrate and apply the ideas they embody. The theoretical topics are not intended to form separate subjects of study, but to be taught only so far as is necessary for the correlation and explanation of the experimental facts.

A list of suitable laboratory experiments is contained in the definitions of the requirements published by the College Entrance Examination Board and may be obtained upon application to the Secretary of the Board, Post-Office Sub-Station 84, New York, N. Y.

LABORATORY NOTE-BOOK—Every candidate must present *at the time of his examination in chemistry* a note-book in which he has recorded the steps and the results of his laboratory experiments. A candidate who fails to present such a note-book cannot receive credit for the examination. Each note-book must contain an index of the experiments which it describes and must be endorsed by the instructor, the endorsement being written in ink on the inside of the cover. The endorsement must in effect be as follows:

I certify that this note-book is a true and original record of experiments actually performed by.....
in the chemical laboratory of.....School
during the year 19....
Instructor in Chemistry.

DRAWING (counting one point)

A candidate must be able to draw and sketch correctly and with proper shading and accuracy of proportion a simple geometrical figure or a group of geometrical solids, or a simple piece of machinery, showing a fair knowledge of the rules of perspective and light and shade as applied in freehand sketching. A candidate must also be able to reproduce from a flat copy with enlargement or reduction in size. For candidates for the School of Architecture, the object to be copied will usually be an ornament—an anthemion or acanthus leaf—or a design of iron scrollwork; for the other Schools of Applied Science, the subject will be chosen from machinery details or geometrical constructions.

A candidate who has had a fair amount of training in drawing and wishes to be excused from a formal examination in this subject may at the time of the entrance examinations submit drawings, especially systematic sets of drawings, executed at school. They should be accompanied by a certificate from his teacher to the effect that they are the candidate's own work. If they indicate a satisfactory proficiency, they will be accepted in lieu of the examination. Drawings thus submitted should be sent to the *Secretary of Columbia University* at least two weeks before the day on which the examinations begin.

ENGLISH (counting three points)

No applicant will be accepted in English whose work is notably defective in point of spelling, grammar, idiom, punctuation, or division into paragraphs.

- a. Reading and composition.—The candidate will be required to present evidence of a general knowledge of the subject-matter of the prescribed books, and to answer simple questions on the lives of their authors. The form of examination will usually be the writing of a paragraph or two on each of several topics, to be chosen by the candidate from a considerable number—perhaps ten or fifteen—set before him in the examination paper. The treatment of these topics is designed to show the candidate's power of clear and accurate expression, and will call for only a general knowledge of the substance of the books. In place of a part or the whole of this test, the candidate may present an exercise book,¹ properly certified by his instructor, containing compositions or other written work done in connection with the reading of the books.

The candidate is expected to read intelligently *all* the books prescribed. He should read them as he reads other books; he is not expected to know them minutely, but to have freshly in mind their most important parts. In preparation for this part of the requirement, it is important that the candidate shall have been instructed in the fundamental principles of rhetoric.

Candidates intending to take this part of the examination should read the books prescribed for the year in which they propose to submit themselves for examination in this subject.

The books prescribed for this part of the examination are as follows:

In 1905: Shakspere's Merchant of Venice and Julius Cæsar; The Sir Roger de Coverley Papers in the Spectator; Goldsmith's Vicar of Wakefield; Coleridge's Ancient Mariner; Scott's Ivanhoe; Carlyle's Essay on Burns; Tennyson's Princess; Lowell's Vision of Sir Launfal; George Eliot's Silas Marner.

In 1906, 1907, and 1908: Shakspere's Merchant of Venice and Macbeth; The Sir Roger de Coverley Papers in the Spectator; Irving's Life of Goldsmith; Coleridge's Ancient Mariner; Scott's Ivanhoe and The Lady of the Lake; Tennyson's Gareth and Lynette, Lancelot and Elaine, and The Passing of Arthur; Lowell's Vision of Sir Launfal; George Eliot's Silas Marner.

¹ Such exercise books should be prepared in accordance with a list of directions, to be obtained by addressing the Secretary of the University. *Exercise books should be sent to the Secretary of Columbia University not later than two weeks before the first day of the examinations.* Within ten days the teacher will be informed whether the candidate is, or is not, excused from examination on the books prescribed for reading. Exercise books will *not* be returned to the writers.

- b. Study and composition.—This part of the examination presupposes the thorough study of each of the works named below. The examination will be upon the subject-matter, the literary form, and the logical structure. The candidate may be required, in addition, to answer questions involving the essentials of English grammar, and questions on the leading facts in those periods of English literary history to which the prescribed works belong.

In connection with the reading and study of the required books, parallel or subsidiary reading should be encouraged, and a considerable amount of English poetry should be committed to memory. The essentials of English grammar should not be neglected in preparatory study.

The books prescribed for this part of the examination are as follows:

In 1905: Shakspeare's *Macbeth*; Milton's *Lycidas*, *Comus*, *L'Allegro*, and *Il Penseroso*; Burke's *Speech on Conciliation with America*; Macaulay's *Essays on Milton and Addison*.

In 1906, 1907, and 1908: Shakspeare's *Julius Cæsar*; Milton's *Lycidas*, *Comus*, *L'Allegro*, and *Il Penseroso*; Burke's *Speech on Conciliation with America*; Macaulay's *Essay on Addison and Life of Johnson*.

FRENCH

a. Elementary (counting two points)

THE AIM OF THE INSTRUCTION—At the end of the elementary course the pupil should be able to pronounce French accurately, to read at sight easy French prose, to put into French simple English sentences taken from the language of everyday life, or based upon a portion of the French text read, and to answer questions on the rudiments of the grammar, as defined below.

THE WORK TO BE DONE—During the first year the work should comprise: (1) careful drill in pronunciation; (2) the rudiments of grammar, including the inflection of the regular and the more common irregular verbs, the plural of nouns, the inflection of adjectives, participles, and pronouns; the use of personal pronouns, common adverbs, prepositions, and conjunctions; the order of words in the sentence, and the elementary rules of syntax; (3) abundant easy exercises, designed not only to fix in the memory the forms and principles of grammar, but also to cultivate readiness in the reproduction of natural forms of expression; (4) the reading of from 100 to 175 duodecimo pages of graduated texts, with constant practice in translating into French easy variations of the sentences read (the teacher giving the English), and in reproducing from memory sentences previously read; (5) writing French from dictation.

During the second year the work should comprise: (1) the reading of from 250 to 400 pages of easy modern prose in the form of stories,

plays, or historical or biographical sketches; (2) constant practice, as in the previous year, in translating into French easy variations upon the texts read; (3) frequent abstracts, sometimes oral and sometimes written, of portions of the text already read; (4) writing French from dictation; (5) continued drill upon the rudiments of grammar, with constant application in the construction of sentences; (6) mastery of the forms and use of pronouns, pronominal adjectives, of all but the rare irregular verb forms, and of the simpler uses of the conditional and subjunctive.

Suitable texts for the second year are: About's *Le roi des montagnes*, Bruno's *Le tour de la France*, Daudet's easier short tales, La Bédollière's *La Mère Michel et son chat*, Erckmann-Chatrian's stories, Foa's *Contes biographiques* and *Le petit Robinson de Paris*, Foncin's *Le pays de France*, Labiche and Martin's *La poudre aux yeux* and *Le voyage de M. Perrichon*, Legouv   and Labiche's *La cigale chez les fourmis*, Malbot's *Sans famille*, Mair  t's *La t  che du petit Pierre*, M  rim  e's *Colomba*, extracts from Michelet, Sarcey's *Le si  ge de Paris*, Verne's stories.

b. Intermediate (counting one point)

THE AIM OF THE INSTRUCTION—At the end of the intermediate course the pupil should be able to read at sight ordinary French prose or simple poetry, to translate into French a connected passage of English based on the text read, and to answer questions involving a more thorough knowledge of syntax than is expected in the elementary course.

THE WORK TO BE DONE—This should comprise the reading of from 400 to 600 pages of French of ordinary difficulty, a portion to be in the dramatic form; constant practice in giving French paraphrases, abstracts, or reproductions from memory of selected portions of the matter read; the study of a grammar of moderate completeness; writing from dictation.

Suitable texts are: About's stories, Augier and Sandeau's *Le gendre de M. Poirier*, B  ranger's poems, Corneille's *Le Cid* and *Horace*, Copp  e's poems, Daudet's *La Belle-Nivernaise*, La Br  te's *Mon oncle et mon cur  *, Madame de S  vign  's letters, Hugo's *Hernani* and *La chute*, Labiche's plays, Loti's *P  cheur d'Islande*, Mignet's historical writings, Moli  re's *L'avare* and *Le bourgeois gentilhomme*, Racine's *Athalie*, *Andromaque*, and *Esther*, George Sand's plays and stories, Sandeau's *Mademoiselle de la Seigli  re*, Scribe's plays, Thierry's *R  cits des temps m  rovingiens*, Thiers's *L'exp  dition de Bonaparte en Egypte*, Vigny's *La canne de jonc*, Voltaire's historical writings.

GERMAN

a. Elementary (counting two points)

THE AIM OF THE INSTRUCTION—At the end of the elementary course in German the pupil should be able to read at sight, and to translate, if

called upon, by way of proving his ability to read, a passage of very easy dialogue or narrative prose, help being given upon unusual words and constructions, to put into German short English sentences taken from the language of everyday life or based upon the text given for translation, and to answer questions upon the rudiments of grammar, as defined below.

THE WORK TO BE DONE—During the first year the work should comprise: (1) careful drill upon pronunciation; (2) the memorizing and frequent repetition of easy colloquial sentences; (3) drill upon the rudiments of grammar—that is, upon the inflection of the articles, of such nouns as belong to the language of everyday life, of adjectives, pronouns, weak verbs, and the more usual strong verbs; also upon the use of the more common prepositions, the simpler uses of the modal auxiliaries, and the elementary rules of syntax and word-order; (4) abundant easy exercises designed not only to fix in mind the forms and principles of grammar, but also to cultivate readiness in the reproduction of natural forms of expression; (5) the reading of from 75 to 100 pages of graduated texts from a reader, with constant practice in translating into German easy variations upon sentences selected from the reading lesson (the teacher giving the English), and in the reproduction from memory of sentences previously read.

During the second year the work should comprise: (1) the reading of from 150 to 200 pages of literature in the form of easy stories and plays; (2) accompanying practice, as before, in the translation into German of easy variations upon the matter read, and also in the off-hand reproduction, sometimes orally and sometimes in writing, of the substance of short and easy selected passages; (3) continued drill upon the rudiments of the grammar, directed to the ends of enabling the pupil, first, to use his knowledge with facility in the formation of sentences, and, secondly, to state his knowledge correctly in the technical language of grammar.

Stories suitable for the elementary course can be selected from the following list: Andersen's *Märchen* and *Bilderbuch ohne Bilder*; Arnold's *Fritz auf Ferien*; Baumbach's *Die Nonna* and *Der Schwiegersohn*; Gerstäcker's *Germelshausen*; Heyse's *L'Arrabbiata*, *Das Mädchen von Treppi*, and *Anfang und Ende*; Hillern's *Höher als die Kirche*; Jensen's *Die braune Erica*; Leander's *Träumereien* and *Kleine Geschichten*; Seidel's *Märchen*; Stökl's *Unter dem Christbaum*; Storm's *Immensee* and *Geschichten aus der Tonne*; Zschokke's *Der zerbrochene Krug*.

Among the shorter plays the best available are perhaps Benedix's *Der Prozess*, *Der Weiberfeind*, and *Günstige Vorzeichen*; Elz's *Er ist nicht eifersüchtig*; Wichert's *An der Majorsecke*; Wilhelmi's *Einer muss heiraten*. It is recommended, however, that not more than one of these plays be read. The narrative style should predominate. A good selection of reading matter for the second year would be Andersen's *Märchen*, or *Bilderbuch*, or Leander's *Träumereien*, to the extent of, say, forty pages. After that such a story as *Das kalte Herz*, or *Der*

zerbrochene Krug; then *Höher als die Kirche*, or *Immensee*; next a good story by Heyse, Baumbach, or Seidel; lastly *Der Prozess*.

b. Intermediate (counting one point)

THE AIM OF THE INSTRUCTION—At the end of the intermediate course the pupil should be able to read at sight German prose of ordinary difficulty, whether recent or classical; to put into German a connected passage of simple English, paraphrased from a given text in German; to answer any grammatical questions relating to usual forms and essential principles of the language, including syntax and word-formation; and to translate and explain (so far as explanation may be necessary) a passage of classical literature taken from some text previously studied.

THE WORK TO BE DONE—The work should comprise, in addition to the elementary course, the reading of about 400 pages of moderately difficult prose and poetry, with constant practice in giving, sometimes orally and sometimes in writing, paraphrases, abstracts, or reproductions from memory of selected portions of the matter read; also grammatical drill upon the less usual strong verbs, the use of articles, cases, auxiliaries of all kinds, tenses and modes (with special reference to the infinitive and subjunctive), and likewise upon word-order and word-formation.

The intermediate course is supposed to be the elementary course, plus one year's work at the rate of not less than four recitations a week. Suitable reading matter for the third year can be selected from such works as the following: Ebner-Eschenbach's *Die Freiherren von Gemperlein*; Freytag's *Die Journalisten* and *Bilder aus der deutschen Vergangenheit*—for example, *Karl der Grosse*, *Aus den Kreuzzügen*, *Doktor Luther*, *Aus dem Staat Friedrichs des Grossen*; Fouqué's *Undine*; Gerstäcker's *Irrefahrten*; Goethe's *Hermann und Dorothea* and *Iphigenie*; Heine's poems and *Reisebilder*; Hoffmann's *Historische Erzählungen*; Lessing's *Minna von Barnhelm*; Meyer's *Gustav Adolfs Page*; Moser's *Der Bibliothekar*; Riehl's *Novellen*—for example, *Burg Neideck*, *Der Fluch der Schönheit*, *Der stumme Ratsherr*, *Das Spielmannskind*; Rosegger's *Waldheimat*; Schiller's *Der Neffe als Onkel*, *Der Geisterseher*, *Wilhelm Tell*, *Die Jungfrau von Orleans*, *Das Lied von der Glocke*, *Balladen*; Scheffel's *Der Trompeter von Säckingen*; Uhland's poems; Wildenbruch's *Das edle Blut*.

GREEK

Elementary (counting three points)

a. i. Greek Grammar.

The common forms, idioms, and constructions, and the general grammatical principles of Attic Greek prose.

ii. Greek Composition.

Translation into Greek of detached sentences to test the candidate's knowledge of grammatical constructions.

The examination in the two subjects immediately preceding will be based on the first two books of Xenophon's *Anabasis*.

b. Xenophon.

The first four books of the *Anabasis*.

c. Homer.

The first three books of the *Iliad* (omitting II, 494–end) and the constructions, poetical forms, and prosody of Homer's *Iliad*.

f. Advanced Greek Composition.

Translation into Greek of continuous prose based on Xenophon and other Attic prose of similar difficulty.

g. Sight Translation.

Translation into English at sight, based on prose of no greater difficulty than Xenophon's *Anabasis*.

Advanced (counting one point)

Candidates offering Greek as an advanced subject must present the equivalent of the course known as Greek **B** (see courses announced by the Division of Classical Philology). In Homer, for which no equivalent will ordinarily be accepted, the minimum requirement will be 1600 lines in addition to the amount offered for the elementary examination. The candidate must also offer the eight orations of Lysias in Morgan's edition, or an equivalent amount of similar Greek, and in prose composition at least twenty exercises in the writing of connected narrative prose. The exercises in Part III of Allinson's *Greek Prose Composition* will show the grade of preparation demanded. Candidates applying for examination in this subject must designate the equivalents, if any, which they wish to offer.

HISTORY**Elementary** (counting two points)

Candidates offering history as an elementary subject may present themselves for examination upon either of the following groups. They will not be permitted to offer both of these groups as elementary subjects.

First Group:

1. Ancient history, including a brief introductory study of the Oriental peoples and early mediæval history to the death of Charlemagne, with due reference to art, literature, and government.
2. Mediæval and modern history, with due reference to the growth of the state-system.

Second Group:

3. English history, with due reference to social and political development.
4. American history, with the elements of civil government

NOTE.—For preparation in either of these groups a course of study equivalent to at least three lessons a week for two years will be needful. On examination a candidate must show such general knowledge of each field offered as may be acquired from the study of an accurate text-book of not less than three hundred pages. Since however, the examination will be so framed as to require comparison and the use of judgment rather than mere exercise of memory on the part of the pupil, it is recommended that the teacher prescribe a course of supplementary reading of not less than five hundred pages dealing with the more important periods and events in both of the historical fields offered. Geographical knowledge will be tested by requiring the location of places and movements on an outline map.

Advanced (counting one point)

The requirement in advanced history is intended to be an equivalent for history A—the course prescribed in Columbia College (see courses given by Department of History). The work done at school, therefore, should be substantially identical with that course. Those candidates who have taken the examination in elementary history, and desire to offer History as an advanced subject, must present themselves for examination upon the historical fields included in *that group which they did not offer as an elementary subject*. For example, if a candidate offers the first group as the elementary subject, he must offer the second group as the advanced subject, and *vice versa*. The examination will pre-suppose superior ability on the part of the candidate in advanced history to understand the significance of historical events, movements, or tendencies, to discern similarities and contrasts, and to combine results.

As further evidence of proficiency, satisfactory written work, done at school and duly certified by the teacher as to independent preparation, must be submitted. This work must be presented in the form of a note-book, or bound collection of notes, containing not less than five thousand words on each historical field offered, and must show practice in at least three of the following exercises:

- (a) Notes and digests of reading outside of the text-books.
- (b) Written recitations requiring the use of judgment, and the application to new questions of knowledge already gained.
- (c) Written parallels between historical characters, events, or periods.
- (d) Brief studies of topics limited in scope, prepared outside the class-room and illustrated by some reference to contemporary material.
- (e) Historical maps or charts showing explorations, migrations, conquests, territorial changes, or social phenomena.

The written work must be sent to the Secretary of Columbia University two weeks before the entrance examination begins.

LATIN

Elementary (counting four points) ¹*a. i. Latin Grammar.*

The inflections; the simpler rules for composition and derivation of words; syntax of cases and verbs; structure of the sentence in general, with particular regard to relative and conditional sentences, indirect discourse and the subjunctive.

ii. Latin Composition.

Translation into Latin of detached sentences and very easy, continuous prose based upon Cæsar and Cicero.

*b. Cæsar.*²

Any four books of the Gallic War, preferably the first four.

c. Cicero.

Any six orations from the following list, but preferably the first six mentioned:

The four orations against Catiline, Archias, and the Manilian Law, Marcellus, Roscius, Milo, Sestius, Ligarius, the Fourteenth Philippic.

d. Vergil.

The first six books of the *Æneid* and so much of prosody as concerns accent, versification in general, and the dactylic hexameter.

l. Advanced Latin Composition.

Translation into Latin of continuous prose of moderate difficulty based on Cicero.

m. Sight Translation.

Translation into English at sight, based exclusively on prose of no greater difficulty than the easier parts of Cicero's orations.

Advanced (counting one point)

Candidates offering Latin as an advanced subject must present the equivalent of the course known as Latin A (see courses announced by the Division of Classical Philology). This course comprises the reading of Cicero's *De Senectute* and *De Amicitia*, a review of the syntax of the verb as contained in any standard grammar, and a knowledge of prose composition as represented by the second part of Daniells's *New Latin Composition*; also the reading of the first and third books of the *Odes* of Horace, with a satisfactory knowledge of the prosody.

Candidates applying for examination in this subject must designate the equivalents, if any, which they wish to offer.

¹ Candidates for admission to Columbia College, Teachers College, the College of Physicians and Surgeons, or the Schools of Applied Science and Architecture, who are unable to offer the whole of elementary Latin, will be permitted to offer two points from this subject. Such candidates should offer parts *a* and *c*, or *a* and *d*, except candidates for the College of Physicians and Surgeons, who should offer *a* and either *b* or *c* or *d*, as indicated above.

² Cæsar can be offered only by candidates for admission to the College of Physicians and Surgeons.

MATHEMATICS

Elementary (counting three points)**a** Elementary algebra.

- i. The four fundamental operations for rational algebraic expressions.

Factoring, determination of highest common factor and lowest common multiple by factoring.

Fractions; including complex fractions, ratio and proportion.

Linear equations, both numerical and literal, containing one or more unknown quantities.

Problems depending on linear equations.

Radicals, including the extraction of the square root of polynomials and of numbers.

Exponents, including the fractional and negative.

- ii. Quadratic equations, both numerical and literal.

Simple cases of equations with one or more unknown quantities, that can be solved by the methods of linear or quadratic equations.

Problems depending upon quadratic equations.

The binomial theorem for positive integral exponents.

The formulas for the n th term and the sum of the terms of arithmetic and geometric progressions, with applications.

It is assumed that pupils will be required throughout the course to solve numerous problems which involve putting questions into equations. Some of these problems should be chosen from mensuration, from physics, and from commercial life. The use of graphical methods and illustrations, particularly in connection with the solution of equations, is also expected.

c. Plane geometry.

The usual theorems and constructions of good text-books, including the general properties of plane rectilinear figures; the circle and the measurement of angles; similar polygons; areas; regular polygons, and the measurement of the circle.

The solution of numerous original exercises, including loci problems.

Applications to the mensuration of lines and plane surfaces.

Advanced (counting one point)**d.** Solid geometry.

The usual theorems and constructions of good text-books; including the relations of planes and lines in space; the properties and measurements of prisms, pyramids, cylinders, and cones; the sphere and the spherical triangle.

The solution of numerous original exercises, including loci problems.

Applications to the mensuration of surfaces and solids.

e. Trigonometry.

Definitions and relations of the six trigonometric functions as ratios; circular measurement of angles.

Proofs of principal formulas, in particular for the sine, cosine, and tangent of the sum and the difference of two angles, of the double angle and the half angle, the product expressions for the sum or the difference of two sines or of two cosines, etc.; the transformation of trigonometric expressions by means of these formulas.

Solution of trigonometric equations of a simple character.

Theory and use of logarithms (without the introduction of work involving infinite series).

The solution of right and oblique triangles, and practical applications, including the solution of right spherical triangles.

PHYSICS

Elementary (counting one point)

The candidate's preparation in physics should include:

- a. The study of a standard text-book supplemented by the use of many varied numerical problems, to the end that the pupil may gain a comprehensive and connected view of the most important facts and laws in elementary physics.
- b. Instruction by lecture-table demonstrations, to be used mainly as a basis for questioning upon the general principles involved in the pupil's laboratory investigations.
- c. Individual laboratory work, comprising at least forty exercises distributed about as follows: mechanics 17, sound 3, heat 5, light 6, electricity 9.

A list of suitable experiments in physics is contained in the definitions of the requirements published by the College Entrance Examination Board and may be obtained upon application to the Secretary of the Board, Post-Office Sub-Station 84, New York, N. Y.

LABORATORY NOTE-BOOK—Every candidate must present *at the time of his examination in physics* a note-book in which he has recorded the steps and the results of his laboratory experiments. A candidate who fails to present such a note-book cannot receive credit for the examination. Each note-book must contain an index of the experiments which it describes, and must be endorsed by the instructor, the endorsement being written in ink on the inside of the cover. The endorsement must in effect be as follows:

I certify that this note-book is a true and original record of experiments actually performed by.....
 in the physical laboratory of.....School
 during the year 19....

Instructor in Physics.

Advanced (counting one point)

Candidates offering physics as an advanced subject must have studied physics for a full year after satisfactorily completing the elementary requirement. The work during this time must be devoted to a more thorough and extensive study of the subjects previously covered in a general way. Besides class-work, it must include at least sixty experiments actually performed in the laboratory by the candidate. A laboratory note-book must be submitted at the time of the examination. It must contain a certificate from the teacher that it is a true record of the candidate's work. It will be returned to the candidate upon subsequent application to the Secretary of the University.

PHYSIOGRAPHY (counting one point)

The candidate's preparation in physiography should include the study of one of the modern text-books by Davis, Tarr, Dryer, or Gilbert and Brigham, together with an approved laboratory and field course of at least forty exercises actually performed by the candidate.¹

The candidate will be required to present at the time of his examination the original note-book in which he recorded, with dates, the steps and results of his laboratory exercises. This book, which should contain an index of subjects, must bear the endorsement of the teacher, certifying that it is a true record of the candidate's work.

SPANISH (counting two points)

THE AIM OF THE INSTRUCTION—At the end of the course the pupil should be able to pronounce Spanish accurately, to read at sight easy Spanish prose, to put into Spanish simple English sentences taken from the language of everyday life, or based upon a portion of the Spanish text read, and to answer questions on the rudiments of the grammar, as defined below.

THE WORK TO BE DONE—During the first year the work should comprise: (1) careful drill in pronunciation; (2) the rudiments of grammar, including the conjugation of the regular and the more common irregular verbs, the inflection of nouns, adjectives, and pronouns, and the elementary rules of syntax; (3) exercises containing illustrations of the principles of grammar; (4) the reading and accurate rendering into good English of from 100 to 175 duodecimo pages of graduated texts, with translation into Spanish of easy variations of the sentences read; (5) writing Spanish from dictation.

During the second year the work should comprise: (1) the reading

¹ For a more detailed statement of the requirement in physiography the reader is referred to the definitions of the requirements published by the College Entrance Examination Board, Post-Office Sub-Station 84, New York, N. Y.

of from 250 to 400 pages of modern prose from different authors; (2) practice in translating Spanish into English, and English variations of the text into Spanish; (3) continued study of the elements of grammar and syntax; (4) mastery of all but the rare irregular verb-forms and of the simpler uses of the moods and tenses; (5) writing Spanish from dictation.

Suitable texts for the second year are: Valera's *El pájaro verde*; Alarcón's *El final de Norma*, *El capitán Veneno*; Valdès's *José*; Galdós's *Doña Perfecta*; *Marianela*; Padre Isla's version of *Gil Blas*; Carrion and Aza's *Zaragüeta*.

ZOÖLOGY (counting one point)

In general, zoölogy is not recommended as an entrance subject unless the study has been preceded or accompanied by that of physics and chemistry, which form the most desirable groundwork for collegiate courses in biology. The entrance examination in zoölogy is designed to test, first, the candidate's practical acquaintance with the natural history, structure, and relationships of some of the leading types of animals, and, second, his knowledge of the more essential facts of physiology.

Practical Zoölogy. A practical examination on at least ten common animal types, and the presentation by the candidate of a laboratory note-book, certified by the teacher as evidence of a laboratory course actually performed. Examples of the types suggested are the frog, fish, mollusk, insects, crustaceans, annelid, starfish, hydroid (*Hydra*), and protozoan. In the examination less weight is laid on a knowledge of anatomical *minutiæ* than on the ability to recognize the specimen and its allies, to indicate its relationships, and to point out the leading features of its life-history, organization, and physiology.

Elementary Physiology. The nature of foods and their history in the body; the essential facts of digestion, absorption, circulation, secretion, excretion, and respiration; the motor, nervous, and sensory functions; and the structure of the various organs by which these operations are performed. Martin's *Human Body* (briefer course), forms a suitable basis for this work; but teachers are recommended as far as possible to correlate the physiology of man and the higher animals with that of the lower forms studied in the course on practical zoölogy.

REGULATIONS FOR THE UNIVERSITY DEGREES

Master of Arts and Doctor of Philosophy

1. Candidates for the degrees of Master of Arts and Doctor of Philosophy must hold a baccalaureate degree in arts, letters, philosophy, or science, or an engineering degree, or an education equivalent to that represented by one of these degrees, such equivalent to be passed upon in every case by the Standing Committee on Higher Degrees.

Every candidate for a higher degree must present to the Dean of each school in which he intends to study satisfactory evidence that he is qualified for the studies he desires to undertake.

2. Candidates for the degrees of Master of Arts and Doctor of Philosophy must pursue their studies in residence for a minimum period of one and two years, respectively.¹ The year spent in study for the degree of Master of Arts is credited on account of the requirement for the degree of Doctor of Philosophy. Residence at other universities may be credited to a candidate. In certain cases and by special arrangement, time exclusively devoted to investigation in the field will be credited in partial fulfilment of the time required. The satisfactory completion, at not less than four Summer Sessions, of courses of instruction having in all a value of eight hours' work a week for one academic year will be accepted as fulfilling the minimum requirement of one year's University residence. No degree will be conferred upon any student who has not been in residence at Columbia University for at least one year.

3. Each student who declares himself a candidate for the degrees of Master of Arts and Doctor of Philosophy, or either of them, shall, immediately after registration, designate one principal or major subject and two subordinate or minor subjects.

Candidates are expected to devote at least one half of their time throughout their course of study to the major subject. In the case of laboratory courses this implies two days a week, or its equivalent, as determined by each department. Each minor subject is intended to occupy approximately one fourth of the time during one year for the degree of Master of Arts, and during two years for the degree of Doctor of Philosophy.

Minor subjects may not be changed except by permission of the

¹ In practice three years of University residence subsequent to the attainment of the Bachelor's degree, or its equivalent, are usually necessary to obtain the degree of Doctor of Philosophy.

Dean, to be given only on the written recommendation of the heads of the departments from which and to which the change is desired; major subjects may not be changed except by a special vote of the Faculty in each case.

A candidate for the degree of Master of Arts or Doctor of Philosophy may, with the consent of the Dean of the Faculty concerned and of the professor in charge of his major subject, select both minor subjects within the same department, and may divide a minor subject, taking parts of two subjects germane to his major subject.

4. The subjects from which the candidate's selection must be made are:

UNDER THE FACULTY OF PHILOSOPHY

I. *Major Subjects*: 1. Philosophy; 2. psychology; 3. anthropology; 4. education; 5. linguistics; 6. comparative literature; 7. classical archæology and epigraphy; 8. Greek language and literature, and, incidentally, Grecian history; 9. Latin language and literature, and, incidentally, Roman history; and the following, *including in each case the study of both the language and the literature*; 10. English; 11. Germanic; 12. Romance; 13. Sanskrit (with Pāli) and Iranian; 14. Semitic; 15. Chinese. Nos. 1, 2, 3, 4, 6, 10, 11, 12, 13, 14, and 15 count each as the equivalent of a major and one minor subject.

II. *Minor Subjects*: 1. Philosophy; 2. psychology; 3. anthropology; 4. education; 5. linguistics; 6. comparative literature; 7. Greek; 8. Greek archæology; 9. Latin; 10. Roman archæology; 11. Sanskrit; 12. Iranian; 13. English; 14. Anglo-Saxon; 15. Gothic; 16. Germanic philology; 17. German language and literature; 18. Scandinavian languages and literatures; 19. Romance philology; 20. French language and literature; 21. Spanish language and literature; 22. Italian language and literature; 23. Hebrew; 24. Arabic; 25. Assyrian; 26. Syriac; 27. Ethiopic; 28. Semitic epigraphy; 29. Turkish; 30. Armenian; 31. Chinese; 32. Coptic.

When a candidate in his choice of subjects under this Faculty designates any subject as his major and first minor, as permitted by the Regulations, no subdivision of that general subject may be chosen by him as a second minor, provided, however, that, with the recommendation of the Dean and the head of the department concerned, by a special vote of the Committee on Higher Degrees, to be taken in every such case, a candidate may be allowed to choose all his subjects under one department. The choice of subjects made by a candidate must in every case have the approval of the Dean and the head of the department under which the major subject is taken before being finally allowed.

UNDER THE FACULTY OF POLITICAL SCIENCE

Group I.—History and political philosophy: 1. European history; 2. American history; 3. ancient history; 4. political philosophy.

Group II.—Public law and comparative jurisprudence: 1. Consti-

tutional law; 2. international law; 3. administrative law; 4. comparative jurisprudence.

Group III.—Economics and social science: 1. Political economy and finance; 2. sociology and statistics.

In his choice of subjects under this Faculty, the candidate whose major subject lies within its jurisdiction is limited by the following rules:

A candidate for the degree of Doctor of Philosophy must select one minor subject within the group which includes his major subject.

A candidate for the degree of Master of Arts or Doctor of Philosophy must select one minor subject outside of the group which includes his major subject.

The choice of subjects must in every case be approved by the Dean.

To be recognized as a major subject for the degree of Master of Arts, the courses selected must aggregate at least two hours per week throughout the year, and must also include attendance at a seminar. For a minor subject for the degree of Master of Arts the attendance at a seminar is not required.

To be recognized as a minor subject for the degree of Doctor of Philosophy, courses must be taken, in addition to the requirements for a minor subject for the degree of Master of Arts, aggregating two hours weekly. All the courses and seminars offered in the major subject must be taken by the candidates for the degree of Doctor of Philosophy.

UNDER THE FACULTY OF PURE SCIENCE

1. Anatomy; 2. astronomy; 3. bacteriology; 4. botany; 5. chemistry; 6. geodesy; 7. geology; 8. lithology; 9. mathematics; 10. mechanics and electro-mechanics; 11. mineralogy; 12. palæontology; 13. physics; 14. physiology; 15. zoölogy; 16. physiological chemistry; 17. civil and sanitary engineering; 18. electrical engineering; 19. mechanical engineering; 20. metallurgy; 21. mining.

In his choice of subjects under this Faculty, the candidate is limited by the regulation that no two of the subjects selected may be in any one department, unless the consent of the Faculty thereto shall have first been obtained.

A minor subject may be taken in the same department as the major, but no two minors may be taken in the same department, unless the consent of the Faculty thereto shall be first obtained.

5. Each student is given a registration book, to be obtained at the office of the Registrar, which shall be signed by the professor or instructor in charge of each course of instruction or investigation at the beginning and end of the course. This registration book is to be preserved by the student as evidence of courses attended, and shall be submitted to the Deans of the several Faculties at the end of each year, that the proper credit may be given for the courses attended, after which the registration book becomes the permanent property of the student.

6. (a) Students desiring to be examined for the degree of Master of Arts, Master of Laws, or Doctor of Philosophy shall make application to the Registrar of the University on or before April 1 of the academic year in which the examination is desired, on blanks provided by the University.
- (b) Immediately after April 1, the Registrar shall notify the Deans of the Faculties of Political Science, Philosophy, and Pure Science, of the names of students applying for examination for higher degrees in each of these three Faculties, together with the subjects in which the candidate offers himself for examination and the degree for which he is a candidate.
- (c) The examination shall be held under the authority and direction of the several Deans.
- (d) The results of such examinations shall be reported as soon as possible to the Registrar, who shall transmit to the Secretary of the University Council the record of each successful candidate for a degree, as soon as such record is complete.

7. Each candidate for the degree of Master of Arts shall present an essay on some topic previously approved by the professor in charge of his major subject. This essay must be presented not later than May 1 of the academic year in which the examination is to take place. The Faculty of Political Science requires this essay to be a paper read during the year before the seminar of which the candidate is a member.

When the essay has been approved, the candidate shall file with the Registrar of the University a legibly written or typewritten copy of it. This copy is to be written on firm, strong paper, eleven by eight and a half inches, and a space of one and a half inches on the inner margin must be left free from writing. The title-page of every such essay shall contain the words: "Submitted in partial fulfilment of the requirements for the degree of Master of Arts, in the Faculty of _____, Columbia University."

8. Each candidate for the degree of Doctor of Philosophy shall present a dissertation embodying the result of original investigation and research on some topic previously approved by the professor in charge of the candidate's major subject. When such dissertation has been approved by the said professor, it shall be printed by the candidate, under the direction of the Dean of the Faculty, and one hundred and fifty copies shall be delivered to the Registrar of the University, unless, for reasons of weight, a smaller number be accepted by special action of the University Council. On the title-page of every such dissertation shall be printed the words: "Submitted in partial fulfilment of the requirements for the Degree of Doctor of Philosophy, in the Faculty of _____, Columbia University."

Each dissertation shall contain upon its title-page the full name of the author; the full title of the dissertation; the year of imprint, and, if a reprint, the title, volume, and pagination of the publication from which it was reprinted; and there shall be printed and appended to

each dissertation a statement of the educational institutions that the author has attended, and a list of the degrees and honors conferred upon him as well as the titles of his previous publications.

All dissertations for the degree of Doctor of Philosophy must be submitted for approval not later than April 1 of the academic year in which examination is desired.

In case of excessive cost and delay in publishing a dissertation which has been approved by a department, and accepted for publication by a reputable journal or scientific or literary association, the degree of Doctor of Philosophy may be conferred before the publication is completed. The facts in every such case concerning the publication are to be certified to the University Council by the Faculty concerned.

In cases where advanced degrees are conferred before the copies of the dissertation are deposited with the Registrar, the diploma shall be withheld until such copies shall be received.

In the Faculties of Philosophy and Pure Science, the dissertation is not required to be printed until after the examination of the candidate.

In the Faculty of Political Science, the examination on the major and minor subjects and on languages, but not on the dissertation itself, may be held before the printed dissertation is submitted.

The Faculty of Pure Science requires the dissertation to be printed in the size and form of the *Annals*, or the *Memoirs*, of the New York Academy of Sciences, according to the nature of the subject.

9. Every candidate for the degree of Doctor of Philosophy must pass, besides such other examinations as the Faculty may require, an oral examination on all three subjects, and must defend his dissertation, in the presence of the entire Faculty, or of so many of its members as may desire or as may be designated by the Faculty to attend. The ability to read at sight French and German, to be certified in each case by the Dean of the Faculty concerned, is required by all the Faculties. The Faculty of Political Science also requires the ability to read Latin at sight; and candidates are examined on Latin, French, and German, as upon other subjects, in the presence of the Faculty.

In the Faculty of Philosophy, admission as a regular student or as a candidate for the degree of Master of Arts does not admit to candidacy for the degree of Doctor of Philosophy. Only those students are admitted to candidacy for the degree of Doctor of Philosophy who (1) are recommended for such candidacy by the heads of the departments in which their major and minor subjects of study lie; (2) are certified as to their ability to read French and German by the heads of those departments; (3) are certified as to their ability to read Latin by the head of that department; provided that students whose major subject is psychology, anthropology, or education, shall not be required to meet this test when it is certified by the professor in charge of their major subject that an ability to read Latin is not necessary for the proper prosecution of their researches.

The examinations in Latin, French, and German, prescribed for admission to candidacy for the Doctor's degree under the Faculty of Philosophy, shall be passed at least one academic year before the candidate presents himself for the degree.

10. Students holding college degrees, who shall have completed with marked distinction one of the regular courses in the School of Law, the School of Medicine, the School of Mines, the School of Chemistry, the School of Engineering, or the School of Architecture, may be recommended for the degree of Master of Arts; provided that in each case the candidate, while pursuing his professional course, shall have taken additional work, under the direction of the Faculty of Philosophy, the Faculty of Political Science, or the Faculty of Pure Science, to the extent of a minor subject, as recognized by the Faculty concerned, for not less than one academic year.

Every such candidate shall present an essay on some topic previously approved by the professor in charge of his minor subject. This essay in all other respects shall conform to the requirements as stated in Section 7 of these Regulations.

11. No student shall continue to be a candidate for the degree of Doctor of Philosophy for a longer period than three years from the time he ceases to be in residence, nor for a longer period than six years from the time of his initial registration for an advanced degree.

Other Degrees

The authorities of the University have under consideration the establishment of a non-professional course of instruction of three years, parallel to that leading to the degree of Bachelor of Laws, and of a graduate course of one or more years open to such as have completed either of the three-year courses in law. Appropriate degrees will be awarded for the successful completion of such new courses. Announcement of the new courses and of the regulations governing the award of such degrees will be made as soon as arrangements therefor are completed.

COLUMBIA COLLEGE

The following departments are represented in the Faculty

ASTRONOMY	LATIN
BOTANY	MATHEMATICS
CHEMISTRY	MECHANICS
ENGLISH	PHILOSOPHY AND PSYCHOLOGY
GEOLOGY	PHYSICS
GERMANIC LANGUAGES AND LITERATURES	POLITICAL ECONOMY
GREEK	ROMANCE LANGUAGES AND LITERATURES
HISTORY	SEMITIC LANGUAGES
INDO-IRANIAN LANGUAGES	ZOOLOGY

Officers of the Faculty

Ex-Officio Members of the University Council

CASSIUS JACKSON KEYSER, Ph.D....	<i>Adrain Professor of Mathematics</i>
GEORGE L. MEYLAN, A.M., M.D.....	<i>Adjunct Professor of Physical Education</i>
LOUIS AUGUSTE LOISEAUX, B.S.....	<i>Adjunct Professor of the Romance Languages and Literatures</i>
WILLIAM ADDISON HERVEY, A.M....	<i>Adjunct Professor of the Germanic Languages and Literatures</i>
RUDOLF TOMBO, Jr., Ph.D.....	<i>Adjunct Professor of the Germanic Languages and Literatures</i>
GEORGE N. OLCOTT, Ph.D.....	<i>Adjunct Professor of Latin</i>
JOHN DEWEY, Ph.D., LL.D.....	<i>Professor of Philosophy</i>

ADMISSION

The Committee on Admissions has charge of everything relating to this subject.

1. Candidates for admission to the freshman class, at its formation, must be at least fifteen years of age; and for admission to advanced standing there is required a corresponding increase of age; but this rule may be dispensed with when, in the opinion of the Committee on Admissions, there are sufficient reasons to justify its relaxation.

Every candidate must, before admission, present a certificate of good moral character from his last teacher, or from some citizen in good standing, and students from other institutions must bring certificates of honorable dismissal.

Requirements for Admission

2. Every candidate for admission to the freshman class is required at the entrance examinations (see page 191) to offer subjects amounting to fifteen points ¹ as indicated below:

The candidate *must* offer

Counting in points

English (page 197).....	3
Elementary Mathematics (page 205).....	3

The candidate may offer any of the following subjects without other restriction than that to offer an advanced subject will involve offering either at the same time or earlier the corresponding elementary subject.

¹ The several subjects are stated in terms of units: the unit is a course of five periods weekly throughout an academic year of the preparatory school; the subjects are assigned units in accordance with the time required to prepare adequately upon them for college entrance.

Counting in points

Elementary Greek (page 201).....	3
Elementary History (page 202).....	2
Elementary Latin (page 204).....	4 ¹
Intermediate French (page 199).....	1
Intermediate German (page 201).....	1
Advanced Greek (page 202).....	1
Advanced History (page 203).....	1
Advanced Latin (page 204).....	1
Advanced Mathematics (page 205).....	1
Advanced Physics (page 207).....	1

The candidate may offer not more than 4 points in all from the three subjects following:

Elementary French (page 198).....	2
Elementary German (page 199).....	2
Spanish (page 207).....	2

The candidate may offer not more than 2 points in all from the five subjects following:

Botany (page 194).....	1
Chemistry (page 195).....	1
Elementary Physics (page 206).....	1
Physiography (page 207).....	1
Zoölogy (page 208).....	1

For information regarding the time and place at which entrance examinations are held, regulations regarding division of examinations, examinations outside of New York, application blank, and examination fee, see pages 191-194.

Certificates in Lieu of Entrance Examinations

3. Columbia College accepts, in lieu of its entrance examinations, no credentials of any sort except the Regents' Academic Diploma² and the certificates of universities and colleges in good standing. These credentials are accepted only for the ground which they specifically cover.

All certificates offered in lieu of entrance examinations must be sent to the chairman of the College Committee on Admissions at least one week before the first day of the entrance examinations. The names

¹ Candidates may also offer a part of elementary Latin, counting it for two points (see page 204)

² For 1904-05 every Regents' Academic Diploma is considered as covering the entrance requirement in English. No Regents' Academic Diploma will be accepted in lieu of the entrance examination in French unless it covers the complete two-years' high-school course in French recognized by the Regents. Similarly, no Regents' Academic Diploma will be accepted in lieu of the entrance examination in German unless it covers the complete two-years' high-school course in German. A Regents' Academic Diploma, to be accepted in lieu of all parts of the examination in Latin or of the examination in Greek, must specifically cover, among other things, sight-reading and prose composition. In the case of the natural sciences, a Regents' Academic Diploma will not be accepted for the required laboratory work.

of those candidates whose certificates are accepted in whole or in part will be posted on the bulletin board at least one day in advance of the beginning of the examinations.

The separate pass-cards, the Academic Equivalent Certificate, and the several other certificates issued by the Regents of the State of New York are not accepted by the College in lieu of examinations.

The certificates of the preparatory or high-school departments of universities and colleges are not accepted by the College.

Candidates must take the regular entrance examinations in the subjects in which their certificates are not deemed adequate.

Report of Entrance Examinations

4. The Committee on Admissions will report to the Dean, as soon as practicable after the conclusion of the entrance examinations in June, the names of those candidates who, having passed a satisfactory examination, may be admitted with or without conditions, of those who must present themselves for re-examination in September, and of those who have been rejected.

The Committee on Admissions will report to the Dean not later than one week after the conclusion of the entrance examinations in September the names of those candidates who, upon a final showing, may be admitted with or without conditions, and of those who have been rejected.

Admission to Advanced Standing

5. Candidates for admission from other colleges, and those desiring to be admitted to advanced standing on examination, must make application in writing to the College Committee on Admissions. Proper blanks for the purpose may be obtained from the Secretary. The application should be made at least one week before the first day of the September entrance examinations.

Each candidate for admission to advanced standing must show that he has attained proficiency in the equivalent of:

1. The requirements for admission to the freshman class.
2. All the prescribed studies already pursued by the class to which he seeks admission.
3. As many elective studies as he would have pursued if he had entered the class at the beginning of the freshman year.

A candidate may be admitted notwithstanding deficiencies in some of these studies, but no candidate will be recommended for the A.B. degree until he shall have brought all his studies up to the point required for that degree.

Each candidate from another college is expected to furnish official statements of his record in his various college studies, and letters or other evidence showing the opinion of his instructors in regard to his scholarship and character. He should also submit a catalogue or announcement of the college that he leaves, in which are plainly marked

every requirement for admission and every course of instruction for which he has received credit.

No applicant will be allowed to enter the senior class as a candidate for the degree of Bachelor of Arts after October 15 in any year.

Special Students

6. Special courses of study are offered by the College to young men, of proper age and character, who wish, without reference to any degree, to make a serious study of any subject or group of subjects. This provision, however, is not designed for students who would be unable, because of defective preparation, to secure admission to the freshman class. Candidates for admission as special students are required to present themselves at the entrance examinations and to fulfil the requirements for admission to the freshman class (see p. 217). Applications for admission should be made at least one week before the first day of the entrance examinations. Proper blanks for this purpose may be obtained from the Secretary.

Applications from men of maturity, who have been several years out of school or college and have had a valuable educative experience in practical life, will be considered on their merits as a class by themselves.

7. Once admitted to the College, special students will be allowed to select their own courses of study subject to the general approval of the Dean, and to the particular approval, for each course selected, of the head of the department in which the course is given. The courses selected by a special student must, however, occupy at least ten hours a week.

In the courses which they severally pursue special students will be held to the observance of the same regulations as to attendance, examination, proficiency, and deficiency as regular students.

Except for reasons of weight, satisfactory to the Committee on Admissions, no one will be received as a special student who is less than eighteen years of age, or who has, within ten months of the time of his application, been rejected as a regular student, or has, within that period, become deficient as a regular student. No one will be admitted as a special student who wishes merely to pursue elementary subjects included among the requirements for admission to the College or Schools of Applied Science.

Entrance Conditions and Probation

8. Students admitted conditionally to the freshman class at the beginning of the academic year will be held under probation till the end of the first half-year.

Not later than Tuesday of the second week following the Christmas holidays, the head of each department in which students on probation attend will make to the Dean a special report of progress in the case of each such student. The Dean will, as soon as practicable, and not later than the end of the half-year, decide as to each student on proba-

tion, whether he shall be dropped from the roll of the College, or have his period of probation extended.

9. If any member of the freshman class shall receive at the mid-year or the concluding examination a grade in scholarship of C, or higher, in any department, this grade will be regarded as removing any entrance condition that may be recorded against him in that department.

Any member of the freshman class conditioned at entrance must make good by examination every condition that is not removed under the operation of the foregoing provision. He should present himself for this purpose at the entrance examinations in June or September of the year following his admission.

Matriculation, Registration, and Enrolment

(See page 22)

For the regulations prescribed for all students see page 22. The following regulations are also prescribed for students in the College:

10. Registration and enrolment at a later date than that specified in the general Regulations are permitted to candidates who obtain the written consent of the Dean, satisfactory cause for the delay having been shown. Such permission, however, does not relieve the student from the payment of the late registration fee.

College students are cautioned against confusing the filing of elective blanks with registration. These are two distinct and separate processes.

Students who, by reason of any technicality, can not register definitely within the time limits, should file a tentative registration record on or before the last day of registration, if they wish to avoid the additional fee.

Credit for attendance will date from the opening of the academic year. All students will be held strictly accountable for absences incurred owing to enrolment at a later date, unless excused by the Dean.

Fees

(See page 23)

Scholarships

(See page 41)

PROGRAM OF STUDIES

11. Candidates for the degree of Bachelor of Arts are required to present courses making a total of sixty points. In connection with the announcement of each course is a statement of the number of hours per week of lectures and of laboratory work. The successful completion of each hour of lectures or recitations throughout an academic year counts as one point toward the sixty required for the degree of A.B. The successful completion of two hours of laboratory or other

practical work counts as one point. Not less than twelve, nor more than eighteen, points may be presented in any one year without the consent of the Dean. No one-hour course, unless taken in connection with and as a supplement to a cognate course, will be allowed. To the end of his junior year, a student must always pursue not fewer than three courses having a value of at least three points each. The required gymnasium work of the freshman and sophomore years must also be satisfactorily completed.

12. The courses necessary to meet the above requirement may be chosen by the student at will from the courses announced each year, subject to the restrictions named in connection with each course and to the general restriction that the following courses are prescribed:

Prescribed Courses

English:

English A, 3 hours, freshman year. }
English B, 2 hours, sophomore year. }

Prescribed for all students.

Latin and Greek:

Latin A or B, or Greek B, 3 hours, freshman year.

Prescribed for students who offer Elementary Latin and Greek, but not Advanced Latin or Greek, for admission.

Latin A or B, 3 hours, freshman year.

Prescribed for students who offer Elementary Latin, but not Greek or Advanced Latin for admission.

Latin X, 5 hours, freshman year. }

Latin Y, 3 hours, sophomore year. }

Latin Z, 3 hours, junior year. }

Prescribed for students who do not offer Elementary Latin for admission.

French:

French A, 3 hours, freshman or sophomore year, as the Dean may permit or prescribe.

Prescribed for students who do not offer Elementary French for admission.

German:

German A, 3 hours, freshman or sophomore year, as the Dean may permit or prescribe.

Prescribed for students who do not offer Elementary German for admission.

Mathematics:

Mathematics A, 3 hours, freshman year.

Prescribed for students who do not offer Advanced Mathematics for admission.

History:

History A, 3 hours, sophomore year.

Prescribed for students who do not offer Advanced History for admission.

Psychology:

Psychology A, 3 hours, first half junior year.

Prescribed for all juniors.

Economics:

Economics A, 3 hours, second half junior year.

Prescribed for all juniors.

Natural Science:

Physics 1, 3 hours; or Chemistry 1, 4 hours; or Botany 1, 4 hours. Prescribed for students who do not offer a natural science for admission; may be taken in any one of the four years.

Physical Education:

Certain work under this department will be required of both freshmen and sophomores. The details will be found in the *Announcement of the Division of Physical Education for 1904-05*.

Elective Courses

13. In making out their list of electives, students are confined to the courses given as open to them in the departmental statements contained in the *Announcement of Columbia College*, except under the provisions of Sections 18-19 below. They must avoid conflicts of courses at the same hour, and for that purpose should consult the hour-scheme. They are advised to examine the several divisional announcements in which the statement of the scope of each course is given more fully than is possible in the *Announcement*, and further to consult the heads of departments during their office hours.

Students just entering must give notice, at the time of registration, of the elective courses chosen by them.

Students in the College are required, on or before Friday, September 1, to give notice to the Dean, through the Registrar, upon blanks to be procured at the office of the Registrar, of their choice of elective courses. Special attention is called to this requirement, in order to avoid confusion and possible embarrassment to the student.

14. Change of electives will be allowed by the Dean, for reasons of weight stated to him in writing, up to but not later than the fourth Saturday in October for the first term and the third Saturday in February for the second term.

15. No student may take more than four hours' work, not including laboratory work or drawing, on the same day, or more than six hours a week in any department, without the consent of the Dean.

16. The Dean and the head of the department concerned may permit

any study prescribed for the degree of Bachelor of Arts to be taken as an elective in an earlier year than that for which it is set down.

17. Elective courses are offered subject to withdrawal if elected by fewer than three students.

18. By permission of the Dean of the College, the first-year course in the School of Medicine or the School of Law may be elected by members of the senior class who became students in the College not later than the beginning of their junior year. Any student taking the first-year course in the School of Medicine will be required to pay a fee of \$100 in addition to his fee as a student in the College.

The full first-year course in the School of Law and the full first-year course in the School of Medicine, for students of the senior class taking either of them and counting the same towards the degree of Bachelor of Arts, are counted as fifteen points, and fifteen points only, towards that degree. Any student who elects either of these first-year courses, and is allowed to count the same towards the degree of Bachelor of Arts, shall be required to complete satisfactorily every study in the course elected before he can be recommended for the degree.

19. By permission of the Dean of the College, a student may elect in his junior or senior year certain technical or professional courses in the Schools of Applied Science and Architecture and in Teachers College. Each such course in the Schools of Applied Science requires an extra fee, the amount of which is stated in connection with the announcement of every such course, with the proviso that the sum of all such extra fees to be paid by any student in any one academic year shall not exceed \$100. The amount of each fee may be learned by consulting the Statement of Fees, p. 23.

Graduation Theses

20. Each candidate for graduation shall, with the advice and consent of the instructor in charge of one of his courses, select for thesis, or essay, some subject connected with that course, and, on or before December 15, communicate his selection to the Dean for approval. Under the guidance of this instructor, he shall complete the thesis, and submit it to the Dean on or before April 2. It shall be judged by the head of the department in which the subject lies. In his return to the Dean upon a graduation thesis the examining officer shall report:

A grade as to (1) substance; (2) style; (3) general merit.

Each thesis shall contain, as appendix, a list of authorities that have been used. It shall contain at least two thousand (2000) words, unless there be special reasons for reduced length; and it shall be retained as the property of the College, in charge of the Librarian.

If the thesis of any student be rejected, he shall not be recommended for graduation.

For further details see the *Announcement of Columbia College*.

EXAMINATIONS IN COURSE

21. Two examinations of all the classes are held every year, one beginning on the last Monday but one of the first half-year (for 1905, January 16), and the other on the Monday of the third week preceding Commencement (for 1905, May 15). The former is called the mid-year examination; the latter the final examination. Any department may omit the mid-year examination in some or all of its courses for seniors, notice of such intended omission to be sent to the Dean on or before December 1 preceding. It is the privilege of any department to announce that, in some or all of its courses, the results of the mid-year examination will be tentative only, the grades given after the final examination applying to the whole year.

22. Any student who shall have been absent from more than ten per cent. of the exercises in any course during a single half-year shall not be entitled to examination in that course.

Every student is expected and required to keep an account of his absences, and, should he exceed the limit allowed in any course, he must present to the Dean, during the week preceding the stated examination, satisfactory explanation of all his absences, or be debarred from the examination.

23. The mid-year and final examinations provided for in section 21 are *stated examinations*. Delinquent examinations (see paragraph (a) below) and examinations held by special permission of the Dean are *special examinations*, the fee for each of which (except as noted in paragraph (d) of this section) is five dollars, which must be paid by the student before being admitted to the examination.

(a) Delinquent examinations, to enable deficient or debarred students of all classes to make good their deficiencies, are held within the two weeks immediately preceding the opening of the College in the Fall; and in addition, for members of the senior class only, during the first week in May.

(b) Except as provided for in paragraph (a), a student found deficient in any subject at a stated examination will not be allowed a special examination in that subject.

(c) Except as provided for in paragraph (a), a student absent from a stated examination in any subject will not be allowed a special examination in that subject, provided that, if the absence was due to unavoidable circumstances, the Dean may, on proper written certification to him of the circumstances, grant a special examination.

(d) If a student has special examinations in several subjects, either at the delinquent examinations or under one permit from the Dean specifying each subject, one fee of five dollars shall cover them all.

Proficiency and Deficiency

24. At the close of every half-year, and after the stated examination has been held, each officer of instruction will report to the Dean a list

of all the students in his several courses, classifying them in five grades, namely, A, B, C, D, F, according as their work in the course has been excellent, good, fair, poor, or a failure. Each student's record, up to his senior year, will be transmitted to his parents by the Dean at the close of each half-year.

A student reported in grade F in any course, or a student absent from a mid-year or final examination in any course, will be accounted deficient in that course, and required to pass another examination in it at the time fixed for the examination of debarred and deficient students, unless, for reasons of weight, the Dean shall otherwise direct.

A student reported at the close of the first half-year in grade D in any course must be warned by the instructor in charge thereof that his work is so unsatisfactory that, unless improved, it may result in his being found deficient at the close of the second half-year.

A student reported in grade D in two or more courses may be required by the Dean to take the courses a second time or to substitute other courses.

No student may be advanced from the freshman to the sophomore class until he shall (a) have satisfied all the requirements for entrance, and (b) have not less than nine points to his credit.

No student may be advanced from the sophomore to the junior class until he shall have not less than twenty-four points to his credit.

No student may be advanced from the junior to the senior class until he shall (a) have completed the required gymnasium work, and (b) have accomplished all the studies of the course specifically required in the first three years, and (c) have not less than forty-five points to his credit.

25. For advancement under the foregoing sections, a student must be reported in a grade above D in the greater number of the courses giving him the requisite total of points; failing which he shall be dropped from the roll of his class, unless the Dean, for reasons of weight, shall otherwise determine. A student dropped from the roll of his class will not be permitted to attend any of the exercises of the said class without the consent of the Dean, given for reasons of weight; but he may enter the next succeeding class and pursue the course or courses in which his deficiency exists, or, in case of elective courses and with the consent of the Dean, other course or courses equivalent thereto in time, and present himself for examination in such course or courses with that class. No student dropped from the roll of his class under the provisions of this section will be accepted as a special student.

Should a student fail of advancement in two successive years, he shall be dropped from the roll of the College, unless, for reasons of weight, the Dean shall otherwise determine. No student dropped from the roll of the College under the provisions of this section will be accepted as a special student.

In all cases, the requirements for advancement from class to class must be satisfied before the beginning of the academic year.

General Honors

General Honors are of two grades, Highest General Honors and General Honors, and are assigned not later than July 1 of each year, without application, under the following conditions:

Highest General Honors are awarded to students whose work in the previous college year entitles them to high academic distinction.

General Honors are assigned to students of marked excellence who have not won Highest General Honors.

Departmental Honors

Departmental Honors are awarded at the end of the second year, the end of the third year, and the end of the course, and are known respectively as Sophomore Honors, Junior Honors, and Final Honors.

Sophomore Honors are awarded in classics, Germanic languages and literatures, Romance languages and literatures, English, comparative literature, and in mathematics.

Junior Honors are awarded in classics, Germanic languages and literatures, Romance languages and literatures, English, comparative literature, mathematics, physics and chemistry, and in history.

Final Honors are awarded in classics, Germanic languages and literatures, Romance languages and literatures, English, comparative literature, mathematics, physics and chemistry, zoölogy and botany, history, economics and social science, and in philosophy.

(a) No scholarship, prize, or other honor will be awarded in any course or department to any student who is reported in a grade below C in any other course or department during the year in which he is a candidate for such scholarship, prize, or honor.

(b) Each student to whom honors may be awarded in any department will receive, at Commencement or as soon thereafter as practicable, a certificate of such award, under the seal of the College and bearing the signatures of the President and the Dean.

For particulars, see the special *Announcement of Columbia College*.

Prizes

(See page 41)

Honorable Dismission

An honorable discharge shall always be granted to any student in good standing who may desire to withdraw from the College; but no student under the age of twenty-one years shall be entitled to a discharge without the assent of his parent or guardian, given in writing to the Dean.

Students are requested, in case of withdrawal during the academic year, to file a notice thereof at the office of the Registrar, who will on application provide the blank form for this purpose.

For any further information the special *Announcement of Columbia College* may be consulted.

From the Faculty of Political Science

- JOHN W. BURGESS, Ph.D., LL.D..*Ruggles Professor of Political Science
and Constitutional Law*
- MUNROE SMITH, J.U.D., LL.D.....*Professor of Roman Law and
Comparative Jurisprudence*
- FRANK J. GOODNOW, LL.D.....*Eaton Professor of Administrative Law
and Municipal Science*
- JOHN B. MOORE, LL.D.....*Hamilton Fish Professor of International
Law and Diplomacy*

PURPOSES OF THE SCHOOL

The design of the School of Law is to afford a thorough, practical, and scientific education in the principles of:

The common and statute law of the United States.

The English and American system of equity jurisdiction.
 The public law of the United States and Europe.
 The Roman law—ancient and modern.
 Theoretical and comparative jurisprudence.

PROGRAM OF STUDIES

First Year

CONTRACTS—Keener's Cases on Contracts. 4 hours. Professor TERRY

¹ CRIMINAL LAW—Beale's Cases on Criminal Law. 3 hours, first half-year. Professor SCOTT

DOMESTIC RELATIONS—Smith's Law of Persons. 2 hours, second half-year. Professor SCOTT

EQUITY: Origin and Nature, Bills of Peace, Interpleader, Quia Timet, Removal of Cloud upon Title, Jurisdiction over Torts—Keener's Cases on Equity, vol. 1. 2 hours, second half-year. Professor STONE

PLEADING AND PRACTICE: Organization and Functions of Courts, Common Law and Equity Pleading—Ames's Cases on Common Law Pleading; Perry on Common Law Pleading; Thompson's Cases on Equity Pleading and Practice. 2 hours. Professor REDFIELD

REAL AND PERSONAL PROPERTY: Tenures, Estates, Nature and Incidents of Ownership, Conveyancing, Landlord and Tenant—Kirchwey's Readings in Real Property; Gray's Cases on Property, vol. 1. 2 hours. Professor KIRCHWEY

TORTS—Burdick's Cases on Torts; Pollock on Torts. 2 hours. Professor BURDICK

¹ AMERICAN CONSTITUTIONAL LAW IN ITS HISTORICAL DEVELOPMENT. 2 hours. Professor BURGESS

Second Year

ADMIRALTY—Ames's Cases on Admiralty. 2 hours, second half-year. Professor SCOTT

AGENCY—Wambaugh's Cases on Agency. 2 hours. Mr. REYNOLDS

BAILMENTS AND CARRIERS—McClain's Cases on Carriers; Beale and Wyman's Cases on Public Service Companies. 2 hours. Mr. REYNOLDS

EQUITY: Trusts—Ames's Cases on Trusts. 2 hours. Professor STONE

INSURANCE—Richards on Insurance. 2 hours, second half-year. Professor BURDICK

¹ The student may elect between Criminal Law and American Constitutional Law

NEGOTIABLE PAPER—Ames's Cases on Bills and Notes. 2 hours. Professor CANFIELD

PLEADING AND PRACTICE: Code Pleading and Practice—Redfield's Cases on Code Pleading and Practice, vol. i.; New York Code of Civil Procedure. 2 hours. Professor REDFIELD

QUASI-CONTRACTS—Keener's Cases on Quasi-Contracts. 3 hours, first half-year. Professor SCOTT

REAL AND PERSONAL PROPERTY: Easements, Covenants affecting Land, Watercourses, Public Rights, etc.—Gray's Cases on Property, vols. 2 and 3. 2 hours. Professor KIRCHWEY

SALES OF PERSONAL PROPERTY—Burdick's Cases on Sales (2d ed.); Burdick on Sales (2d ed.). 2 hours. Professor BURDICK

ADMINISTRATIVE LAW, (a) of the United States and Europe. 2 hours, first half-year. Professor GOODNOW

ADMINISTRATIVE LAW, (b) Law of Officers, Extraordinary Legal Remedies—Mandamus, Quo Warranto, Certiorari, Habeas Corpus, etc. 2 hours, second half-year. Professor GOODNOW

COMPARATIVE CONSTITUTIONAL LAW. 2 hours. Professor BURGESS
INSTITUTES OF ROMAN LAW. 2 hours. Professor MUNROE SMITH

Third Year

BANKRUPTCY AND INSOLVENCY—Williston's Cases on Bankruptcy. 2 hours, second half-year. Professor BURDICK

CORPORATIONS—Keener's Cases on Corporations. 2 hours. Professor CANFIELD

DAMAGES—Beale's Cases on Damages. 2 hours, first half-year. Mr. HAYES

EQUITY: Jurisdiction over Contracts, Account, Equitable Conversion—Keener's Cases on Equity, vols. 2 and 3. 2 hours. Professor STONE

EVIDENCE—Thayer's Cases on Evidence. 2 hours. Mr. KENNESON

MORTGAGES—Kirchwey's Cases on Mortgage. 2 hours. Professor SCOTT

PARTNERSHIP—Burdick's Cases on Partnership; Burdick on Partnership. 2 hours. Professor BURDICK

PLEADING AND PRACTICE: Code Practice, Provisional Remedies, Judgments, etc.—Redfield's Cases on Code Pleading and Practice, vol. ii. 2 hours, first half-year. Professor REDFIELD

REAL AND PERSONAL PROPERTY: Conditions, Future Estates, Priorities, Restraints on Alienation, Perpetuities, etc.—Gray's Cases on Property, vols. 5 and 6. 2 hours. Professor KIRCHWEY

SURETYSHIP—Ames's Cases on Suretyship. 2 hours, second half-year. Professor SCOTT

TRUSTS AND PERPETUITIES—Under the Revised Statutes of New York. 2 hours, second half-year. Professor CANFIELD

WILLS AND ADMINISTRATION—Gray's Cases on Property, vol. 4. 2 hours. Professor REDFIELD

AMERICAN CONSTITUTIONAL LAW—Private Rights under the Constitution. 2 hours. Professor BURGESS

COMPARATIVE JURISPRUDENCE. 2 hours. Professor MUNROE SMITH

CONFLICT OF LAWS. 1 hour. Professor MOORE

HISTORY OF EUROPEAN LAW. 2 hours. Professor MUNROE SMITH

INTERNATIONAL LAW. 2 hours. Professor MOORE

MUNICIPAL CORPORATIONS. 2 hours, first half-year. Professor GOODNOW

MODERN CIVIL LAW. 1 hour. Professor MUNROE SMITH

LAW OF TAXATION. 2 hours, second half-year. Professor GOODNOW

Carpentier Lectures

The University has recently received a fund, the gift of General H. W. Carpentier of the Class of 1848, established in memory of his brother, James S. Carpentier, for the purpose of maintaining "a special course of lectures on the science of law, to be given at the University at least as often as every third year, by some one from time to time to be chosen for pre-eminent fitness and ability."

The first course of lectures on this foundation was delivered in the fall of 1904, by the Rt. Hon. James Bryce, D.C.L., LL.D., M.P., on the subject "LAW IN ITS RELATIONS TO HISTORY."

Practice Courts

Moot Courts, conducted with special reference to the courses in pleading and practice, will constitute a regular feature of the work of the second and third years. They will be under the supervision of Mr. HAYES

Requirements for Admission

To the First-Year Class

All applicants for admission to the school must present satisfactory evidence of good moral character, and must be at least eighteen years of age for admission to the work of the first-year class at its formation, and of a corresponding increase of age for admission to advanced standing. They are admitted subject to the provisions of the Statutes of the University in regard to discipline.

Graduates of colleges and scientific schools in good standing are admitted without examination. All persons other than such graduates must present satisfactory evidence of preliminary training, obtained in

higher institutions of learning in this country or abroad, equivalent to that of a full college course.

To Advanced Standing

Two classes of students may enter on advanced standing at the beginning of the second year—(a) graduates of Columbia College, who have, after completing their junior year in the College, satisfactorily completed the work of the first year in the School of Law, and (b) graduates of any college or scientific school in good standing who have, after taking their first degree, satisfactorily pursued the study of law for at least a year in an approved law school. No school admitting its graduates to a degree in law on less than three years of systematic law-school work will be recognized as satisfying this requirement.

No one will be admitted to advanced standing beyond the second year except by special vote of the Faculty.

The examinations for advanced standing cover all the work previously done by the class to which admission is sought, and are held at the end of the academic year and during the week preceding the opening of the fall term. No certificate or diploma of work done elsewhere will be accepted in lieu of these examinations.

As Special Students

In exceptional cases qualified persons not candidates for the degree of LL.B., who are not eligible under this rule, may be admitted as special students by vote of the Faculty. No one will be admitted to the School to pursue advanced work as a special student who has not passed satisfactory examinations in the contract, equity, and property courses preceding such work in point of time.

Examinations

Written examinations are held at the end of each academic year on the subjects of that year, and on the subjects of the first and second years during the week preceding the opening of the fall term.

All students, whether regular or special, must, unless excused by the Dean, present themselves for examination in all the subjects for which they are registered at the first examination held therein, and, in case of excuse from any examination or failure therein, must take the next examination offered in such subject.

No student is admitted to advanced standing who has failed to pass satisfactory examinations in more than four hours of work per week. No student will be admitted to advanced standing as a member of the third-year class who has not at the beginning of his third year passed satisfactory examinations in all the subjects of the first year. No student failing a third time in any given subject will be allowed to continue in the school.

Special students must pass satisfactory examinations in not less

than 75 per cent. of the work for which they are registered, as a condition of continuing in the school. .

Students are not permitted to take examinations in courses for which they are not regularly registered.

No special examinations are given.

Degrees

The course of instruction leading to the degree of Bachelor of Laws covers a minimum period of three years, in which there are offered seventy-three hours of instruction per week throughout the year. In the first year are offered fifteen and one-half hours, in the second year twenty-three and one-half hours, and in the third year thirty-three hours of instruction per week. Courses not taken in the first or the second year may be elected as a part of the work of the following year.

The degree of Bachelor of Laws is conferred only upon students who have passed satisfactory examinations in courses covering a total of forty-two hours per week.

To obtain this degree in three years the student must take courses covering not less than thirteen nor more than fifteen hours per week in any one of the three years. While no student will be allowed to present himself for examination in any one year in subjects covering more than the number of hours so taken, any one desiring to prolong the period of study for the degree of LL.B. beyond three years will be permitted to reduce thereby the amount of work in any one year necessary for the degree. The Faculty would strongly advise students who have not made a thorough study of history, economics, and finance so to prolong their course of study, in order that they may avail themselves of the opportunities offered in the School of Political Science for pursuing these subjects.

The work selected by a student for a degree in law is subject in every case to the approval of the Dean.

For the requirements for the degree of Master of Arts, see page 209.

Scholarships

(See page 45)

Fees

(See page 23)

Law Library

The law library has been greatly extended and improved, and now consists of about 30,000 volumes, which have been carefully selected to meet the wants of students. It is especially rich in American, English, and British Colonial reports.

The general Library of the University, consisting of upwards of 365,000 volumes (see page 59), contains extensive collections of works relating to international, public, and Roman law.

REGISTER OF STUDENTS

School of Law

THIRD YEAR—CLASS OF 1905

ABBOTT, GARDNER.....	(Mhtn) New York City Yale University, A.B., 1902.

BROWN, HENRY LINN.....(Mhtn) New York City
 BRUNER, HOWARD EDWIN.....Rayne, La.
 Louisiana State University, A.B., 1903.

BULKLEY, HENRY DAGGETT.....East Orange, N. J.
 Columbia University, A.B., 1904

BUSHONG, ROBERT GREY.....Reading, Pa.
 Yale University, A.B., 1903.

CALLAHAN, GEORGE JOHN.....(Mhtn) New York City
 CANTRELL, LEWIS MEANS.....Spartanburg, S. C.
 Wofford College, A.B., 1903.

CHARD, STANDISH.....(Mhtn) New York City
 Amherst College, A.B., 1902.

CLARK, JOSHUA REUBEN, JR.....Salt Lake City, Utah
 University of Utah, B.S., 1898.

- CLOSE, EDWARD BENNETT.....Yonkers, N. Y.
 COLE, FRANK CLAYTON.....Ravenna, O.
 Ohio Wesleyan University, A.B., 1903.
 COOPER, CURTIS CALVIN.....Wilmington, Del.
 Delaware College, A.B., 1902.
 CRONE, HARRY.....(Mhtn) New York City
 College of the City of New York, B.S., 1902.
 CUSTER, GEORGE ARMSTRONG.....Salida, Colo.
 Wooster University, A.B., 1900.
 CUTLER, HUGH DYSART.....Cocacque, Canada
 Cornell University, A.B., 1902.
 DAVIS, ABRAHAM MOSES.....(Mhtn) New York City
 Columbia University, A.B., 1904.
 DIXON, BENJAMIN FRANKLIN, Jr.....Raleigh, N. C.
 Trinity College, A.B., 1903.
 ELGAR, HAROLD BENJAMIN.....(Mhtn) New York City
 Columbia University, A.B., 1904.
 FORD, F. GUALDO.....Morristown, N. J.
 FRECHTLING, HELM PHILIP.....Hamilton, O.
 GANS, JULIUS.....Chicago, Ill.
 Yale University, A.B., 1903.
 GARLOCK, MORGAN BIDLEMAN.....Little Falls, N. Y.
 Cornell University, A.B., 1904.
 GARRETSON, LELAND BEEKMAN.....Morristown, N. J.
 Princeton University, A.B., 1903.
 GOLDSMITH, IRVING ISLINGTON.....Saratoga Springs, N. Y.
 Cornell University, A.B., 1903.
 GRAVENSHORST, PAUL GERHARD.....(Bklyn) New York City
 Columbia University, A.B., 1904.
 GRIFFITH, JOHN MARTIN.....Evansville, Ind.
 Cornell University, A.B., 1903.
 HARRIS, WILLIAM MARVIN.....Monticello, Ark.
 University of Arkansas, A.B., 1903.
 HAVILAND, JOSEPH BERNARD.....Glen Falls, N. Y.
 Haverford College, A.B., 1902.
 HENDRICKSON, CHARLES LE ROY.....(Bklyn) New York City
 Columbia University, A.B., 1903.
 HESS, JEROME SAYLES.....(Mhtn) New York City
 Yale University, A.B., 1903.
 HIGGINS, JAMES CRANE.....East Orange, N. J.
 Yale University, A.B., 1902.
 HOENNINGER, JOHN CHARLES.....(Mhtn) New York City
 HOFFMAN, FRANK KNODE.....Hagerstown, Md.
 Franklin and Marshall College, A. B., 1903.
 HOFHEIMER, HENRY.....(Mhtn) New York City
 College of the City of New York, A.B., 1903.
 HORNIDGE, HENRY THATCHER.....(Mhtn) New York City
 College of the City of New York, A.B., 1903.
 HOUSTON, OSCAR REMPEL.....(Mhtn) New York City
 Columbia University, A.B., 1904.
 HURWITZ, DAVID EDWIN.....(Mhtn) New York City
 College of the City of New York, A.B., 1903.

- KILROE, EDWIN PATRICK.....Jersey City, N. J.
Columbia University, A.B., 1904.
- KOBBE, GEORGE LOUIS.....(Mhtn) New York City
Harvard University, A.B., 1903.
- LAWRENCE, GEORGE ALFRED.....(Mhtn) New York City
Leland Stanford, Jr., University, A.B., 1892.
Columbia University, M.D., 1895; A.M., 1896; Ph.D., 1902.
- LEIBENDERFER, RALPH JOHN.....Dayton, Ohio
Princeton University, A.B., 1902.
- LOENING, RUDOLPH RUBINO.....(Mhtn) New York City
Columbia University, A.B., 1904.
- MACMAHON, EDWARD WARD.....(Q) New York City
Holy Cross College, A.B., 1903.
- MACMURRAY, JOHN VAN ANTWERP.....(Mhtn) New York City
Princeton University, A.B., 1902.
- MALMBERRY, THEODORE JAMES WILLIAM.....(Mhtn) New York City
Columbia University, A.B., 1904.
- MARCUS, SAMUEL SHUAER.....(Br) New York City
College of the City of New York, A.B., 1903.
- MCDONALD, JAMES EDWARD WHITE.....(Mhtn) New York City
McGEHEE, ABNER, Jr.....Little Rock, Ark.
University of Arkansas, A.B., 1903.
- McKENNA, BERNARD CHARLES.....Long Branch, N. J.
Georgetown University, A.B., 1903.
- MEISEL, ALBERT WORTHINGTON.....(Bklyn) New York City
Brooklyn Polytechnic Institute, A.B., 1902.
- MEYER, GEORGE A.....Humphrey, Neb.
Freemont Normal College, B.S., 1901.
- MICHAELIS, WILLIAM.....(Mhtn) New York City
College of the City of New York, A.B., 1903.
- MILLER, FRANK LAUNTZ.....Somerset, Pa.
Lafayette College, Ph.B., 1903.
- MORROW, WILLIAM CARR.....Portland, Ore.
Leland Stanford, Jr., University, A.B., 1901.
- MOUNT, RUSSELL THEODORE.....East Orange, N. J.
Princeton University, A.B., 1902.
- MYERS, GEORGE.....(Mhtn) New York City
College of the City of New York, A.B., 1903.
- O'LOUGHLIN, GERALD STUART.....(Mhtn) New York City
Columbia University, A.B., 1903.
- O'SHEA, AMBROSE LUDDEN.....Utica, N. Y.
Holy Cross College, A.B., 1903.
- PARKER, WAYNE DEE.....Rensselaer, Ind.
Butler College, A.B., 1903.
University of Chicago, Ph.B., 1903.
- PINKS, JAMES LESLIE.....Clarion, Pa.
Indiana University, A.B., 1903.
- RAGSDALE, WILLIAM WHEAT.....Franklin, Ind.
Indiana University, A.B., 1903.
- RICHTER, THEODORE BERTRAM.....(Mhtn) New York City
College of the City of New York, A.B., 1902.
Harvard University, A.B., 1903.

- RIGGS, LAWRASON, JR.....(Mhtn) New York City
Columbia University, A.B., 1903.
- ROBERTS, RICHARD JOEL.....Sabetha, Kansas
De Pauw University, Ph.B., 1895.
- ROBINSON, JAMES LATIMER.....(Bklyn) New York City
Columbia University, A.B., 1904.
- SAYRE, LEWIS A.....(Mhtn) New York City
Yale University, A.B., 1903.
- SCHLEY, REEVE.....(Mhtn) New York City
Yale University, A.B., 1903.
- SCHROEDER, RUDOLPH.....Hoboken, N. J.
Columbia University, A.B., 1903.
- SCHWEGLER, FREDERICK HENRY.....(Mhtn) New York City
- SHORT, HENRY BLOUNT, JR.....Lake Waccamaw, N. C.
University of North Carolina, A.B., 1902.
- SMITH, CLAUDE ARCHER.....Owensville, Ind.
Indiana University, A.B., 1903.
- SOLOTAROFF, DAVID HERTZ.....(Mhtn) New York City
College of the City of New York, A.B., 1902.
- SPRINGS, ALBERT ADAMS, JR.....Georgetown, S. C.
South Carolina College, A.B., 1902.
- STARK, SAMUEL.....(Mhtn) New York City
College of the City of New York, B.S., 1903.
- STERN, HARRY ROOT.....(Mhtn) New York City
Yale University, A.B., 1903.
- STOWELL, HENRY WHITNEY.....New Haven, Conn.
Harvard University, A.B., 1899.
- SWARTS, LOUIS EMANUEL.....(Mhtn) New York City
Harvard University, A.B., 1903.
- SWORTFIGUER, HENRY BRAGDON.....(Mhtn) New York City
Columbia University, A.B., 1904.
- THEIL, SIGMUND SIDNEY.....(Mhtn) New York City
College of the City of New York, A.B., 1903.
- TROY, ANDREW CHARLES.....(Bklyn) New York City
Cornell University, A.B., 1903.
- TRUAX, HARRY.....Long Branch, N. J.
- UNGER, WILLIAM FRANK.....(Mhtn) New York City
College of the City of New York, A.B., 1902.
- UPDIKE, EDWIN HOYT.....(Mhtn) New York City
Columbia University, A.B., 1904.
- VON BERNUTH, RUDOLPH LUDWIG.....(Mhtn) New York City
Columbia University, A.B., 1903.
- WALLSTEIN, LEONARD MICHAEL.....(Mhtn) New York City
Columbia University, A.B., 1903.
- WALZ, JACOB.....(Mhtn) New York City
Columbia University, A.B., 1904.
- WEIL, JULIUS.....Lincoln, Neb.
University of Nebraska, LL.B., 1903.
- WYATT, CHRISTOPHER BILLOPP.....(Mhtn) New York City
Columbia University, A.B., 1903.

- YANCEY, GEORGE WILLIAM.....La Grange, Ga.
 ZINSLER, JACOB JOSEPH.....(Mhtn) New York City
 College of the City of New York, A.B., 1903.

Second Year—Class of 1906..... 99

FIRST YEAR—CLASS OF 1907

- ARMSTRONG, DAVID.....Rahway, N. J.
 Columbia University, A.B., 1901.
 ASHLEY, DOUGLAS V.....Binghamton, N. Y.
 Princeton University, A.B., 1904.
 BAUM, ARTHUR.....(Mhtn) New York City
 College of the City of New York, 1904.
 BEACH, WESLEY HERMAN.....Colton, Cal.
 Leland Stanford, Jr., University, A.B., 1900.
 BEARY, JOHN VAN HAL.....Thibodaux, La.
 Georgetown University, A.B., 1904.
 BENNETT, EUGENE BRISTOL.....New Haven, Conn.
 Yale University, Ph.B., 1904.
 BILLINGSLEY, HORACE MCCOOK.....Lisbon, O.
 Kenyon College, A.B., 1904.
 BOGGS, NORMAN TOWAR.....East Orange, N. J.
 Princeton University, A.B., 1904.
 BROWER, FARRAND DODD.....(Mhtn) New York City
 Columbia University, A.B., 1901.

PLAN OF THE BUILDINGS AND GROUNDS
COLLEGE OF PHYSICIANS AND SURGEONS
COLUMBIA UNIVERSITY

SCHOOL OF MEDICINE

COLLEGE OF PHYSICIANS AND SURGEONS

The instruction in medicine is given under the following departments:

ANATOMY	HISTOLOGY
BACTERIOLOGY AND HYGIENE	NEUROLOGY
CHEMISTRY, GENERAL	OBSTETRICS
CHEMISTRY, PHYSIOLOGICAL	PATHOLOGY
CLINICAL INSTRUCTION IN DERMATOLOGY, GENITO - URINARY DISEASES, LARYNGOLOGY, OPHTHALMOLOGY, ORTHOPEDIC SURGERY, OTOLOGY	PEDIATRICS
CLINICAL PATHOLOGY	PHARMACOLOGY, MATERIA MEDICA, AND THERAPEUTICS
GYNECOLOGY	PHYSICS
	PHYSIOLOGY
	PRACTICE OF MEDICINE
	SURGERY

Officers of the Faculty

SAMUEL W. LAMBERT, M.D.....	<i>Elected Delegate to the University Council, and Dean</i>
WALTER B. JAMES, M.D., LL.D.....	<i>Elected Delegate to the University Council</i>
JAMES DITMARS VOORHEES, M.D.....	<i>Secretary</i>

Committee on Administration

Drs. LAMBERT (Chairman), CURTIS, CRAGIN, JAMES, BLAKE, VOORHEES
(Secretary)

Committee on Admissions

Drs. HUNTINGTON (Chairman), PRUDDEN, LAMBERT, VOORHEES
(Secretary)

The Faculty

NICHOLAS MURRAY BUTLER, Ph.D., LL.D.,	<i>President</i>
JOHN G. CURTIS, M.D., LL.D..	<i>Professor of Physiology, Delegate to the University Council</i>
M. ALLEN STARR, M.D., LL.D., Sc.D.....	<i>Professor of Neurology</i>
GEORGE S. HUNTINGTON, M.D., Sc.D.....	<i>Professor of Anatomy</i>
T. MITCHELL PRUDDEN, M.D., LL. D.,	<i>Professor of Pathology; Director of the Laboratories of Pathology, Clinical Pathology, Bacteriology and Hygiene, and Histology</i>

EDWIN B. CRAGIN, M.D.....	<i>Professor of Obstetrics and Gynecology</i>
WALTER B. JAMES, M.D., LL.D.....	<i>Bard Professor of the Practice of Medicine</i>
L. EMMETT HOLT, M.D., LL.D., Sc.D.....	<i>Carpentier Professor of Pediatrics</i>
CHRISTIAN A. HERTER, M.D.....	<i>Professor of Pharmacology and Therapeutics</i>
SAMUEL W. LAMBERT, M.D.....	<i>Professor of Applied Therapeutics, Dean</i>
JOSEPH A. BLAKE, M.D.....	<i>Professor of Surgery</i>
WILLIAM J. GIES, M.S., Ph.D.....	<i>Adjunct Professor of Physiological Chemistry</i>
HARRY McMAHON PAINTER, M.D.....	<i>Professor of Clinical Obstetrics</i>
GEORGE E. BREWER, M.D.....	<i>Professor of Clinical Surgery</i>

JAMES W. McLANE, M.D.....	<i>Emeritus Professor of Obstetrics</i>
EDWARD CURTIS, M.D.....	<i>Emeritus Professor of Materia Medica and Therapeutics</i>
FRANCIS DELAFIELD, M.D., LL.D....	<i>Emeritus Professor of the Practice of Medicine</i>
WILLIAM T. BULL, M.D.....	<i>Emeritus Professor of Surgery</i>

For other officers see the departmental statements.

HISTORICAL STATEMENT

Kings College—the original foundation of Columbia University—organized a Medical Faculty in 1767 and was the first institution in the North American Colonies to confer the degree of Doctor of Medicine in course. The first individuals to graduate in medicine from the College were Robert Tucker and Samuel Kissam, who received the degree of Bachelor of Medicine in May, 1769, and that of Doctor of Medicine in May, 1770, and May, 1771, respectively. Instruction in medicine was given from this time on until the work of the College was broken up by the War of the Revolution. In 1784 an act was passed making Columbia College in the City of New York the successor of Kings College, and instruction was resumed in the academic department. Eight years later the Medical Faculty was re-established and was continued until 1814, when the Medical Faculty of Columbia College was merged in the College of Physicians and Surgeons, which had received an independent charter in 1807. In 1860, by agreement between the Trustees of the two institutions, the College of Physicians and Surgeons became the medical department of Columbia College, and from that time on the diplomas of the graduates were signed by the President of Columbia College as well as by the President of the College of Physicians and Surgeons. The connection was only a nominal one, however, until 1891, when the College was definitely merged in the University.

Since 1860 the degree of Doctor of Medicine has been conferred by Columbia University on 5356 men, including many of the most eminent practitioners in the United States.

BUILDINGS, GROUNDS, AND EQUIPMENT

The College of Physicians and Surgeons was first situated at 18 Robinson Street from 1807 to 1809. From 1809 to 1813 it was at 12 Magazine Street; from 1813 to 1837 at 3 Barclay Street; from 1837 to 1856 at 67 Crosby Street; and from 1856 to 1887 at 101 East Twenty-third Street. It now occupies a group of buildings given by the late William H. Vanderbilt, his sons Cornelius, William K., Frederick W., and George W. Vanderbilt, and by William D. Sloane, which stands upon thirty contiguous lots of land, bounded on the south, west, and north by Fifty-ninth Street, Amsterdam Avenue, and Sixtieth Street, respectively, and lying immediately opposite to the Roosevelt Hospital.

The Main Building

The College Building proper has been designed to facilitate the combination of theoretical instruction with laboratory work, which is essential to a modern scientific training. In this building, which has a floor space of 100,000 square feet, are the lecture halls, the recitation rooms, and the different laboratories, under the supervision of their respective professors, all thoroughly equipped for the routine work of the regular classes and for the special original and research work of the advanced students, instructors, and professors of the several departments.

In this building are the administrative offices, the laboratories of Physiology, General and Physiological Chemistry, Surgery, Pharmacology and Pharmaceutics, the Morphological Museums and Laboratory, a dissecting room accommodating 400 students, and two large amphitheatres.

For a more detailed account of the equipment of each department see the departmental statements.

Vanderbilt Clinic

THE VANDERBILT CLINIC is a fully equipped dispensary for the sick poor. It also affords ample material for extended practical clinical instruction in the various departments of Medicine and Surgery, as the professors, with their clinical assistants, have the entire charge of its practice.

The building is so arranged that each department has a room for the practical instruction to students in small sections, in addition to the rooms devoted to the treatment of patients; besides, there is a large theatre for clinical lectures and a smaller lecture hall.

All modern appliances for the treatment of diseases have been intro-

duced, so that students can learn thoroughly the use of all methods in each department, and can thus acquire a practical knowledge of all the "specialties" in medicine.

During the year 1903-04, 44,378 patients were treated, making 147,046 visits to the Clinic.

For detailed information as to the clinical lectures held here, see the departmental statements in this volume, or the special *Announcement of the College of Physicians and Surgeons*.

Sloane Maternity Hospital

BOARD OF MANAGERS: Mr. William D. Sloane, Dr. S. W. Lambert, Dean, Dr. George G. Wheelock, Dr. T. Mitchell Prudden, Dr. Walter B. James.

THE SLOANE MATERNITY HOSPITAL is situated at the corner of Fifty-ninth Street and Amsterdam Avenue, and the service is under the exclusive direction of the Professor of Obstetrics in the College of Physicians and Surgeons, the Instructor in Obstetrics being the Resident Physician. The wards of the Hospital furnish one hundred and sixteen beds, and there are ample accommodations for the house staff, students, and nurses. The operating room is equipped with all modern surgical and obstetrical conveniences and has seating accommodation for fifty-one students. When possible Professor CRAGIN holds operative clinics here.

The number of deliveries averages over fourteen hundred a year. These, with the obstetric operations and the subsequent treatment of women and infants, afford invaluable practical experience, such as is offered at no other medical school in this country.

Clinics at the Hospitals

The College is strongly represented on the staffs of most of the general and special hospitals of New York. In them both required and optional practical instruction is given by clinical lectures, in the dispensaries, and at the bedside, all of which are prominent features of the curriculum. Admission is free to all matriculates. These hospitals are as follows: Roosevelt, Bellevue, New York, Presbyterian, St. Luke's, General Memorial, Hospital for the Ruptured and Crippled, St. Mary's Free Hospital for Children, Willard Parker and Reception, Riverside, Foundling, and the Babies' Hospital. For a detailed statement see the *Announcement of the College of Physicians and Surgeons*.

Lectures

CARTWRIGHT LECTURES OF THE ALUMNI ASSOCIATION—According to the provisions of the Cartwright Trust, there is biennially given, under the auspices of the Alumni Association, a course of lectures more especially addressed to graduates in medicine. This course was de-

livered during the session of 1902-03 by Richard C. Cabot, M.D., of Boston.

GENERAL PLAN OF INSTRUCTION

The prescribed period of study for the degree of Doctor of Medicine is four years.

By permission of the Dean of Columbia College, the first year in the School of Medicine may be elected by members of the senior class in Columbia College who became students in the College not later than the beginning of their junior year, so that the degrees of Bachelor of Arts or Science and that of Doctor of Medicine can be obtained in seven years.

As a pre-requisite to the study of medicine, the more complete the preliminary education of the student the sooner and with the more understanding will he grasp the advanced subjects forming the groundwork of a medical course. This especially applies to the one who has had a college training and has acquired a sufficient knowledge of physics, general chemistry, and general biology, sciences justly considered to be an essential part of a thorough medical education.

In the arrangement of the different branches of the medical instruction a logical order of the main themes and a co-ordination in the work of each department have been sought after, enabling the student to concentrate his attention upon some one subject and to be so familiar with it that the allied subjects next to be taken up shall be readily understood. The salient features in the method of instruction are thorough laboratory training, frequent demonstrations, clinical teaching in the operating theatres and at the bedside as well as in the dispensaries, with recitations and didactic lectures to elucidate the many problems confronting the student.

Records of attendance and scholarship are kept, and before a student may advance with his class he must, besides passing a good examination in a subject, present certificates of satisfactory practical work.

In the first half of the *First Year* the time of the student is devoted largely to anatomy. The instruction is carried on mainly by numerous demonstrations to sections and by long periods of uninterrupted work in the dissecting room. In this part of the year the subjects of physics and general chemistry are dealt with. Students who have pursued elsewhere substantially equivalent courses in physics and general chemistry may be exempted from the work in these departments on presentation of satisfactory certificates, or after satisfactory examinations. In place of these subjects, if such students have a sufficient knowledge of biology they may take the course in physiological chemistry which is regularly given in the second year. Such students are also assigned to the histological laboratory for the first half-year. In the second half of the first year the study of physiology is begun, for which the students have been prepared by a course in

mammalian morphology. This subject is taught by didactic lectures, demonstrations, recitations, and practical work in the laboratory. At the same time the work in anatomy is continued, and one half of the class takes up the study of histology.

In the *Second Year* anatomy and physiology are completed. Physiological chemistry is studied in the laboratory and by lectures and recitations for half of the year. At the same time laboratory courses in pharmacology and bacteriology are pursued. As preliminaries to the third and fourth years, recitations from books are held in medicine, obstetrics, and materia medica, and instruction in surgery is begun.

During the *Third Year* recitations in medicine are continued and those in surgery, pediatrics, therapeutics, and gynecology are begun. There are didactic as well as clinical lectures in medicine, surgery, pharmacology, applied therapeutics, obstetrics, gynecology, neurology, and pediatrics, while the work of pathology, pathological anatomy, and clinical pathology is completed. The class is divided into small sections for instruction in physical diagnosis, and in the special branches of medicine and surgery at the various dispensaries and hospitals.

The student in the *Fourth Year* spends most of his time in the hospitals and dispensaries of the city. Consequently, although a few general and clinical lectures are still given, the work is almost entirely practical and bedside instruction. Divided into small groups, the students continue to come into personal contact with patients, under the supervision of the instructor. In this way they have the opportunity to become familiar with the history of a case, to make a complete physical examination, to form a diagnosis, to give a prognosis, to advise treatment, and to watch progress.

In the course in surgery the witnessing of numerous major and minor operations is supplemented by an operative course in which the student himself performs on the cadaver many of the more common operations. For an obstetrical service, the unsurpassed facilities of the Sloane Maternity Hospital offer excellent opportunities. Here the student is required to live for two weeks and personally attend a certain number of cases of labor. Finally, during the last year, the course is rounded out by personal instruction in the more special branches of medicine. In these branches the student is taught how to use many instruments of precision and to recognize and treat successfully many of the rarer forms of disease.

Letters requesting more detailed information than is contained in this Catalogue, and all correspondence regarding admission, should be addressed to the Secretary of the Faculty of Medicine, 437 West Fifty-ninth Street.

Information regarding board and lodging may be had from the

Assistant Registrar. The price of suitable accommodations in the vicinity ranges from \$5 to \$9 per week.

REQUIREMENTS FOR ADMISSION

To the First-Year Class

All candidates for the degree of Doctor of Medicine must present the medical-student certificate of the Regents of the University of the State of New York, granted on the basis of one or the other of the certificates named below:

(1) A certificate indicating (a) that the candidate has completed at least one full year's course of study in a college or scientific school registered by the Regents as maintaining a satisfactory standard; (b) that he holds a Bachelor's degree in arts or science, or its substantial equivalent conferred by any registered institution in France or Spain; (c) that he is graduated from a registered gymnasium in Germany, Austria, or Russia, or has completed a course of study equivalent thereto—as, for example, a course of five years in a registered Italian ginnasio and three years in a liceo.

(2) A certificate of the result of an examination conducted in June of any year by the College Entrance Examination Board, or in September of any year under the auspices of the Columbia University Committee on Entrance Examinations, or in part for both of these in the subjects enumerated below. These two sets of examinations are held upon the same requirements and are substantially the same in standard and administration. Candidates may forward their credentials received from either or both of these examining authorities to the Secretary of the Regents of the University of the State of New York, Albany, N. Y., and if they aggregate the necessary 15 points will receive in exchange therefor the medical-student certificate required for admission to the College of Physicians and Surgeons. Before forwarding his credentials to Albany, a candidate should present them to the Secretary of the Faculty of Medicine for a written certification as to the number of points with which on their basis a candidate may be credited. No part of the requirements which a candidate may pass will be allowed to stand to his credit for a longer period than sixteen months.

A "point" is regarded as being the equivalent of a course of study of five weekly periods throughout the academic year. The University publishes annually an Announcement of Entrance Examinations which gives a detailed definition of the requirement in each subject. This Announcement may be had upon application to the Secretary of Columbia University.

The examination subjects from which the candidate for admission to the College of Physicians and Surgeons must make his selection are as follows¹:

¹ For full definitions of the following Requirements see pages 194-208.

		COUNTING IN POINTS
The candidate <i>must</i> offer:		
English	3
Elementary French	}	2
or		
Elementary German	}	2
Elementary Latin, first half (Grammar and Com-		
position, and either 4 books of Cæsar or 6 Ora-		
tions of Cicero, or 6 books of Vergil's <i>Æneid</i>)	2
Elementary Mathematics	3
Total	10

The 5 additional points may be offered from the following subjects, the only restriction being that to offer an advanced subject will involve offering, either at the same time or earlier, the corresponding elementary subject.

		COUNTING IN POINTS
Elementary French, if not offered as above.	2
Elementary German, if not offered as above	2
Elementary Greek	3
Elementary History	2
$\frac{1}{2}$ Elementary Latin (4 books of Cæsar, or 6 ora-	tions of Cicero, or 6 books of Vergil's <i>Æneid</i> , Latin Composition II., and sight translation)	2
Elementary Physics		
Botany	I
Chemistry	I
Drawing	I
Physiography	I
Spanish	2
Zoölogy ¹	I
Intermediate French	I
Intermediate German	I
Advanced Greek ¹	I
Advanced History ¹	I
Advanced Latin ¹	I
Advanced Mathematics	I
Advanced Physics ¹	I

The June examinations of the College Entrance Examination Board are held simultaneously at a large number of places throughout the United States and at several points in Europe. The September examinations, under the authority of the University Committee on Entrance Examinations, are held at Columbia University only. In 1905, the examinations will be held June 19-24 and September 18-23.

For information as to the dates upon which applications for examination, either at Columbia University or elsewhere, must be filed, and for all other details regarding the administration of the examinations, inquirers are requested to consult without delay the Announcement of Entrance Examinations for 1905.

¹ Candidates will be examined in this subject only in September.

Admission with Conditions

Candidates who do not receive a grade of at least C (fair — 60 % to 75 %) in subjects amounting to at least 12 of the 15 points offered, will be rejected.

Candidates who receive a grade of C (fair — 60 % to 75 %) in subjects amounting to not less than 12 of the 15 points offered, will be admitted conditionally, under such stipulations as the Committee on Admissions of the Faculty of Medicine may impose; but, in every case, conditions imposed at entrance must be removed before the student is admitted to the second year of the course. Such candidates must submit to the Committee their credits from the College Entrance Examination Board and from the University Committee on Entrance Examinations of Columbia University on or before September 27, 1905.

To Advanced Standing

Admission may be granted to advanced standing at the beginning of the second or third year, and, with the special consent of the Faculty, of the fourth year.

Every applicant for advanced standing will be required (1) to present evidence of having had a sufficient preliminary education, meeting the requirements for admission to the first-year class; (2) to present satisfactory evidence of having attended, in a recognized medical school, courses reasonably equivalent to those already attended by the class to which he seeks admission; (3) to be examined for admission in all the subjects in which the said class shall have been examined already.

No certificate or diploma will be accepted in lieu of these examinations for advanced standing.

A candidate for admission to advanced standing at the beginning of the second or third year may be so admitted either unconditionally or conditionally. In the latter case, his admission will be upon the same terms as govern students who have pursued at this College the curriculum of the first or second year.

During the week before the opening of the academic year examinations in each subject of the curriculum of the Medical School will be held for delinquent students and for candidates for admission to advanced standing.

As Special Students

Students desiring to do special work at the College of Physicians and Surgeons may matriculate at any time during the year as special students. Such applicants, however, cannot subsequently become candidates for graduation without full compliance with the terms of admission and graduation.

Special students will be required to present to the Committee on Admission before entrance evidence of (a) an adequate preliminary

education, and (b) special fitness for the particular work they desire to pursue.

REQUIREMENTS FOR GRADUATION

Every candidate in the four-year course will be required before admission to the degree of M.D.:

1. To present satisfactory evidence, as required by law, of good moral character, and of having attained the age of twenty-one years.

2. To present evidence of having complied with the requirements for admission.

3. To have attained to satisfactory standing in the required studies of the four years of the curriculum. See table, page 267.

4. A candidate who shall have been admitted to advanced standing will be required to have spent not less than four academic years at the studies referred to in the clause next preceding; and to have complied successfully with the requirements for admission to advanced standing.

No two academic years which shall have begun during the same calendar year will be held to satisfy the requirements of the above clause.

THE DEGREE OF MASTER OF ARTS

The attention of students of Medicine is directed to Rule 10 of the Regulations for the Higher Degrees (page 209).

Students in the School of Medicine who are candidates for the degree of Master of Arts, under the provisions of this regulation, are subject to the regulations of the Faculty of Philosophy, Political Science, or Pure Science, under which the extra work is taken, and which finally recommends the candidates for the degree. Such students should apply to the Dean of the appropriate Faculty for a registration-book before taking up their work.

SCHOLARSHIPS, FELLOWSHIPS, AND PRIZES

For the Alonzo Clark Scholarship, see page 47.

For the University Fellowships, see page 32.

For the Alumni Association Fellowships, see page 46.

For the Proudft Fellowship, see page 47.

For the Harsen Scholarships, see page 47.

For the Alumni Association Prize, see page 47.

For the Cartwright Prize, see page 48.

For the Stevens Triennial Prize, see page 48.

For the Joseph Mather Smith Prize, see page 48.

EQUIPMENT AND COLLECTIONS

Detailed information as to the laboratories, collections, and other facilities for study will be found in the statements of the various departments of instruction, pages 65-190, and more fully in the *Announcement of the College of Physicians and Surgeons*.

COURSE OF STUDY LEADING TO THE DEGREE OF M.D.

(A much more detailed summary will be found in the special *Announcement of the College of Physicians and Surgeons*. The *Announcement* also gives full information as to the method whereby the standing of a student is determined at the end of each of the four years of the course.)

FIRST YEAR	SECOND YEAR	THIRD YEAR	FOURTH YEAR
Physics ³ ₁ Chemistry ¹ ₁ , ² ₃ Anatomy ² ₃ , ³ ₅ , ¹⁰ Normal Histology ¹ Physiology ³ <i>Examinations upon the work of the first year</i>	Anatomy ¹ ₆ , ⁷ ₈ , and ⁹ Physiology ³ Pathology ¹ Bacteriology and Hygiene ¹ Materia Medica, Pharmacology, and Therapeutics ¹ , ² , ³ Obstetrics ² Practice of Medicine ⁸ Physiological Chemistry ⁴ Surgery ⁸ <i>Examinations upon the work of the second year</i>	Materia Medica, Pharmacology, and Therapeutics ⁴ , ⁵ , ⁸ Pathology ² , ³ Practice of Medicine ¹ , ² , ¹ ⁴ , ⁷ , ⁹ Neurology ¹ Surgery ¹ , ² , ³ , ⁷ Obstetrics ¹ Gynecology ¹ , ² Genito-Urinary Diseases ¹ , ² , ³ Ophthalmology ¹ , ² Otology ¹ , ² Pediatrics ¹ , ⁴ , ⁷ , ⁸ Clinical Pathology ¹ <i>Examinations upon the work of the third year</i>	Practice of Medicine ¹ , ² , ³ , ⁵ , ⁶ , ⁹ Neurology ¹ , ² , ³ , ⁴ Surgery ² , ⁴ , ⁵ , ⁶ , ⁷ Orthopedic Surgery ¹ , ² Obstetrics ³ Gynecology ¹ , ³ , ⁴ Dermatology ¹ , ² Pediatrics ² , ³ , ⁵ Laryngology ¹ , ² , ³ <i>Examinations upon the work of the fourth year</i>

¹ In all subjects which are not completed in a single year, the instruction offered to a given student is different each year.

Consult the departmental statements (pp. 65-190) for:

- (1) The scope of each course, the number of hours required for it, and the instructors giving it;
- (2) Information regarding the courses open to special (graduate) students in medicine;
- (3) Courses which may be counted towards the degrees of A.M. and Ph.D.

Students who have pursued elsewhere courses in physics and general chemistry substantially equivalent to those given at this College, may be exempted from the work in those subjects on presentation of satisfactory certificates, or after satisfactory examination. In view of this fact students intending to pursue the study of medicine are recommended, in their preliminary education, to take thorough courses in physics and chemistry, including laboratory work in each.

REQUIREMENTS FOR LICENSE TO PRACTISE MEDICINE IN NEW YORK STATE

For information, see the *Announcement of the College of Physicians and Surgeons*.

SUMMER SESSION IN MEDICINE

Practical courses in medicine, varying from three to six weeks in length, for the benefit of practising physicians who desire opportunities for additional study and investigation, as well as for that of properly qualified students of medicine and surgery, are given from May until September of each year.

A general statement of the work offered will be found in connection with the statement of the Summer Session (see the Table of Contents), this volume, and a detailed announcement, showing the scope of each course, the conditions under which it is given, and the fee charged, will be sent upon application to the Secretary of Columbia University, New York City.

Students who have satisfactorily completed the practical clinical courses in this Summer Session may be excused from equivalent courses required for the degree of M.D.

REGISTER OF STUDENTS

College of Physicians and Surgeons

FOURTH YEAR—CLASS OF 1905

AGOSTINI, VICTORIANO DIEGO Y GODOY.....	Santiago, Cuba Provincial Institute, Santiago, A.B., 1898.
ALLERS, CHARLES LAWRENCE.....	(R) New York City
ARMSTRONG, EDGAR BOND.....	Paterson, N. J.
AUCHINCLOSS, HUGH.....	(Mhtn) New York City Yale University, A.B., 1901.
AUERBACH, JULIUS.....	(Mhtn) New York City

 RYAN, RALPH R.....Sharon, Conn.
 Yale University, A.B., 1902.
- RYAN, SYLVESTER EDWARD.....Springfield, Mass.
 ST. JOHN, WARREN WALLACE.....Troy, N. Y.
 SANDERS, GEORGE.....(Mhtn) New York City
 New York University, LL.M., 1897.
- SCHAEFER, EUGENE PAUL.....Newark, N. J.
 SCHAPIRO, JOSEPH.....(Mhtn) New York City
 College of the City of New York, B.S., 1901.
- SCHAYER, MAX.....(Mhtn) New York City
 SCHULMAN, MAXIMILIAN.....(Mhtn) New York City
 SCHWARTZ, DAVID BARNETTE.....(Bklyn) New York City
 SCHWARTZ, MYER EASER.....(Mhtn) New York City
 SEROTA, HARRY MOSES.....(Mhtn) New York City
 SHAPIRO, ABRAHAM ISADORE.....Yonkers, N. Y.
 SHENSTONE, NORMAN STRAHAN.....Toronto, Ont., Canada
 Toronto University, A.B., 1901.
- SMITH, GEORGE MILTON.....(Mhtn) New York City
 Yale University, A.B., 1901.
- SMITH, JOSEPH JACOB.....Hudson, N. Y.
 SMITH, MALCOLM EADIE.....Grand Rapids, Mich.
 SMITH, STAFFORD BAKER.....Hyannis, Mass.
 SMITH, WILLIAM SIDNEY.....Yaphank, N. Y.
 SODEN, GEORGE ARTHUR.....Newark, N. J.
 SOLLEY, FRANK DEMING.....Bethel, Conn.
 STARR, ISAAC PHILIP.....(Mhtn) New York City
 STEVENS, HARRY HARRINGTON.....Yonkers, N. Y.
 New York College of Pharmacy, Ph.G., 1899.
- SWIFT, MILNE BARKER.....Fall River, Mass.
 TERRY, WALTER RAYMOND.....Patchogue, N. Y.
 Wesleyan University, A.B., 1901.
- TIFFANY, WILLIAM JAMES.....Richford, N. Y.
 TOWNSHEND, RAYNHAM.....New Haven, Conn.
 Yale University, Ph.B., 1900.
- TULIPAN, LOUIS.....(Mhtn) New York City
 VALENTINE, JULIUS JOHN.....(Mhtn) New York City
 VEVE, JOHN.....Fajardo, Porto Rico
 Porto Rico University, A.B., 1897.
- VILLOLDO, PEDRO.....Havana, Cuba
 VOLK, MAX.....(Mhtn) New York City
 VOORHEES, IRVING WILSON.....Griggstown, N. J.
 Princeton University, B.S., 1901.
- WERTHEIM, LEOPOLD LEO.....(Bklyn) New York City
 WHITE, DAVENPORT.....Cannon, Conn.
 Yale University, Ph.B., 1901.
- WHITE, ROBERT POTTS.....Jersey City, N. J.
 WILSON, JOHN ROBERT.....Hoosick Falls, N. Y.
 WISANSKY, JACOB.....(Mhtn) New York City
 College of the City of New York, B.S., 1901.
- WOLF, JACOB IRVING.....(Mhtn) New York City
 College of the City of New York, B.S., 1901.
- WRIGHT, HAROLD WALGROVE.....Elizabeth, N. J.

ZEILER, AVRUM HERMAN.....Leadville, Colo.
 ZIGLER, MAX.....(Mhntn) New York City

Fourth Year—Class of 1905..... 190

THIRD YEAR—CLASS OF 1906

ABRAMS, SAMUEL DOUGHTY.....Lawrence, R. I.
 APPLEGATE, EDWARD TAYLOR RIGGS, JR.....Hightstown, N. J.
 Princeton University, B.S., 1902.

ASTLE, CHRISTOPHER.....Providence, R. I.
 Brown University, A.B., 1902.

BAKER, ROLLIN OLIVER.....Lockport, N. Y.
 BAKST, JOSEPH.....(Mhntn) New York City
 BARROWS, STERLING.....Orange, N. J.
 BARTLETT, LAURENCE STEWART.....(Mhntn) New York City
 Princeton University, A.B., 1901.

BAYLES, WILLIAM HENRY.....New Rochelle, N. Y.
 BERNSTEIN, MAX.....(Mhntn) New York City
 BICKELHAUPT, BERTRAM SAMUEL.....(Mhntn) New York City
 BIRDSALL, CLARENCE ATHERTON.....Jersey City, N. J.
 BOOKMAN, MILTON RALPH.....(Br) New York City
 BOSWELL, JOHN ARTHUR.....Amsterdam, N. Y.
 BRANCATO, PETER.....(Mhntn) New York City
 BURNHAM, ATHEL CAMPBELL.....Mt. Vernon, N. Y.
 BURROWS, ELLIOTT CYRIL.....Elizabeth, N. J.
 BUTLER, EUSTACE CAMERON.....Bahamas, W. I.
 New York College of Pharmacy, Ph.G., 1901.

CASAMAJOR, LOUIS.....(Bklyn) New York City
 Columbia University, A.B., 1903.

CASPER, JOSEPH.....Salem, N. J.
 Princeton University, B.S., 1902.

COHEN, EMANUEL.....(Mhntn) New York City
 CONLEY, DUDLEY STEELE.....Columbia, Mo.
 Missouri State University, B.L., 1899.

CORSCADEN, JAMES ALBERT.....Middletown, Conn.
 Wesleyan University, Ph.B., 1902.

DAY, HOMER LELAND.....San Francisco, Cal.
 Leland Stanford, Jr., University, A.B., 1901.

DECKER, CHARLES THURSTON.....Westfield, N. J.
 DENNO, WILLARD JOSEPH.....Castleton, Vt.
 Yale University, A.B., 1903.

DETWILLER, ALBERT KNECHT.....Easton, Pa.
 Lafayette College, Ph.B., 1901.

DRAPER, GEORGE.....(Mhntn) New York City
 Harvard University, A.B., 1903.

DRENNEN, WESTLEY EARLE.....Birmingham, Ala.
 University of Alabama, A.B., 1902.

DU BOIS, EUGENE FLOYD.....West New Brighton, S. I.
 Harvard University, A.B., 1903.

EDGAR, JOSEPH ALEXANDER.....Jersey City, N. J.
 EHRLHARDT, CHARLES FREDERICK.....(Mhntn) New York City
 EISENBERG, ABRAHAM DAVID.....(Mhntn) New York City
 ELMENDORF, WILLIAM TEN-EYCK.....(Mhntn) New York City
 Rutgers College, A.B., 1902.

- ENGELSON, JOSEPH ENGEL.....(Br) New York City
 FELBERBAUM, DAVID.....(Mhtn) New York City
 FINE, ABRAHAM.....(Bklyn) New York City
 FINE, MORRIS.....(Mhtn) New York City
 FISCHER, HENRY ARCHBOLD.....(Mhtn) New York City
 FISHER, CHARLES FRANK.....(Bklyn) New York City
 FLEMMING, EDWARD ALBERT.....(Bklyn) New York City
 FRIEDER, WILLIAM.....(Mhtn) New York City
 FRIEDMAN, SIMON SIDNEY.....(Mhtn) New York City
 College of the City of New York, A.B., 1902.
- GILLEN, WILLIAM ALOYSIUS, Jr.....Jersey City, N. J.
 St. Francis Xavier College, A.B., 1902.
- GOLDBERGER, LEWIS ARTHUR.....(Mhtn) New York City
 College of the City of New York, A.B., 1902.
- GOLDMAN, ALEXANDER.....(Mhtn) New York City
 New York College of Pharmacy, Ph.G., 1897.
- GORDON, DONALD, Jr.....(Bklyn) New York City
 GOTTESMAN, ABRAHAM.....(Mhtn) New York City
 GRAHAM, JOHN ELIOTT.....Little Falls, N. Y.
 GREENSPAN, SAMUEL.....(Mhtn) New York City
 GROESCHEL, LESSER BERNHARDT.....Chester, S. C.
 GROSSMAN, LOUIS JOSEPH.....(Bklyn) New York City
 HARRINGTON, JAMES TAYLOR.....Short Hills, N. J.
 Harvard University, A.B., 1899.
- HARRIS, HARRY BLATT.....Orange, N. J.
 HART, LEONARD.....Jackson, Miss.
 Millsaps College, B.S., 1902.
- HENRY, MORRIS WALGROVE.....(Bklyn) New York City
 HENSCHEL, LOUIS KAUFMAN.....(Mhtn) New York City
 HOLZMAN, ARTHUR CHESTER.....(Bklyn) New York City
 HOWELL, ERNEST TITUS DEAN.....(Mhtn) New York City
 HOWLAND, DE RUYTER.....New Rochelle, N. Y.
 HUYCK, RALPH PRYNE.....Herkimer, N. Y.
 HYMAN, DAVID.....(Mhtn) New York City
 ITTELSON, MAX.....(Mhtn) New York City
 JANÉ, ALBERT CRISTOBAL.....Guantanamo, Cuba
 Provincial Institute, Santiago, A.B., 1891.
- JOELSON, MORRIS SAMUEL.....Paterson, N. J.
 JOHNSON, FREDERICK A.....(Mhtn) New York City
 KAUFMAN, IGNATZ.....(Br) New York City
 KIBBE, EDWIN JACKSON.....Batavia, N. Y.
 KIMBALL, PAUL WELLINGTON.....(Mhtn) New York City
 Amherst College, A.B., 1902.
- KINGSLEY, ROLFE.....(Mhtn) New York City
 Yale University, Ph.B., 1902.
- KOBLER, EARL WILLIS.....Upper Montclair, N. J.
 LANDESMAN, ISIDOR LOUIS.....(Mhtn) New York City
 LANDSMAN, ISIDORE JOSEPH.....(Mhtn) New York City
 College of the City of New York, A.B., 1901.
- LASHER, FRANK HERMANCE.....Poughkeepsie, N. Y.
 LAWLOR, MICHAEL JOSEPH.....Waterbury, Conn.
 Holy Cross College, A.B., 1902.
- LEBOWITZ, EMANUEL FREDERICK.....(Mhtn) New York City
 College of the City of New York, B.S., 1902.

- LEDERER, MAX.....(Bklyn) New York City
 LEE, WILLIAM RUMFITT, JR.....Troy, N. Y.
 LEVINE, BENJAMIN MEYER.....(Mhtn) New York City
 LEWIS, HOWARD TAYLOR.....Plainfield, N. J.
 Alfred University, B.S., 1902.
 LIEB, CHARLES CHRISTIAN.....(Mhtn) New York City
 Columbia University, A.B., 1902.
 LINDEMAN, HOWARD EDWARD.....(Mhtn) New York City
 LOVE, TRACY ROBINSON.....Denver, Colo.
 Colorado College, Ph.B., 1902.
 LYON, EDWARD CRANE.....Caldwell, N. J.
 Princeton University, A.B., 1902.
 MCCORMACK, WILLIAM GUILDING, JR.....(Mhtn) New York City
 MCKALLAGAT, PETER LEO.....Lawrence, Mass.
 MCNULTY, EDWARD TINNEY.....(Bklyn) New York City
 MACRAE, RICHARD MONCURE.....(Mhtn) New York City
 MERRIMAN, MERRIT HEMINWAY.....(Mhtn) New York City
 Yale University, A.B., 1901.
 MININGHAM, WILLIAM DARCY.....Jersey City, N. J.
 MOCKRIDGE, OSCAR ABRAHAM.....Newark, N. J.
 Pennsylvania Military College, B.S., 1901.
 MONTY, ADELBERT HOWARD.....Holyoke, Mass.
 MORETSKY, HENRY MOSES.....(Mhtn) New York City
 MORTON, CHARLES EDWARD.....Webster, Mass.
 OBERWAGER, JOHN.....(Mhtn) New York City
 College of the City of New York, A.B., 1901.
 OPPENHEIMER, FREDERIC GOLDING.....San Antonio, Texas
 Columbia University, A.B., 1902.
 OSNATO, MICHAEL.....(Mhtn) New York City
 PEASE, MARSHALL CARLETON, JR.....(Mhtn) New York City
 Beloit College, B.S., 1902.
 PHELPS, GOUVERNEUR MORRIS.....New Rochelle, N. Y.
 Harvard University, B.S., 1902.
 PHILLIPS, CHARLES.....(Mhtn) New York City
 PORTER, JOSEPH YATES, JR.....Key West, Fla.
 PRATT, CHARLES HOWARD.....Passaic, N. J.
 RAABE, ALFRED.....(Br) New York City
 RAY, EDGAR THOMAS.....(Mhtn) New York City
 College of the City of New York, A.B., 1902.
 REUBEN, MARK.....(Mhtn) New York City
 College of the City of New York, A.B., 1902.
 RICE, FREDERICK WALTER.....Bangor, Me.
 Holy Cross College, A.B., 1902.
 ROSENTHAL, JOSEPH.....(Mhtn) New York City
 ROSS, CARL ARTMAN.....Dansville, N. Y.
 ROSSANO, AUGUSTUS THOMAS.....(Mhtn) New York City
 RYTTEMBERG, CHARLES.....Sumter, S. C.
 University of South Carolina, A.B., 1902.
 SAMMIS, JESSE FLEET.....(Mhtn) New York City
 Princeton University, A.B., 1902.
 SCHULMAN, ROBERT.....(Bklyn) New York City
 Columbia University, A.B., 1903.
 SCHUMER, HENRY.....(Mhtn) New York City
 SCHWARTZ, PETER.....(Mhtn) New York City

- SCRUTON, WILLIAM ALFRED.....(Mhtn) New York City
New York College of Pharmacy, Phar.D., 1898.
- SEARS, HENRY CLARK.....Binghamton, N. Y.
- SELVAGE, CHARLES EDWIN.....Newark, N. J.
- SEVERSON, IRWIN WINT.....Pittston, Pa.
- SHAINÉ, MARKS SOLOMON.....(Mhtn) New York City
College of the City of New York, A.B., 1902.
- SHEA, WILLIAM ALBERT.....Ashland, Wis.
Notre Dame University, Indiana, Litt.B., 1902.
- SHERWOOD, WILLIAM DAVIES.....(Br) New York City
- SILVERMAN, SAMUEL TILDEN.....(Mhtn) New York City
- SINGER, DAVID A.....(Mhtn) New York City
College of the City of New York, A.B., 1903.
- SIROVICH, WILLIAM IRVING.....(Mhtn) New York City
College of the City of New York, A.B., 1902.
- SLOCUM, ARTHUR LANGFORD.....(Mhtn) New York City
Brown University, A.B., 1901.
- SMITH, SCOTT LORD.....South Wilton, Conn.
Yale University, A.B., 1902.

THE SCHOOL OF MINES

THE SCHOOL OF CHEMISTRY

THE SCHOOLS OF ENGINEERING

Under the University organization of Divisions these include:

The Division of Chemistry

The Division of Engineering, comprising the Departments of Civil Engineering

Electrical Engineering and

Mechanical Engineering

The Division of Mining and Metallurgy

In addition to the above, students under this Faculty attend courses in the Division of Mathematical and Physical Science, including Astronomy, Mathematics, Mechanics, Physics, and in the Division of Geology, Geography, and Mineralogy.

Officers of the Faculty

FREDERICK R. HUTTON, E.M., Ph.D., Sc.D. *Dean (term expires 1905)*
and *ex-officio Member of the University Council*

GEORGE F. SEVER *Secretary*

HENRY S. MUNROE, E.M., Ph.D., Sc.D. *Elected Delegate to the*
University Council

Standing Committees

COMMITTEE ON ADMINISTRATION: Professors Hutton (Chairman), Van Amringe, Burr, Sever, Bogert.

COMMITTEE ON ADMISSIONS: Professors Miller (Chairman), Hallock, Keyser, Peele, Lovell.

The Faculty

NICHOLAS MURRAY BUTLER, Ph.D., LL.D., *President*

J. HOWARD VAN AMRINGE, Ph.D., L.H.D., LL.D. *Professor of*
Mathematics

CHARLES F. CHANDLER, Ph.D., M.D., LL.D., Sc.D. *Mitchill Professor*
of Chemistry

HENRY S. MUNROE, E.M., Ph.D., Sc.D. *Professor of Mining*

FREDERICK R. HUTTON, E.M., Ph.D., Sc.D. *Professor of Mechanical*
Engineering and Dean of the Faculty

JOHN KROM REES, E.M., Ph.D....	<i>Rutherford Professor of Astronomy</i>
ALFRED J. MOSES, E.M., Ph.D.....	<i>Professor of Mineralogy</i>
JAMES F. KEMP, A.B., E.M.....	<i>Professor of Geology</i>
ROBERT PEELE, E.M.....	<i>Professor of Mining</i>
WILLIAM HALLOCK, Ph.D.....	<i>Professor of Physics</i>
FRANCIS B. CROCKER, E.M., Ph.D..	<i>Professor of Electrical Engineering</i>
MICHAEL I. PUPIN, Ph.D., Sc.D.....	<i>Professor of Electro-Mechanics</i>
WILLIAM H. BURR, C.E.....	<i>Professor of Civil Engineering</i>
ROBERT S. WOODWARD, C.E., Ph.D., LL.D....	<i>Professor of Mechanics and Mathematical Physics</i>
THOMAS SCOTT FISKE, Ph.D.....	<i>Professor of Mathematics</i>
HAROLD JACOBY, Ph.D.....	<i>Professor of Astronomy</i>
CHARLES R. RICHARDS, B.S....	<i>Professor of Manual Training, Teachers College</i>
HENRY M. HOWE, A.M., S.B.....	<i>Professor of Metallurgy</i>
CHARLES E. PELLEW, E.M.....	<i>Adjunct Professor of Chemistry</i>
EARL B. LOVELL, C.E.....	<i>Adjunct Professor of Civil Engineering</i>
GEORGE FRANCIS SEVER...	<i>Adjunct Professor of Electrical Engineering</i>
JAMES MACLAY, C.E., Ph.D.....	<i>Adjunct Professor of Mathematics</i>
EDMUND HOWD MILLER, Ph.D.....	<i>Professor of Analytical Chemistry</i>
MARSTON TAYLOR BOGERT, A.B., Ph.B.....	<i>Professor of Organic Chemistry</i>
J. LIVINGSTON RUTGERS MORGAN, Ph.D..	<i>Adjunct Professor of Physical Chemistry</i>
AMADEUS W. GRABAU, S.D.....	<i>Adjunct Professor of Palæontology</i>
RALPH EDWARD MAYER, C.E.....	<i>Adjunct Professor of Mechanical Drawing</i>
IRA H. WOOLSON, E.M...	<i>Adjunct Professor of Mechanical Engineering</i>
CASSIUS JACKSON KEYSER, Ph.D...	<i>Adrain Professor of Mathematics</i>
HERSCHEL C. PARKER, Ph.B.....	<i>Adjunct Professor of Physics</i>
GEORGE L. MEYLAN, A.M., M.D.....	<i>Adjunct Professor of Physical Education</i>
AMASA TROWBRIDGE, Ph.B.....	<i>Adjunct Professor of Mechanical Engineering</i>
LEA McILVAINE LUQUER, Ph.D.....	<i>Adjunct Professor of Mineralogy</i>
BRADLEY STOUGHTON, B.S.....	<i>Adjunct Professor of Metallurgy</i>

PROFESSIONAL COURSES

The Faculty of Applied Science has charge of the following schools:

1. The SCHOOL OF MINES, with four-year courses leading to the degrees of Engineer of Mines and Metallurgical Engineer.
2. The SCHOOL OF CHEMISTRY, with four-year courses in Analytical, Industrial, and Organic Chemistry, leading to the degree of Bachelor of Science.
3. The SCHOOLS OF ENGINEERING, with four-year courses in Civil Engineering, Sanitary Engineering, Electrical Engineering, and Mechanical Engineering, the first two leading to the degree of Civil

Engineer, and the others to the degree of Electrical Engineer and Mechanical Engineer, respectively.

Full particulars regarding each of these courses of study are contained in special circulars, which will be forwarded on application to the Secretary of the University.

These courses are intended to meet the requirements of the several professions indicated. Many of the courses permit a certain amount of specialization, particularly in the fourth year. The courses in the School of Mines are so arranged that the student can emphasize the engineering, the metallurgical, or the geological side of his profession, while one of the alternative courses in Mechanical Engineering is designed for those who wish to make a specialty of mine plant and machinery. A course in Sanitary Engineering (leading to the degree of Civil Engineer) is provided for those who wish to prepare themselves for this important branch of civil engineering. The Mechanical Engineering course offers three alternatives in the fourth year, emphasizing, respectively, the dynamic, the marine, and naval architectures, and the locomotive sides of the mechanical engineer's work. Three courses are offered in Chemistry: for analytical, industrial, and organic chemists, respectively.

Modifications of Regular Courses

Under By-Law 2, page 290, a student will be permitted to substitute one study for another in any of the regular courses. By taking advantage of this provision students can fit themselves for special lines of professional work without losing their degree.¹

Special Privileges for Graduate Students

Graduates of colleges or scientific schools are admitted to advanced standing in any of the regular professional courses, as candidates for a degree. Such students are given credit for all courses of which they have had the substantial equivalent, and are permitted to take any course of study for which they are qualified. If possible, such students should make arrangements to attend, before entrance, the required summer classes of the course which they intend to take.

ADMISSION

The Committee on Admissions of the Schools of Applied Science and Architecture has charge of everything relating to this subject. Candidates for admission to the first-year class, at its formation, must be at least eighteen years of age. For further regulations see Admission to Columbia College, page 217.

¹ It is particularly recommended, for example, that students whose professional work is likely to take them to Spanish America should arrange for a proper course in the Spanish language.

Requirements for Admission

Every candidate for admission to the first-year class is required at the entrance examinations (see pages 191-208) to offer subjects amounting to sixteen points¹ as indicated below.

The candidate *must* offer:

	COUNTING IN POINTS
Chemistry (page 195).....	1
Freehand Drawing (page 196).....	1
English (page 197).....	3
Elementary German (page 199).....	2
Elementary History (page 202).....	2
Elementary Physics (page 206).....	1
Mathematics, elementary and advanced (page 205)	4
and two points from one of the following subjects:	
Elementary French (page 198).....	2
Elementary Latin (page 204).....	2
Spanish (page 207).....	2

Certificates in Lieu of Entrance Examinations

The same regulations apply to the Schools of Applied Science as to Columbia College, and to the Committee on Admissions of the Schools of Applied Science and Architecture as to the Committee on Admissions of Columbia College (see page 218.)

Report of Entrance Examinations

Similarly see the Report of Entrance Examinations in Columbia College, page 219.

Except for reasons of weight, no student will be admitted who is deficient in Mathematics, Chemistry, or Physics.²

Admission to Advanced Standing

Candidates for admission from other universities or colleges, and those desiring to be admitted to advanced standing on examination, must make application in writing to the Chairman of the Committee on Admissions of the Schools of Applied Science and Architecture in time to reach him before September 11, 1905.

¹ The several subjects are stated in terms of units; the unit is a course of five periods weekly throughout an academic year of the preparatory school; the subjects are assigned units in accordance with the time required to prepare adequately upon them for college entrance.

² It is suggested that candidates deficient in these subjects in June arrange to take courses in them in the Summer Session of Columbia University, the Announcement of which will be sent upon application to the Secretary of the University.

The application must be accompanied by:

1. A catalogue of the institution for work in which credit is desired. The courses which the candidate has completed must be distinctly marked in this catalogue.
2. Properly certified official statements of his standing in the subjects which he offers.
3. Letters or other evidence vouching for his character and honorable dismissal from the institution from which he comes.

Each candidate for a degree seeking admission to advanced standing must show that he has attained proficiency in the equivalents of:

1. The requirements for admission to the first-year class.
2. All the prescribed studies already pursued by the class to which he seeks admission.

A candidate may be admitted notwithstanding deficiencies in some of these studies, but no candidate will be recommended for a professional degree until he shall have completed all the studies required for that degree.

No applicant will be allowed to enter the fourth-year class as a candidate for a degree after October 15 in any year.

The Committee on Admissions will notify the candidate by mail at the address given in his letter, between September 11 and 16, 1905,¹ what courses, of those offered, are accepted as equivalent to courses at Columbia University. The Committee only gives credit for complete courses. In cases where the work previously done by the candidate has not been accepted by the Committee, the candidate may present himself for examination during the week immediately preceding the opening of the University, in 1905, September 18-23, at the time and places at which the regular fall examinations are held. When no regular examination is held for the course at this time, the candidate may present himself for examination between the hours of 10 A.M. and 12 M. at the office of the head of the department giving the course. The schedule of fall examinations is to be obtained from the Registrar. A fee of \$5 is charged for these examinations, for all applicants who do not take them at the regular time.

In cases where credit for part of a course might be given, the candidate will present his case to the department concerned, at the times given above, for final adjustment. He should bring with him drawings, note-books, or other evidence showing the scope and character of the work for which he wishes credit.

Examinations will not be given after the opening of the University except for reasons of weight.

¹ When the candidate is at a considerable distance from the University, his application must be made earlier than September in order that he may receive the reply in time to present himself at the University on September 18, 1905.

Special Students

Graduates of the School of Mines, the School of Chemistry, the Schools of Engineering, and of other institutions of equal standing, may pursue any subjects taught in the schools for which they are properly qualified.

Except for reasons of weight, satisfactory to the Committee on Admissions, no one will be received as a special student who is unable to meet the regular entrance requirements, or who has, within ten months of the time of his application, been rejected as a regular student, or has, within that period, become deficient as a regular student. No one will be admitted as a special student who wishes merely to pursue elementary subjects included among the requirements for admission to the College or Schools of Applied Science.

Persons of mature age who are not graduates, but who show special qualifications, are sometimes permitted to pursue special courses, but this permission is not given to others.

In the courses which they severally pursue special students will be held to the observance of the same regulations as to attendance, examination, proficiency, and deficiency as regular students.

Registration

For the regulations prescribed for all students, see page 22. For such further regulations as may be prescribed for the students of the Schools of Applied Science, see the Circular of General Information for 1905-06.

Fees

(See page 23)

By-Laws of the Faculty

1. No student is allowed to be a candidate for more than one of the professional degrees at the same time.
2. For reasons of weight the substitution of a subject in any professional course for an approved equivalent may be made by the Dean on the request of any candidate for a degree, provided that such substitution have the approval of the heads of the departments concerned and of the department giving the technical instruction that leads to the degree for which the student is a candidate.
3. Prompt and regular attendance is required of every student upon the exercises and examinations of the courses for which he is enrolled.
4. The instructor in each subject shall keep a careful record of the attendance, and, as far as practicable, of the scholarship, of all students entitled to attend that subject. It shall be the duty of the instructor to warn any student found deficient in scholarship or irregular in attendance, and if such deficient scholarship or irregular attendance continue thereafter he shall report his name through the head of the department to the Dean.

5. Any student so reported may be put upon probation by the Dean, or debarred by him from examination after due opportunity for personal explanation.

6. The Dean may also debar from examination in any subject any student reported to him as having incurred, with or without good reason, absences so numerous that, in the judgment of the head of the department concerned, it has become essential that he should repeat that subject; and any student so debarred shall not be admitted to examination in that subject until he has attended the full course therein.

7. By special permission of the Dean, with the concurrence of the head of the department concerned, students may attend exercises not required in the class or subject to which they belong, provided that such attendance does not interfere with the required exercises of their class. Such students are held to the same rules as to attendance and examination in their extra studies as in the required studies of their class.

8. Any student who shall have passed a satisfactory examination in Columbia College in any study forming a part of one of the professional courses in the schools under the Faculty of Applied Science will not be required to pursue that study a second time.

Examinations and Standing

9. Regular examinations in each course will be held at the end of the first half-year (mid-year), or at the end of the year (final). All other examinations, except examinations for admission to advanced standing, are special examinations.¹ Such examinations for students debarred or deficient at the regular examinations will be held during the two weeks preceding the opening of the first half-year, and for members of the fourth class only, and for subjects belonging to that year only, in the first week in May. In the case of subjects and courses which require the use of collections and apparatus, the special examination will be held during the week following the holidays at Christmas.

10. A student found deficient in a subject at any of the examinations above provided will not be allowed a further special examination in that subject.

11. A student absent from the regular mid-year, final, or stated special examinations will be considered to have failed to pass that examination, and will not be allowed a further special examination in that subject, except that, if the absence was due to unavoidable circumstances, the Dean may, on proper written certification of these circumstances, grant such special examination.

12. The fee for special examination is \$5.00, which must be paid by the student before being admitted to the examination. If a student has special examinations in several subjects granted to him under one

¹ For such examinations a fee of \$5 is charged as in Rule 12.

permit from the Dean, specifying each subject, one fee of \$5.00 shall cover them all.

13. Every officer, after the stated examinations have been held, shall report to the Registrar a list of all students who have attended his instruction, indicating their proficiency by numbers on a maximum of 10, a mark below 6 constituting a failure to pass. A student reported in grade 6 in a majority of the subjects pursued by him in any year, and not reported in grade 8 or higher in the greater part of the remainder of such subjects, will not be permitted to go on with his class without the consent of the Dean and the head of the department giving the technical instruction that leads to the degree for which the student is a candidate. This consent will be given only for reasons of weight, but the student may enter the next succeeding class and pursue such subjects as may be required of him. Each student's record will be transmitted to him at the close of each year.

14. Any student who shall fail to pass in any of his studies at the regular mid-year or final examinations shall present himself for a second examination as above provided under the By-Laws; failing to pass in this second examination he shall be dropped from his class and required to repeat the subject with the next following class, but the Dean may exercise his discretion in excusing him from attendance on the exercises of such a subject, holding him to such other requirements as may seem advisable; failing a third time to pass a satisfactory examination in any study, his name shall be dropped from the roll of the school. A student so dropped shall have the right of appeal to the Faculty.

15. Students shall be enrolled in the class in which at least 75 % of their hours are taken; provided, however, that no student shall be advanced from the first to the second class who has any entrance condition in Mathematics, Chemistry, or Physics; no student shall be advanced to the third class who has any entrance conditions or any deficiencies of the first year; no student shall be admitted to the fourth class who has any deficiency in the first or second year, or more than one deficiency in the third year. A student dropped from the roll of his class shall not be permitted to attend any of the exercises of the said class without the consent of the Dean given for reasons of weight.

16. Students failing in any subject shall not be permitted to take advanced studies for which, by reason of such deficiency, they are not prepared; nor will such students be allowed to attend any Summer School without permission of the Dean.

17. Students who have received one degree and make application for another in the Schools of Applied Science must comply with all the requirements for that degree in force at the date of application.

Memoirs and Summer Work

18. During the vacations following the close of each year, memoirs, on subjects which will be assigned, are required of students in the

courses of Civil Engineering, Electrical Engineering, Mechanical Engineering, of Analytical, Industrial, and Organic Chemistry. The time specified for the completion and handing in of memoirs in chemistry and electrical engineering is November 1 of each year; for other memoirs and summer work the time specified is the second Monday in October.

19. Students of the second, third, and fourth classes who fail to hand in the memoirs, drawings, and other summer work required of them under the rules by a specified time, shall not be permitted to hand them in until the beginning of the next academic year, and failing in this latter requirement they shall be dropped from the roll of the class. This requirement may be waived, for reasons of weight, in the case of students of the fourth class.

Laboratories and Drawing Rooms

20. No student will be allowed without permission in a laboratory or drawing room at a time when his attendance there is not due. During hours assigned for practical work in the laboratories and drawing rooms, the attendance of students is required.

Elective Courses Open to Students in the College

All the studies of the first year, and many of the second-year courses of the School of Mines, the School of Chemistry, and the Schools of Engineering, are included among the electives offered to students of Columbia College (see page 223).

By a judicious arrangement of his course of study from the beginning, a graduate of Columbia College can thus enter the third year of any of the above schools.

Excursions

During the session, the students may visit the different mines, machine shops, electrical and metallurgical establishments, chemical works, and points of geological interest of the city and its environs, and excursions for this purpose are frequently organized by the different departments.

Summer Courses

SUMMER COURSE IN SURVEYING. (See page 87.)

SUMMER COURSE IN GEODESY. (See page 74.)

SUMMER COURSE IN MINING. (See page 146.)

SUMMER COURSE IN METALLURGY. (See page 141.)

SUMMER COURSE IN GEOLOGY. (See page 109.)

Equipment and Collections

Detailed information as to the laboratories, museums, collections, libraries, and other facilities for study and research will be found in the departmental statements as follows:

		Mech. Engineering 41	3 Mech. Engineering 33
		Mechanics 1 (1st term)	3 Mech. Engineering 34
		Mechanics 4 (2d term)	3 Mech. Engineering 42
			2 Mech. Engineering 43-48
			1 Mech. Engineering 50
			1 Mech. Engineering 51, 52
			3 Mech. Engineering 58
			Thesis

¹ Dynamic option.² Locomotive option.³ Marine option.

REGISTER OF STUDENTS

Schools of Mines, Chemistry, and Engineering

FOURTH YEAR—CLASS OF 1905

MINING ENGINEERING

ANDERSON, GLENN.....	White Sulphur Springs, Mont.
ARNOLD, LAWRENCE SEPTIMUS.....	(Mhtn) New York City
BAUERNEBL, AUGUST JOSEPH, Jr.....	Newark, N. J.
BUELL, THOMAS RECTOR.....	Herndon, Va.
CANNON, HERBERT GROVE.....	Cleveland, Ohio
CASE, ALBERT HERMON.....	Springville, Mich.
Michigan Agricultural College, B.S., 1902.	

COOK, FREDERICK STEPHEN.....	St. Paul, Minn.
DANTZIGER, CLARENCE TIM.....	(Mhtn) New York City
DONOVAN, PERCY WILLIAMS.....	Dundas, Minn.
DYER, HAROLD PENNOCK.....	St. Paul, Minn.
ERNEST, RICHARD HERMANN.....	Denver, Colo.
FISHER, THOMAS EUSTACE.....	(Mhtn) New York City
FOOTE, FRANCIS SEELEY, Jr.....	Montclair, N. J.
FRAMBACH, CHARLES LEWIS.....	Cheboygan, Mich.
GEIGER, ARTHUR WILLIAM.....	Boston, Mass.
HAHNEL, AUGUST FRANK.....	(Br) New York City
JONES, RICHARD M.....	Oberlin, Ohio
Oberlin College, A.B., 1902.	

KRAUT, MAX.....	(Mhtn) New York City
MARBLE, RALPH NORRIS, Jr.....	Duluth, Minn.
MARTIN, RALPH.....	London, England
MEAD, HARRY LEVI.....	Aurora, Ill.
MCCURDY, ELLIOTT STEELE.....	Wilmington, Del.
MILTENBERGER, GEORGE, Jr.....	St. Louis, Mo.
NELSON, CARL N.....	Buffalo, N. Y.
PAYSON, HAROLD.....	Bristol, R. I.
PITNER, PAUL JEROME.....	Evanston, Ill.
PORTER, JESSE COOMBS.....	(Bklyn) New York City
POWELL, FREDERICK JAMES.....	(Mhtn) New York City
RING, AMBROSE ELY.....	(Mhtn) New York City
ROGERS, ROBERT BENSON.....	(Mhtn) New York City
ROHLFS, OTTO DIEDRICH.....	Seattle, Wash.
ROLLE, SIDNEY.....	(Mhtn) New York City
SILVERMAN, HERBERT LUPLIN.....	Cincinnati, Ohio
SMITH, ALWYN CHARLES.....	Boulder, Colo.
STEVENS, EARL CLARK.....	Deadwood, S. Dak.
WALZ, ANDREW.....	(Mhtn) New York City
WHEELER, BLEECKER LANGDON.....	(Mhtn) New York City

CIVIL ENGINEERING

BARSHALL, FREDERICK BAYARD.....	(Mhtn) New York City
College of the City of New York, B.S., 1902.	
BEHRMAN, SAMUEL.....	(Mhtn) New York City

- BISHOP, HARTWELL.....(Mhntn) New York City
Harvard University, A.B., 1903.
- CORNELL, MILTON LONGACRE.....(Mhntn) New York City
- CROWELL, FRANCIS STIRLING.....(Q) New York City
- HEYMAN, WILLIAM.....Jersey City, N. J.
- HUMPHREY, FREDERIC LEAROYD.....(Bklyn) New York City
- JOCHUM, HENRY LUX.....(Mhntn) New York City
College of the City of New York, A.B., 1901.
- LAZINSK, ABRAHAM.....(Mhntn) New York City
College of the City of New York, A.B., 1902.
- LUCAS, ROBERT JAMES.....(Br) New York City
- MALCOMSON, ALFRED SIDNEY.....Orange, N. J.
- MATTHEWS, CHARLES EARL.....Newark, N. J.
- SCHWARZ, SAMUEL ALEXANDER.....(Mhntn) New York City
College of the City of New York, A.B., 1902.
- SHIELDS, HAROLD.....Nicholson, Pa.
Columbia University, A.B., 1903.
- STEEGMULLER, CHARLES ALBERT AUGUSTINE.....South Norwalk, Conn.
- TRUBENBACH, CONRAD DANIEL.....(Mhntn) New York City
College of the City of New York, B.S., 1902.

ELECTRICAL ENGINEERING

- BAUM, HARRY.....(Mhntn) New York City
College of the City of New York, B.S., 1902.
- BRADLEY, WALTER EDWARD FOSKETT.....(Mhntn) New York City
- DROGE, HARMAN GRABAU.....(Q) New York City
- GOLDBERG, HARRY.....(Mhntn) New York City
College of the City of New York, B.S., 1902.
- HAAS, HENRY CHARLES.....(Mhntn) New York City
- HOOPER, GEORGE HEBERTON, JR.....(Mhntn) New York City
- KOHLER, LOUIS FRANK.....(Mhntn) New York City
- LANG, ARTHUR GORDON.....Toronto, Canada
- PIERCE, WALTER LIDGERWOOD SMILLIE.....Scarborough, N. Y.
- POLLAK, LEO LAWRENCE.....(Mhntn) New York City
College of the City of New York, B.S., 1902.
- ROCHESTER, THOMAS WALTER.....(Mhntn) New York City
- SCHOENBORN, WILLIAM ROBERT.....Hackensack, N. J.
- STOUTENBURGH, CHARLES HALL.....(Mhntn) New York City
- TRIPPE, WILLIAM HERON.....East Orange, N. J.
- WARD, FREDERICK ELLIS.....(Mhntn) New York City
- WERNER, GERARD BERNARD.....(Mhntn) New York City
Columbia University, A.B., 1903.
- WILLIAMSON, ALFRED.....(Mhntn) New York City
Columbia University, Mech.E., 1903.
- WINETRAUB, ADOLPH ISRAEL MAN.....(Mhntn) New York City
Lycée, Braila, Roumania, B.S., 1899.
- WOLFF, WILLIAM AUGUST.....(Mhntn) New York City

MECHANICAL ENGINEERING

- ARNOLD, STANFIELD N.....(Mhntn) New York City
- BURCH, THOMAS HAMILTON, JR.....(Mhntn) New York City
- FISHER, HARRY ANNIS.....(Mhntn) New York City
- HOLLMANN, FREDERICK WILLIAM.....(Mhntn) New York City

KING, CHARLES ARTHUR.....Plainfield, N. J.
 LOVEMAN, HERBERT SPENCER.....(Mhtn) New York City
 MERRITT, LUCIUS ROBINSON.....(Mhtn) New York City
 NUSIM, MELACH JOSEPH.....(Mhtn) New York City
 Lycée reale, Braila, Roumania (equiv. A.B.), 1900.

STRONG, ROBERT MARQUIS.....Pasadena, Cal.
 STRUSS, WILLIAM EDWARD.....(Mhtn) New York City

METALLURGY

WILLIAMS, REMSEN TAYLOR.....(Q) New York City

CHEMISTRY

HAHN, ALBERT WILLIAM.....(Mhtn) New York City
 METTLER, ARTHUR JULIUS.....(Bklyn) New York City

	85

THIRD YEAR—CLASS OF 1906

MINING ENGINEERING

ARGALL, GEORGE OATES.....Denver, Colo.
 ARNOLD, GEORGE OLIVER.....(Mhtn) New York City
 Iowa College, A.B., 1903.

ASHMEAD, DEVER CAMPBELL.....Yonkers, N. Y.
 AUERBACH, HERBERT S.....Salt Lake City, Utah
 BATES, WILLIAM STEPHEN.....(Mhtn) New York City
 Columbia University, A.B., 1904.

BAXTER, HAROLD.....(Mhtn) New York City
 BERRY, EDWIN STEWART.....San Francisco, Cal.
 BOARDMAN, DONALD TWOGOOD.....Philadelphia, Pa.
 CARRINGTON, WARING.....Newark, N. J.
 CHURCH, JOHN ADAMS, JR.....(Mhtn) New York City
 COOPER, EVERITT MORTON.....(Mhtn) New York City
 DE LA BOUGLISE, ROBERT.....(Mhtn) New York City
 DE SALLIER DU PIN, RENÉ ALEXANDER.....Watertown, N. Y.
 DRUDING, FRANK DANIEL.....(Mhtn) New York City
 EDDINGFIELD, FRANK TRAVERS.....Washington, D. C.
 EDEBOHLS, ALPHONSE JULIUS.....(Mhtn) New York City
 St. John's College, A.B., 1902.

ENOS, HERBERT CORY.....Denver, Colo.
 EVANS, ALFRED WINTER....."The Grange," Westerham, Kent, England
 FARRELLY, STEPHEN VALENTINE.....Morristown, N. J.
 FRANC, CARL BENJAMIN, JR.....(Bklyn) New York City
 FRANK, ALBERT.....(Mhtn) New York City
 FULTON, CHESTER ALAN.....Yonkers, N. Y.
 GIBERT, FREDERIC EDWARD, JR.....Biarritz, France
 GRISWOLD, CLYDE TYLER.....Cortland, N. Y.
 Amherst College, A.B., 1903.

HAIGHT, CLARENCE MICHAEL.....(Mhtn) New York City
 HOWELL, JOSEPH MAUGHAN.....Logan, Utah

- HOYT, JOHN ROBERTSON.....Great Neck, L. I.
 JOHNSON, ARTHUR MICHAEL.....Canal Dover, O.
 JOHNSON, HORMAN NORTON.....Binghamton, N. Y.
 Amherst College, A.B., 1903.
 JOHNSON, ROBERT McL.....Newark, N. J.
 KELLOGG, LEE OLDS.....St. Paul, Minn.
 University of Minnesota, A.B., 1902.
 KING, HAROLD FREDERIC.....Kingston, N. Y.
 KNIPPIN, LLOYD MALCOLM.....Paterson, N. J.
 LAWRIE, HAROLD NEWBOLD.....Atlantic Highlands, N. J.
 LINDSLEY, GEORGE LEONARD.....Orange, N. J.
 MACKALLOR, DEWITT CLINTON.....(Mhtn) New York City
 MCCLAIN, HENRY GRIFFITHS.....Iowa City, Iowa
 State University of Iowa, A.B., 1903.
 MILLS, RONALD VAN AUKEN.....Washington, D. C.
 MITCHELL, WILLIAM SPINGLER.....(Mhtn) New York City
 NEBECKER, AQUILA CHAUNCEY.....Lake Town, Utah
 Agricultural College, B.S., 1903.
 POCOCK, CECIL WALTER.....Bayonne, N. J.
 PRENTIS, EDMUND ASTLEY, JR.....(Mhtn) New York City
 RICHARDS, GEORGE MILTON.....Ontario, Canada
 RODEN, BENJAMIN FRANKLIN, JR.....Birmingham, Ala.
 Howard College, C.E., 1902.
 SCHMITT, FREDERICK WILLIAM.....Lewistown, Mont.
 Montana Agricultural College, B.S., 1903.
 SCHULTZ, ROBERT SPENCER, JR.....Philadelphia, Pa.
 SCOTT, ARTHUR CLEVELAND.....(Br) New York City
 SEDGWICK, ALLAN ERNEST.....York, Neb.
 SEIFERT, HANS FREDERICK.....Jersey City, N. J.
 SIMPSON, KENNETH MILLER.....Beaver Falls, Pa.
 Columbia University, A.B., 1903.
 TALCOTT, MORRIS GARDNER.....Talcottville, Conn.
 Yale University, A.B., 1902.
 TAYLOR, HENRY BOWMAN.....Kansas City, Mo.
 TENNY, JAMES BRAND.....Tientsin, China
 THOMAS, CHARLES SEWELL, JR.....Denver, Colo.
 VAN SICLEN, MATTHEW.....Cornwall, N. Y.
 Amherst College, A.B., 1902
 VILLA, ALBERTO.....City of Mexico, Mexico
 WALLOWER, FRANK CARMANY.....Harrisburg, Pa.
 Princeton University, C.E., 1903
 WILLETS, ROBERT HENRY.....Roslyn, N. Y.
 YOUNG, ALFALES BURGESS.....Salt Lake City, Utah

CIVIL ENGINEERING

- ALLEN, CLEVELAND.....(Mhtn) New York City
 BAYLIS, ROSWELL SPENCER.....Huntington, L. I.
 BECKER, RUDOLPH CONRAD.....(Mhtn) New York City
 College of the City of New York, B.S., 1903
 BENHAM, WEBSTER LANCE.....(Mhtn) New York City
 BENJAMIN, HERBERT I.....(Mhtn) New York City
 BLICKENSDEPFER, CLARK.....Denver, Colo.
 BODE, WILLIAM ADOLF.....(Mhtn) New York City
 CHURCHILL, LEWIS THOMAS.....Dunellen, N. J.
 COSGROVE, JOHN DANIEL.....(Bklyn) New York City

- DEUTSCH, MAURICE.....(Mhtn) New York City
 FINCH, JAMES KIP.....(Mhtn) New York City
 GOODWIN, HENRY HARRISON.....Medina, N. Y.
 GREENE, RUSSELL DE COSTA.....(Mhtn) New York City
 HOSFORD, LEONARD POST.....(Bklyn) New York City
 KLINE, HENRY JAMES.....(Mhtn) New York City
 MCKINNEY, FRANCIS WILLIAM.....Madison, N. J.
 Columbia University, A.B., 1904.
 MERRITT, JAMES H.....Tarrytown, N. Y.
 OTT, CHARLES A.....(Mhtn) New York City
 PITOU, EUGENE, JR.....(Mhtn) New York City
 Columbia University, A.B., 1904.
 POLISHOOK, SAMUEL NOAH.....(Mhtn) New York City
 SCHWANEFLUGEL, CHARLES ALBERT.....(Q) New York City
 SIGMUND, BENJAMIN JOSEPH.....(Mhtn) New York City
 THOMAN, WILLIAM FREDERICK.....(Mhtn) New York City
 Columbia University, A.B., 1903.
 TOLL, ROGER WOLCOTT.....Denver, Colo.
 WILSON, ROBERT CLIFFORD.....Newark, N. J.

ELECTRICAL ENGINEERING

- BLEYER, ARTHUR.....(Mhtn) New York City
 BOLTON, ARTHUR THOMAS.....(Br) New York City
 CAMPBELL, CLARENCE LEWIS.....Cincinnati, Ohio
 CARLBACH, WALTER MAXWELL.....(Mhtn) New York City
 EBLING, ROBERT WILLIAM.....(Br) New York City
 FERENCZY, ARTHUR.....(Mhtn) New York City
 Reale schule, Hungary (equiv. A.B.), 1902.
 FETTRECH, CHARLES SIMMONS.....(Mhtn) New York City
 FREUND, MORTIMER.....(Mhtn) New York City
 GAY, FRAZER WALKER.....Newark, N. J.
 Columbia University, A.B., 1904.
 GOLDBAUM, LOUIS.....(Bklyn) New York City
 JOSEPHI, ROBERT.....(Mhtn) New York City
 KAUFMAN, ALFONSE.....(Mhtn) New York City
 KILBOURNE, COVINGTON GUION.....(Mhtn) New York City
 KIRSCHBERG, HAROLD.....(Mhtn) New York City
 College of the City of New York, B.S., 1903.
 KNAKAL, WILLIAM ROBERT.....(Mhtn) New York City
 College of the City of New York, B.S., 1903
 KNIGHT, CHARLES CUDLIPP.....(Mhtn) New York City
 KREUDER, HERMAN ERNST.....(Mhtn) New York City
 Columbia University, A.B., 1904.
 LICHTENBERG, J. CHESTER ALAN ARTHUR.....(Mhtn) New York City
 MORRIS, ALFRED BUTT.....(Mhtn) New York City
 NEWTON, EARL ROTH.....Haverstraw, N. Y.
 NIEMANN, EDWARD.....(Mhtn) New York City
 College of the City of New York, B.S., 1903.
 PALMER, AUSTIN PHELPS.....(Bklyn) New York City
 POPCKE, ARTHUR GEORGE.....(Mhtn) New York City
 READ, JAMES PAULDING.....Newark, N. J.
 Rutgers College B.S., 1901.

SAQUI, EMANUEL.....	(Mhtn) New York City
SCHWARZKOPF, WILLIAM.....	(Mhtn) New York City
SNEDAKER, CLARENCE FELTER.....	Haverstraw, N. Y.
SOLOW, DAVID EDWARD.....	(Br) New York City
STEVENS, OSCAR EGERTON.....	(Q) New York City
SUSSMAN, MAX HIRSCH.....	Mohegan, Conn.
TANZ, ISADORE.....	(Mhtn) New York City
College of the City of New York, B.S., 1903.	
VAN WAGENEN, EDWARD.....	(Mhtn) New York City
WATKINS, SAMUEL SHELTON, Jr.....	Owensboro, Ky.
WIECHERS, JOHN HENRY.....	City of Mexico, Mexico

MECHANICAL ENGINEERING

ASHLEY, EUGENE.....	(Mhtn) New York City
BARNABY, JAMES CHRISTY.....	(Mhtn) New York City
BORSODY, LOUIS.....	(Mhtn) New York City

MINING ENGINEERING

ARCHBALD, HUGH.....	Scranton, Pa. Yale University, A.B., 1903.
BEATTIE, HAROLD MAIRS.....	(Mhtn) New York City
BRILL, PAUL KORTRIGHT.....	(Bklyn) New York City
BURDETTE, RICHARD STUART.....	Cliffside, N. J.
CHISHOLM, OLIVER PERRY.....	Bozeman, Mont.
CLAPP, LAWRENCE RIPLEY.....	(Mhtn) New York City
CLARK, FREDERICK HUNTINGTON.....	(Mhtn) New York City
DEHUFF, ARTHUR ISADORE.....	Spokane, Wash.
DESPARD, CHARLES SMITH, Jr.....	Parkersburg, W. Va. St. John's College, A.B., 1902.
DIER, ALFRED AUSTIN.....	Bozeman, Mont.
DONNELLY, THOMAS FRANCIS.....	(Mhtn) New York City
DOON, CHARLES W.....	(Mhtn) New York City
DOTY, OLIVER KEESE.....	(Mhtn) New York City
DUNCAN, DAVID.....	(Bklyn) New York City
DUSEL, WILLIAM JOHN.....	(Mhtn) New York City
ELSING, MORRIS JESUP.....	(Bklyn) New York City
FLANDERS, JOHN AIKEN.....	(Mhtn) New York City
FLEISSNER, GUSTAV LUDWIG.....	(Mhtn) New York City
GARDNER, WALTER.....	Stanstead Lodge, Forest Hill, London, England
GOLDMAN, MARCUS ISAAC.....	(Mhtn) New York City Harvard University, A.B., 1901; B.S., 1902.
GRIFFITH, RALPH FLEKHER.....	Pittsburg, Pa.
HARTOG, VICTOR.....	Beaconsfield, Kimberley, South Africa South Africa School of Mines, E.M., 1901; B.S., 1903.
HILL, HAROLD WILLIAM.....	Buffalo, N. Y.
HOCHSCHILD, SALI.....	Frankfurt, Germany Realgymnasium, Worms, Germany (equiv. A.B.), 1903.
HOUSE, HENRY ARTHUR.....	Duluth, Minn.
KINSEY, REGINALD GEORGE.....	Southampton, England
KRUEGER, KARL PAUL.....	Bozeman, Mont.
KRUSE, FREDERICK, JR.....	Central City, Colo.
LANDERS, MARSDEN HENRY.....	San Francisco, Cal.
LITTLE, JAMES MACFARLANE.....	Towanda, Pa.
LUND, FRANCIS NAPIER.....	(Mhtn) New York City
MARSH, ROBERT, JR.....	Salt Lake City, Utah
McKAIG, JOHN STUART.....	(Mhtn) New York City Princeton University, B.S., 1903.
MOSES, ABRAHAM.....	(Mhtn) New York City College of the City of New York, A.B., 1903.
NOTMAN, ARTHUR.....	(Bklyn) New York City Harvard University, B.S., 1903.

OVERBEEK, JOHN BAGOT.....	Cape Town, South Africa
South African College, A.B., 1902	
OWEN, WILLIAM ROLAND, JR.....	Denver, Colo.
ROBERTS, JOHN THOMAS, JR.	Wanakah, N. Y.
RUPP, FREDERICK LOUIS.....	(Mhtn) New York City
SAGE, WARREN MORRILL.....	(Mhtn) New York City
SAYRE, MORTIMER F.....	Newark, N. J.
STEPHENS, RODERICK.....	(Br) New York City
SUYDAM, ALBERT GODFREY.....	Ridgefield, N. J.
TAFT, THOMAS KNAPP.....	Cornwall, N. Y.
TULLOCH, THOMAS HILDRUP.....	Forest Glen, Md.
TWEEDY, ANDREW MELLICK.....	Knickerbocker, Texas
WEST, HENRY JAMES.....	Garnerville, N. Y.
Columbia University, A.B., 1902.	
WILCOX, SIDNEY HELMUTH.....	(Mhtn) New York City
WOODS, WILLIAM ABBOTT EDOUARD.....	San Francisco, Cal.

CIVIL ENGINEERING

ATWATER, HUNTINGTON CLARK.....	Denver, Colo.
BABCOCK, DUDLEY PAUL.....	Fanwood, N. J.
BERGMAN, HARRY MONTIFIORÉ.....	(Mhtn) New York City
BOSWORTH, WILLIAM HAMLIN.....	(Bklyn) New York City
BROWN, OTTO.....	(Mhtn) New York City
CLARKSON, JULIAN GIRARD.....	(Mhtn) New York City
DE LARA, FRANK BELASCO.....	(Mhtn) New York City
DICKSON, CHARLES FRANCES.....	Cincinnati, Ohio
DODMAN, ALFRED CHARLES, JR.....	(Mhtn) New York City
DOUGHTY, JOHN BODINE.....	Jericho, N. Y.
ELLIOTT, GUY RUPERT BETTS.....	Thorne's Cove, Nova Scotia
FORBES, FRANCIS BONNER.....	(Mhtn) New York City
Columbia University, A.B., 1904.	
FRIEDLAND, JACOB M.....	(Mhtn) New York City
GARDINER, CHARLES ROCKWELL.....	(Mhtn) New York City
GORREN, DANIEL.....	Rye, N. Y.
GRAFF, CHARLES JOHN.....	(Br) New York City
KILIAN, THEODORE PHILIP.....	(Mhtn) New York City
LANDSMAN, SIGMUND.....	(Mhtn) New York City
LINDGREN, OSCAR HJALMAR.....	Öreba, Sweden
LINDO, ALBERT.....	(Mhtn) New York City

NICHOLAS MURRAY BUTLER, Ph.D., LL.D., *President of the University*
ALFRED D. F. HAMLIN, A.M. *Professor of Architectural History*
FRANK DEMPSTER SHERMAN, Ph.B. *Professor of Graphics*
MAXIMILIAN K. KRESS, A.M. *Adjunct Professor of Architecture*
GRENVILLE T. SNELLING, S.B. . . *Instructor in Architectural Engineering*
CHARLES A. HARRIMAN. *Instructor in Architectural Drawing*
CHARLES P. WARREN, A.M. *Tutor in Architectural Construction*
ALFRED H. GUMAER, B.S. *Instructor in Architectural Design*
WALTER A. DELANO, A.B. *Tutor in Architectural Design*
EDWARD R. SMITH, A.B. . . . *Curator of the Avery Architectural Library*

WILLIAM R. WARE, LL.D. *Emeritus Professor of Architecture*

GENERAL STATEMENT

The School of Architecture, formerly under the Faculty of Applied Science, has now been set apart as an independent school, under the direct administrative control of the President of the University, who represents it in the University Council. The By-Laws of the Faculty of Applied Science, and the regulations for matriculation, enrolment, and registration of that Faculty, will, however, still remain in force, as well as the regulations for higher degrees, as set forth in the statement of that Faculty (pp. 290-291).

The School of Architecture offers a course of indeterminate length, leading to the degree of Bachelor of Science, and designed to qualify its graduates for the active practice of the profession of architecture. Students of exceptional ability may complete it in less than four years; while others may find it advisable to devote a longer period to it. For the sake of convenience, the curriculum is presented in tabular view on page 319 as laid out for a four years' course. The instruction given comprises the history of architecture and decorative design; the graphics of design, including the freehand and architectural drawing and the descriptive geometry required by the trained practitioner; exercises in original architectural and decorative design, the mathematics and engineering of architecture, and architectural practice, including the study of building materials, practical construction,

specifications, and office practice. These courses are supplemented by exercises in reading French and German text-books of architectural history, and by written exercises in historical research and in the analysis and criticism of buildings. Students who have completed the courses assigned to the first three years in the tabular view on page 319 may elect a specialized course in Advanced Architectural Engineering and Practice in place of the usual course in Advanced Design. This is arranged by conference with the Professor of Architecture and the Professor of Civil Engineering of the Faculty of Applied Science. Opportunities for advanced study both in design and in construction are afforded to graduates and qualified special students in the School itself, and for study abroad by the Columbia, McKim, and Perkins Travelling Fellowships, which are open to graduates only.

Admission

Candidates for admission to the first year must be at least eighteen years of age. They are required to pass the examinations in Mathematics, Physics, Chemistry, Drawing, History, English, German, and either French, Spanish, or Latin, prescribed for admission to the Schools of Applied Science (see p. 287). These examinations are held in June and in September. The Regents' Academic Diploma and the certificates of universities and colleges in good standing are accepted in lieu of examination for the subjects which they specifically cover.

Women are not admitted.

Special Students and Auditors

Any applicant of mature age who is qualified to do so may as a special student pursue any of the studies taught in the School. Graduates of schools of science, and draughtsmen in offices who have had three or four years' practical experience, are generally qualified to enter the courses in history and design. They must give evidence of proficiency in architectural drawing, including the five orders, and if deficient, will have to attend the instruction given in this subject before joining the classes in design. They are received for the whole year or for periods of two months at a time. Only those who have given themselves to mathematical and engineering studies will be competent to enter the courses in scientific construction.

All such students may become candidates for a degree by passing the required examinations, and graduate students may prepare themselves to take a higher degree by entering one of the post-graduate courses as special students, and may do the work partly in one year and partly in another as may be convenient.

Male students of painting, sculpture, architecture, and decorative design, from any incorporated school of art in New York City, may be admitted as auditors to the courses in Elements of Architecture, Projections and Shades and Shadows, Perspective, History of Archi-

ture, and History of Ornament (Courses 1, 2, 3, 4, 5, 6, 8, 10, 11, and 12) (see list upon pages 70-71), upon payment of a fee of \$15 per course. They may take the courses in Drawing and Design upon payment of the draughting-room fee of \$25. Auditors are not entitled to examination nor to candidacy for degrees.

Undergraduates in Columbia College may elect certain studies in the first- and second-year courses of this School; thereby shortening the duration of their professional studies. Candidates for the degree of Master of Arts may select approved courses in this School either as major or minor subjects.

Degrees

The course in architecture leads to the degree of Bachelor of Science. Men who already hold a Bachelor's degree from a recognized institution may be candidates for the degrees of Master of Arts and Doctor of Philosophy.

Degrees are not conferred upon special students.

Equipment

The equipment of the School consists of about 16,000 photographs and 800 books, chiefly the gift of Mr. F. A. Schermerhorn; a classified library of prints and plates; the Avery Architectural Library of over 17,500 volumes; a collection of manuscript drawings from the Ecole des Beaux-Arts; about 9000 lantern slides of architectural subjects; a collection of casts of architectural details from ancient and modern Roman buildings, the gift of Mr. Charles F. KcKim; and an architectural museum containing a collection of models, building stones, tools, and materials. The Avery Library and, under certain restrictions, the collections of the School are accessible every evening. The Willard collection of architectural casts at the Metropolitan Museum is open to students every day and two evenings in the week.

For further particulars see the *Announcement of Courses in the Fine Arts* and the *Bulletin of General Information* of the Schools of Applied Science.

Council

The Faculty

NICHOLAS MURRAY BUTLER, Ph.D., LL.D., *President*
 JOHN W. BURGESS, Ph.D., LL.D. *Ruggles Professor of Political*
Science and Constitutional Law
 MUNROE SMITH, J.U.D., LL.D. *Professor of Roman Law and*
Comparative Jurisprudence
 FRANK J. GOODNOW, LL.D. *Eaton Professor of Administrative Law*
and Municipal Science
 EDWIN R. A. SELIGMAN, Ph.D., LL.D. *McVickar Professor of*
Political Economy
 HERBERT L. OSGOOD, Ph.D. *Professor of History*
 JOHN BASSETT MOORE, LL.D. *Hamilton Fish Professor of*
International Law and Diplomacy
 WILLIAM A. DUNNING, Ph.D., LL.D. *Lieber Professor of History*
and Political Philosophy
 FRANKLIN H. GIDDINGS, Ph.D., LL.D. *Professor of Sociology*
 JOHN B. CLARK, Ph.D., LL.D. *Professor of Political Economy*
 JAMES HARVEY ROBINSON, Ph.D. *Professor of History*
 WILLIAM M. SLOANE, Ph.D., L.H.D., LL.D. *Seth Low Professor of*
History
 HENRY R. SEAGER, Ph.D. *Adjunct Professor of Political Economy*
 HENRY L. MOORE, Ph.D. *Adjunct Professor of Political Economy*

Other Officers

WILLIAM R. SHEPHERD, Ph.D. *Instructor in History*
 JAMES T. SHOTWELL, Ph.D. *Instructor in History*
 GEORGE W. BOTSFORD, Ph.D. *Instructor in History*

ALVIN S. JOHNSON, Ph.D. *Instructor in Economics and Social Science*
 GEORGE JAMES BAYLES, Ph.D. *Lecturer in Ecclesiology*
 CHARLES AUSTIN BEARD, Ph.D. *Lecturer in History*

GENERAL STATEMENT

The Faculty of Political Science has charge of the university courses of instruction and research in political and social science, including history, economics, public law, and comparative jurisprudence.

The School of Political Science was opened on Monday, the fourth day of October, 1880.

It is the purpose of the School to give a complete general view of all the subjects of public polity, both internal and external, from the threefold point of view of history, law, and philosophy. The prime aim is, therefore, the development of all the branches of the political and social sciences. The secondary and practical objects are:

- (a) To fit young men for the public service.
- (b) To give an adequate economic and legal training to those who intend to make journalism their profession.
- (c) To supplement, by courses in public law and comparative jurisprudence, the instruction in private municipal law offered by the Faculty of Law.
- (d) To educate teachers of history, economics, social science, public law, and jurisprudence.

Young men who wish to obtain positions in the United States civil service—especially in those positions for which special examinations are held—will find it advantageous to follow many of the courses under the Faculty of Political Science, especially the courses on political history, diplomatic history, and international law, government (including the governmental organization of the territories and dependencies of the United States), statistics, finance, and administration. Candidates for appointment in the administrative service of our dependencies may obtain adequate preparation by adding to the general courses on public law and on political economy and finance the special courses now offered in the School of Political Science on colonial history and administration, colonial economics, and Spanish civil law; and the courses on the Spanish language and literature offered in the College and the School of Philosophy.

The work in economics and sociology falls under three heads, viz.: the university courses of instruction in the various departments of economics and social science, the work in the statistical laboratory, and the "field-work," or practical work in connection with the visitation of the more important departments and philanthropic institutions of New York City. These are fully explained in the detailed *Announcement of the Courses in History, Economics, and Public Law*.

ADMISSION AND ATTENDANCE

Every student is required to file a list of his studies for the academic year at the time he registers, or within one week thereafter, at the office of the Registrar. If he subsequently wishes to make any change in his studies he must file written notice of his wish at the Dean's office, and must obtain the assent of the Dean.

Immediate written notice must be given to the Registrar of any change of address.

Admission to the School of Political Science does not imply admission to candidacy for a degree. The conditions of candidacy for the several degrees are given below.

Women who hold a baccalaureate degree are admitted to the School of Political Science as students in history and economics and may become candidates for the higher degrees.

ADMISSION TO OTHER COURSES

Any duly matriculated university student is at liberty to combine, without any additional fee, courses of study and investigation under this Faculty with courses offered by other Faculties of the University, and with courses offered in the College.

FEEES

(See page 23)

CANDIDATES FOR A DEGREE

Students are received as candidates for the degree of Master of Arts, Master of Laws, or Doctor of Philosophy.

If the applicant is a candidate for a degree, he must file a certificate furnishing evidence of his completion of the junior year of a college, or, if he holds a degree from any institution, he must file diplomas or certificates sufficient to furnish evidence of such degree or degrees. Blanks for this purpose may be secured at the office of the Registrar. Certificates of graduation from or attendance on institutions of learning in foreign countries are also accepted. The certificates should be accompanied by catalogues or calendars of the colleges or other institutions of advanced grade at which the student has previously studied, which must be marked so as to show clearly his course of study there. This condition may be dispensed with in the case of those colleges and institutions whose bachelor's degree is recognized by the University Council as a basis for the higher degrees.

Students may present themselves for examination for the degree of Ph.D. at any time during the year, whenever the requirements shall have been complied with. For these requirements see pages 209-214.

COURSES OF INSTRUCTION

For the courses offered in 1904-05 (and for information as to which of these courses are open to seniors in the College, and which to women), see statement under groups of subjects, as follows:

Economics and Social Science, page 94.

History and Political Philosophy, page 118.

Public Law and Comparative Jurisprudence, page 127.

For more detailed accounts of the courses and for the tender of 1905-06, application should be made for the *Announcement of the Courses in History, Economics, and Public Law*.

Seminars

Outside of the regular instruction in the various subjects by lecture, it is the practice to furnish the students of the School an opportunity for special investigation of historical, legal, economic, and social questions under the direction of the professors. This is done by means of original papers prepared by the students. The papers are read before the professor and the students, and are then criticised and discussed. There will be at least one seminar in each subject. The number of meetings and the topics to be discussed are determined each year. Attendance at the seminar in the major subject is necessary on the part of candidates for the degree of Master of Arts or Doctor of Philosophy.

FACULTY OF PHILOSOPHY

ESTABLISHED 1890

Officers of the Faculty

MARSHALL H. SAVILLE.....	<i>Loubat Professor of American Archaeology</i>
JOEL ELIAS SPINGARN, Ph.D.....	<i>Adjunct Professor of Comparative Literature</i>
GEORGE N. OLCOTT, Ph.D.....	<i>Adjunct Professor of Latin</i>
GEORGE STUART FULLERTON, Ph.D.....	<i>Professor of Philosophy</i>
WILLIAM ALLAN NEILSON, Ph.D.....	<i>Adjunct Professor of English</i>
JEFFERSON B. FLETCHER, A.M.....	<i>Professor of Comparative Literature</i>
JOHN DEWEY, Ph.D., LL.D.....	<i>Professor of Philosophy</i>

GENERAL STATEMENT

The Faculty of Philosophy has charge of the university courses of instruction and research in philosophy, psychology, education, anthropology, philology, and letters. Any duly matriculated university student is at liberty to combine courses of study and investigation under this Faculty with courses offered by the Faculties of Law, Medicine, Political Science, Pure Science, and Applied Science.

Students are received either as candidates for the degrees of Master of Arts and Doctor of Philosophy, or to pursue special or partial courses. Some courses of lectures are open to the public, men and women alike, on payment of an auditor's fee. For the regulations as to auditors see page 22.

Students enrolled in any one of the theological seminaries mentioned on page 57, who may be designated for the privilege by the authorities of those institutions, and accepted by the President of Columbia University, are admitted to the courses offered by the Faculty of Philosophy free of any charge for tuition.

Students enrolled in the Art Schools of the Metropolitan Museum of

Art, who may be designated for the privilege by the authorities of those schools, and accepted by the President of Columbia University, are permitted to attend the courses of lectures on archæology and æsthetics free of any charge for tuition.

All of these institutions offer reciprocal privileges to students of Columbia University.

ADMISSION AND ATTENDANCE

Candidates for the degrees of Master of Arts and Doctor of Philosophy must hold a bachelor's degree in arts, letters, philosophy, or science, or an engineering degree, or have had an education fully equivalent to that represented by one of those degrees, such equivalent to be passed upon in every case by the Standing Committee on Higher Degrees. They must remain in residence for not less than one and two years, respectively. They are required to pursue courses of study and research in one major and two minor subjects, the number of hours of attendance per week being adjusted to the needs and demands of the individual student. University residence of not less than three years is usually necessary in order to obtain the degree of Doctor of Philosophy.

In the Faculty of Philosophy admission as a regular student or as a candidate for the degree of Master of Arts does not admit to candidacy for the degree of Doctor of Philosophy. Only those students are admitted to candidacy for the degree of Doctor of Philosophy who

1. Are recommended for such candidacy by the heads of the departments in which their major and minor subjects of study lie;
2. Are certified as to their ability to read French and German by the heads of those departments;
3. Are certified as to their ability to read Latin by the head of that department; provided that students whose major subject is psychology, anthropology, or education, shall not be required to meet this test when it is certified by the professor in charge of their major subject that an ability to read Latin is not necessary for the proper prosecution of their researches.

When a student is admitted to candidacy for the degree of Doctor of Philosophy, he may be credited with his past period of university residence, at Columbia, or elsewhere, or with so much thereof as may be determined by the Dean and the professor in charge of the candidate's major subject.

Students who are not actually candidates for a degree are admitted to any courses which they are found competent to undertake. Such students must, however, possess the qualifications for admission named above.

There are no examinations for admission, either as candidates for a degree or as special students. Students are admitted at any time during the year, and may present themselves for examination for a degree whenever the requirements as to residence and an essay or dissertation have been complied with.

For fees see page 23.

For a detailed statement of the regulations governing the degree of A.M. and Ph.D. see pages 209-214.

COURSES OF STUDY AND RESEARCH

GENERAL STATEMENT

The Faculty of Pure Science has charge of the university courses of instruction and research in all branches of pure science, and especially the supervision of candidates for the degrees of Master of Arts and Doctor of Philosophy in pure science. Students under other University Faculties are also at liberty to pursue courses of study and investigation under this Faculty.

Candidates for the higher degrees taking major subjects in pure science will be regarded as under the special jurisdiction of this Faculty.

In the Faculty are represented all the departments of the University which give instruction in pure science.

Graduate students, candidates for the degree of Master of Arts or Doctor of Philosophy, are subject:

1. To the general regulations of the University Council. (See pages 209-214.)
2. To the special regulations of this Faculty.

Special Regulations of the Faculty of Pure Science

The degree of Doctor of Philosophy is awarded on the basis of a thorough training in the methods of advanced work and investigation in some branch of science. The following statements are offered for the guidance of students. In the case of students of special ability or exceptional previous training, the Faculty may modify its usual regulations.

The student is expected to gain a sound general knowledge of the two minor subjects of his choice. In the major subjects a much more thorough and special knowledge is required, particular importance being attached to training in research. In order to avoid undue specialization, no two subjects may be chosen from the same department without the consent of the Faculty.

One year's study in residence in the University is required for the degree of Master of Arts, and three years' study for the degree of Doctor of Philosophy, at least one year of which shall be in residence. Candidates for either of these degrees are expected to devote at least one half their time throughout their course of study to the major subject. In the case of laboratory courses this implies two days a week, or its equivalent, as determined by each department. Each minor subject is intended to occupy approximately one fourth of the time during one year for the degree of Master of Arts, and during one or two years, according to the nature of the subject and the previous training of the candidate, for the degree of Doctor of Philosophy. It is expected that the third year of study, and in certain cases both the second and the third years, will be wholly devoted to the major subject and to investigation for the dissertation.

The approval of the subject of the essay required for the degree of Master of Arts, or the subject of the dissertation required for the degree of Doctor of Philosophy, as well as the essay or dissertation itself, rests with the instructor in charge of the candidate's major subject. It is desirable that these studies should be related, and, when practicable, that they should be treated respectively as preliminary and completed investigations. Great importance is attached to the character of the final dissertation. While it must depend for acceptance chiefly on the subject-matter, it should show good literary workmanship, especially by directness and clearness of statement. It should demonstrate the author's capacity to do original scientific work, and to render an intelligible account thereof. It should evince a familiarity with the literature of the subject, and with the latest methods of research applicable to it. The treatment should be as concise as the nature of the work permits. Every dissertation

should be preceded by a clear introductory statement setting forth the nature and the scope of the research, and be followed by a *résumé* of the results and the conclusions obtained. It should also be accompanied by a table of contents and by a list of the authorities consulted in its preparation.

Special Students

Students who are not candidates for a degree may be permitted to pursue such courses from among those offered by this Faculty as they may be found qualified to enter upon. Each applicant must demonstrate his preparation for, and his ability to pursue, the course or courses selected, and of his qualifications the heads of the departments in which he proposes to study shall be the judges. In general these special courses are open only to advanced students.

COURSES OF STUDY

For the courses offered for 1904-05, see departmental statements as follows:

Anatomy, page 65.
Astronomy, page 73.
Bacteriology, page 160
Botany, page 75.

For more detailed accounts of the courses and for the tender of 1905-06, application should be made for the *Announcement of the Schools of Political Science, Philosophy, and Pure Science*, and for the divisional *Announcements of Biology, of Chemistry, of Geology, Geography, and Mineralogy, of Mathematical and Physical Science*, and of the *Schools of Engineering*, published in the spring of 1905.

REGISTER OF STUDENTS, 1904-05

Under the Faculties of Political Science, Philosophy, and Pure Science

NOTE.—(P), signifying "Partial Attendance," following the name of a candidate, indicates that the total hours of attendance for which this student is registered are not sufficient to fulfil the minimum residence requirement for the degree of Master of Arts, in one year, or that for the degree of Doctor of Philosophy in two years.

For other officers of the University who may give instruction to students of Barnard College, consult the several departmental statements.

GENERAL STATEMENT

In 1883 the Trustees of Columbia College offered degrees to women who should be able to pass the necessary examinations, without, however, providing instruction for them. The resulting system, called *The Collegiate Course for Women*, proved unsatisfactory to both parties. It was found necessary to provide instruction for women which should be identical with or equivalent to that provided by Columbia for men, and in 1889 Barnard College was organized with this purpose in view.

For eleven years it¹ duplicated for women as far as possible the curriculum of Columbia College, and also registered for graduate work under the University Faculties women who held the bachelor's degree from institutions of good standing. Its instructors were members of the University staff. Examinations for entrance to Barnard College, those given in course, and those for degrees, were conducted by Columbia University. During the first three undergraduate years separate instruction was given to women; in the senior year they were admitted to certain courses in the University. Graduate students attended many courses at Columbia University under the Faculties of Philosophy and Political Science. Under the Faculty of Pure Science, lecture courses only were open at the University, laboratory work being done at Barnard College.

However, Barnard's numerical growth made inappropriate the informal arrangement for instruction which was the natural method at the outset. Its students grew to form a considerable fraction of the total number of undergraduates under the care of Columbia instructors, and the graduates registered through Barnard began to have an appreciable effect upon the University statistics. It therefore became necessary to recognize formally the status which had gradually come into existence, and accordingly an agreement was entered into by which Barnard was included in the University system. Its experience in relation to Columbia has differed widely from that of any other affiliated college in relation to its university. The gradual *rapprochement* consummated in the agreement signed in January, 1900, has proceeded without check. Barnard is an independent college for women, with a corporation and a faculty of its own, vested with all the powers commonly belonging to such bodies. At the same time,

it shares the library, the instruction, and the degrees of Columbia University.

A more exact idea of the relations between Barnard College and Columbia University is given by the following *résumé* of the agreement above mentioned.

According to the agreement made January 19, 1900, between the Trustees of Columbia University and Barnard College, for the purpose of incorporating Barnard College, a college for women, in the educational system of the University, it is provided:

That the President of the University shall be, *ex-officio*, President of Barnard College and a Trustee of Barnard College. He shall preside at the meetings of the Faculty of Barnard College, and shall have general supervision and direction of the educational administration of such College, as in the other schools of the University.

That the internal administration of Barnard College shall be conducted by a Dean, who shall be appointed by the President of the University, by and with the advice and consent of the Trustees of Barnard College. In the absence of the Dean, an Acting Dean may be appointed by the President.

That Barnard College shall be represented in the University Council of Columbia University by its Dean, who shall have the right to vote in the University Council upon all questions. The Faculty of Barnard College shall consist of the President, the Dean, and all the professors on the staff of the University who give instruction in Barnard College.

That Barnard College shall provide for and maintain such officers of instruction as may, from time to time, be agreed on. Such officers shall be nominated by the Dean of Barnard College, with the approval of the Trustees of Barnard College and of the President of the University, and shall be appointed and reappointed by the University according to its custom. Their standing shall be the same in all respects as that of other like officers in the University. For all services rendered in the University by officers so appointed an equivalent amount of service shall be rendered in Barnard College by other officers of the University of like grade, as may be determined from time to time, with the consent of the officers concerned, by the Dean of the College and the President of the University.

That members of the Faculty of Barnard College may be either men or women.

That, on and after July 1, 1904, all of the instruction for women leading to the degree of Bachelor of Arts shall be given separately in Barnard College. Barnard College will assume as rapidly as possible all of the instruction for women in the senior year, without regard to the time limit contained in this section, and undertakes to maintain every professorship established at its instance, so long as the services of the incumbent thereof or an equivalent therefor shall be rendered in Barnard College; and when Barnard College has adequately provided for its undergraduate work, it will, as its means allow, establish ad-

ditional professorships in the University, upon foundations providing for courses which shall be open to men and women, to the end that opportunities for higher education may be enlarged for both men and women.

That the University will accept women who have taken their first degree, on the same terms as men as students of the University, and as candidates for the degrees of Master of Arts and Doctor of Philosophy under the Faculties of Philosophy, Political Science, and Pure Science, in such courses as have been or may be designated by these Faculties, with the consent of those delivering the courses, and will make suitable provision for the oversight of such women. The University will confer the degree of Bachelor of Arts upon the students of Barnard College who shall have satisfactorily fulfilled in Barnard College the requirements of the University Statutes for that degree. The courses in Barnard College leading to the degree of Bachelor of Arts shall be determined and administered by its own Faculty, and all examinations for admission to Barnard College and in course shall be conducted under the authority of the Faculty of Barnard College. The diploma shall be signed by the President of the University and by the Dean of Barnard College. The degree of Bachelor of Arts conferred upon the graduates of Barnard College shall be maintained at all times as a degree of equal value with the degree of Bachelor of Arts conferred upon the graduates of Columbia College. The equivalency of the two degrees shall be maintained in such manner as the University Council may prescribe.

That, so long as this agreement is in force, Barnard College shall grant no degrees. It shall retain the right to grant certificates to students not candidates for a degree, and it shall exercise all other corporate rights and powers which are not delegated to the University by this agreement. But this agreement shall not be deemed a surrender by Barnard College of any powers conferred upon it by charter.

That Barnard College shall retain its separate corporate organization, and that the Trustees of Barnard College shall continue to provide for the financial support thereof.

That the library of the University shall be open to all women students of the University and of Barnard College upon the same terms as to men.

By the terms of an agreement between Columbia University and Barnard and Teachers Colleges, students of Teachers College are permitted to attend courses in Barnard College. This institution offers reciprocal advantages to the students of Barnard College. Courses which are counted toward a Teachers College diploma and are open to seniors in Columbia College are also open to seniors of Barnard College.

ADMISSION

The Committee on Admission has charge of everything relating to this subject.

The general regulations for admission are the same as those for Columbia College, see page 217.

Every candidate for admission to Barnard College, either to the freshman class or to a special course, is required at the entrance examinations to offer subjects amounting to fifteen (15) points¹ as indicated below.

The candidate *must* offer

	COUNTING IN POINTS
Elementary Latin (page 204)	4
Elementary Mathematics (page 205)	3
English (page 197)	3

The candidate may offer any of the following subjects without other restriction than that to offer an advanced subject will involve offering the corresponding elementary subject as well:

	COUNTING IN POINTS
Elementary Greek (page 201)	3
Elementary History (page 202)	2
Intermediate French (page 199)	1
Intermediate German (page 201)	1
² Advanced Greek (page 202)	1
² Advanced History (page 203)	1
² Advanced Latin (page 204)	1
Advanced Mathematics (page 205)	1
² Advanced Physics (page 207)	1

The candidate may offer not more than 4 points in all from the three subjects following:

	COUNTING IN POINTS
Elementary French (page 198)	2
Elementary German (page 199)	2
Spanish (page 207)	2

The candidate may offer not more than 2 points in all from the five subjects following:

	COUNTING IN POINTS
Botany (page 194)	1
Chemistry (page 195)	1
Elementary Physics (page 206)	1
Physiography (page 207)	1
² Zoölogy (page 208)	1

¹The relative value of subjects is expressed in *points* according to the time required for adequate preparation in them; a point as here used represents a course of five periods weekly throughout an academic year of the preparatory school.

² Candidates will be examined in this subject only in September.

The definitions of the requirements in each subject as well as the regulations governing the filing of applications for entrance examinations, the examination fee, the division of examinations, and the places of examination are the same at Barnard College as at Columbia College. A time-schedule of the examinations may be obtained from the Secretary of the University.

Report of Entrance Examinations

Similarly see the "Report of Entrance Examinations in Columbia College," page 219.

Entrance Conditions

A student is admitted to the freshman class on probation when the total number of points received by her in the entrance examinations amounts to eleven (11) out of the total required fifteen (15) points; but this rule is subject to the proviso that the four (4) points of deficiency do not include the whole of English, Elementary Latin, or Elementary Mathematics. A total failure in any one of these subjects will be regarded as disqualifying a candidate for admission.

Students admitted conditionally to the freshman class at the beginning of the academic year will be held under probation until the end of the first half-year.

Admission to Advanced Standing

See the "Requirements for Admission to Advanced Standing in Columbia College," page 219.

In addition, the credits granted in any subject to a student admitted with advanced standing may be withdrawn or diminished in amount, if, in pursuing such subject after admission to Barnard College, the student prove that the granting of the credits was wholly or in part unwarranted by her previous work.

No applicant will be allowed to enter the senior class as a candidate for the degree of Bachelor of Arts after October 15 in any year.

SPECIAL STUDENTS

Special courses of study are offered by the College to young women of proper age and character who wish, without reference to any degree, to make a serious study of any subject or group of subjects. For admission to such courses a student must have credit for fifteen (15) unconditioned points of entrance requirements. Applications for admission should be made at least one week before the first day of the entrance examinations. Proper blanks for this purpose may be obtained from the Registrar.

Once admitted to the College, special students will be allowed to select their own courses of study subject to the general approval of the Dean and to the particular approval, for each course selected, of the head of the department in which the course is given.

Each student is required to pursue in any year courses amounting

to at least eight (8) points, unless excused by the Dean for reasons of special weight.

Except for reasons of weight, satisfactory to the Committee on Admission, no one will be received as a special student who is less than eighteen years of age, or who has, within ten months of the time of her application, been rejected as a regular student, or has, within that period, become deficient as a regular student.

In the courses which they severally pursue special students will be held to the observance of the same regulations as to attendance, examination, proficiency, and deficiency as regular students. They will, therefore, in the event of a change of plan, be credited with such of their courses as may coincide with the courses leading to a degree.

SCHOLARSHIPS AND PRIZES

There are altogether forty scholarships and two special funds for the aid of needy and deserving students. The value of each scholarship, unless otherwise stated, is \$150 annually.

The scholarships are of two sorts, competitive and non-competitive. The former are awarded for excellence in entrance examinations; the latter, on the nomination of the Committee on Scholarships of the Faculty, to worthy students who have passed at least one year in college. They are held, unless otherwise stated, *for one year only*.

If a student fail to maintain a grade of at least C in all courses which she pursues or if she commit a breach of good order, she shall forfeit her scholarship.

For a detailed statement of the conditions under which the scholarships are awarded, the regulations regarding applications, and the like, the *Announcement of Barnard College* should be consulted. This may be obtained without charge upon application to the Secretary of Barnard College.

The following is a summary of the scholarships:

Competitive Scholarships

1. *Open to all Students:*

Trustees' Competitive Scholarship..... 1

Awarded by the Board of Trustees to the student who, in June, passes the best complete entrance examination. It may be held for one year only.

Jessie Kaufmann Scholarship..... 1

Established in 1902 by Mr. Julius Kaufmann in memory of his daughter, Jessie Kaufmann.

2. *Open to Particular Students:*

Brooklyn Scholarships..... 12

Awarded under same conditions as apply to Brooklyn Scholarships in Columbia College, see page 42.

Lucille Pulitzer Scholarships..... 3

Founded by Mr. Joseph Pulitzer in memory of his daughter, Lucille Pulitzer. They are awarded to undergraduate students entering the College from the city of New York. They may be held for the first three years of the College course only.

Non-competitive Scholarships

These, subject to the general regulations for scholarships, are as follows:

1. *Open to all Students:*

Student Scholarships.....	12
Twelve in number, given by the Committee of the Trustees on Scholarships. These are supported by the income of a permanent fund that is being established and that at present amounts to \$9580, and of the Arthur Brooks Fund (see below). The remainder is supplied by annual provision.	
Ella Weed Scholarship.....	1
Founded by the pupils of Miss Anne Brown's School in memory of Miss Ella Weed.	
Veltin School Scholarship.....	1
Given by the alumnae of Mlle. Veltin's School.	
Jennie B. Clarkson Scholarship.....	1
Founded in 1898 by Mrs. W. R. Clarkson.	
Emily James Smith Scholarship.....	1
Founded in 1899 by Miss Emily H. Bourne in honor of Miss Smith, then Dean of Barnard College.	
Anna E. Barnard Scholarship.....	1
Founded in 1899 by Miss Emily H. Bourne in honor of Mrs. John G. Barnard.	
Brearley School Scholarship.....	1
Founded in 1899 by pupils and former pupils of the Brearley School.	
Eliza Taylor Chisholm Memorial Scholarship.....	1
Founded in 1901 by the Alumnae Association of Miss Chisholm's School.	
Graham School Scholarship.....	1
Given in 1901 by the Graham Alumnae Association.	

2. *Open to Particular Students:*

Mrs. Donald McLean Scholarship.....	1
Given in 1898 by the New York Chapter of the Daughters of the American Revolution, to a deserving student who agrees to pursue the study of history (chiefly that of the United States) continuously throughout her college course.	
Emma Hertzog Scholarship.....	1
Founded in 1904 by gifts from residents of Yonkers, N. Y.	

It is awarded, in conference with the Faculty of the Yonkers High School, to a graduate of that school.

Mrs. Henry Clarke Coe Scholarship..... 1

Given in 1904 by the National Society of New England Women. It is awarded, in conference with the President of the above Society, to a student from New England or of New England parentage.

3. *Special Funds for the Aid of Needy and Deserving Students:*

Arthur Brooks Fund.

A fund of \$5000 given in 1897 by Miss Olivia E. Phelps Stokes as a memorial of the Reverend Arthur Brooks, D.D. This fund is at present applied to the maintenance of the Student Scholarships.

Fiske Scholarship Fund.

A sum of \$240, the income of a fund given by Mrs. Martha T. Fiske-Collord, placed at the disposal of the Dean of Barnard College.

Herrman Botanical Prize

A prize of \$50, founded by Mrs. Esther Herrman, will be awarded annually to the most proficient undergraduate student in botany.

Kohn Mathematical Prize

A prize of \$50, founded by Mrs. S. H. Kohn, is awarded annually to a senior for excellence in mathematics. Competitors for this prize must have pursued mathematics continuously during their college course.

Bunner Medal

By the terms of its establishment, the A. C. Bunner gold medal (page 39) is open for competition to students in Barnard College.

Other Officers and Instructors

WILLIAM SMITH ROBINSON.....	<i>Instructor in Drawing and Painting</i>
CHARLES PRENTICE BENNS, M.E.....	<i>Instructor in Machine Work</i>
CHARLES CONRAD SLEFFEL.....	<i>Instructor in Forging</i>
CHARLES WILLIAM WEICK, B.S.....	<i>Instructor in Wood-Working</i>
CAROLINE GERALDINE O'GRADY.....	<i>Instructor in Kindergarten</i>
WILLIAM H. NOYES, A.B.....	<i>Instructor in Manual Training</i>
LOUIS GASPARD MONTÉ.....	<i>Instructor in Fine Arts</i>
MAUD MARCH.....	<i>Instructor in Physical Education</i>
MARY BEALS VAIL.....	<i>Instructor in Domestic Science</i>
HELEN PLACE.....	<i>Instructor in Music</i>
KATE MCMAHON.....	<i>Principal of Kindergarten</i>
CAROLINE ELEANOR MEHAN.....	<i>Instructor in Music</i>
MARY BACKUS HYDE.....	<i>Instructor in Manual Training</i>
WILLIAM MCCASTLINE, M.D.....	<i>Assistant Director in Physical Education</i>
NAOMI NORSWORTHY, Ph.D.....	<i>Instructor in Educational Psychology</i>
CAROLINE CRAWFORD.....	<i>Instructor in Physical Education</i>
LOUISE CHRISTINE SUTHERLAND.....	<i>Tutor in Kindergarten</i>
CLARA BARBARA KIRCHWEY.....	<i>Tutor in Geography</i>
ADA M. WATTERSON, A.M.....	<i>Tutor in Biological Science</i>
HELEN MARION DAY.....	<i>Tutor in Domestic Science</i>
PAUL HAWORTH, A.M.....	<i>Tutor in History</i>
GRACE CORNELL.....	<i>Tutor in Fine Arts</i>
MAY BELLE VAN ARSDALE.....	<i>Assistant in Physical Science</i>
ALETTA VAN WYCK SCHENCK.....	<i>Assistant in Domestic Art</i>
MATILDA GARRETSON REA.....	<i>Assistant in Domestic Art</i>
CAROLINE LOUISA PENISTON.....	<i>Assistant in Domestic Art</i>
JEANETTE ROWLAND SEIBERT, A.B.....	<i>Assistant in Educational Psychology</i>
ELIZABETH SAGE.....	<i>Tutor in Domestic Art</i>
ELIZA BENTON.....	<i>Assistant in Domestic Science</i>
MARSHAL FRY.....	<i>Assistant in Fine Arts</i>
HELEN GASTON.....	<i>Assistant in Fine Arts</i>
ANNA M. COOLEY.....	<i>Assistant in Domestic Art</i>
CLIFFORD UPTON, A.B.....	<i>Assistant in Mathematics</i>
MARGARET MAUD ZERBE.....	<i>Assistant in Music</i>

Lecturers

RICHARD MORSE HODGE, D.D.....	<i>Lecturer in Biblical Literature</i>
THOMAS WHITNEY SURETTE.....	<i>Lecturer in Music</i>

CLARK WISSLER, Ph.D.	<i>Lecturer in Anthropology</i>
SUSAN E. BLOW	<i>Lecturer in Kindergarten</i>
LAURA E. FISHER	<i>Lecturer in Kindergarten</i>
WILLIAM SKARSTROM, M.D.	<i>Lecturer in Physical Education</i>
ANTHONY SUZZALLO, A.M.	<i>Lecturer in Elementary Education</i>
ANNA LOWELL ALLINE	<i>Lecturer in Hospital Economics</i>
AZUBAH JULIA LATHAM, A.B.	<i>Lecturer in Music</i>

TEACHERS COLLEGE SCHOOLS

Officers of Administration

JAMES E. RUSSELL, LL.D.,	<i>Dean</i>
SAMUEL T. DUTTON, A.M.,	<i>Superintendent</i>

Horace Mann Schools

VIRGIL PRETTYMAN, A.M.	<i>Principal of High School</i>
HENRY CARR PEARSON, A.B.	<i>Principal of Elementary School</i>
KATE MCMAHON	<i>Principal of Kindergarten</i>
DOROTHEA FRANCES CANFIELD, Ph.D.	<i>Secretary</i>
MARION ROOT PRATT	<i>Secretary to the Superintendent</i>
MARTHA MCLEAR	<i>Secretary to Principal of High School</i>
CORA MAY GEER	<i>Secretary to Principal of Elementary School</i>

Speyer School

AMY SCHÜSSLER	<i>Principal</i>
HOWARD B. WOOLSTON	<i>Director Night School and Neighborhood Work</i>

Instructors and Assistants in Horace Mann Schools

EUGÉNIE MENUT	<i>French</i>
MAY BELLE VAN ARSDALE	<i>Physics and Chemistry</i>
KATHARINE MOORE COCHRANE, A.B.	<i>Greek and Latin</i>
CHARLES MCCOY BAKER, A.B.	<i>Latin</i>
MARY C. UPHAM	<i>Fine Arts</i>
ELIZA RHEES BUTLER, A.B.	<i>History</i>
LUCY HESS WEISER	<i>Manual Training</i>
ROLAND HUGH WILLIAMS, B.S.	<i>Mathematics</i>
KATE STUART ANTHONY	<i>Domestic Art</i>
FRANCES ELBERTINE MCRAE	<i>Physical Science</i>
LAURA BRAINARD WHITTEMORE	<i>Domestic Science</i>
MARY BROWNSON GILLMORE, Ph.B.	<i>History</i>
CLIFFORD UPTON, A.B.	<i>Mathematics</i>
EDITH RAND, A.B.	<i>Biology and Nature Study</i>
ALLAN ABBOTT, A.B.	<i>English</i>
LILLA A. NOURSE	<i>Fine Arts</i>
HELEN PLACE	<i>Music</i>
HELEN B. BAKER	<i>English</i>

LOUISE M. FISHER.....	<i>Physical Education</i>
MARGARET MAUD ZERBE.....	<i>Music</i>
LAURA C. VALENTINE.....	<i>Secretary and Assistant Librarian</i>
MIRIAM FINN SCOTT.....	<i>Resident</i>
ERNEST STAGG WHITIN.....	<i>Assistant in Neighborhood Work</i>

GENERAL STATEMENT

Teachers College, founded in 1888, and chartered by the Regents of the University of the State of New York in 1889, became, in 1898, a part of the educational system of Columbia University. The President of Columbia University is President, *ex-officio*, of Teachers College, and the College is represented in the University Council by its Dean and a representative elected from its Faculty. The College meanwhile maintains its separate corporate organization, and its Board of Trustees continues to assume entire financial responsibility for its maintenance.

Teachers College is thus the professional school of Columbia University for the study of education and the training of teachers, taking academic rank with the Schools of Law, Medicine, and Applied Science. It provides opportunity for study and research in the field of education, and both theoretical and practical preparation of teachers of both sexes for elementary and secondary schools, of specialists in various branches of educational work, and of school principals, supervisors, and superintendents.

The following curricula are offered by the College:

1. A collegiate course of two years. This course may be entered by any student who, having satisfied the requirements for admission to the undergraduate colleges of the University, desires to direct his collegiate studies specifically towards teaching. This course, when followed by a two-years' professional course, leads to the degree of Bachelor of Science.
2. Two-year professional courses leading to the Bachelor's Diploma of Teachers College for (a) teaching specified subjects in secondary schools; (b) teaching in elementary schools or in kindergartens; (c) teaching Domestic Art, Domestic Science, Fine Arts, Manual Training, Music; or (d) Physical Education.

Candidates for admission to course (a) must have completed the sophomore year in an approved college; to course (b), the sophomore

year in an approved college, or graduation from an approved normal school or teachers' training school; to course (c), at least two years of collegiate study, technical training, or experience in teaching, after the completion of a satisfactory course in an approved secondary school; to course (d), at least two years of collegiate study or technical training after the completion of a satisfactory course in an approved secondary school.

The curricula for teaching in secondary schools are so arranged that undergraduate students of Columbia College and of Barnard College, and students who are prepared to enter the junior class of either of these colleges, may, if they desire, obtain the diploma of Teachers College at the time of receiving their degree of Bachelor of Arts. In like manner, students of Teachers College may obtain their diploma and the degree of Bachelor of Science at the same time.

3. Graduate courses of at least one year leading to the Master's Diploma of the College. Candidates for admission to these courses must have received a Bachelor's Diploma from Teachers College, or an equivalent collegiate and professional education in an approved institution of learning.

4. Graduate courses of at least two, ordinarily of three, years, leading to the Doctor's Diploma in certain departments of the College. The conditions for entrance to these courses are the same as those for the course leading to the Master's Diploma.

Certain graduate courses in Teachers College may be counted in partial fulfilment of the requirements for the University degrees of Master of Arts and Doctor of Philosophy. Candidates for the degree of Master of Arts or Doctor of Philosophy who present Education as a major or as a minor subject may arrange their work in such a way as to secure at the same time a Bachelor's or a Master's Diploma from Teachers College.

The Horace Mann School and the Speyer School, maintained by Teachers College as schools of observation and experiment, include kindergarten, elementary, and secondary classes and neighborhood work, and offer exceptional advantages for the study of the practical work of teaching and for the investigation of educational problems.

Buildings and Equipment

The buildings of Teachers College occupy the block directly north of the University Campus, bounded by 120th and 121st Streets, Amsterdam Avenue and Broadway.

The Main Building, containing, in addition to its equipment for administration and instruction, the Bryson Library—the educational library of the University—and the Educational Museum, is adjoined by the Milbank Memorial Building, housing a number of academic and technical departments and containing the Memorial Chapel; and by the Macy Manual Arts Building, with its exceptional equipment for

the departments of Manual Training and Fine Arts. The Frederick Ferris Thompson Memorial Building for the department of Physical Education connects the Milbank Building on the west with the building of the Horace Mann School. The building of the James Speyer School is a short distance north of the College, on Lawrence Street, near Amsterdam Avenue. Whittier Hall, the residence for the women students of the University, is under the control of Teachers College.

REGISTER OF STUDENTS, 1904-05

Teachers College

Graduate Students

Candidates for the Doctor's Degree and Diploma

The following students are registered also under the Faculty of Philosophy.

- AERY, WILLIAM ANTHONY.....Elmhurst N. Y.
College of the City of New York, 1900-1901.
Columbia University, A.B., 1904.
Teachers College, Bachelor's Diploma, 1904.
Education, History.
- ANDREWS, BENJAMIN RICHARD.....(Mhntn) New York City
Cornell University, A.B., 1901; A.M., 1903.
Education, Psychology.
- BALDWIN, ARTHUR POND.....(Mhntn) New York City
College of the City of New York, A.B., 1876.
Columbia University, A.M., 1901.
Teachers College, Bachelor's Diploma, 1902.
Education, Sociology.
- * BENNETT, CHARLES JOSEPHUS.....San Jose, Cal.
University of Nashville, A.B., 1889; A.M., 1892.
Leland Stanford, Jr., University, A.M., 1896.
Education, Psychology.
- BREWSTER, JOHN ALFRED.....Geauga Lake, Ohio
Harvard University, A.B., 1896.
Education, Mathematics, Sociology.
- COLBURN, HARRISON S.....(Mhntn) New York City
Purdue University, B.S., 1900.
Columbia University, A.M., 1902.
Teachers College, Master's Diploma, 1902.
Education, History.
- COLE, ARTHUR CARMAN.....North Craftsbury, Vt.
Olivet College, A.B., 1894.
University of Chicago, 1895-1896.
Columbia University, A.M., 1904.
Education, English.
- COURSAULT, JESSE HARLIAMAN.....Columbus, Ohio
Ohio State University, A.B., 1893; A.M., 1898.
Harvard University, A.M., 1900.
Teachers College, Master's Diploma, 1904.
Education, Psychology.
- CUBBERLEY, ELLWOOD P.....Stanford University, Cal.
University of Indiana, A.B., 1891.
Columbia University, A.M., 1902.
Education, Sociology.
- DEAN, PHILIP REDFIELD.....Newark, N. J.
Harvard University, A.B., 1896.
Columbia University, A.M., 1904.
Teachers College, Master's Diploma, 1904.
Education.

* Candidate for the Ph.D. degree only.

- DEARBORN, WALTER FENNO.....Middletown, Conn.
Wesleyan University, A.B., 1900; A.M., 1903.
Education, Psychology, Philosophy.
- ELLIOTT, EDWARD CHARLES.....(Mhtn) New York City
University of Nebraska, B.S., 1895; A.M., 1897.
Education, Sociology, Economics.
- * ESSELSTYN, HENRY HOGEBOOM.....Hudson, N. Y.
Union College, A.B., 1893; A.M., 1896.
Education, English.
- FONTAINE, ANDRÉ C.....(Mhtn) New York City
University of France, B.L.P., 1896.
Columbia University, A.M., 1903.
Education.
- * HALL, JOHN WILLIAM.....(Mhtn) New York City
Columbia University, B.S., 1901; A.M., 1902.
Education, Geography.
- JAMESON, CHARLES BARING.....(Mhtn) New York City
College of the City of New York, A.B., 1896.
Education, English, History, Sociology.
- LEWIS, ALFRED HOMES.....Greenwich, Conn.
Princeton University, 1896-1898.
Columbia University, A.B., 1902; A.M., 1903.
Teachers College, Bachelor's Diploma, 1902.
Education.
- * PAUL, FRANCIS HUGH JOSEPH.....(Mhtn) New York City
College of the City of New York, A.B., 1897.
New York University, M.Pd., 1902; D.Pd., 1903.
Education, Psychology.
- REIGART, JOHN FRANKLIN.....Yonkers, N. Y.
Dickinson College, A.B., 1888.
Clark University, 1891-1892.
Education, Psychology.
- SMITH, ALEXANDER GODFREY.....(Bklyn) New York City
Columbia University, A.B., 1900; A.M., 1902.
Psychology, Education, English.
- STAMPER, ALVA WALKER.....Chico, Cal.
University of California, B.S., 1895.
Education, Mathematics.
- STONE, CLIFF WINFIELD.....Oshkosh, Wis.
University of Chicago, 1900-1902.
Columbia University, B.S., 1904.
Education, Philosophy.
- STRAYER, GEORGE DRAYTON.....Baltimore, Md.
Johns Hopkins University, A.B., 1903.
Education, Sociology.
- WELLS, HERMAN JAY.....(Jamaica), New York City
Williams College, A.B., 1887.
Columbia University, A.M., 1902.
Education.

Candidates for the Master's Degree and Diploma

The following students are registered also under the Faculty of Philosophy.

- † ADAMS, EDWARD BRADFORD.....Westport, Conn.
Yale University, A.B., 1901.
Yale Divinity School, B.D., 1904.
Education.
- BALLARD, HAROLD HENRY.....Baltimore, Md.
Johns Hopkins University, A.B., 1888; Ph.D., 1893.
Education, Psychology.

* Candidate for the Ph.D. degree only. † Candidate for the A.M. degree only.

- † BEIFELD, MINNIE MARGARET.....(Mhtn) New York City
Barnard College, A.B., 1904.
Education, Philosophy.
- BELLER, WILHELMINA CATHERINE.....(Mhtn) New York City
Teachers College, Higher Diploma, 1902.
Columbia University, B.S., 1904.
Education.
- BLISS, DON CARLOS.....Kearny, N. J.
Dartmouth College, A.B., 1892; A.M., 1894.
Education, History.
- BRAINERD, HELEN KATHARINE.....St. Albans, Vt.
Wellesley College, A.B., 1900.
Education, Latin.
- † BRAUCHER, HOWARD S.....(Mhtn) New York City
Cornell University, A.B., 1903.
Education.
- BRINCKERHOFF, ANNIE M.....Mt. Vernon, N. Y.
Vassar College, A.B., 1895.
Education, Latin.
- BRINCKERHOFF, MARY LOUISE.....Mt. Vernon, N. Y.
Vassar College, A.B., 1899.
Education, English.
- †† BROWN, UDETTA DOTY.....(Mhtn) New York City
Wellesley College, A.B., 1903.
Education, French.
- CARLSON, CARL OSCAR.....(Mhtn) New York City
College of the City of New York, B.S., 1896.
Education.
- CHEDSEY, MARY COE.....Yonkers, N. Y.
Columbia University, B.S., 1904.
Education, Botany.
- †† CLARKE, MYRA BREWSTER.....(Mhtn) New York City
University of Washington, A.B., 1900.
Education, Psychology, Household Chemistry.
- COBB, CHARLES W.....(Mhtn) New York City
Amherst College, A.B., 1897; A.M., 1901.
Education.
- †† COLWELL, RACHEL HARTSHORN.....Granville, Ohio
Denison College, B.S., 1903.
Education, Domestic Science.
- § CONNER, MARY EMMA.....Scranton, Pa.
Teachers College, Bachelor's Diploma, 1904.
Education, Psychology.
- COUCH, ANNE MARGARET.....(Bklyn) New York City
The Woman's College of Baltimore, A.B., 1904.
Education, History.
- DANIELS, HARRIET McDONAL.....Clinton, N. Y.
Bryn Mawr, 1900-1901.
Barnard College, A.B., 1904.
Education.
- DAVENPORT, F. ISABEL.....Cortland, N. Y.
Cornell University, 1894-1896.
Clark University, 1902-1903.
Columbia University, B.S., 1904.
Teachers College, Bachelor's Diploma, 1904.
Education, Psychology.

† Candidate for the A.M. degree only.

†† Also a candidate for the Elementary diploma.

†† Also a candidate for the Domestic Science diploma.

§ Also a candidate for the B.S. degree.

- † DORLAND, GEORGE WILLIAM.....(Mhtn) New York City
College of the City of New York, B.S., 1897.
Education, Psychology, Philosophy.
- DRIEHAUS, IRWIN WILLIAM.....Cincinnati, Ohio
University of Cincinnati, B.S., 1900.
Education, Physical Science.
- EAKINS, LUELLA HELEN.....Colwyn, Pa.
The Woman's College of Baltimore, A.B., 1903.
Education, Greek.
- FLETCHER, WILLIAM THOMAS.....Forest Grove, Oregon
Pacific University, B.S., 1900.
Education, Mathematics.
- FOX, ANNA LEAH.....Fall River, Mass.
Brown University, Ph.B., 1904.
Education, German.
- GARRETY, WILLIAM PLYMON.....(Mhtn) New York City
College of the City of New York, B.S., 1897.
New York Training School for Teachers, 1898-1900.
Education.
- GODFREY, JESSE T.....Cranford, N. J.
Lafayette College, A.B., 1903.
Education.
- GRAY, THOMAS EDWIN.....Carthage, Mo.
University of Michigan, A.B., 1895.
Education, Psychology.
- GREENBAUM, SAMUEL WILLIAM.....(Mhtn) New York City
College of the City of New York, A.B., 1894.
New York University, M.D., 1899.
Education.
- HALLENBECK, ALBERT HENRY.....Syracuse, N. Y.
Syracuse University, A.B., 1901.
Education, Sociology.
- † HAMMOND, ELSIE.....Fishkill-on-Hudson, N. Y.
Mt. Holyoke College, A.B., 1902.
Education, Mathematics.
- HECKERT, JOHN WALTER.....(Mhtn) New York City
Hamline University, Ph.B., 1900.
Education, Psychology.
- HEDGES, ANNA CHARLOTTE.....(Mhtn) New York City
Washington University, St. Louis, 1885-1887.
Teachers College, Bachelor's Diploma, 1903.
Columbia University, B.S., 1904.
Education, Anthropology, Sociology.
- † HEYDRICK, BENJAMIN ALEXANDER.....(Mhtn) New York City
Allegheny College, A.B., 1893.
Harvard University, A.B., 1895.
Education.
- HIGHSMITH, JOHN HENRY.....Durham, N. C.
Trinity College, A.B., 1900; A.M., 1902.
Education, Philosophy.

WATSON, GRACE GENEVE.....	St. Albans, Vt. School for Nurses, Chicago, Ill., 1892.
WRIGHT, LUELLA NOEL (MRS).....	Flora, Ill. St. Joseph's Hospital Training School, Chicago, Ill., 1895.

SUMMARY

Candidates for Degrees and Diplomas

I. Graduate Students:		
Candidates for Doctor's Diploma and Degree.....	25	
" " Master's Diploma and Degree.....	76	
" " Higher Diploma.....	—	101
II. Professional Students:		
Candidates for Bachelor's Diploma:		
For Teaching in Secondary Schools.....	190	
" " " Elementary Schools.....	57	
" " " Kindergartens.....	28	
" " Domestic Art.....	14	
" " Domestic Science.....	46	
" " Fine Arts.....	43	
" " Manual Training.....	19	
" " Music.....	14	
" " Physical Education.....	10	
Candidates for the Bachelor of Science Degree only.....	15	436
III. Students in Collegiate Course:		
Sophomore Year.....	48	
Freshman Year.....	30	78
IV. Students not candidates for a Degree or Diploma:		
Special Students.....	14	
Special Students in Hospital Economics.....	9	
Auditors.....	13	36
V. Students from other Faculties of the University:		
From the Faculty of Philosophy.....	44	
" " " Political Science.....	10	
" " " Pure Science.....	13	
" " " Applied Science.....	2	
" Columbia College.....	32	
" Barnard College.....	100	201
		852
Less duplicate counts, candidates for diplomas:		
Barnard College, 94; Columbia College, 27.....	121	
Total.....		731

PUPILS IN TEACHERS COLLEGE SCHOOLS

OFFICERS OF INSTRUCTION

Officers of the Faculty

HENRY H. RUSBY, M.D.....	<i>Dean</i>
GEORGE A. FERGUSON, Ph.B.....	<i>Secretary</i>

The Faculty

CHARLES F. CHANDLER, A.M., Ph.D., M.D., LL.D., D.Sc.,	<i>Professor of</i>
	<i>Organic Chemistry</i>
HENRY H. RUSBY, M.D.....	<i>Professor of Botany and Materia Medica</i>
VIRGIL COBLENTZ, A.M., Phar.M., Ph.D., F.C.S.,	<i>Professor of Physics</i>
	<i>and Chemistry</i>

GEORGE A. FERGUSON, Ph.B.,	<i>Professor of Analytical Chemistry and Mathematics</i>
SMITH ELY JELLIFFE, A.M., M.D., Ph.D.,	<i>Professor of Pharmacognosy and Technical Microscopy</i>
GEORGE C. DIEKMAN, Ph.G., M.D.	<i>Professor of Pharmacy</i>
JOHN OEHLER, Ph.G.	<i>Adjunct Professor of Chemistry</i>
ARTHUR H. ELLIOTT, Ph.D., F.C.S.,	<i>Professor Emeritus of Chemistry and Physics</i>
WILLIAM J. GIES, Ph.D.,	<i>Adjunct Professor of Physiological Chemistry</i>
CARLTON C. CURTIS, Ph.D.	<i>Tutor in Botany</i>

Other Instructors

HARRY B. FERGUSON, Ph.D.	<i>Instructor in Botany and Materia Medica</i>
RAYMOND J. NESTELL.	<i>Instructor in Analytical Chemistry</i>
ANTON VORISEK, Ph.D.	<i>Instructor in Pharmacy</i>
WILLIAM MANSFIELD, Ph.G.	<i>Instructor in Physics</i>

Other Officers of Administration

JAMES H. CANFIELD, LL.D., Litt.D.	<i>Librarian of the University</i>
RUDOLF TOMBO, Jr., Ph.D.	<i>Registrar of the University</i>
FREDERICK A. GOETZE.	<i>Superintendent of Buildings and Grounds</i>
VIRGIL COBLENTZ, Ph.D.	<i>Librarian to the College of Pharmacy</i>
SARA KER.	<i>Custodian of the Library of the College of Pharmacy</i>

GENERAL STATEMENT

The College of Pharmacy of the City of New York, founded in 1829, chartered in 1831, and recognized in 1879 by the Regents as part of the University of the State of New York, became a member of the educational system of Columbia University on July 1, 1904. The President of the University is *ex-officio* President of the College of Pharmacy, and the College is represented in the University Council by its Dean, who is appointed by the Trustees of the College of Pharmacy on the nomination of the President. The College, however, maintains its separate corporate organization, and its Trustees continue to provide for its financial support.

The College of Pharmacy thus becomes the professional school of Columbia University for pharmacists and pharmaceutical chemists, and, as well, a valuable addition to the University's resources for teaching and research in botany and toxicology.

The following courses of study are offered:

1. A two-year course consisting of a junior and senior year leading to the degree of Graduate in Pharmacy and qualifying a graduate to meet any examination for the position of licensed pharmacist. The work undertaken is as follows: Junior year—physics, general and pharmaceutical chemistry, analytical chemistry, mathematics of

pharmacy, practical pharmacy, applied pharmacy, botany, pharmacognosy, and physiology. Senior year—organic chemistry, inorganic and organic pharmaceutical chemistry, analytical chemistry, practical pharmacy, materia medica, toxicology, commercial pharmacognosy, histological pharmacognosy.

2. A third or post-graduate course of one year, open to graduates of this or other schools of equal grade, leading to the degree of Doctor of Pharmacy. This course fits graduates for advanced positions as chemists, expert analysts and microscopists, and for making urinary analyses, bacteriological examinations, and performing other work of the kind. It consists of practical courses in plant analyses, technical microscopy and bacteriology, quantitative analysis and organic analysis, and lecture courses in the theory and practice of inorganic quantitative analysis, commercial organic analysis and toxicology, and physiological chemistry.

3. A number of special courses of instruction have also been established, partly for the benefit of those regular students who desire, for any reason, to specialize in certain lines of work, and partly to provide instruction in individual departments for those who do not desire to take the full course. Certificates, but not diplomas, will be awarded to the last mentioned special students. These special courses of instruction are in pharmacognosy, chemical analysis, advanced inorganic and organic chemistry, and practical pharmacy.

The College is situated at 115 West 68th Street, near Columbus Avenue, in a new and especially well-equipped building erected in 1894.

No changes in curriculum, degrees, or entrance or graduation requirements will be made until after the close of the year 1904, when, according to law, twelve Regents' counts or an equivalent will be required as a preliminary to entrance. Important changes in other respects will be announced to take effect with the session of 1905-06 and in subsequent years, and will affect students matriculating in September, 1905, or thereafter. Full particulars regarding the proposed changes will be made public in the announcement of the College of Pharmacy for 1905-06.

Students who are to be examined for admission will be examined at the Columbia University entrance examinations, which are held in June and September of each year. In June, 1905, the entrance examinations will be those of the College Entrance Examination Board, of which Columbia University is a member. The June examinations are held simultaneously at Columbia University and at many places throughout the United States, Canada, and Europe. For detailed information see p. 191.

In September, 1905, the entrance examinations will be conducted by the Columbia University Committee on Entrance Examinations and will be held at the University only. The College Entrance Examination Board at present holds no examinations in September.

Method of Instruction

During the junior and senior years the instruction occupies three days of the week, the alternate days being free for that practical experience in the pharmacy which is required by Boards of Pharmacy before they will grant their licenses. While this arrangement enables students to meet the Board requirements, it also provides for salaries, which pay the expenses of a majority of our students.

Many students, adopting the advice of the Faculty, prefer to devote the entire time of the second year to college work. For those so desiring, additional instruction is provided.

For the purpose of more fully elucidating the subjects presented in the lectures and laboratories and of familiarizing the students therewith, as well as for testing their progress from week to week and of ascertaining whether they are giving suitable attention to their work, a complete series of recitations or quizzes, by a corps of fully qualified instructors, is provided. The succession of topics and the manner of their treatment at these recitations follow closely the courses of instruction given by the professors in the respective departments. In order that all the members of the class may be drilled as often and as thoroughly as possible, the classes are divided into small sections, the instruction of each section being identical but conducted at different hours.

REGISTER OF STUDENTS, 1904-05

College of Pharmacy

GRADUATE STUDENTS

ARMSTRONG, JOSEPH FRANCIS.....	(Mhtn) New York City

GERTRUDE L. WOLFF, A.B.....	<i>Latin</i>

GENERAL STATEMENT

The fifth Summer Session of the University opened July 6, 1904, and closed August 17. The registration day for the Summer Session was July 5. Examinations for certificates were held on August 17.

Courses were offered in anthropology, biology, chemistry, domestic science, economics, education, English (including rhetoric and composition), geography, geology, German, history, Latin, manual training, mathematics, mechanical drawing, music, philosophy, physical education, physics, physiology, psychology, and Romance languages.

Each course consisted of thirty lectures or other exercises, or their equivalent in laboratory or field work. Credit for such courses in the Summer Session as are accepted by the several Faculties of the University in partial fulfilment of the requirements for degrees or for teachers' diplomas, may only be claimed by those who sustained satisfactorily the examination at the conclusion of the course.

The tuition fee for the Summer Session is \$25, which covers three courses of instruction, the limit allowed by the regulations.

The usual matriculation fee of \$5 is charged to all students who join the University for the first time at the Summer Session. The Gymnasium fee of \$5, including the use of the gymnasium, a private locker, and the privilege of the swimming pool, is required of all students who take certain courses in physical education, as listed in the *Announcement*, or who make use of the swimming pool, but is optional for all others.

The Summer Session is open to men and women on equal terms.

For the Announcement of the Summer Session of 1905, which will open July 5, and offer a wide range of courses, or for information regarding dormitory accommodations, or board and lodging, address the Secretary of Columbia University, New York.

Summer Courses in Medicine

The second series of summer courses in Medicine for men was offered in 1904. Courses were given in clinical pathology, dermatology, gynecology, laryngology, obstetrics, ophthalmology, pediatrics, physical diagnosis, and surgery (hospital and minor).

This work will be continued in the summer of 1905, and persons interested are requested to apply for the Announcement of the Summer Courses in Medicine, which will be furnished without charge upon application after February 1 to the Secretary of the University.

CHARLES A. BEARD, Ph.D.....	<i>History</i>
DANIEL GREGORY MASON, A.B.....	<i>Music</i>

GENERAL STATEMENT

1. Extension Teaching is defined by the Statutes of the University as instruction given by University officers and under the administrative supervision and control of the University, either away from the University buildings or at the University, for the benefit of students not able to attend the regular courses of instruction.

Extension Teaching is under the immediate supervision of an Administrative Board and the Director of Extension Teaching. The relation of Extension Teaching to the other work of the University is subject to the jurisdiction of the University Council.

Extension Teaching facilitates and directs instruction for students not in academic residence by means of various courses of instruction given at special times and places, both at the University and elsewhere. The University thus offers to men and women, especially to those engaged in teaching, who can give only a portion of their time to study, an opportunity to pursue some subjects included in a liberal education and to make progress, if they so desire, towards a diploma in teaching or an academic degree.

2. Subject to the general authority of the University Council, the weight to be attached to attendance upon an Extension course on the part of a student who subsequently makes application to be admitted to candidacy for a degree or diploma is fixed by the appropriate Faculty or Administrative Committee.

COURSES OF INSTRUCTION

The courses of instruction offered in Extension Teaching are of two kinds:

Credit Courses, *i. e.*, courses that are credited by the Faculties concerned, or by the University Council, towards the fulfilment of the requirements for degrees and diplomas.

Lecture Courses, *i. e.*, short courses of lectures which are not accepted towards the fulfilment of requirements for degrees and diplomas.

For detailed information as to the places and hours for these courses, both at the University and at the several local centres, the qualifications for admission, the regulations for registration, candidacy for degrees and diplomas, attendance and examinations, the fees prescribed, and for a statement of each course offered, see the *Announcement of Extension Teaching 1904-05*, which may be obtained without charge upon application to the Secretary of the University.

CREDIT COURSES

For 1904-05 Credit courses are offered to extension students as follows:

SUBJECT	NUMBER OF COURSES	SUBJECT	NUMBER OF COURSES
Anthropology . . .	2	Manual Training . . .	3
Architecture . . .	1	Mathematics . . .	5
Biblical Literature . . .	3	Mechanical Engineering . . .	2
Biology . . .	2	Metallurgy . . .	1

UNIVERSITY BIBLIOGRAPHY

FOR THE ACADEMIC YEAR ENDING JULY 1, 1904

I. Official Publications of Columbia University

Annual Catalogue: describes the organization of the University, and gives a full statement of courses and facilities for research offered during the current year, lists of officers and students, accounts of fellowships, scholarships, and honors offered and conferred, estimates of expenses, requirements for admission and degrees, and the regulations governing the College and the various Schools of the University: Issued each December. Price, 25 cents.

Annual Reports of the President and the Treasurer to the Trustees: issued each November.

Directory of Officers and Students: issued each year soon after the opening of the University; contains the names, office hours, and addresses of the officers of the University, and the names and addresses of the students registered up to the time of publication; revised and a second edition printed complete.

General Catalogue of the Alumni: issued sexennially; contains the names and addresses of all graduates of the University. The current edition is that of 1900. Price, \$2.00. For sale at the University Press Bookstore and in the office of the Registrar.

Announcements of the various Schools of the University are issued in the spring of each year and contain information concerning admission, expenses, courses of instruction to be given during the coming year, and requirements for degrees. They include:

Announcement of Columbia College, for the work for men leading to the degree of Bachelor of Arts.

Announcement of the School of Law, for the work leading to the degree of Bachelor of Laws.

Announcement of the College of Physicians and Surgeons, for the work leading to the degree of Doctor of Medicine.

Announcement of the College of Pharmacy, for the work leading to appropriate degrees and certificates.

Announcement of the Schools of Applied Science, together with the special announcements of the courses in Mining and Metallurgy, in Chemistry, and in Civil, Electrical, and Mechanical Engineering.

Announcement of the Faculties of Political Science, Philosophy, and Pure Science, for all non-professional advanced work leading to the degrees of Master of Arts and Doctor of Philosophy.

Announcement of Courses in the Fine Arts, including courses of instruction given in the School of Architecture, in the Department of Music, and in the Departments of Fine Arts and Music in Teachers College.

Announcement of the Summer Session.

Announcements of the Summer Courses in Medicine and in Surveying.

Circular of Information as to Entrance Examinations.

Circular of General Information, with views of the University buildings.

Announcement of Student Organizations, Athletic and Other, under the supervision of the Comptroller of Student Organizations.

Announcements of the several divisions of the University are issued in the spring, and contain full information concerning the work of the coming year, or years, in those divisions. These circulars are devoted to Biology; Classical Philology; Geology, Geography, and Mineralogy; History, Economics, and Public Law; Mathematical and Physical Science; Modern Languages and Literatures; Physical Education; Oriental Languages; Philosophy, Psychology, and Anthropology.

Unless otherwise stated, all the publications above named are distributed without charge upon application to the Secretary of Columbia University.

Publications of Barnard College:

Announcement of Barnard College: contains full information concerning admission, expenses, courses of instruction, and requirements for the degree of Bachelor of Arts.

Report of the Dean: issued yearly.

These publications are distributed without charge upon application to the Secretary of Barnard College.

Publications of Teachers College:

Announcement of Teachers College: issued annually; contains full information concerning the organization, equipment, and work of this institution, the Department of Education of Columbia University.

Report of the Dean: issued each November.

Special Circulars describing the work of the departments of:

Educational Psychology, History and Philosophy of Education, Educational Administration, Secondary Education, Elementary Education, Physical Education, Kindergarten, Domestic Art, Domestic Science, Fine Arts, Manual Training, Music, and of other departments. Also a special **Announcement of Extension Teaching.**

These may be obtained without charge upon application to the Secretary of Teachers College.

Syllabi of Extension Courses, a list of which may be had by addressing the Director of Extension Teaching, Teachers College.

Circular of the Horace Mann School; a school fully equipped with kindergarten, elementary, and secondary classes, maintained by Teachers College as a school of observation.

This circular may be obtained without charge upon application to the Superintendent of the Horace Mann School.

II. The Columbia University Press

The Columbia University Press was organized with the approval of the Trustees of Columbia College and was incorporated June 8, 1893, for the purpose of promoting the publication of works embodying the results of original research. The Press is a private corporation, related directly to Columbia University by the provisions that its Trustees must always be officers of the University, and that the President of the University shall be the President of the Press.

Trustees

THE PRESIDENT OF THE UNIVERSITY (*ex-officio*)

WILLIAM H. CARPENTER, *Secretary*

JOHN B. PINE, *Treasurer*

BRANDER MATTHEWS

GEORGE R. CARPENTER

FRANKLIN H. GIDDINGS

T. MITCHELL PRUDDEN

FRANCIS B. CROCKER

HENRY FAIRFIELD OSBORN

HARRY THURSTON PECK

During the year ending July 1, 1904, the Press, through The Macmillan Co., of New York and London, its publishing agents, issued numbers of the following¹:

Studies in Comparative Literature; Studies in History, Economics, and Public Law; Studies in English; *Columbia University Quarterly* and *Teachers College Record*.

III. Publications, Contributions, and Serial Studies from the University²

Biological Series.—Founded in 1892; devoted to the general problems of biology; managing editors, H. F. Osborn and E. B. Wilson; published for the Columbia University Press by The Macmillan Co., New York; issued irregularly, about one volume a year; price per volume (from 300 to 400 pages), \$2.00 to \$3.50.

¹ For previous issues from the Press see the *University Catalogue* for 1899-1900, pages 398-399; 1900-1901, pages 455-456; 1901-1902, pages 439-441; 1902-1903, pages 445-449; 1903-04, pages 439-443; and the full catalogue issued by The Macmillan Co.

² For purposes of record and information, it is the aim to publish each year a complete list of the numbers issued in each of these series during the preceding academic year. If no list appears under a given heading, it may be assumed that no numbers were issued.

Botanical Club, Memoirs of the Torrey.—Founded in 1889; published by the Club from Columbia University; issued irregularly, about one volume a year; \$3.00 per volume; prices of parts on application.

Vol. XI, No. 1. The North American *Sordariaceæ*. By DAVID GRIFFITHS.—No. 2. The *Ulothricaceæ* and *Chaetophoraceæ* of the United States. By TRACY E. HAZEN.—Vol. XII, No. 1. Flora of New Providence and Andros (Bahama Islands). By ALICE R. NORTHROP.

Botany, Contributions from the Department of.—Founded in 1886; devoted to short papers, in part reprints from other periodicals; editor, L. M. Underwood; published by the editor from Columbia University; issued irregularly, but usually one volume a year; price per volume (about 330 pages, 30 plates), \$5.00.

No. 203. Botanical explorations in Georgia during the summer of 1901. By ROLAND M. HARPER (1903).—No. 204. The Department of Botany and its relation to the New York Botanical Garden. By LUCIEN M. UNDERWOOD (1903).—No. 205. A new and cheap form of auxanometer. By F. E. LLOYD (1903).—No. 206. A summary of our present knowledge of the ferns of the Philippines. By LUCIEN M. UNDERWOOD (1903).—No. 207. Exploration of the coastal plain of Georgia during the season of 1902. By ROLAND M. HARPER (1904).—No. 208. The effects of chemical irritation on the respiration of Fungi. By ADA WATTERSON (1904).—No. 209. Studies in *Sisyrinchium*, X. By EUGENE P. BICKNELL (1904).—No. 210. The pollen tube in the *Cucurbitaceæ* and *Rubiaceæ*. By F. E. LLOYD (1904).—No. 211. The daily periodicity of cell division and of elongation in the root of *Allium*. By WILLIAM E. KELLICOTT (1904).—No. 212. The comparative embryology of the *Cucurbitaceæ*. By JOSEPH EDWARD KIRKWOOD (1904).

Botany, Memoirs of the Department of.—Founded in 1895; devoted to more extended monographs; editor, L. M. Underwood; published by the editor, from Columbia University; issued irregularly; \$6.00 per volume; list on application.

Chemistry, Contributions from the Havemeyer Laboratories.—Founded in 1898; reprints of papers recording research by officers and students in the School of Chemistry; managing editor, C. F. Chandler; published by the editor from Columbia University; issued annually; each volume contains the publications of one year beginning July 1; price on application.

Vol. VI, No. 82. The reduction of lead from litharge in preliminary assays and the advantages of an oxide slag. By E. H. MILLER, E. J. HALL, and M. J. FALK.—No. 83. The influence of atmospheric oxidation upon the composition and analytical constants of fatty oils. By H. C. SHERMAN and M. J. FALK.—No. 84. A process for making available phosphates. By C. H. DEMPWOLF, Jr.—No. 85. On the reduction of molybdenum by zinc and the ratio of bismuth to molybdenum in bismuth ammonium molybdate. By E. H. MILLER and HENRY FRANK.—No. 86. 3, 5-bibrom-2-aminobenzoic acid; its nitrile and the synthesis of quinazolines from the latter. By M. T. BOGERT and W. F. HAND.—No. 87. A modification of the Babcock-Blasdale viscosity test for olive oil. By HERBERT ABRAHAM.—No. 88. The viscosity of the soap solution as a factor in oil analysis. By H. C. SHERMAN and HERBERT ABRAHAM.—No. 89. The production of anisic acid by the oxidation of aniseed oil. By M. T. BOGERT and CARL H. ZIEME.—No. 90. The influence of diet, muscular exertion and loss of sleep upon the formation of uric acid in man. By H. C. SHERMAN.—No. 91. The determination of nitrogen in food materials and physiological pro-

ducts. By H. C. SHERMAN, C. B. McLAUGHLIN, and EMIL OSTERBERG.—No. 92. Metaminobenzonitrile and some of its derivatives. By M. T. BOGERT and H. T. BEANS.—No. 93. Thermo-chemistry of electrolytic dissociation. By H. A. JACKSON.—No. 94. A new separation of thorium from cerium, lanthanum and didymium by metanitrobenzoic acid and its application to the determination of thorium in monazite. By A. C. NEISH.—No. 95. The combination of a solvent with the ions. (Preliminary paper.) By J. L. R. MORGAN and C. W. KANOLT.—No. 96. The determination of molybdenum in steel and in steel-making alloys. By F. V. D. CRUSER and E. H. MILLER.—No. 97. The nitrogen content of distilled water. By W. C. UHLIG.—No. 98. The dissociation of lead nitrate. By J. L. R. MORGAN.

Comparative Literature, Studies in.—Founded in 1899; contain results of literary research or criticism by officers or students of the Department of Comparative Literature, or those connected with them in study; editors, J. B. Fletcher and J. E. Spingarn; published for the Columbia University Press by The Macmillan Co., New York; issued irregularly at varying prices. Eight volumes have already been published, and others are in preparation.

Classical Philology, Studies in.—Founded in 1902; contain results of original research in the classical languages and literatures; edited by H. T. Peck and E. D. Perry; published for the Columbia University Press by The Macmillan Co., New York; issued irregularly; prices variable.

The satire of Seneca on the Apotheosis of Claudius. By ALLAN PERLEY BALL.

Electrical Engineering, Contributions from the Department of.—Founded in 1889; devoted to papers (chiefly reprints) by officers and students; managing editor, F. B. Crocker; published by the editor, from Columbia University; issued irregularly; prices on application.

English, Studies in.—Founded in 1900; issued by authority of the Department of English; published for the Columbia University Press by The Macmillan Co., New York; issued irregularly at varying prices.

Geological Department, Contributions from the.—Founded in 1892; include short contributions and longer monographs; managing editor, J. F. Kemp; published (partly original, partly reprints) by the editor, from Columbia University; issued irregularly; prices on application.

Volume XI complete. No. 91. The ore-deposits of Sudbury, Ontario. By CHARLES W. DICKSON.—No. 92. Preliminary report of field-work in the town of Minerva, Essex Co., N. Y. By GEORGE I. FINLAY.—No. 93. (a) Platinum in the Rambler Mine, Wyoming. By JAMES F. KEMP. (b) A new spheroidal granite. By JAMES F. KEMP. (c) Block Mountains in New Mexico. By DOUGLAS WILSON JOHNSON.—No. 94. Leucite Hills of Wyoming. By JAMES F. KEMP and WILBUR C. KNIGHT.—No. 95. Studies of *Gastropoda*. II. Fulgur and Sycotypus. By AMADEUS W. GRABAU.—No. 96. Paleozoic coral reefs. By AMADEUS W. GRABAU.—No. 97. Notes on the development of the biserial arm in certain crinoids. By AMADEUS W. GRABAU.—No. 98. Stratigraphy of Becraft Mountain, Columbia Co., N. Y. By AMADEUS W. GRABAU.—No. 99. Genesis of the amphibolite schist and serpentine of Manhattan Island, New York. By ALEXIS A. JULIEN.—No. 100. The geology of the San José district, Tamaulipas, Mexico. By GEORGE I. FINLAY.

Germanic Studies.—Founded in 1899; contain results of original research in Germanic languages and literatures; editors, W. H. Carpenter and Calvin Thomas; published for the Columbia University Press by The Macmillan Co., New York; issued irregularly; prices variable.

History, Economics, and Public Law, Studies in.—Founded in 1891; contain results of original research by students in the School of Political Science; managing editor, E. R. A. Seligman; published by The Macmillan Co., New York; one volume or more issued yearly; price per volume, \$3.00 to \$4.50.

Vol. XVIII, No. 3. Hanover and Prussia. By GUY STANTON FORD.—Vol. XIX, No. 1. Josiah Tucker. Economist. By WALTER ERNEST CLARK.—No. 2. History and criticism of the labor theory of value in English political economy. By ALBERT C. WHITAKER.—No. 3. The hemp industry in the United States. By THOMAS B. MOORE. Vol. XX, No. 1. The office of Justice of the Peace in England. By CHARLES AUSTIN BEARD.—No. 2. A history of military government in newly acquired territory of the United States. By DAVID Y. THOMAS.—Vol. XXI, No. 1. Treaties, their making and enforcement. By SAMUEL B. CRANDALL.—No. 2. The sociology of a New York City block. By THOMAS JESSE JONES.—No. 3. Pre-Malthusian theories of population. By CHARLES E. STANGELAND.—Vol. XXII, No. 1. The historical development of the Poor Law of Connecticut. By EDWARD W. CAPEN.

Indo-Iranian Series.—Founded in 1900; contain works published by officers and students in the Department of Indo-Iranian Languages, or by others associated with them in study; editor, A. V. Williams Jackson; published for the Columbia University Press by The Macmillan Co., New York; issued irregularly at varying prices.

Library Bulletins.—Founded in 1897 as *Publications*; show the resources of the Library on various subjects; editor, C. Alex. Nelson; published by the Library, from Columbia University; issued irregularly.

No. 1. List of books chiefly on the drama and literary criticism. 1897. (Pp. 64.) Covers only the purchases made from a single donation, and but partially represents the resources of the Library.

No. 2. Books on education in the Libraries of Columbia University. (Pp. vi. and 435, \$1.00 net.)

EXTRA PUBLICATIONS:

Catalogue raisonnée. Works on book-binding practical and historical. Examples of book-bindings of the XVIth to XIXth centuries. From the collection of Samuel Putnam Avery, A.M.; exhibited at Columbia University Library, 1903. Privately printed, New York. (Pp. xii and 136.) *Out of print.*

Columbiana: A bibliography of manuscripts, pamphlets, and books relating to the history of King's College, Columbia College, Columbia University. Prepared by C. A. Nelson. 1904. (Pp. 48, front.) *For exchange only.*

Mineralogy, Contributions from the Department of.—Founded in 1892; contain articles and text-books by officers and students; managing editor, A. J. Moses; published by the editor, from Columbia University; issued irregularly (often in reprint); prices on application.

Vol. X, No. 4. Eglestonite, terlinguaite and montroydite, new mercury minerals from Terlingua, Texas. By A. J. MOSES.—No. 5. Ein neuer Transporteur zur Bestim-

mung der Indices der Krystallflächen. By A. F. ROGERS.—No. 6. Ramosite not a mineral.—Bedford cyrtolite. By L. McI. LUQUER.—No. 7. A method for the exact expression of crystal habit. By A. F. ROGERS.—No. 8. The crystallization of molybdenite. By A. J. MOSES.—No. 9. Notes on recent mineralogical literature. By A. J. MOSES and L. McI. LUQUER.—Vol. XI. Mineralogy, crystallography, and blowpipe analysis. Third revised edition. By A. J. MOSES and C. L. PARSONS.

Observatory, Contributions from the.—Founded in 1892; contains astronomical researches; managing editor, Harold Jacoby; published by the Department of Astronomy, Columbia University; issued irregularly; prices on application.

No. 20. The Sumatra eclipse. By S. A. MITCHELL. (Pp. 42).

No. 21. Photographic catalogue of 829 stars near the South Pole of the Heavens. By HAROLD JACOBY. (Pp. 153).

Oriental Studies.—Founded in 1902; record results of original research in the Oriental languages and literatures; edited by Richard J. H. Gottheil; published for the Columbia University Press by The Macmillan Co., New York; issued irregularly at varying prices.

Pathology, Studies from the Department of.—Founded in 1890; record results of research in the department; managing editor, T. M. Prudden; on sale by J. T. Dougherty, New York; issued irregularly; price per volume (about 175 pp.), \$1.00.

Vol. IX. Fourteen reprints of studies published by workers in the Department of Pathology. 1904.

Philosophy, Psychology, and Education, Contributions to.—Founded in 1894; original studies by officers and students of this division; edited by a committee representing the departments interested; published by The Macmillan Co., New York; issued irregularly; per number, average, 75c.; per volume (about 450 pages), average, \$3.00.

Vol. IX, No. 3. The practice-curve: A study in the formation of habits. By JOSEPH HERSHEY BAIR.—No. 4. Rhythms: motor, visual, and applied. By JAMES BURT MINER.—Vol. X, No. 2. The free-will problem in modern thought. By WILLIAM HALLOCK JOHNSON.—Vol. XI, No. 1. School administration in municipal government. By FRANK ROLLINS.—No. 2. Heredity, correlation, and sex differences in school abilities. By EDWARD L. THORNDIKE.—Nos. 3-4. College admission requirements during the nineteenth century. By EDWIN C. BROOME.—Vol. XII, Nos. 1-4. The training of secondary teachers in the United States. By G. W. A. LUCKEY.—Vol. XIII, No. 1. The perception of number. By JAMES FRANKLIN MESSENGER.—No. 2. A study of memory for connected trains of thought. By ERNEST NORTON HENDERSON.

Physiological Chemistry—"Biochemical Researches": Collected reprints of publications from the Laboratory of.—Founded in 1899; record results of research in the department; managing editor and publisher, William J. Gies; issued irregularly in bound volumes of 700-800 pages; price, per volume, \$5.00.

Vol. 1. (1899-1903). Pp. 746. Contains reprints of thirty-one preliminary research reports made before various Societies (pp. 31-63), and forty reprints of papers on investigations (pp. 67-731), with a complete index of the research data (pp. 733-746). The reprints are grouped in the following divisions: I. Chemical investigations of animal tissues and tissue constituents; II. Pathological and toxicological; III. Botanical studies; IV. Miscellaneous researches.

Romance Philology and Literature, Studies in.—Founded in 1900; edited by Adolphe Cohn and H. A. Todd; published for the Columbia University Press by The Macmillan Co., New York; issued irregularly at varying prices.

No. 4. The indebtedness of Chaucer's *Troilus and Criseyde* to Guido delle Colonne's *Historia Trojana*. By GEORGE L. HAMILTON.—No. 5. Corneille and Racine in England. By DOROTHEA FRANCES CANFIELD.

Series Announced

Physiology, Studies from the Department of.—Founded in 1900; contain reprints of articles published by officers and students of the department; edited by J. G. Curtis and F. S. Lee. (Three volumes in preparation.)

IV. Journals

Issued under the Editorial Direction of Officers of Columbia University

Bookman.—Founded in 1895; devoted to the criticism of American and foreign literature in all its forms; containing articles, book reviews, correspondence, and editorial comment upon current events; edited by Harry Thurston Peck; New York: Dodd, Mead & Co.; monthly (136 pp.), 20c.; per year, \$2.00.

Bulletin of the Torrey Botanical Club.—Founded in 1870; devoted to scientific botany in its widest sense; editor, J. H. Barnhart; published by the editor from the New York Botanical Garden; monthly, 30c.; per year (about 650 pp., with 40 plates), \$3.00.

Columbia University Quarterly.—Continuing, since 1898, the *Bulletin*, founded in 1890; publishes articles on the history, the current activities, and the policy of Columbia, for the information of officers, alumni, and friends of the University; edited by a committee (managing editor, for 1904, Brander Matthews; for 1905, J. H. Robinson); publisher for the Columbia University Press by the New Era Printing Co., Lancaster, Pa.; quarterly (125 pages), with occasional supplements, 30c.; per year, \$1.00.

Educational Review.—Founded in 1891; devoted to the study of education in all its forms; containing articles, discussions, book reviews, foreign correspondence, and editorial review of current events; edited by Nicholas Murray Butler; New York: Educational Review Publishing Co.; monthly, except July and August (108 pp.); per year, \$3.00; foreign, \$3.50.

Journal of Comparative Literature.—Founded in 1903; devoted to the interests of the study of comparative literature in this country and in Europe; its contributors are scholars of all lands, and contributions are printed in the tongues in which they are written; edited by J. E. Spingarn, and J. B. Fletcher; New York: McClure, Phillips & Co.; quarterly; per year, \$3.00.

- Journal of Geography.**—Devoted to the interests of teachers of geography in elementary, secondary, and normal schools; edited by Richard E. Dodge; published by the *Journal of Geography*, Teachers College, New York; monthly, except July and August (48 pp.), 20c.; per year, \$1.50.
- Journal of Nervous and Mental Disease.**—Founded in 1872; devoted to the study of diseases of the nervous system; managing editor, S. E. Jelliffe; advisory board of editors includes M. A. Starr and F. Peterson; New York: Alliance Press Co.; monthly (80 pp.), 50c.; per year, \$5.00.
- Journal of Philosophy, Psychology, and Scientific Methods.**—Founded in 1904; devoted to short articles, preliminary reports, discussions, abstracts and reviews in the field of scientific philosophy and psychology; edited by Frederick J. E. Woodbridge; New York: The Science Press; bi-weekly (28 pp.), 15c.; per year, \$3.00.
- Medical News.**—Founded in 1843; a weekly journal devoted to advances in medicine and surgery; editor, S. E. Jelliffe; New York: Lea Brothers & Co.; weekly (48 pp.), 10c.; per year \$4.00.
- Nature Study Review.**—Founded in 1904; devoted to the study of elementary nature study in all its forms; editor, Maurice A. Bigelow; published for the editor by the New Era Printing Co., Lancaster, Pa.; bi-monthly, 20c.; per year, \$1.00.
- Political Science Quarterly.**—Founded in 1886; devoted to the study of politics, economics, and public law; publishes annually about 25 leading articles, especially on questions of current interest, and about 130 reviews, and gives a condensed general record of political events; edited by the Faculty of Political Science (managing editor, Munroe Smith); Boston and New York: Ginn & Co.; quarterly (about 190 pp.), 75c.; per year, \$3.00.
- Popular Science Monthly.**—Founded in 1872; devoted to the diffusion of science; edited by J. McK. Cattell; New York: The Science Press; monthly (96 pp.), 30c.; per year, \$3.00.
- School of Mines Quarterly.**—Founded in 1879; official organ of the Alumni Association of the Schools of Science of Columbia University; devoted to the publication of original papers on engineering, metallurgy, chemistry, architecture, mineralogy, and geology; managing editor, R. E. Mayer; published by the editors; per year, \$2.00.
- Teachers College Record.**—Founded in 1899; devoted to the practical problems of elementary and secondary education, and the professional training of teachers; edited by J. E. Russell; published for the Columbia University Press by The Macmillan Co., New York; bi-monthly, except July (about 80 pp.), 30c.; per year, \$1.00.

Torrey.—Founded in 1901; a monthly journal of botanical notes and news; devoted to shorter articles than appear in the *Bulletin*, together with book reviews; editor, Marshall A. Howe; published by the Torrey Botanical Club; monthly, 15c.; per year, \$1.00.

Issued with the Editorial Coöperation of Officers of Columbia University

American Anthropologist.—Founded in 1888; contains original contributions and reviews on anthropology; edited by a board, including Franz Boas; New York: The Science Press; quarterly, \$1.25; per year (about 800 pp.), \$4.00.

American Historical Review.—Founded in 1896; devoted to the interests of historical study in the United States, it publishes reviews of important works, results of original research, documents for the use of investigators, and news of the work of European scholars; six editors, including W. M. Sloane; New York: The Macmillan Co.; quarterly; per copy, \$1.00; per year, \$4.00.

American Journal of Anatomy.—Founded in 1901; edited by a board including G. S. Huntington; published in Baltimore; quarterly; per year, \$5.00.

American Journal of Archæology.—Founded in 1885; official journal of the Archæological Institute of America, publishing papers of the Institute and of the Schools at Athens, in Rome, and in Palestine, and annual reports of these bodies, and issuing special bulletins; honorary editors include J. R. Wheeler; business manager is C. H. Young; New York: The Macmillan Co.; quarterly, \$1.50; per year, \$5.00.

American Journal of Physiology.—Founded in 1898; edited for the American Physiological Society; contains original contributions on purely physiological subjects; seven editors, including F. S. Lee; Boston: Ginn & Co.; monthly; per volume (about 500 pp.), \$5.00.

Biochemisches Centralblatt.—Founded in 1902; devoted to the combined interests of Chemistry and Medicine; sub-editors include R. Burton-Opitz; New York, G. E. Stechert; bi-monthly; per year, \$7.00.

Biological Bulletin.—Founded in 1899; contains short original contributions; seven editors, including E. B. Wilson.

Bulletin of the American Mathematical Society.—Founded in 1891; a historical and critical review of mathematical science, containing also lists of new publications, notes on current events in the mathematical world, and many short original articles; editors, F. N. Cole, D. E. Smith, and others; New York: The Macmillan Co.; monthly, except July and August; per year (about 500 pp.), \$5.00.

German-American Annals.—Founded in 1897 as *Americana Germanica*; devoted to the comparative study of the historical, literary, linguistic, educational, and commercial relations of Germany and America; contains original researches, critical articles and reviews; contributing editors include W. H. Carpenter and Calvin Thomas. Philadelphia: German American Historical Society; monthly (about 64 pp.), 25c.; per year, \$3.00.

Journal of the American Chemical Society.—Founded in 1878; official journal of the American Chemical Society; devoted to the publication of articles upon recent chemical investigations and similar topics. The board of reviewers of American chemical research includes M. T. Bogert; Easton, Pa.: The Chemical Publishing Co.; monthly, 50c.; per year (about 2000 pp.), \$6.00.

Journal of Comparative Neurology and Psychology.—Founded in 1891; devoted to the comparative study of the nervous system; includes original compositions, reviews, and notices; associate editors include O. S. Strong, with collaboration of H. E. Crampton, F. S. Lee, T. H. Morgan, E. L. Thorndike, and others; published at Granville, Ohio; bi-monthly; per year, \$4.00.

The Journal of Experimental Zoölogy.—Founded in 1904; contains original contributions on experimental zoölogy, morphology, and physiology; eleven editors, including E. B. Wilson and T. H. Morgan; Baltimore: The Journal of Experimental Zoölogy; quarterly; per year, \$5.00.

Journal of Morphology.—Founded in 1887; contains original contributions on purely morphological subjects; seven editors, including E. B. Wilson; Boston: Ginn & Co.; quarterly; per year, \$9.00.

Modern Philology.—Founded in 1903; a journal devoted to research in modern languages and literatures; advisory board includes Calvin Thomas; published by the University of Chicago Press; quarterly; per year, \$3.00.

Science.—Founded in 1883; devoted to the advancement of science; edited by J. McK. Cattell, with an editorial committee, including N. L. Britton, H. F. Osborn, R. S. Woodward, and others; New York: The Macmillan Co.; weekly, 15c.; per year (about 2000 pp.), \$5.00.

Transactions of the American Mathematical Society.—Founded in 1900; a journal devoted primarily to research in pure and applied mathematics; the official organ of the Society for the publication of important papers read before it; three editors, including T. S. Fiske; New York: The Macmillan Co.; quarterly; per year (about 500 pp.), \$5.00.

V. Student Publications at Columbia

The Barnard Bulletin.—Founded in 1901; a four-page sheet, issued weekly, containing Barnard College news; per copy, 5c.; per year, \$1.50.

- The Columbia Jester.**—Founded in 1901; an illustrated comic paper, edited by a board of students; published twice a month during the college year; averages ten pages of reading matter and illustrations and a cartoon cover; per copy, 15c.; per year, \$1.50; (by mail, \$2.00).
- The Columbia Law Review.**—Founded in 1901; devoted to the publication of legal articles and book reviews by writers of recognized authority, and comment upon recent cases by the editors; conducted by a board of editors, averaging sixteen in number; monthly, November to June; (70 pp.); per copy, 30c.; per year, \$2.00.
- The Columbia Monthly.**—Founded in 1903, by the combination of the Columbia Literary Monthly, founded in 1893, and Morningside, founded in 1896; an illustrated magazine, devoted both to articles on Columbia University, of historical and of immediate interest and to stories, verse, essays, editorials, and book reviews; edited by a board, consisting of college undergraduates and a Barnard representative; monthly, November to June, per year, \$1.00.
- The Columbian.**—The annual; a bound illustrated volume, containing statistics of athletics, fraternity membership, class achievements, and other valuable information concerning student life in the University for the year just past; published the week before Christmas by a board of twelve editors from the junior class, six elected from Columbia College and six from the Schools of Applied Science. The fifteenth volume was published by the class of 1905, at \$1.50.
- The Columbia Spectator.**—Founded in 1877; published daily, except Sunday, during the college year; edited by a managing board of five, assisted by a board of six editors and from twelve to twenty-five associate editors; per copy, 3c.; per year, \$4.00.
- The Mortarboard.**—Founded in 1897; an annual corresponding to the *Columbian*, but more literary in character, including, besides the history of the junior class, poems, stories, and sketches, and other reading matter; published early in the second term by a board of about eight, elected from the junior class of Barnard College; price, \$1.00.
- The Senior Class-Book.**—A book privately printed by the senior class of Columbia College, through an editorial board, and distributed on class-day. Revived by the class of 1899 and continued by the succeeding classes, including pictures and autobiographies of the members, letters from the faculty, and the class-day speeches.
- The Teachers College Bulletin.**—Founded in 1901; a four-page sheet, issued weekly, containing Teachers College news; per copy 5c.; per year, \$1.00 (by mail, \$1.50).

Teachers College Diplomas

Doctor's Diploma in Education

FREDERIC ERNEST FARRINGTON
 A.B., Harvard University, 1894;
 A.M., Columbia University, 1902.

[1]

Master's Diploma in Education

FREDERICK BANCROFT ABBOTT
 B.S., College of Emporia, 1900; M.S.,
 1902.
 JAMES EDWIN ADDICOTT
 B.S., Columbia University, 1903.
 WILLIAM WALTER ANDREW
 Ph.B., Brown University, 1903.
 ALFRED HAVELOCK ARMSTRONG
 A.B., Acadia College, 1896.
 JOSEPH STITT BIKLÉ
 A.B., Columbia University, 1903.
 AMY MAUD BURT
 Ph.B., University of Vermont, 1900.
 BERTHA CANN
 A.B., Oberlin College, 1896.
 MABEL ADELINE CARPENTER
 A.B., Radcliffe College, 1902.
 ANNA MAY CLARK
 Ph.B., University of Vermont, 1898.
 ALEXANDER BRAINARD COFFEY
 A.B., Leland Stanford, Jr., Univer-
 sity, 1903.
 JESSE H. COURSAULT
 A.B., Ohio University, 1893; A.M.,
 1898; A.M., Harvard University,
 1900.
 WILLIAM ALBERT CRANE
 A.B., Adelphi College, 1903.

PHILIP REDFIELD DEAN
 A.B., Harvard University, 1896.
 SOPHIA LYON FAHS (MRS. CHARLES
 HARVEY FAHS)
 A.B., Wooster University, 1897.
 GERALD GORDON
 A.B., Lafayette College, 1895; A.M.,
 1898.
 CHARLES THEODORE GRAWN
 Pd.M., Michigan State Normal Col-
 lege, 1897.
 GEORGE EDWARD MARKER
 A.B., University of Illinois, 1903.
 ANGELO PATRI
 A.B., College of the City of New
 York, 1897.
 ROGER CROSSMAN PECK
 A.B., Yale University, 1900.
 JULIA ELNORA RICHARDSON
 B.S., Northwestern University, 1899.
 LUCIUS KIMBALL RUSSELL
 B.S., Massachusetts Institute of
 Technology, 1886.
 FEIST M. STRAUSS
 A.B., Western Reserve University,
 1903.
 OSCIEOLA ALVIN THAXTON
 A.B., Mercer University, 1901.

Professor of the Law of Real Property in the University of Kansas.

Doctor of Science

- WILLIAM BLEECKER POTTER, A.B., 1866; E.M., 1869
Mining and Metallurgical Engineer.
- HENRY SMITH MUNROE, E.M., 1869; Ph.D., 1877
Professor of Mining in Columbia University.
- FREDERICK REMSEN HUTTON, A.B., 1873; E.M., C.E., 1876; Ph.D., 1881
Professor of Mechanical Engineering in Columbia University, and Dean of the Faculty of Applied Science.
- WILLIAM STEWART HALSTED, M.D., 1877
Professor of Surgery in Johns Hopkins University, and Surgeon-in-Chief at the Johns Hopkins Hospital.
- NATHANIEL LORD BRITTON, E.M., Ph.D., 1879
Emeritus Professor of Botany in Columbia University, and Director of the New York Botanical Garden.
- MOSES ALLEN STARR, M.D., 1880
Professor of Neurology in Columbia University, Consulting Physician at the Presbyterian Hospital.

LUTHER EMMETT HOLT, M.D., 1880

Carpentier Professor of Pediatrics in Columbia University and Attending Physician at Babies' and New York Foundling Hospitals.

MICHAEL IDVORSKY PUPIN, A.B., 1883

Professor of Electro-Mechanics in Columbia University.

GEORGE SUMNER HUNTINGTON, M.D., 1884

Professor of Anatomy in Columbia University.

ERNST JOSEPH LEDERLE, Ph.B., 1886; Ph.D., 1895

Former Commissioner of Health of the City of New York.

Fellows and Scholars, 1904-05

University Fellows

- LE ROY ABRAMS, Stanford University, Calif. *Botany*
A.B., Leland Stanford University, 1899; A.M., 1902.
- ENOCH MARVIN BANKS, Grantville, Ga. *Finance*
A.B., Emory College, Ga., 1897; A.M., 1900; Columbia University, graduate student, 1900-02; 1903-04.
- ALEXANDER OTTO BECHERT, Brooklyn, N. Y. *Germanic Languages*
A.B., Columbia University, 1903; Columbia University, Scholar in Germanic Languages, 1903-04.
- CHARLES COLLINS, Kirkwood, Mo. *Romance Languages*
A.B., University of Missouri, 1903; Columbia University, Scholar in Romance Languages, 1903-04.
- CHRIS ANDREW HARTNAGEL, Niagara Falls, N. Y. *Geology*
B.S., Union College, 1898; Pd.B., State Normal College, 1900.
- VIVIAN ALLEN CHARLES HENMON, Lindsborg, Kan. *Psychology*
A.B., Bethany College, Kan., 1895; A.M., 1899; Columbia University, Scholar in Psychology, 1903-04.
- LOUIS JOSEPH MERCIER, Chicago, Ill. *Romance Languages*
A.B., St. Ignatius College, Chicago, 1900; A.M., 1902; University of Chicago, Fellow in Romance Languages, 1903-04.
- CHARLES EDWARD MORRISON, New York City. *Civil Engineering*
B.S., College of the City of New York, 1897; A.M. and C.E., Columbia University, 1901.
- MAX MORSE, Columbus, Ohio. *Zoölogy*
B.S., Ohio State University, 1903.
- ARTHUR HUNTINGTON NASON, Augusta, Me. *English*
A.B., Bowdoin College, 1899; A.M., 1903; Columbia University, President's University Scholar in English, 1903-04.
- CHARLES WILLIAM RAMSDELL, Austin, Texas. *American History*
A.B., University of Texas, 1903.
- THOMAS THORNTON READ, Laramie, Wyo. *Mining*
E.M., Columbia University, 1902.
- ROEMER REX RENSHAW, Eugene, Ore. *Chemistry*
B.S., University of Oregon, 1902; M.S., 1903.
- WALLACE BATES SHIELD, Kansas City, Mo. *International Law*
A.B., Ohio State University, 1898; LL.B., Kansas City School of Law, 1902.
- PHILIP HYATT TARR, Mt. Vernon, Ohio. *Philosophy*
Ph.B., Western Reserve University, 1902.
- EVERETT LYNN THORNDIKE, New York City. *European History*
A.B., Wesleyan University, 1902; A.M., Columbia University, 1903.
- JOSEPH HARDING UNDERWOOD, Iowa City, Iowa. *Sociology*
A.B., Western College, Iowa, 1902; State University of Iowa, Scholar in Economics, 1902-03; Fellow, 1903-04.
- CHIN YUNG YEN, Tientsin, China. *Constitutional Law*
Student at Imperial Tientsin University, 1893-1901; A.B., from Government, 1901; Columbia University, graduate student, 1902-04.

Honorary Fellows

ALLEN BARBER EATON, Beloit, Wis. *Sociology*
Ph.B., Beloit College, 1899; A.M., Yale University, 1902; Columbia University,
graduate student, 1902-03; Fellow in Sociology, 1903-04.

ALAIN CAMPBELL WHITE, Litchfield, Conn. *Comparative Literature*
A.B., Harvard University, 1902; Columbia University, graduate student,
1903-04.

International Fellow for Study in France

STEPHEN HERBERT LANGDON, New York City. *Semitics*
A.B., University of Michigan, 1898; A.M., 1899; B.D., Union Theological Semin-
ary, 1903; Columbia University, Fellow in Semitics, 1903-04.

Barnard Fellow

WILLIAM CAMPBELL, New York City
B.S., Durham University, England, 1898; M.S., 1903; Ph.D., Columbia Univer-
sity, 1903; Barnard Fellow, 1903-04.

George William Curtis Fellow

CHARLES GROVE HAINES, Collegeville, Pa.
A.B., Ursinus College, 1903; Columbia University, Scholar in Constitutional
Law, 1903-04.

Mosenthal Fellow

BENJAMIN LAMBORD, New York City
Columbia University, student in music, 1900-02.

John Tyndall Fellow

FREDERIC COLUMBUS BLAKE, Leadville, Colo.
Ph.B., University of Colorado, 1901; Columbia University, Fellow in Physics,
1903-04.

Proudfit Fellow in Letters

STANLEY KIDDER WILSON, New York City
A.B., Columbia University, 1902; A.M., Harvard University, 1903; Columbia
University, Proudfit Fellow in Letters, 1903-04.

Proudfit Fellow in Medicine

LINSLEY RUDD WILLIAMS, New York City
A.B., Princeton University, 1895; M.D., and A.M. Columbia University, 1899.

Schiff Fellow

NORRIS ARTHUR BRISCO, Spokane, Wash.
A.B., Queen's University, Canada, 1898; A.M., 1900; Columbia University,
Scholar in Political Economy and Finance, 1903-04.

Columbia Fellow in Architecture

HUBERT VAN WAGENEN, Jr., B.S.

Class of 1870 Fellow

LEWIS BUFFET CARLL, A.M.

Research Fellow in Pharmacology

DOUGLAS SYMMERS, M.D.

Alumni Association Fellows

(College of Physicians and Surgeons)

EDWARD ANTHONY SPITZKA, M.D., *Anatomy*
AUGUSTUS B. WADSWORTH, M.D., *Pathology*

President's University Scholars

- NATHANIEL WARING BARNES, Newburgh, N. Y.....*English*
A.B., Columbia University, 1903.
- CLARENCE EVERETT GORDON, Clinton, Mass.....*Geology*
B.S., Massachusetts Agricultural College, 1901; B.S., Boston University, 1903.
- CARLTON HUNTLEY HAYES, Afton, N. Y.....*European History*
A.B., Columbia University, 1904.
- DUDLEY ODELL MCGOVNEY, Cambridge, Mass.....*International Law*
A.B., Indiana University, 1901; A.M., Harvard University, 1904.
- EDMUND HENRY OLIVER, Toronto, Ontario.....*Economics*
A.B., University College, Toronto, 1902; A.M., 1903.
- GEORGE BOOKER WATERHOUSE, New York City.....*Metallurgy*
B.Sc., London University, 1903; Columbia University, graduate student,
1903-04.
- FREDERIC LYMAN WELLS, New York City.....*Psychology*
A.B., Columbia University, 1903; A.M., 1904.
- SHIGEO YAMANOUCHI, Tokio, Japan.....*Botany*
Tokio Normal School, Equivalent to M.Sc.

University Scholars

- WILLIAM CALVIN ARNOLD, York, Pa.....*Sociology*
A.B., Lebanon Valley College, 1903; A.M., Columbia University, 1904.
- ABRAHAM BERGLUND, Chicago, Ill.....*Economics*
A.B., University of Chicago, 1904.
- JOHN GABBERT BOWMAN, Iowa City, Iowa.....*English*
A.B., University of Iowa, 1899.
- THOMAS CLACHAR BROWN, Fitchburg, Mass.....*Paleontology*
A.B., Amherst College, 1904.
- LOUIS COHEN, New York City.....*Electro-Mechanics*
B.Sc., Armour Institute of Technology, 1901.
- ARTHUR WAYLAND DOX, Philadelphia, Pa.....*Chemistry*
A.B., Central High School of Philadelphia, 1900; B.S., University of Pennsylvania, 1904.
- CARSON S. DUNCAN, Winona Lake, Ind.....*English*
A.B., Wabash College, 1901; M.A., 1902.
- GEORGE ADAMS ELLIS, Castleton, Vt.....*Physics*
A.B., Columbia University, 1904.
- FRED GATES FOX, Urbana, Ill.....*English*
A.B., University of Illinois, 1898; A.M., 1903.
- HARRY GEORGE FRIEDMAN, Cincinnati, Ohio.....*Economics*
A.B., University of Cincinnati, 1904.
- JAMES HENRY GILBERT, Eugene, Ore.....*Economics*
A.B., University of Oregon, 1903.
- HUBERT DANA GOODALE, Suffield, Conn.....*Zoölogy*
A.B., Trinity College, 1903; A.M., 1904.
- FRANK HAMILTON HANKINS, New York City.....*Sociology*
A.B., Baker University, 1901; Columbia University, graduate student, 1903-04.
- ARTHUR FRANK HEUSSLER, Geneva, N. Y.....*English*
Ph.B., Hobart College, 1904.
- CECIL SHEPARD HINES, Granville, Ohio.....*Zoölogy*
B.S., Denison University, 1902.
- MEYER JACOBSTEIN, Rochester, N. Y.....*Political Economy*
A.B., Columbia University, 1904.
- THOMAS CARLYLE JONES, Philadelphia, Pa.....*Mathematics*
B.S., University of Pennsylvania, 1903.
- SAMUEL LUCAS JOSHI, Bombay, India.....*Political Economy and Finance*
A.B., Nitzam College, Madras University, 1896.

LUCAS CARLISLE KELLS, Minneapolis, Minn.....	<i>Philosophy</i>
A.B., University of Minnesota, 1903; A.M., 1904.	
NICHOLAS AUGUST KOENING, New York City.....	<i>Oriental Languages</i>
A.B., Columbia University, 1903; A.M., 1904.	
HOWARD LEE MCBAIN, Richmond, Va.....	<i>Constitutional Law</i>
A.B., Richmond College, 1900; A.M., 1901.	
CHARLES SEARING MEAD, Columbus, Ohio.....	<i>Zoölogy</i>
B.S., Ohio State University, 1904.	
THURSTON MASON PHETTEPLACE, Providence, R. I.....	<i>Mechanical Engineering</i>
Ph.B., Brown University, 1899; M.E., 1901.	
ROBERT LIVINGSTON SCHUYLER, New York City.....	<i>American History</i>
A.B., Columbia University, 1903; A.M., 1904.	
FRANK GOULDSMITH SPECK, Hackensack, N. J.....	<i>Anthropology</i>
A.B., Columbia University, 1904.	
CHARLES RUPERT STOCKARD, Columbus, Miss.....	<i>Zoölogy</i>
B.S. Agricultural and Mechanical College of Mississippi, 1899; M.S., 1902.	
DONALD CLIVE STUART, Detroit, Mich.....	<i>Romance Languages</i>
A.B., University of Michigan, 1903; A.M., 1904.	
ALLAN F. WESTCOTT, Alexandria Bay, N. Y.....	<i>English</i>
Ph.B., Brown University, 1903; A.M., 1904.	

Curtis Scholars

GERTRUDE ELLEN BALLARD, Minneapolis, Minn.....	<i>English</i>
A.B., University of Minnesota, 1903.	
ETHEL MANTER POOL, New York City.....	<i>Greek</i>
A.B., Columbia University, 1903; graduate student, 1903-04.	
ETHEL DODGE WILCOX, Yonkers, N. Y.....	<i>Sociology</i>
A.B., Columbia University, 1903; graduate student, 1903-04.	

Richard Butler Scholar

OTHO LEE MONROE, Delaware, Ohio.....	<i>Medicine</i>
--------------------------------------	-----------------

John D. Jones Scholar

CHARLES RUPERT STOCKARD, M.S.

Alonzo Clark Scholar

J. HARVEY BORDEN, M.D.

The following holders of University Scholarships served as proctors at the September entrance examinations of 1904, and the University hereby acknowledges its indebtedness to them for their satisfactory performance of this duty;

WILLIAM C. ARNOLD	ARTHUR W. DOX
GERTRUDE E. BALLARD	ETHEL M. POOL
ARTHUR C. COLE	DONALD C. STUART

BARNARD COLLEGE

Trustees' Competitive Scholar

LILLIAN ROSANOFF

Brooklyn Scholars ¹

.....	SALLIE FAULKNER FLETCHER
.....	EMILIE JOSEPHINE HUTCHINSON
.....	ANNA JOSEPHINE KENNEDY
.....	MABEL EMMA BROWNE
.....	FAITH DELATOUR CHIPPERFIELD
.....	MARGARETTA WIGHTMAN

¹ Other Brooklyn Scholarships which were not won by competitive entrance examinations reverted to the Scholarship Committee and were awarded as non-competitive Scholarships.

TEACHERS COLLEGE

Honorary Fellow

ELLWOOD P. CUBBERLEY, Stanford University, Calif.

A.B., Indiana University, 1901; A.M., Columbia University, 1902; Associate Professor of Education, Leland Stanford University.

Teaching Fellows

BENJAMIN RICHARD ANDREWS, New York City

A.B., Cornell University, 1901; A.M., 1903; Teachers College, honor assistant, 1903-04; Educational Museum.

EDWARD CHARLES ELLIOTT, Falls Creek, Ida.

B.S., University of Nebraska, 1895; A.M., 1897; Teachers College, honor assistant, 1903-04; Educational Administration.

FLETCHER HARPER SWIFT, New York City

A.B., Dartmouth College, 1898; B.D., Union Theological Seminary, 1903; Teachers College, graduate scholar, 1903-04; History and Principles of Education.

Fellows in Education

JESSE HARLIAMAN COURSAULT, Columbus, Ohio

A.B., Ohio State University, 1893; A.M., 1898; A.M., Harvard University, 1900; Teachers College, graduate scholar, 1903-04.

WALTER FENNO DEARBORN, Middletown, Conn.

A.B., Wesleyan University 1896; A.M., 1903; Teachers College, graduate scholar, 1903-04.

GEORGE DRAYTON STRAYER, Baltimore, Md.

A.B., Johns Hopkins University, 1903; Teachers College, Earl's Scholar, 1903-04.

Special Graduate Scholars

WILLIAM THOMAS FLETCHER, Forest Grove, Ore.

B.S., Pacific University, 1900.

ALVA WALKER STAMPER, Chico, Calif.

B.S., University of California, 1895.

Regular Graduate Scholars

WILLIAM ANTHONY AERY, Elmhurst, N. Y.

A.B., Columbia University, 1904.

CHARLES JOSEPH C. BENNETT, San Jose, Calif.

A.B., University of Nashville, 1889; A.M., 1892; A.M., Leland Stanford University, 1896.

HELEN KATHARINE BRAINERD, St. Albans, Vt.

A.B., Wellesley College, 1900.

ARTHUR CARMAN COLE, North Croftsbury, Vt.

A.B., Olivet College, 1894; graduate student, Columbia University, 1903-04.

FRANKLIN SHERMAN HOYT, Indianapolis, Ind.

B.S., Boston University, 1893.

ARTHUR JULIUS JONES, Malden, Mass.

A.B., Iowa College, 1893.

MACON ANDERSON LEIPER, Little Rock, Ark.

A.B., University of Nashville, 1901.

GERHARD RICHARD LOMER, Montreal, Canada

B.A., McGill University, 1903.

NATALIE ROTH, Meriden, Conn.

A.B., Mt. Holyoke College, 1898.

SAMUEL SUNG YOUNG, San Francisco, Calif.

A.B., University of California, 1904.

Tileston Scholar

JANE MATHEWS, Oswego, N. Y.

Diploma, Oswego Normal and Training School, 1884; Teachers College, student, 1903-04.

Shackelford Scholar

CLARA MARIA GILBERT, Pittsford, Vt.

Teachers College, student, 1903-04.

Pierrepont Scholar

LILLIE MARIA LAWRENCE, Lebanon, N. H.

Diploma, State Normal School, Framingham, Mass., 1893; Teachers College, student, 1903-04.

Pond Scholar

MARY LOIS KISSELL, Davenport, Iowa

University of Chicago, 1900-03.

Charlotte Louisa Williams Scholar

WILLYSTINE GOODSSELL, Naugatuck, Conn.

Diploma, Welch Training School, New Haven, 1890; Teachers College, student, 1902-04.

Hoadley Scholars

ALMA LOUISE BINZEL, Beavers Dam, Wis.

Diploma, State Normal School, Milwaukee, 1894; Teachers College, student, 1903-04.

MARIA DANIEL GRAHAM, Warrenton, N. C.

L. I., Peabody Normal College, 1895; Teachers College, student, 1903-04.

Bryson Scholars

CLARA M. HETSCHER, New York City

Diploma, State Normal School, Chico, Calif., 1903; Teachers College, student, 1903-04.

ELIZABETH KIMBER SEWARD, New York City

Diploma, Teachers College, 1893.

Caroline Scholars in Domestic Science

BERTHA MELVILLE MILLER, Franklin, Ind.

Ph.B., Franklin College, 1900; Teachers College, student, 1903-04.

LUCILE HINKLE STIMSON, New York City

A.B., Vassar College, 1904.

Brown Scholar

SADELLA DONALDSON, Aberdeen, Miss.

Diploma, Tuskegee Normal School, 1902.

Macy Scholars

CARRIE VIVIAN BARNES, Denver, Colo.

Certificate, Tuskegee Normal School, 1903.

ELIZABETH VON SALTZA, New York City

Vassar College, 1902-04.

YETTA SILAS SHONINGER, Louisville, Ky.

Diploma, Louisville Normal School, 1897.

GRACE OWEN, London, England

Bronze medal, Royal Academy of Music, London, 1894; Diploma, Teachers College, 1899.

MARY ADALINE LAMB, Denver, Colo.

STELLA TERRY WEEKS, Brooklyn, N. Y.

Teachers College, student, 1903-04.

WINIFRED WILCOX, Yonkers, N. Y.

Teachers College, 1901-04.

Manual Training Scholars

LOUIS AGASSIZ DAMON, New York City

Teachers College, student, 1903-04.

CORDELIA VIRGINIA GLANTON, Newman, Ga.

Shorter College, 1883-1890.

ROBERT BARTHOLOW HARSHE, Columbus, Ga.

L.B., Missouri University, 1899.

CHARLES LOUIS JACOBS, Indianapolis, Ind.

Teachers College, diploma, 1902.

MARY WILSON MCGAHEY, Lincoln, Neb.

A.B., University of Nebraska, 1898.

ORLOW LEE WHITCOMB, Pueblo, Colo.

Diploma, Toledo Polytechnic School, 1896; diploma, Toledo Normal School, 1900.

DIRECTORY OF STUDENTS

The italic letter following the name indicates the school in which the student is primarily registered—as follows:

<i>c</i> College	<i>pl</i> School of Political Science
<i>l</i> School of Law	<i>s</i> Schools of Mines, Chemistry, and Engineering
<i>m</i> School of Medicine	<i>b</i> Barnard College
<i>p</i> School of Pure Science	<i>t</i> Teachers College
<i>ph</i> School of Philosophy	<i>f a</i> Fine Arts (Architecture and Music)

The numbers 1, 2, 3, and 4 preceding these letters indicate the class; sp, special student; gr, graduate student in the professional schools.

The names of women are printed in *italics*.
